

By embedding a revolutionary storage management software, Procom Technology delivers to network administrators a simple way to network CD-ROMs with the CD FORCE Server-14. This integrated solution makes installation not only very simple but also allows distribution of CD-ROM-based data across multiple platforms.

The CD FORCE Server-14 provides up to 14 CD-ROM drives for 9 gigabytes of storage capacity. The embedded MESA (Managed Enterprise Storage Architecture) software allows the CD FORCE Server to connect directly to network cabling and provide access to client workstations without TSRs or proprietary software. Thus users can take advantage of the native networking ability of their operating system.

The CD FORCE Server-14's revolutionary concept is aimed towards seamless integration of CD Servers into heterogeneous networking environments where a variety of client workstations such as Windows for Workgroups, Windows 95, Windows NT, OS/2 and UNIX (NFS) exist on the same network.

Features	Benefits
<ul style="list-style-type: none"> <li>● Easily integrates into heterogeneous networking environment</li> <li>● CD FORCE Server sets up easily via its LCD panel</li> <li>● CD FORCE's Graphical User Interface enables you to manage a large array of CD-ROMs from a Windows NT- and Windows 95-based workstation</li> <li>● Advanced security and metering options included</li> <li>● Multiple CDs can be mounted under a single drive letter</li> </ul>	<ul style="list-style-type: none"> <li>● Easy and seamless centralization of all CD-ROM networking from a specific CD Server</li> <li>● Installation in minutes, you can setup the Server address and mount; or dismount CDs by pressing a few buttons</li> <li>● Simple yet complete control via graphical user interface, customized for CD-ROM networking management</li> <li>● Administrators have full control of assigning rights to each CD; you can also limit the number of users that can access CDs</li> <li>● Individual CDs can be listed as subdirectories of a drive letter, which allows for accessing more CDs than available drive letters</li> </ul>

All Procom Technology products incorporate meticulous design and superior engineering to ensure all solutions deliver uncompromising quality. Each Procom Technology product is rigorously tested under the most adverse conditions.

## CD Force Server-14 Specifications

	Quad-Speed T4X	Eight-Speed T8X	Twelve-Speed 12X
<b>PERFORMANCE</b>			
Average Access Time (ms)	150	< 140	125
Sustained Data Transfer Rate (KB/sec)	600	1200	1800
Burst Data Transfer Rate (MB/sec)	4.2	4.2	10
<b>GENERAL SPECIFICATIONS</b>			
Formatted Capacity (MB per drive)	650		
CD-ROM Interface	SCSI-2		
Drive Form Factor (inches)	5.25		
Embedded Cache Buffer (KB)	256		
<b>MECHANICAL CHARACTERISTICS</b>			
Loading Mechanism	Tray		
Eject Mechanism	Electronic		
<b>DISCS</b>			
Acceptable Formats	ISO 9660 High Sierra		
<b>PHYSICAL CHARACTERISTICS</b>			
H x W x D (inches)	20.2 x 15.5 x 17.82		
H x W x D (cm)	51.3 x 39.4 x 44.9		
Weight (w/o drives) (lbs/kgs)	51/23.2		
Weight (w/drives) (lbs/kgs)	79/36		
<b>RELIABILITY SPECIFICATIONS</b>			
MTBF (hrs)	100,000		
Warranty (yrs)	1
