The CD Tower-Plus is perfectly designed to meet the needs of organizations requiring a high-capacity, scalable, CD-ROM information distribution system. Equipped with up to 7 or 14 of the world's fastest quad, eight or twelve speed CD-ROM drives, the CD Tower-Plus can deliver 9GB of information - the equivalent of four million pages of text - to every user on the network. The locking front door provides security and protects your software investment. Start with as few as eight CD-ROM drives and add up to six more as your needs grow. The locking front door provides security and protects your software investment.

Procom Technology has equipped the CD Tower-Plus with its intelligent "Smart SCSI CD" board, which allows seven CD-ROM drives to occupy only one SCSI ID. SO even fully-equipped, the CD Tower-7Plus will occupy only one SCSI and the CD Tower-14Plus only two IDs on a SCSI bus. This allows additional CD Towers or other vital SCSI devices to be attached to your system without exhausting its resources.

The CD Tower-Plus is backed with an unmatched servive program that includes toll-free technical support and the convenience of optional On-Site repair by certified field service engineers.

Features	Benefits
● Stores and distributes up to 4.5 or 9GB of data	● Perfect storage medium for networking bulky reference materials, records, contracts and other large files and archives
● Choice of 4X, 8X or 12X CD-ROM drives	● Instant access to the data you need ● Operates from a single SCSI host adapter
● Occupies maximum of only 2 SCSI IDs on a SCSI-bus	● Compatible with most popular networks; CD-ROM driver is easy to install with Procom Technology's SCSI host adapters
● Software drivers for DOS, Windows NT, OS/2, Banyan Vines or Novell NetWare available ● Attaches directly to a filesever or work station via peer-to-peer software	● Allows flexible configuration of CD-ROMs in network environment; shared CD-ROM databases can be added to existing fileservers; allows network administrator to monitor CD-ROM drive activities, network user logins and user session activity; Avoids taxing the file server by using peer-to-peer software for NetWare, OS/2, Windows NT and Banyan Vines environments; peer-to-peer software loads on a workstation

All Procom Technology products incorporate meticulous design and superior engineering to ensure all solutions deliver uncompromising quality. Each Procom Technology product is rigorously tested under the most adverse conditions.
