

Norton CrashGuard™ Deluxe

# Automatic problem solving with twice the crash protection

- Automatically protects you against PC crashes and screen freezes— twice as effectively as any other program
- Detects and solves software problems behind the scenes—without slowing you or your system down
- Updates your installed software to reduce system problems and keep it running smoothly
- Scans, detects, and removes viruses from your system

*Norton CrashGuard™ Deluxe gives you automatic crash protection and easy access to the information you need.*

**SYMANTEC.™**

## Works behind the scenes to protect you.

- **Twice as effective as any other crash protection and recovery software.** There's no better problem solver than Norton CrashGuard™ Deluxe. In fact, Norton CrashGuard Deluxe proved to be twice as effective at crash protection and recovery as any other software on the market.<sup>†</sup> And when it comes to protecting your valuable work, there's no reason to settle for anything less.
- **We work behind the scenes.** Norton CrashGuard Deluxe does all the problem solving behind the scenes, so you get the very best crash protection, system maintenance, and updating with the least amount of frustration. This means you'll have plenty of time to finish a spreadsheet, play a game, or write your latest novel.
- **Our automatic checkup keeps your system running smoothly.** We all know how important it is to have regular medical checkups and to take our cars in for routine maintenance, but few recognize that computers need the same care. With Norton CrashGuard Deluxe your system will get the attention it needs so it's free from damaged files, viruses, plus disks are optimized for performance. Best of all, it won't require any effort on your part.
- **We find the updates you need and install them for you automatically.** One of the major causes of system problems is outdated software. Unfortunately, not many of us have the time, energy, or inclination to do something about it. That's why we've included LiveUpdate™ Pro\* in Norton CrashGuard Deluxe. It can log onto the Internet to find any updates or patches your system might need. Then you can choose which ones to download and install. Don't worry, all patches and updates are certified to be virus free and checked for trouble-free installation before you download them. And, if you change your mind, you can undo it all with just a click of a button.
