UNDER THE COVERS CD-ROM

Welcome to Under the Covers. This Read Me file contains information on installing the proper system software required to run this CD-ROM, as well as basic tips on navigating through the disc. You can print these instructions if you desire.

Installation For Windows™:

1.) Put your Under the Covers CD-ROM into the CD-ROM drive.

2.) In Windows 3.1, Go to the Windows 3.1 Program Manager, open the File menu, then choose Run. In Windows 95, click on the Start button, then choose Run.

3.) Type the following:

        [drive]:\setup

        (Note that [drive] is replaced by the letter for your CD-ROM drive. For example, if "d" is the letter for your CD-ROM drive, you would type "d:\setup" then press Enter.)

4.) Follow the instructions that appear on your screen. You will need to restart your computer at the end of the installation process.

Part of the installation process will be an opportunity to install Earthlink Network's Internet software to open an account with them. Use this option if you do not already have an Internet Service Provider and wish to sign up. Everything you need to run Under the Covers will install automatically on your hard drive or is on the CD-ROM itself. In Windows 3.1, you'll see a new Program Group called Under the Covers CD-ROM on your screen. Windows 95 will create a new entry in your Programs list, accessed from the Start button. Inside both you'll see a Under the Covers CD-ROM   icon, a Read Me icon, and a Register   icon.

Once the installation is complete, double-click on Under the Covers CD-ROM icon in the Program Group called Under the Covers CD-ROM.

Installation For Macintosh™ and Power Macintosh™:

1.) Put your Under the Covers CD-ROM into the CD-ROM drive.

2.) Double-click Under the Covers Installer   located on the CD-ROM.

3.) Follow the installation instructions that appear on your screen.

4.) After the installation, your Macintosh may automatically restart (if it has to update your QuickTime extensions). This is normal.

Part of the installation process will be an opportunity to install Earthlink Network's Internet software to open an account with them. Use this option if you do not already have an Internet Service Provider and wish to sign up. Everything you need to run Under the Covers will install automatically on your hard drive or is on the CD-ROM itself.

Once the installation is complete, double-click on Under the Covers icon in the Under the Covers CD-ROM.

Technical Support:

If you have any problems installing or using Under the Covers please call our Technical Support Services at (812) 829-1007. - 486DX2-33MHz or faster
- 8 MB RAM minimum
- 65,536 colors (will run on 256)
- 640 x 480 screen resolution
- 3 MB available hard disk space (required for Quicktime for Windows installation)
- Double speed CD-ROM drive (300 KB/second transfer rate) or faster
- Windows compatible sound card
- Mouse

The Main Areas For You To Explore
You can access all of the following areas of th CD-ROM from the Under the Covers main menu screen. You may press the "M" key at any time to return to the Main Menu.

Including:

The Map of Los Angeles
An illustrated map of greater Los Angeles is your jumping off point to enjoy many of the stories behind the classic albums and musicians. Twenty-five stories are scattered around the city in neighborhoods like Laurel Canyon; The Desert; The Scene (Hollywood/Sunset Strip); Downtown; and The Beach. Or go on the road for a look at the famous rock festivals Woodstock, Woodstock 94 and Monterey Pop.

The Big 3
Discover up-close-and-personal stories behind three seminal albums from an exceptional era of rock: Crosby, Stills and Nash; Morrison Hotel; and Desperado.

Liner Notes
Here you can enjoy an essay by noted author Ben Fong-Torres which puts the roots of the this era's music in clear context and perspective. Plus you can access the songs which are featured on this CD-ROM.

Photo Gallery
Here you can peruse the extraodinary rock and roll photographs of Henry Diltz.

Album Gallery

Here you can view the album covers designed, alone or in tandem, by Henry Diltz and Gary Burden.

Help
We have designed the navigation on this CD-ROM to be intuitive and easy to use. If, however you need a quick tutorial, please refer to this section which is accessible off the main screen.

Online
From the Online screen you can click on the CONNECT button to quit the CD-ROM and launch to the internet and explore the Under the Covers web site and links to the best rock and roll related sites on the web.

If you do not have an internet provider already, this disc includes Earthlink which is an internet provider that can be installed on your hard drive.

Performance Issues:

To optimize the performance of this CD-ROM, you should quit all other applications you may have running. In addition, you should have your monitor set for thousands of colors. Although the program will run in 256 colors, it will look much better in the thousands mode, and QuickTime™ movies will perform more smoothly.

ENJOY!
