

Universal Design to accommodate all popular models of Digital Cameras..... and related accessories

## The Targus Digital Camera Cases

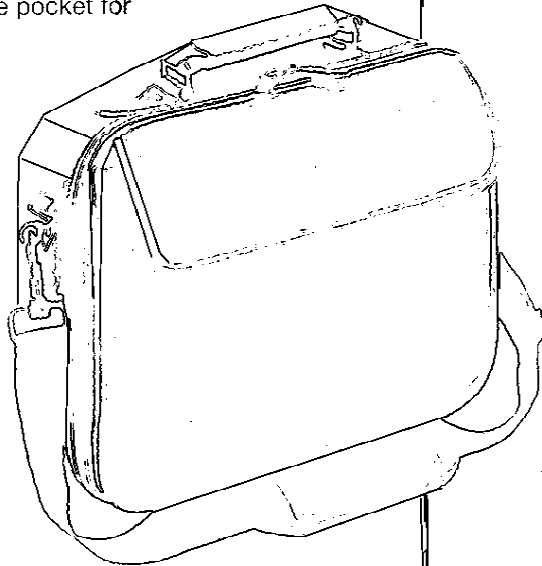

have been designed to be the ideal way to carry your digital camera and accessories. These cases utilize a series of adjustable, self-adhering foam padded dividers that enable you to create customized compartments to hold your digital camera, table top tripod, lenses, filters and power pack. All these are kept in place by a cover with a self-locking tab.

Adjustable Dividers make this the perfect case for portable drives.

There are also pockets specifically designed to hold PC/Memory cards, 3.5" disks, pens/pencils, business cards, manuals and even a separate pocket for CD software.

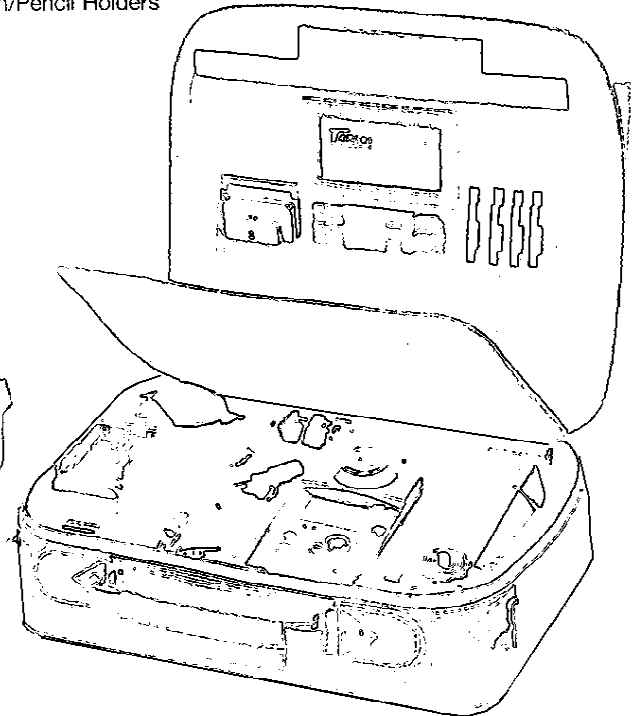

The Targus Digital Camera Cases were created to conveniently carry your camera and related accessories.
