The Monorail PC opens a new era in personal computing. It merges the power and features of Windows-compatible personal computers with the space-saving, cost-saving design of consumer electronics. The Monorail PC is an ideal first personal computer for any family, student or small business. It is also a perfect second, full-featured PC for the home or office.

Full Featured, High Performance

The Monorail packs the power to handle the latest applications with ease. A full 16 MB of memory (expandable to 80 MB) and a roomy 1 gigabyte hard drive are matched with a PR 150 processor (upgradable to PR 200). A 4X CD-ROM, integrated color screen, and built-in stereo speakers & microphone handle today's multimedia demands beautifully. The 33.6 fax/modem and complete Internet access software turn this machine into the fastest road to the Internet.

Space-Saving Design

Monorail's high-quality, sturdy, steel construction offers an advanced, space-saving design. With the innovative design and adjustable base the complete Monorail PC slides easily into small spaces where traditional PCs won't fit. Monorail's sleek design allows you to work comfortably in small areas such as on a kitchen counter or at a student's desk.

Convenient and Simple to Upgrade

Designed to grow as the owner's needs expand and as technology advances, the Monorail allows for easy upgrades and expansions. Owners can request an upgrade via a toll-free call to Monorail. They simply repack their Monorail PC in the original shipping box and Monorail arranges for a home or office pick up by Federal Express. Only Monorail certified technicians perform upgrades or warranty service. The Monorail PC is returned to the owner in four working days from factory receipt.
