

The **indirect questions** are made up of:

- a **main clause** with a **verb** such as **to ask**, **to wonder** or **to discuss...**
- a **subordinate clause** introduced by an **interrogative word** (if, whether, where, when, why, how, who, which, what or whose).

The verb of the subordinate clause is placed **after the subject**, as in non-interrogative sentences.

Example:

We **discussed what** kind of present we **could** offer her.
