# Pagis PRO 97

## The Best Way to Scan, Organize and Use Your Color Documents.

Pagis Pro 97 from Xerox is the first full-featured scanning software that is completely integrated into the Windows 95/NT desktop. It allows you to capture, organize and use your color documents and incorporate them easily into the Windows® Explorer file system. With Pagis Pro 97, you can expect the same flexibility with paper-based documents that you enjoy with your electronic files. That's because Pagis Pro 97 takes advantage of three innovative technologies: Xerox' PerfectScan™ image enhancement technology and TextBridge® Pro OCR scanning technologies, and Verity's Topic™ search engine.

Pagis Pro 97 brings together your paper and electronic worlds by allowing you to store, locate, and use your documents with existing desktop applications. Pagis Pro 97 addresses such scanning barriers as poor output quality, large image file size (particularly with color images) and the challenge of locating scanned files.

With Pagis Pro, you can easily scan, copy, fax, find, print and drag-and-drop scanned documents to your popular desktop applications. And scanning color documents is a simple, one-touch operation that takes the guess work out of getting quality results and putting those results immediately to work.

## Pagis Pro Features:

### Scanning
One-touch operation
Auto or user defined scanner settings
Automatic picture enhancement
Picture and text segmentation

### Organizing
Store scanned documents in the MS® Explorer
Search your entire hard drive in seconds
Thumbnail representation of original

### Using
Drag & drop to your favorite application
E-mail color documents
Pro OCR
Scan to the Web
Select picture with one-click
Annotation tools for highlighting

### Formats Supported
XIF, BMP, TIF (Group 3, Group 4, uncompressed & pack bits), DCX, JPG, PCX, HTML, & RTF

### System Requirements
Windows 95 or Windows NT 4.0
Intel 486 or Pentium PC
VGA, SVGA, or Multisync color monitor
16MB of RAM

### Scanners Supported:*
**For Windows 95:**

## The Best Way to Scan, Organize and Use Your Color Documents

At last, a scanning software that gives you high quality pictures and clean, crisp text—all in a small portable file size that's easy to share via fax, e-mail and the World Wide Web. Couple this with Pro OCR scanning capabilities *and* seamless integration with your Windows 95/NT operating environment and you've got one powerful scanning solution. That's why Pagis Pro from Xerox is the best way to scan, organize and use all of your color documents.

### The Best Way to Scan

With Pagis Pro 97, scanning your color documents is a simple, one-touch operation that takes the guess work out of getting quality results and putting those results immediately to work. That's because Pagis Pro includes Xerox' innovative PerfectScan™ imaging technology which allows you to capture complete documents and save them in the smallest portable file size.

Having these small portable files makes e-mailing them a snap. And because PerfectScan provides the highest quality grey-scale and color images, picture clarity is optimized for faxing as well.

**Original Document**

**Other Scanning Software**

or

Poor Image Capture | Poor Text Capture

*With other scanning software, you have a tough choice—high quality pictures or clean, crisp text. You'd have to scan twice to get both. Pagis Pro gets it right the first time.*

*Text is optimized to improve OCR accuracy.*

*Annotation Tools allow you to add emphasis to your documents using arrows, sticky notes, high-light pens and circles.*

**Pagis Pro 97**

**2,740KB**

*One click allows you to easily select pictures and use them.*

**Perfect Image and Text Capture**

**78KB**

*One scan gives you perfect images and text, stored in the smallest portable file size!*

### The Best Way to Organize and Use Your Documents

Pagis Pro provides the ability to scan directly into the Windows 95/NT operating environment. No other scanning software offers the same level of seamless integration with the Microsoft® Explorer file system.

Getting documents onto your desktop is one thing, locating them when they're needed is an added challenge. By using Verity's Topic search engine, Pagis Pro gives you the tools necessary to locate any document on your system. And MatchBars™ developed at Xerox PARC provide a visual cue to the relevancy of your found documents, making Pagis Pro a perfect tool for organizing and locating all of your scanned and electronic information.

### plus Pro OCR

Xerox' own award-winning TextBridge® Pro is tightly integrated with Pagis Pro. TextBridge Pro OCR scanning software not only saves you from retyping your documents, but the hassle of reformatting them as well. TextBridge Pro provides exceptional accuracy on various document types including magazines, dot matrix, faxes and photocopies.

*Stores scanned images and documents right in the Windows® Explorer, not a proprietary file system.*

*Matchbars™ provide a visual cue to the relevancy of your found documents perfect for organizing and locating your documents.*

*Advanced search features allow you to search your entire desktop in seconds.*

*Thumbnail representations provide an easy way to visually identify your saved documents.*

*Share your documents via fax, e-mail and the World Wide Web.*

*With Pagis Pro, you can work the way you want to—dragging and dropping documents to popular desktop applications. Pagis Pro automatically converts the scanned file to the file format appropriate for that application.*
