

[The Complete] Management Solution  
For Your Network

You need to be able to manage and control your mixed client-server environment of different desktops, operating systems and applications to maintain network reliability and optimum performance. The solution you choose needs to integrate management of all those elements while allowing you to fully derive the value of your network investments.

**M**anageWise™ is today's *only* comprehensive, integrated management solution that lets you successfully manage and optimize your heterogeneous network. It reduces the cost of owning and managing a network and enhances business operations by increasing network reliability and user productivity.

**IMPROVE NETWORK PERFORMANCE AND RELIABILITY**

ManageWise lets you proactively manage and optimize your entire network through NetWare® and Windows\* NT\* server management; desktop management; network traffic analysis; automated network inventory; remote control; virus protection; and software management.

**SERVER MANAGEMENT.** ManageWise builds on our NetWare expertise to provide comprehensive server management. It automatically detects thousands of problems on both NetWare and NT servers and lets you set thresholds that notify you when tolerance levels have been exceeded.

ManageWise Agent for Windows NT Server\*\* is an add-on product that integrates with ManageWise to let you seamlessly manage your mixed environments of NetWare and NT servers from one easy-to-use interface.

**VIRUS PROTECTION.** ManageWise continuously monitors viruses across your entire network and desktops, notifies you of detection and quarantines the viruses until you can eliminate them.

**DESKTOP MANAGEMENT.** ManageWise lets you remotely control your Windows 95, 3.1, 3.11, OS/2

ManageWise™  
VERSION 2.1

Novell®

2.1, OS/2\* Warp and DOS desktops. These desktop management capabilities include configuration change management, user administration and desktop access.

#### STREAMLINE LONG-TERM PROJECTS

ManageWise continuously works in the background to monitor network activity and trend performance. As a result, you can easily plan for future network changes and growth. You can also predict future bottlenecks and plan resegmentation of your LANs before problems occur.

**NETWORK PLANNING.** ManageWise lets you collect real-time and long-term performance trends to understand changing environments or unusual conditions.

**NETWORK ANALYSIS.** ManageWise lets you monitor network traffic trends on Ethernet and token-ring networks so you can optimize your network traffic paths.

**SOFTWARE MANAGEMENT.** NetWare Application Launcher\*\*, which is available at no cost, lets you easily install network applications, migrate users to new applications enterprise-wide and standardize desktop software configurations.

**ASSET MANAGEMENT.** ManageWise simplifies your task of tracking network assets through autodiscovery capabilities that build topology maps and discover hardware. It also automatically inventories networking devices, including NetWare servers, hubs, routers and desktops, as well as hardware and software.

#### SYSTEM REQUIREMENTS

##### SERVER REQUIREMENTS:

- NETWARE VERSIONS SUPPORTED: *NetWare 3.11, NetWare 3.12, NetWare 4.1, NetWare SFT III™, NetWare SMP and NetWare/IP™*
- 4MB ADDITIONAL RAM
- 23MB HARD DISK SPACE

##### CONSOLE MINIMUM REQUIREMENTS:

- INTEL486\* OR PENTIUM\* MICROPROCESSOR-BASED PC
- 16MB RAM
- 45MB TO 60MB FREE HARD DISK SPACE
- WINDOWS 3.1, WINDOWS 95, WINDOWS FOR WORKGROUPS 3.11

##### CLIENT REQUIREMENTS:

- NOVELL DOS™ 7, OR MS-DOS\* 3.3 OR LATER, MAC OS SYSTEM 7\*, WINDOWS 3.1, WINDOWS 95, WINDOWS FOR WORKGROUPS 3.11, OS/2 WARP, OS/2 2.X

**\*\*These products make up the family of ManageWise solutions. See "Literature Ordering Information" for further details on ManageWise Agent for Windows NT Server and NetWare Application Launcher™.**

#### COUNT ON NOVELL FOR PROVEN, INDUSTRY-LEADING SOLUTIONS

Novell is the world's networking leader, delivering high-quality solutions for more than a decade. Our key NetWare, ManageWise and GroupWise™ solutions, along with other integrated solutions, make it possible for people to easily connect with other people and the information they need, anytime and anywhere.
