Print All Open

*A Word for Windows Freeware Macro To
Automatically Print All Open Documents*

Copyright © 1993 Total System Solutions, Inc.

What Does It Do?

If you are like many WinWord users, you take full advantage of the multiple document interface (MDI) and work with more than one file at the same time. In fact, you can keep up to *nine documents* open simultaneously. This is very handy.

Although you are able to switch back and forth between documents easily, there has never been a way to easily **print all** of the open documents at once. Until now.

Print All Open, from Total System Solutions, enables you to print all open WinWord documents at once. Simply choose the **Print All Open** command which is conveniently installed to your "File" menu. That's it! Like a well-oiled machine, WinWord will automatically send each document to the printer in turn, requiring no further involvement from you. So go get a cup of coffee or herbal tea. You've earned it!

Easy Installation

Make sure this is the only document window open. Then:

Double Click Here To Install *Print All Open*

If you like **Print All Open**, you'll love **Close All**, which enables you to close all open documents with one command. (You are also offered the options of closing without saving, or prompting to save before closing.) The **Close All** macro is included inside both of our premium WinWord software systems, *DocuPower Pro* and *Fileware*.

Please read below to find out about our other WinWord macro add-in applications.

DocuPower Pro™

- “DocuPower Pro provides you with all the power you need for easy, effective document management... you have to check this program out! Excellent!”
— Michael Callahan (aka Dr. File Finder), Shareware Magazine.
- A Shareware Magazine Editor's Choice Award Winner (Sept/Oct '93)

After you create Word for Windows documents, how do you find them? You know they're on your hard drive, or on the LAN file server... somewhere. If only you could remember the file name, or the directory — you might actually be able to get some work done.

DocuPower Pro™ smashes the eight character DOS file name barrier!

Give long, descriptive names to your documents — up to 45 characters long. *DocuPower Pro™* is a total document management solution that makes it easy to quickly access your work. On stand-alone PC's as well as across networks, it can completely organize your documents. Best of all, it integrates seamlessly into WinWord.

Check Out These Incredible Features

- Go beyond the eight character DOS file name barrier. With *DocuPower Pro™* you can give your documents real, meaningful descriptions — up to 45 characters long!
- Assign enhanced *DocuPower Pro™* descriptions while maintaining your original file names. You'll never misplace a file again. Use *DocuPower Pro™* descriptions for fast access, or, if you prefer, look at the regular path and file name.
- Get organized — it's fast and easy. Create an unlimited number of folders for your documents, and give each folder its own descriptive title.
- Each folder holds an unlimited number of document descriptions. Add as many as you like, because they'll be displayed in alphabetical order. Simply touch the keyboard to jump immediately to any part of the list.
- Lightning fast folder list display! See hundreds of files instantly.
- Toggle folder list displays instantly between *DocuPower Pro™* document descriptions and DOS file names.
- One file can appear in multiple folders simultaneously. This enables you to organize the same material in different ways while avoiding version control problems.
- Because it's tightly integrated into WinWord, *DocuPower Pro™* will automatically prompt you every time you save a new file. So you're never more than one keystroke or mouse click away from adding your new work directly to a folder.
- Sophisticated folder management allows you to create, rename, or delete entire folders. Plus you can easily move documents from one folder to another.
- Print single or multiple copies of a document directly from any folder — you don't need to open the file first.
- Print all documents in a folder with just one command.
- Fax documents directly from a folder.

- Insert the contents of one document into another. Clicking the “Insert” button lets you perform automated document assembly.
- Integrated *File Find* and *Text Search* utilities find the files you need fast. Select multiple entries from the list of files found. Open all selected files at once, or add all selected files directly to any *DocuPower Pro™* folder.
- Integrated file management functions enable you to make directories, copy, rename, delete or move files. The file management window is easy and intuitive to use — a dual list box with file names on the left, and your descriptions on the right. Do it all without ever leaving WinWord or *DocuPower Pro™*.
- Print a detailed folder status report. List document descriptions and file names for all documents in any folder.
- Free *DocuPower Pro Tool Kit* includes powerful WinWord macro utilities: Close All Open Files; Display Date On Menu; Exit Windows; Restart Windows; List All Files In Directory; Run Program (Command Line); Windows System Status.
- Additional tool kits are available to meet specialized needs. The *Writer’s Tool Kit* includes the following utilities: Font Minder, Text Jumper, BookMark Lister, Edit Templates, Open Most Recent Files, Print All Open Files, and WinWord INI Changer.

Fileware[™]

Fileware[™] is a powerful yet inexpensive suite of utilities.

- It was chosen one of the "48 Best Add In" products by PC Magazine.
- PC Week says, "...adds a good selection of file and program management features that were left out of Word for Windows."
- In "Hacker's Guide to Word for Windows" (Addison Wesley) Woody Leonhard (WOPR) writes, "...the system that Microsoft forgot...makes WinWord stand on its ear."
- A Shareware Magazine Editor's Choice Award Winner (July/Aug '93)

Fileware[™] is a suite of thirteen file maintenance, document management, and program launching utilities which integrate seamlessly into Microsoft Word for Windows 2.x. It provides the many commonly requested features that Microsoft "forgot" to include. After auto-installation to the "File" or "Tools" menu, the *Fileware*[™] system is never more than a mouse click or keystroke away. Now you can ***do everything you need without ever leaving Word for Windows...***

- **Forget File Manager.** Make directories; delete, rename, copy or move files. Because it's integrated into Word, *Fileware*[™] is more convenient and much safer.
- **Forget Program Manager.** Launch programs instantly with *Run Buttons*, a customizable toolbox of push buttons (or type a command on the convenient *Quick Run Line*).
- **Forget eight character DOS file names.** *Fast Files* keeps a customizable list of document *descriptions* close at hand. Just point and click to open the files you want.
- **Forget complicated directory paths.** *Directory Jump* gives you push-button access to the directories you use the most. Just one click jumps you anywhere on your PC... or across your network.
- **Abolish repetitive keystrokes.** Close all open files at the same time with just one command. Options include *Close Without Saving* and *Prompt To Save*.
- **Protect your confidential data.** *Word Lock* provides password protection for the complete Word for Windows application (not just certain files).
- **Edit document templates instantly**, even if you don't know which directory they're in.
- **Exit Windows** with just one command when you're done working.

All this for only **\$39.95** per copy! We accept Visa, MasterCard, American Express and Discover.

Text Jumper™

Make your on-line documents as user-friendly as the Windows "Help" system! *Text Jumper™* lets you easily create HyperText in Word for Windows. The handy "Bookmark Lister" utility is also included to help you painlessly manage your WinWord bookmarks. Stop scrolling line after line, page after page. Just point and click to jump to any part of a document. Your documents will be easier to understand and fun to read.

Text Jumper™ is fun **and** useful. An inexpensive and powerful macro utility — **\$14.95** per copy!
