These are errors or omissions that I have noted in the book
COMPUTE!'s Beginner's Guide to Assembly Language on the TI-99/4A

Chapter 5

Page 68   7D16   LT   R0,298 should be 7D16   LI   R0,298

Chapter 6

Page 90   SLR   R3,3 should be SLA   R3,3

Chapter 7

Page 111   line 4   STTREF should be STRREF

Page 122   7FE0   TEXT 'UTIL should be 7FE0TEXT 'UTIL '

Chapter 9

Page 151   7D6A DT DATA >6080,8401,>D000
 Should be   7D6A DT DATA >6080,>8401,>D000

Chapter 10

Page 179 I think that you need to add CLR @>837C in a line ahead of 7D30   B *R11

Chapter 11

Page 197   Add line 7D50   AI R1,>0100

Page 213   Add line 7D28   BLWP @>6034

Page 227   Top line 7FFE should be 7EFE

These are the only ones that I have found. There may be more.
