

# The Smart Bunch™ K-2

Four Times the FUNDamentals  
for the price of one.

4 Learning Ladder educational software  
programs cover all the bases for K-2 learners

---

The first stages in a child's learning experience are critical. That's why the Smart Bunch, of the Learning Ladder™ series from Panasonic, covers everything children ages four to eight need to build a solid foundation. It contains four high-quality interactive multimedia titles: Alphabet Adventure with Digby and Lydia, Phonics Adventure with Sing-Along Sam, Reading Adventure with Kenny Kite and Super Radio Addition with Mike and Spike—all award-winning programs designed to help children gain a firm grasp of foundation skills by engaging their attention with fun, challenging games and catchy teaching songs.

With the Smart Bunch, young learners can build a set of basic skills strong enough to support future academics, and a love of learning strong enough to last a lifetime.

Explorer's watch included!!

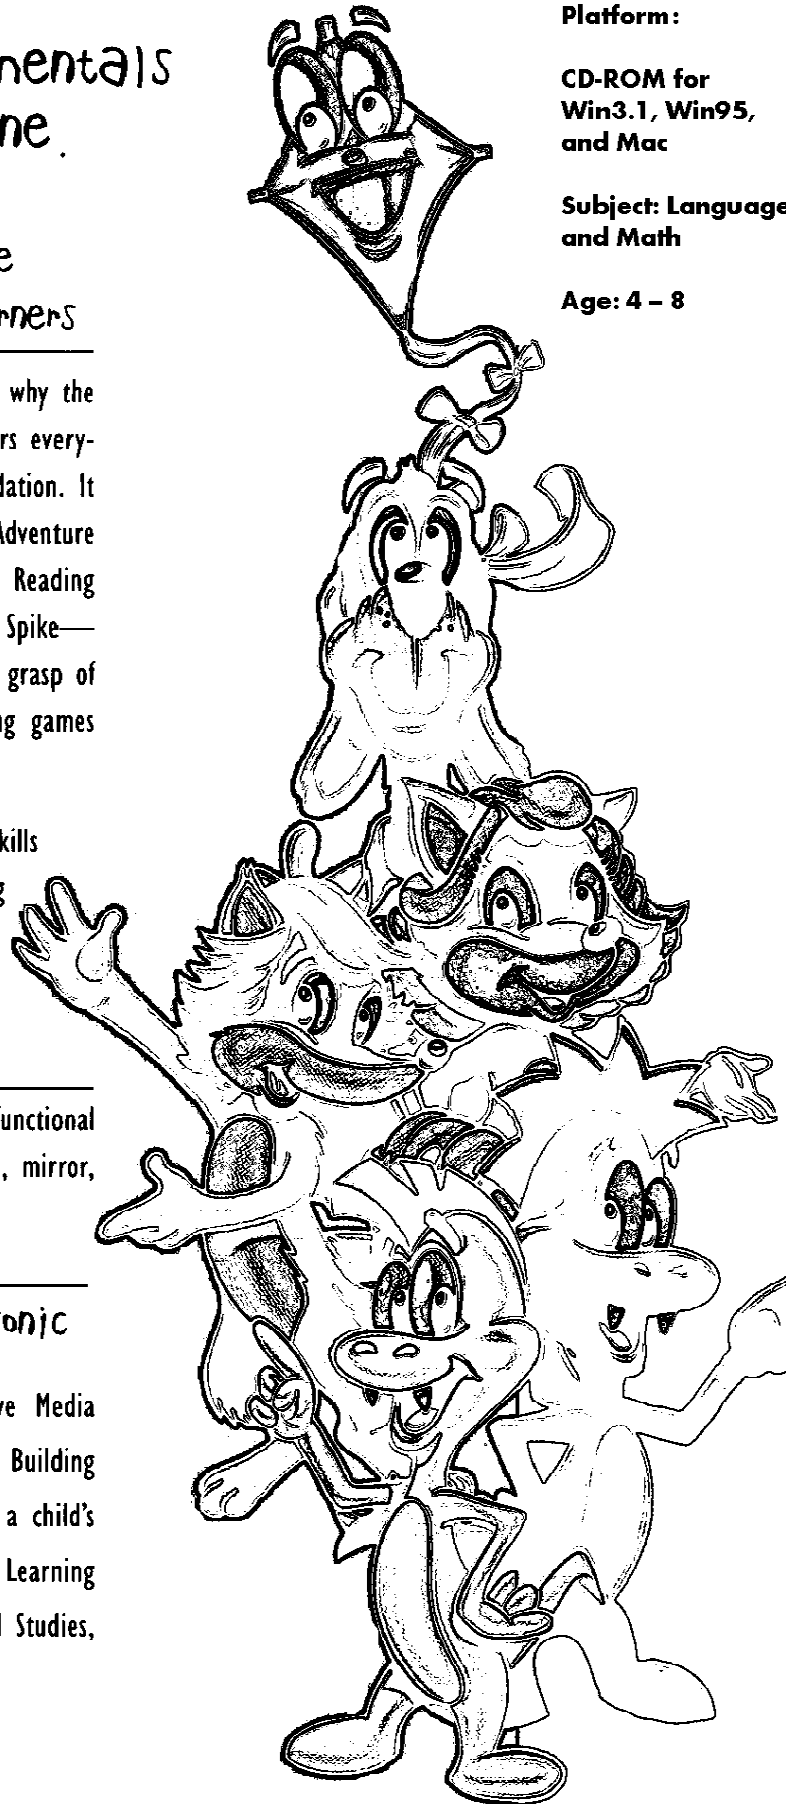

As an added bonus, the Smart Bunch comes with a multi-functional Explorer's watch, which includes a digital time display, compass, mirror, thermometer, alarm, stopwatch, and magnifying glass.

---

## The Learning Ladder Series From Panasonic

Learning Ladder educational software from Panasonic Interactive Media helps kids develop key skills in a colorful, interactive environment. Building both knowledge and confidence, Learning Ladder software fosters a child's desire to learn by letting them experience the fun of learning. The Learning Ladder line covers five core subject areas—Language, Math, Social Studies, Science and Creativity—for children ages 3 to 10.

