GENERAL NOTES

I tried to use more common sense and convenience than Geographical rules in the list. It is "ZONED" in area groups.

The EUR-STH (European South) area includes North Africa, Middle East, and the surrounding countries and Islands. I made it this way for convenience and ease of flying.

Countries with several sceneries built for them are listed individually: UK, IT(aly), BE(lgium), FR(ance), GE(rmany), SP(ai)N, etc.

The Caribbean is coded US-CARIB and not USA-CAR otherwise it would find itself sorted right after USA-CA (California) and would make it difficult to print the Caribbean area only. I guess you know what I mean!

Canada is shown under USCA-?? in order to have Lotus sort it close to the USA because of their closeness. Of course, you can change anything you want and if you have any suggestions, please let me know. Info on missing data will be appreciated.

Any problems? Leave me an E-Mail. Enjoy!
