The Ultimate Guide to Adventure Travel v1.0 README.TXT

To install on a PC, start Windows, insert the CD-ROM into your CD-ROM drive and choose File/Run from the Program Manager and type x:\SETUP (where "x:" is the drive letter of your CD drive). Follow the installation instructions on the screen, then double-click on the Adventure Guide icon which has been installed in your Adventure Guide Program Group.

To install on a Macintosh insert the CD-ROM into you CD-ROM drive and select the Adventure Guide icon from within the CD-ROM Adventure Guide folder and DRAG AND DROP it to your hard drive, then double-click the Adventure Guide icon on your hard drive.

To get the best performance from iTravel's The Ultimate Guide to Adventure Travel v1.0
make sure your computer meets the following requirements:

Supported Hardware Platforms:

Minimum System Requirements	Recommended System Requirements
1. PC	**1. PC**
a) CPU 486/66	a) CPU 486DX/100
b) 8megs Ram	b) 12megs Ram
c) 4megs Hard Disk Space	c) 4megs Hard Disk Space
d) Video card supporting VGA w/256 colors	d) Video card supporting SVGA w/256 colors
e) CD-ROM drive (2x Speed)	e) CD-ROM drive (4x Speed)
f) 8 bit Sound Card	f) 16 bit Sound Card (w/External Speakers)
g) QuickTime for Windows v2.0	g) QuickTime for Windows v2.0
h) Windows 3.1	h) Windows 3.1
I) Serial or Bus Mouse	I) Serial or Bus Mouse
2. MACINTOSH	**2. MACINTOSH**
a) Performa 550 (or a Mac with a 68040 processor)	a) Centris 660 A/V (or later model)
b) 8megs Ram	b) 12megs Ram
c) 4megs Hard Disk Space	c) 4megs Hard Disk Space
d) 8 bit Color Display	d) 8 bit Color Display
e) CD-ROM Drive (2x speed)	e) CD-ROM Drive (4x speed)
f) Quick Time v2.0	f) Quick Time v2.0
g) Sound Manager v3.0	g) Sound Manager v3.0
h) Apple System 7.1	h) Apple System 7.1
I) Mouse (Pointing Device)	I) Mouse (Pointing Device)

Important Technical Information (Before using this software program)

General Information:
We recommend running with your Monitor settings at 640 X 480 Resolution for full screen display when using The Ultimate Guide to Adventure Travel.

Disable your Screen Savers.
Running with 3rd party memory managers or Virtual Memory, ram compression software and TSR programs is not supported.
Running with Ram Doubler or Virtual Memory is not supported.

Maximizing Performance
This program manipulates large amounts of graphical data. To maximize performance quit all other applications. This will maximize the amount of memory available to the program. Performance will also be greatly enhanced by the use of a double-speed, or faster, CD-ROM drive.

The default settings have been selected to be compatible with most hardware configuration settings. To improve performance on your PC you can try changing the following settings in your QTW.INI (QuickTime Windows Information File). Replace the following line item after the "=" or add it to your QTW.INI file -
[Video]   With   [Video]

Optimize=*Driver*   Optimize=*Hardware*

Macintosh specific info:
QuickTime 2.0 and SoundManager 3.0 should be installed on all Macintosh systems (all previous versions should be removed before installing these current versions).

PC specific info:
QuickTime 2.01 for Windows should be installed on all PC systems (all previous versions should be removed before installing this current version).
If you are running a third party desktop program other than the Windows Program Manager, you may experience problems installing the program.

Installation Technical Support Numbers:
For questions regarding QuickTime 2.01 for Windows or QuickTime 2.0 for the Macintosh you can reach
Technical Support at Apple Computer 1-800-950-2442

America Online Technical Support at 1-800-827-3338
EarthLink Network Technical Support at 1-213-644-9500

Video Driver and Board Compatibility information.
Some video boards and drivers do not properly support all of the graphics display functions required by Windows and consequently are not supported by The Ultimate Guide to Adventure Travel. The following is a list of manufacturers of the most commonly used video boards with their phone numbers, BBS numbers and **Technical Support** numbers. If you have video card or sound card problems please call them directly.

<u>VIDEO BOARD INFORMATION</u>
Ahead Systems, Inc.
        Main# 510.623.0900 - BBS# 510.623.0961

ATI Technologies
        TS# 905.882.2626BBS - BBS# 905.764.9404

Boca Research, Inc.
        Main# 407.997.6227 - TS# 407.241.8088

      Main# 213.685.5141

Turtle Beach Systems
      Main# 717.767.0200 - BBS# 717.767.5934

If you experience problems running The Ultimate Guide to Adventure Travel software, particularly faulty functionality, erroneous color display or even crashes, you can try the following steps to resolve the problem:

Make sure you are running the appropriate driver for your video card (check Windows Setup in the "Main" Program Group).

Make sure you are using a video driver with 256 colors.

Make sure you have the latest version of your video board display driver (contact your video board manufacturer for more information).

SOUND BOARD COMPATIBILITY INFORMATION:

This product is compatible with the SoundBlaster standards: SoundBlaster 8, SoundBlaster 16, Audio Blaster, and Pro Audio Plus 16.
