iomega®
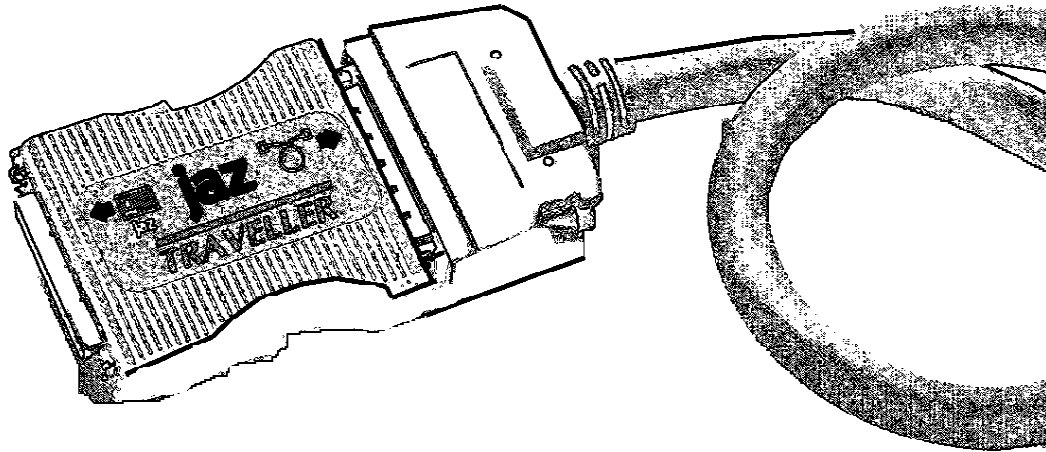

# The ultimate portability solution for your Jaz® drive

...extending the convenience and performance of your Jaz drive.

Jaz® Traveller

Portability Solution

Jaz traveller

Part# 10231

Jaz Traveller is a SCSI to parallel port converter for the Jaz drive. The Jaz Traveller allows you to connect an external Jaz drive to the standard printer (parallel) port on IBM-compatible computers, making it easy for you to use your Jaz drive on any PC without opening your computer. The Jaz Traveller also allows you to take your Jaz drive from a Mac to a PC. The Jaz Traveller is fully compatible with the Jaz tools software.

Advantages
- Connect your Jaz drive to the parallel port of any PC without opening your computer
- Move your stuff anywhere, at work, at home, or on the road
- Easily take your stuff from a Mac to a PC

## See your local dealer or call 1-800-my-stuff to order

Package contents
- Jaz Traveller adapter
- 50HD to 25D converter
- Instructions
- Software diskette

System requirements
- External Jaz drive
- Any PC with available parallel port
- Iomega software (included)

Installation Illustration:

Connect to bottom connector

Jaz Traveller

50HD-25D Converter

Easy to install.

1. Turn off power to your computer system.
2. Connect Jaz Traveller to the bottom connector on your Jaz drive.
3. Plug either end of the Jaz data cable into Jaz Traveller.
4. Plug the 50HD-25D cable converter into the other end of the cable and connect to the parallel port on your computer.
5. Connect power to your Jaz drive, but do not turn on the Jaz drive power switch.
6. Turn on the computer and your Jaz drive at the same time, then wait for Windows or DOS to load.
7. Run the guest program or install Jaz software. (See the Jaz Traveller installation guide for detailed instructions.)
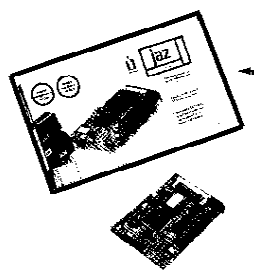

Note: You must run the Guest program or install Jaz software in order to use the Jaz Traveller.
