Source: Taxable Sales Annual Report, 1991; Virginia Department of Taxation, Richmond, VA 23282.

€ The locality either reported zero sales in this business classification or there are fewer than four dealers in this business classification. If there are fewer than four dealers, the taxable sales data are reported in the Miscellaneous and Unidentifiable category. This procedure is followed in order to avoid the disclosure of confidential tax information relating to the dealer. Statewide statistics, however, reflect the taxable sales of all such dealers in their proper classification.

Negative entries can occur as a result of adjustments made for improperly reported taxable sales for a locality.
