```
                    Slipped Disk Collection
                    -----------------------
```

 SD.1   UN-DMS

Run from CLI,this disk is too full of Abasic programs to try to list.We
tried to,But we gave up!Something for everyone!

                RECOMMENDED FOR EXPERIENCED CLI USERS!!

 SD.2   UN-DMS

Another disk full of CLI abasic progams-to numerous to list!Over sixty
varied programs to choose from.

                RECOMMENDED FOR EXPERIENCED CLI USERS!!

 SD.3   UN-DMS

Yet another disk full of Abasic games puzzles etc.Again,too many to even
try to list!

                RECOMMENDED FOR EXPERIENCED CLI USERS!!

 SD.4   UN-DMS

This disk is self-booting and runs from icons,it is a disk full of Amigabasic
programs including Castle,An adventure role-play game.Lotto,polyhedron,
computer tug 'o' war,fooz football,Crazy 8's and much,much more.Puzzles,games
,demo's and a couple of utilities.

 SD.5   UN-DMS

NuEmacs.A very good micro emacs clone and Amigaterm-a terminal program,are the
main items on this disk,but it does'nt end there because there is also speech-
toy,a program to let you experiment with voices.Freedraw and pallette for
the budding artists and a very good tutorial program called MyCLI which

throws light on some of the mysteries of the CLI.Unfortunately the disk
runs from CLI.

                    RECOMMENDED FOR EXPERIENCED CLI USERS!!

  SD.6   UN-DMS

TREK-Acomputer simulated battle based on the TV series STAR TREK.Sp.and
Usq. file compress/uncompress programs are also on this disk along with
many more utilities such as Filezap,moire,scales and many more.Runs from
CLI.

  SD.8   UN-DMS

This is a disk full of sampled sounds for you to enjoy.Simply pull down the
menu and change the instrument or sound and play on your keyboard!

  SD.9   UN-DMS

This is another disk full of sampled sounds and a player program plus Empire-
the space trading game that is in almost every collection!Also boing! demo.

  SD.11   UN-DMS

HACK.The adventure game tha tis popular on just about every computer and
in almost every collection available.Runs from icons.

  SD.16   UN-DMS

A disk for printer owners with printer drivers for the C.Itoh prowriter,
Canon PJ-1080 colour ink-jet,Epson LQ 800,and a fixed Epson FX driver.Screen-
dump and screendump 2-very useful programs for dumping the screen to your
printer.Scrimper-"Screen Image Printer" saves all the screens and allows you
to select which one to look at.Disksalv-Allows you to salvage all or part of
a damaged disk.Filezap 2.2 and save ILBM are also here.

  SD.18   UN-DMS

Self booting and running from icons,this disk is a very enjoyable collection
of amigabasic programs including Deluxe Draw-a very good paint program
which gives several options -allows you to save your pictures in the
format used by Basic for "Bobs" and "Vsprites".Also,a selection of Utils,
Games and demos.

  SD.21   UN-DMS

MONOPLY-A computerised version of the famous board game in which you play
against three opponents-Self booting.

  SD.23   UN-DMS

YACHTZEE-A port of the classic dice game,plus A-maze and A-maze 2-maze games
with various skill levels.Also on this disk are:DOSPLUS and DOSPLUS 2-utils
to add more commands to your CLI.Diskzap Tracktest.

  SD.24   UN-DMS

A mixed bag of games and utilities on this disk,including Tardis-an adventure
game and Lunar Lander.The third program in this section is a geography
quiz.Also a port of the favourite Go-Moku and the game of life.The utils
are Klock 2,Calendar,Timeset,FontEd and dirutil.Self-booting.

  SD.26   UN-DMS

This disk,although being self-booting,runs much better if loaded from workbench
.The main features are TextEd V2.5-a very good text editor.AQ File-a very
good database/filing system loaded with features and includes sample
databases such as mailing lists etc.Amigabasic programs include games,demos
and utils like, Starterm terminal program,Flipper game,Rubik,Boing,Timeset
etc.

  SD.27   UN-DMS

Features QuickCopy and spritemaker.QuickCopy needs two drives.,Spritemaker
enables you to paint sprites and converts your painting to a C datastructure
that can be used in your programs.Also full of Abasic progs!

  SD.28   UN-DMS

A self-booting disk with a very good selection of games:Backgammon,Cribbage,
Solitaire,Milestone,Othello and Monoply.

  SD.32   UN-DMS

Psound,a really good sound sampler program and Vdraw V1.08,a very good menu
driven and easy to use drawing program with some great features.Also,lots
of Abasic progs!

  SD.33   UN-DMS

VEIW-a very good and useful program backed up with three games,Cosmoroids II,
Missile Command and Clue.

  SD.36   UN-DMS

'JUGGLER'-This demo is now famous worldwide as the best demo ever produced!
Also contains 'Stoneage'a boulderdash clone.

  SD.37   UN-DMS

Makesounds 1.2 allows you to edit raw samples or IFF samples then save as
IFF format to use in your programs.Will also compress them to save disk space,
sample sounds are included.Plus lots more utilities!
