Getting Started

Two steps are required before The*Drums Professional is ready to run. Once its been installed, it needs to have MIDI drivers installed in Windows. It also needs to be told which MIDI drivers to use. The complete details of how this is done is contained in the help file. You can read it now if you like, by clicking on the help icon below.

Registration

The*Drums Professional is not a free program, but is being distributed under the Shareware concept. This allows you to evaluate the program to determine whether it is worth anything, and then buy it if you are going to use it. You must register the program if you are going to use it.

The version of The*Drums Professional you have is not fully featured. It will not save/import any Standard Midi Files. If you use The*Drums Professional after a reasonable evaluation period of

two weeks, register the program.

The full details on registration are found in the help file, in the Registration topic. You can view this topic now, by clicking on the help icon below.

Commercial

This program "The*Drums Professional" is shareware. A commercial product called **Rhythm Brainz** is also available from MediaTech Innovations. Rhythm Brainz is more than just an enhancement to The*Drums Professional, it is an entirely different piece of software. The full details on Rhythm Brainz are found in the help file.
