

USERS MANUAL v2.1

GENERAL DESCRIPTION

<WINDOWS & WINDOWS '95 COMPATIBLE>

Elementals in a collection of over 100 high quality, Ray Traced images for creating professional Web pages. Over 50 dynamic horizontal line designs and 50 carefully designed, texture mapped balls (in 3 different sizes) are also provided. The entire library is packaged as .GIF files and can be easily incorporated into your own home page. Balls feature transparent background settings. NOTE:ALL SOURCE FILES MUST BE IN THE SAME DIRECTORY AS THE PROGRAM ITSELF!

FILE FORMATS : .GIF - 89A INTERLACED (Ball .GIF's all have transparent backgrounds)

USAGE

To use the graphics in the program, you are required to complete the registration form (REGISTER.WRI) provided with this program and send in the required payment. Upon receipt, you will be promptly provided an access code (password) that will allow you to "unlock" the LIBRARY.EXE file which contains over 100 .GIF images.

You can view the entire contents of the LIBRARY.EXE file, by selecting from the programs (ELEMENTS.EXE) pulldown menu any of the LINE#1, LINE#2, LINE#3 etc. selections or any of the BALL#1, Ball#2, Ball#3, etc selections.

Before you register, you will notice either the words "SAMPLE" or black vertical lines running through the images. This is done to protect the images from unauthorized copying prior to registration. Once you enter your password, however, these annoyances will dissappear!

We hope you find this collection of images both creative and useful, and apologize for the need to have to use "overlays" on the images.

Upon payment of the registration fee, we can use these images in your own home pages or in home pages that you might create for other people and companies.

TECHNICAL SUPPORT

Technical support is available between the hours of 9:00 AM - 5:00PM , Central Standard Time, Monday through Friday. Please review this help file prior to calling, many answers can be found here! In the event you cannot find a solution to a problem you may contact the Technical Support Team at:

U.S. (612) 944-9314

or CompuServe: 75033,1013

or AMERICA ONLINE: LUNAC@AOL.COM
