YOUR GLOBAL CONNECTION

## NETPACER™ PRO

**A Modem,  
Fax Machine  
Voice Mail System  
& Telephone - All In One**

**Built in Full Duplex Speaker Phone Function**  
Take the phone off your desk, because MaxTech XPVS modems feature full duplex speakerphone function giving you the freedom to hold a normal telephone conversation without the constraints of a telephone handset (speaker & microphone not included).

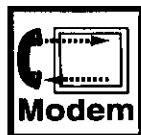

**Voice Mail w/ Automated Attendant:**  
MaxTech Voice Fax Modems greet the caller, reroutes the call to a multitude of fax/voice mail boxes and records/plays back their message. Remote Message Retrieval with password protection allows you or authorized users to easily access voice, fax and data messages and/or change greetings from remote locations.

**Fax Machine**  
Each XPVS56I modem features a 14.4Kbps Group III fax so you can send and receive faxes right from your computer at lightening fast speeds. Special Fax-On-Demand functions allow a caller to dial into your computer and have selected documents instantly faxed back. Broadcast faxing allows you to send a document to multiple destinations with a click of a key.

### 56,000\* Kbps V.34 Modem; Plug 'n' Play

Now you can download from hundreds of ISP's at speeds that are nearly twice as fast as 28.8Kbps speeds. This modem supports the new X2 technology for lightning fast 56Kbps downloads. With Plug 'n' Play, MaxTech Voice Fax modems install in a snap without the hassles of Com Port/IRQ configuration.

\*This Modem is capable of 56Kbps, however current regulations restrict download speeds to 53Kbps.

**56K
