

Leading spaces:

---T--T----

One

Two

Three

Four

Five

The same again with spaces on empty lines:

---T--T----

One

Two

Three

Four

Five

Now for some tabs:

-----T-----T

One

Two

Three

Four

Five

Here is how you can get vertical bars into verbatim:

```
|!@#%~&*()_-=\~'{}[]:``';'<>?,./
```

And here's you can use it in a paragraph: middle%%%. And this is the example from the manual, quoted with a leading space: '\#%&!'

Now we change the escape character to @ and have a leading space: '@|my what big teeth you have!'
