

**Welcome to:  
Trading on the Edge: CD-ROM Toolkit**

Companion to the book "Trading on the Edge: Neural, Genetic, and Fuzzy Systems for Chaotic Financial Markets", published by John Wiley and Sons, Inc.

This CD-ROM features:

- all software programs discussed in the book Trading on the Edge,
- a vast number of demo programs supplied by vendors,
- sample market data you can use to build financial applications,
- sample images on trading technology, and
- an overview of the performance of various trading systems.

An extraordinary resource for more intelligent trading of Financial Markets!

**QuickStart:**

Windows: Install the program in d:\windows: twlitew.exe  
or run the installer: D:\windows\install.exe from the  
program manager. Run TWliteW (TextWare) and DO "File"  
"Open": "Trading on the Edge".

Mac: double click on the Trading.TWC file.

DOS: change to your active drive to the CD-ROM by typing "D:"  
(where D is the letter of your CD-ROM)  
type "Trade" <enter>

**Usage:**

Explore the folders/directories:

Mac\_Files (Macintosh)  
PC\_Files (PC Compatible)  
Shared (Both Mac and PC)

They contain source code, demos, utilities, shareware, market data  
, and other financial resources.

Description	directory name
Sample Market Data	mktdata
Software Utilities	utility
Vendor Demos	venddemo
Sample Images Folder	simages
Trading Systems	tradesys

There may be files in the directories/folders that are .zip  
or compacted files. Thses are for your convenience. All the  
files have been extracted/unzipped for use off the CD-ROM.

However, some of the programs will need to be correctly  
installed to work and thus will not execute off the CD-ROM.

The Trading on the Edge: Investment Navigator will be available soon.  
We will notify registered users on availability -- so register!  
The Investment Navigator should be available in July-August of 1994.
