1.5GB
removable cartridge sy**Jet**™
hard drive

> SyJet™ IS DESIGNED TO OFFER MAXIMUM PERFORMANCE,
> FLEXIBILITY AND RELIABILITY, AT TREMENDOUS VALUE.

VIDEO
Finally, a drive fast enough to store, edit and run full-motion video. Holds more than 80 minutes of broadcast quality video.

AUDIO
Record, edit and run your audio compositions for seamless playback. Access endless audio sampler data. Holds up to 2 hours of CD-quality audio.

MULTIMEDIA
Create animation, audio and video sequences for multimedia presentations. Run directly off SyJet™ at true hard drive speeds.

DESKTOP PUBLISHING/GRAPHICS
Transport, edit and run special applications and layouts directly from SyJet™. Scan high-res images at hard drive speeds.

INTERNET
Create your own Internet drive – browse and download all your Internet files straight to SyJet™. Minimize clutter on your internal drive and protect it from cyber-viruses.

GAMES
Play CD-ROM games off SyJet™ for the winning difference at speeds 3-5 times faster than a CD-ROM drive.

SHARED COMPUTER
Simplify computing in your single computer home or office by creating personal "hard drives" with SyJet™ cartridges for each user's custom applications and files.

System Requirements
Personal Computers: 386™, 486™, or Pentium Class. Compatible SCSI HBA or parallel port to SCSI adapter kit. SCSI HBA must provide conforming ASPI manager for DOS, Windows® 3.1 and Windows 95™.
Macintosh Computers: Macintosh SE30 or later, or Macintosh compatible system.

Compatibility
SyJet™ reads, writes and formats only SyJet™ 1.5GB cartridges.

Compatible Operating Systems
Personal Computers: PC/DOS™ 5.0 or higher, MS/DOS™ 5.0 or higher, Novell®/DOS™ 7.0 or higher, Windows® 3.1 or higher, OS/2® 2.1 or higher, Windows 95™, Windows NT™ 3.51 or higher. Will perform as a SCSI II compliant device for UNIX® and Novell Netware™.
Macintosh Computers: MacOS™ 6.0.5 or higher. MacOS 7.5 or higher is recommended.

Utilities not provided for Windows NT™, Novell Netware™, UNIX® or OS/2®.

Drivers not provided for UNIX® or Novell Netware™.

Specifications
Endless Capacity
1.5 Gigabyte (1500MB) removable cartridges with 3.5" dual platter.

High Performance Hard Drive
Ideal performance for Audio/Visual and other data intensive applications. Seek time less than 12ms. Delivers burst rates of 10MB/sec. and approaches 7MB/sec. of sustained maximum read/write data transfer rate. Application performance supported with a 512K intelligent caching buffer.

Ground Breaking Technology
Exclusive door seal that reduces risk of contamination. Remove and insert cartridge even without power. Systematically cleans media and automatically drops into sleep mode when not in use. Controllable audible feedback features.

Portable
Drive fits in your hand and any space-limited work environment and weighs less than 24 ounces. Cartridge weighs less than 3 ounces. Both are ruggedized for portability. For ultimate flexibility, drive can be positioned in a horizontal or vertical orientation.

Standard Features
Auto termination, 8 SCSI ID setting function, auto switching power supply, and vertical stand included. Contains software write protection option. Internal PC drives come with a beige 5.25" mounting kit. When removed, fits in any 3.5" universal drive bay.

Warranty
Cartridges have a limited lifetime warranty, and drives have a one year limited warranty. Detailed warranty information available from SyQuest upon request.

- ◆ HIGH PERFORMANCE HARD DRIVE
- ◆ ENDLESS CAPACITY
- ◆ SMALL AND LIGHTWEIGHT
- ◆ AUTO EJECT BUTTON
- ◆ SEALED DRIVE DOOR
- ◆ SIDE POWER BUTTON

More than 80 Minutes of Video
Broadcast Quality (50:1 MPEG compression)

2 hours of Audio
Stereo (44Khz, 16 bits)

Less than 8¢ per Megabyte

Holds 2+ CD-ROM Titles

1500 Pictures
Full color 450 x 750, 24 bits/pixel

Internal SCSI Mac   Portable SCSI PC
Internal SCSI PC   Parallel Port
