

# The Experts' Choice.

## NORTON Utilities™

- Protects you against software conflicts, Windows problems, lost files, PC crashes, screen freezes, and more.
- Finds computer viruses before they damage your computer.
- Interrupts a crash and lets you save your work.
- Monitors your favorite Web sites so you know the best time to visit.
- Automatically downloads software updates, patches, and new virus definitions.

Trust your PC to the real problem-solving software.

**SYMANTEC.**™

**Now  
Checks  
For  
Viruses**

# The most complete problem-solving software you can buy.

**Protects you, protects your investment.** Norton Utilities not only protects your computer, but also the time you've spent writing reports, building spreadsheets, and installing software.

**Makes Windows 95 work the way you want.** The new Norton System Genie™ helps you configure Windows 95 using an intuitive, point-and-click interface. Now you can:

- protect your file extensions so they can't be overwritten by other applications.
- rename or remove desktop items such as the Inbox.
- make "My Computer" launch in Explorer View.
- adjust the speed of cascading menus.
- eliminate the tildes (~) in short file names.
- add applications to menus or files, and more.

**Interrupts a crash and allows you to save your work.** New Norton CrashGuard™ alerts you to a system crash or application freeze and offers to fix the problem. Once the problem is repaired, you can save your document and continue working.

**Lets you walk away from a crash.** If your system should fail, Norton's Rescue Disk™ puts you back on the road to a speedy recovery. The bootable disk guides you step-by-step through the restoration process.

**Resolves software conflicts.** Whenever you install a new program, the registry Tracker takes a snapshot of your system, so you know exactly what was changed. If any conflicts occur, you can quickly undo the changes and get your system back up and running.

**Finds viruses before they damage your computer.** This newest version of Norton Utilities scans for the most common viruses, and alerts you if they're found.

**Monitors surf conditions.** If you spend lots of time on the Internet, the new Internet Speedometer will monitor your favorite Web sites and tell you the best time to surf.

**Provides free online updates.** Live Update™ periodically combs our Web site or BBS for software updates and new virus definitions, and even installs them for you automatically.

### Money-back guarantee

If for any reason you are not completely satisfied with Norton Utilities for Windows 95, simply return it within 60 days for a full refund, less shipping and handling.
