Sportster® Voice
33.6 Faxmodem
with Personal Voice Mail

The world's number one selling modems.

- **Business-quality voice mail with multiple mailboxes**

- **Retrieve fax and voice messages from remote locations**

- **Caller ID and distinctive ring support**

- **Full-duplex speakerphone**

Model #1172 External, #1171 Internal

Your personal office message center.

Everybody needs an assistant. Families with kids in sports, Mom in the office and Dad on the road. Businesses with more potential than personnel. Sportster Voice Faxmodem can help. Each member of the family can set up a private voice mailbox, with a casual greeting for friends, or something more businesslike for customers and co-workers.

Who's calling?

Sportster Voice supports distinctive ring, so you can assign separate phone numbers for incoming faxes, data and voice calls, all on one phone line. It also supports Caller ID, if it's available in your area. And Sportster Voice can signal your pager when fax or phone messages arrive, so you can retrieve them, even when you're out of the office.

The full-duplex speakerphone capability built into Sportster Voice lets you and your caller talk and listen at the same time. Conversations flow naturally, with no clipped words—just as if you were in the same room, face-to-face.

Give them the fax.

Are there documents that callers ask for over and over again? Put those documents on a fax on demand menu. Sportster Voice lets your callers request and fax those documents to themselves, whenever they like. No interruptions, no envelopes, no postage.
Sportster Voice comes with RapidComm™ Voice by U.S. Robotics—all the voice mail, data and fax communications software you need to set up your message center. It's all on a free CD-ROM, called U.S. Robotics *Connections*™, inside Sportster desktop faxmodem packages. *Connections* also gives you free software from Internet access providers and online services; personal finance, anti-virus, travel planning and news software; Internet phone software; special offers for Sportster owners; and U.S. Robotics product and support information.

Fast now, faster in January.

And the Sportster Voice 33.6 Faxmodem is upgradable in January, 1997 to our new 56 Kbps x2™ Technology! With x2, you can download graphics-heavy Web pages, sound files and video streams from the Internet or online services at nearly twice the speed of an ordinary 28.8 Kbps modem—over the regular analog phone lines you have now. Nearly 40 major online services and Internet service providers support x2 Technology. Buy Sportster Voice now, and you'll be eligible for an affordable upgrade in January, 1997. For more information on x2 Technology, the upgrade program, or a list of participating providers, visit our Web site at www.usr.com/x2 or call 1-800-525-USR1.

U.S.Robotics®

- U.S. Robotics *Connections™* CD-ROM software collection, including RapidComm Voice integrated voice mail, fax and data communications software; Internet access software; dozens of software programs and special offers

- RJ11C modular phone cord (7 ft.)

- Power adapter (External only)

- Quick Installation Guide

System Requirements

- IBM compatible 386, 486 or Pentium®

- Microsoft Windows® 3.1 or 3.11 or Windows 95

- Regular analog telephone line

Upgradable to 56 Kbps x2 Technology

Sportster 33.6 desktop modems purchased after August 15, 1996 will be upgradable to x2 Technology in January, 1997. Sportster owners may register to be notified of upgrade availability. For more information on x2 Technology, the upgrade program or participating Internet service providers, visit our Web site at www.usr.com/x2 or call 1-800-525-USR1.

x2 System Requirements

- x2-capable desktop or PC Card modem for DOS, Windows or Macintosh® computers

- 16550 UART high speed serial port

- x2-compatible service from online/Internet service provider

(For best performance, x2 Technology requires standard analog phone lines, such as those provided by your local or regional phone company. Communication through a PBX will limit performance.)

Warranty: Free parts and labor coverage under a 5 limited year warranty; factory repair or replacement.

U.S. Robotics

U.S. Robotics
Connections™ CD-ROM

Software Collection

Connect your Sportster® to the Internet and more.

- Fax and communications software

- More than 30 fun and useful programs for home and office

- U.S. Robotics support resources and online registration

- For both PC and Macintosh® users

Everything you need to fax, e-mail, connect to the Internet and more, all inside Sportster® desktop modem boxes.

As soon as you've unpacked and installed your new Sportster modem, slide U.S. Robotics *Connections* into your CD-ROM drive.* You'll be glad you did. The *Connections* Setup Wizard makes installing all the great software on this CD-ROM point-and-click easy. A few more keystrokes, and you've registered your Sportster, either by fax or online. Now you have virtually instant access to the basics of online communication *and* dozens of exciting extras.

Faxing right from your computer is one of the easiest and most useful things you can do with your Sportster. All the fax and communications software you need is included on the *Connections* CD-ROM. U.S. Robotics RapidComm™ lets you send faxes now or later, one at a time or in groups, to fax machines or other faxmodems anywhere—with just a few mouse clicks. RapidComm Voice adds sophisticated voice mail software for use with Sportster Voice modems.

You choose, you cruise.
You'll want to try out one or more online services or Internet service providers. *Connections* gives you twelve different choices in these categories—including two specifically for Canadian users. All the providers offer free time or other special introductory savings, so you can shop around for the service you like the best. Then you'll be able to send and receive e-mail, browse the World Wide Web and even create your own home page!

Save money online.
Connections gives you a free trial version of Internet phone software and free advertiser-supported e-mail. Manage or invest your money with personal finance and investment software. Looking for a long-lost friend? Check out the Internet directory programs on *Connections*. Track your overnight shipments or plan an overseas trip. And keep it all safe with security and anti-virus software.

We've also included information on the Courier™ I-modem, Megahertz® PC Cards, Performance™ Telephones and the Pilot™ handheld organizer. And if you ever have a question about using your Sportster modem, you'll find a helpful User Guide, a Frequently-Asked Questions section and complete U.S. Robotics customer support contact information.

All this is yours inside Sportster desktop modem packages, including Sportster 33.6 Faxmodems, Sportster 33.6 Voice Faxmodems, Sportster 33.6 Winmodem™ and Sportster 33.6 Faxmodem for Macintosh. Special editions are available inside packages of Sportster ISDN Modem and U.S. Robotics Bigpicture™ video kits.

* Don't have a CD-ROM drive? Call the special toll-free number on the *Connections* jacket to order floppy disk versions of the free modem and Internet software.
