## **SHAREWARE LICENCE AGREEMENT**

### **Warranty Disclaimer**

Please read the following terms and conditions carefully before using this software. Use of this software indicates your acceptance of the terms and conditions stated in this document. If you do not agree with them, then do not use the software. Use of Activity Monitor 1.0 also indicates user's acceptance of the following disclaimer of warranty: **"Activity Monitor 1.0 is supplied as is. The author disclaims all warranties, expressed or implied, including, without limitation, the warranties of merchantability and of fitness for any purpose. The author assumes no liability for damages, direct or consequential, which may result from the use of Activity Monitor 1.0."**

### **Evaluation of the Activity Monitor 1.0**

Activity Monitor 1.0 is a "shareware program" and is provided at no charge to the user for evaluation. Users are free to copy and distribute it, provided they do not give it away altered, as part of another system, or in exchange of any sum of money other than to recover media and handling expenses. The essence of "user-supported" software is to provide users with quality software without high prices, and yet to provide incentive for programmers to continue to develop new products. If you find this program useful and wish to continue to use Activity Monitor 1.0 after a 30-day trial period, you must make a registration payment of \$ 15 U.S. ( plus \$5 shipping and handling) to Author. The \$ 15 U.S. ( plus \$5 shipping and handling) registration fee will license one copy for use on any one computer at any one time. Users registering through the CompuServe SWREG forum will not be charged the shipping and handling fee. You must treat this software just like a book. An example is that this software may be used by any number of people and may be freely moved from one computer location to another, so long as there is no possibility of it being used at one location while it's being used at another. Just as a book cannot be read by two different persons in two different locations at the same time. (A utility program is included with this package to ease the registration process for people not using the SWREG forum on CompuServe; it also converts U.S. dollars in a few other currencies for people wishing to send a cheque by mail.)

Users of Activity Monitor 1.0 must register and pay for their copies of Activity Monitor 1.0 within 30 days of first use or their license is withdrawn.

### **Governing Law**

This agreement shall be governed by the laws of the Province of Québec (Canada).
