

Ministry of Commerce

The ministry of Commerce is responsible for formulating and recommending domestic and international trade policy and measures. In addition, the ministry provides a range of trade facilitation measures for both international and external markets. For the domestic market, the ministry develops trade system in maintain price stability for agricultural products and promote fair trade competition. At the international front, the ministry aims at expanding the market share of Thai Products. This can be achieved through performing activities that increase the competitiveness of the export sector. The ministry also formulates and recommends positions and strategies supporting bilateral, regional and multilateral trade negotiations. Furthermore, the promotion of using intellectual property for the purposes of education, research development and commercialization is also the main function of the ministry as well as insurance business development.
