Zydeco™ for QUICKEN & TURBOTAX

The Complete Document Management Tool

Scan, Organize & Retrieve your Documents with Intuit's® Quicken® and TurboTax®

Zydeco for Quicken® & TurboTax®

Zydeco is a fast and easy filing system for use with Intuit's *Quicken®* and *TurboTax®* for Windows. Use your scanner to capture and store—in one convenient place—all of your paper and electronic documents with your financial records. File, organize and instantly locate receipts, bills, invoices, W-2 forms and cancelled checks with Zydeco.

Eliminate Financial Clutter in Three Easy Steps

1 Scan

Use Zydeco to scan letters, receipts, invoices and cancelled checks so you can file your finance and tax-related paper-work with your Quicken® and TurboTax® data inside your PC. Zydeco also organizes your electronic files, including e-mail, graphics, spreadsheets and Web documents.
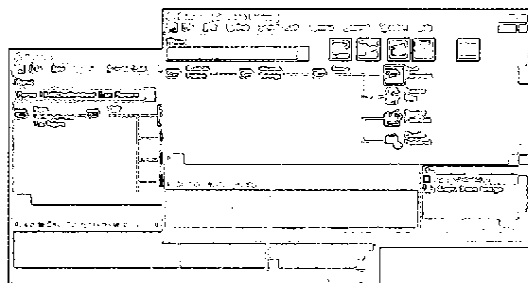

Organize

Zydeco works with a scanner to organize your scanned documents and other files in folders customized for all of your Quicken® and TurboTax® accounts, categories and forms.

Retrieve

Find your W-2 from last year, receipts from last week s business trip, or invoices from a purchase *instantly*. Call up any paper or electronic document by account, category, date or form. Documents are ready to print, e-mail or fax straight from Zydeco. No more wasted time searching through messy files or piles of paper and *no more lost documents!*

In three easy steps, you've moved your paperwork into your computer.