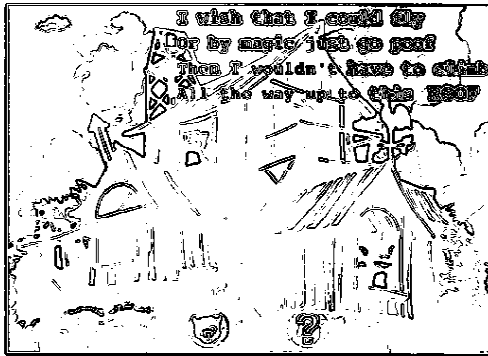

Platform:

CD-ROM for  
Win3.1, Win95,  
and Mac

Subject: Language  
and Math

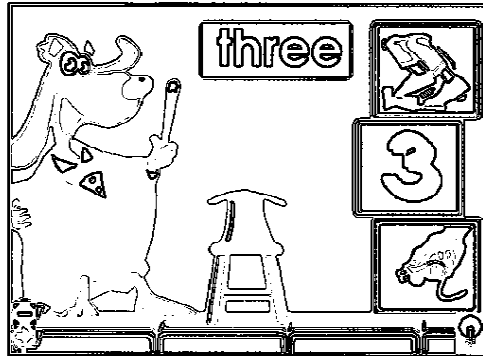

Age: 4 - 8

# The Smart Bunch Features

## Alphabet Adventure with Digby & Lydia

Children will enjoy solving word puzzles for each letter of the alphabet. Puzzles are hidden throughout the enchanting story of Digby, Lydia and their cousin Panda Li for a vivid and fun packed environment.

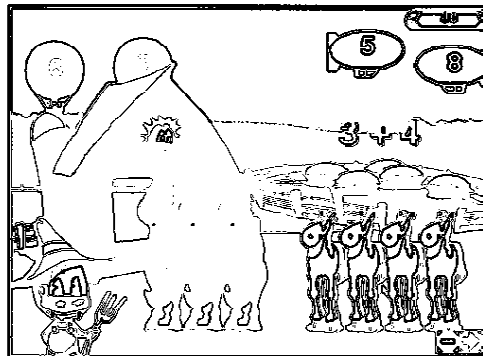

## Phonics Adventure with Sing-Along Sam

Phonics Adventure with Sing-Along Sam is a musical adventure to teach children how to read phonetically. 12 lessons and 15 original songs take children through progressive phonics lessons and exercises where songs teach basic phonics rules.

## Reading Adventure with Kenny Kite

Kids demonstrate reading skills with the help of an animated character, Kenny Kite. As a trainee of Kenny Kite's Flight School, children go through 8 rescue missions and a final exam where they must read to succeed. Successful missions are rewarded with entertaining original songs in a Karaoke Sing-along style.

## Super Radio Addition with Mike & Spike

Super Radio Addition with Mike & Spike is the first in the Mike and Spike math series. Children can learn the basic concepts of addition with DJ, Mike and Spike in their FM radio station. 11 lessons with entertaining songs teach children the basic concepts of addition.
