**Dear TI Owner:**

Welcome to our Special Upgrade Issue of the Everything Book for the TI Home Computer.

In the six years since the TI 99/4A was introduced, personal computing has changed tremendously. Graphics, software, memory, and virtually every other area have been constantly evolving and improving. Our objective in this special issue is to show you how to bring your computer system up to date in a way that meets your needs best.

We have included solutions that are compatible with your TI 99/4A, as well as other solutions which, while not TI compatible, may be most appropriate for some families. We've tried to include enough information for you to make an informed decision, but of course, if you have a question before making a purchase, please call our friendly, well-trained customer service people.

We've recently further expanded our computer system and warehouse shipping system to make our service even better. Our new systems are absolutely state of the art; if you liked our service before, you'll find it even faster and more efficient now. Of course, our prices remain the lowest in the business.

Why do we keep investing in improving our business? Why do we have such low prices? **Because we want to be your computer company!**

**UPGRADE UPGRADE UPGRADE**

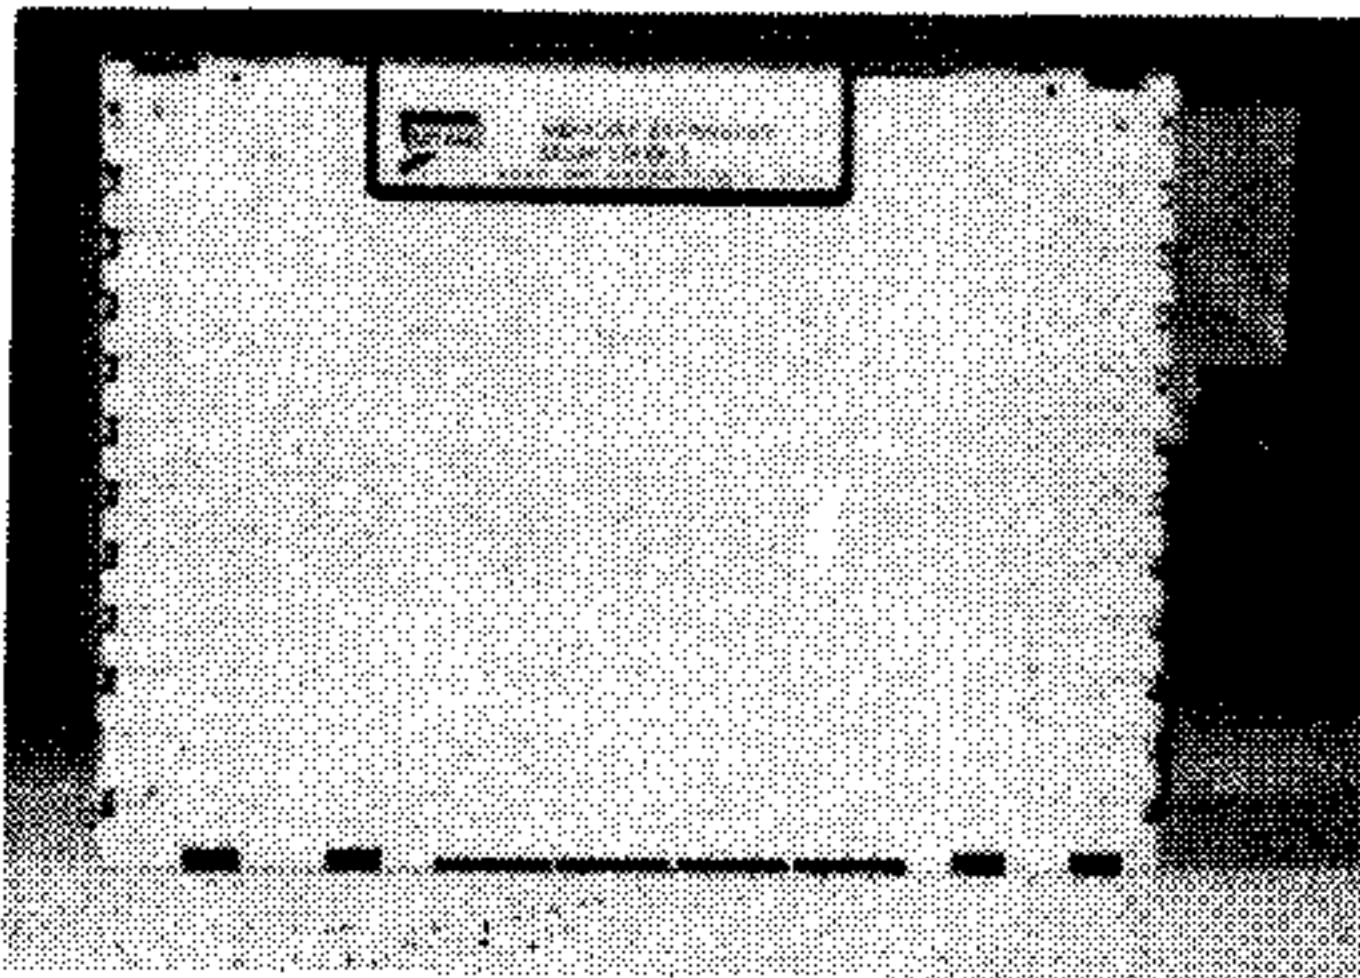

**MYARC HARD DISK SYSTEM**

**ADVANTAGES:**

- ✓ Much faster loading and saving of programs and files
- ✓ Compatible with both 99/4A and Geneve 9640
- ✓ Accommodates large data files
- ✓ Eliminates most floppy disk handling
- ✓ Allows logical organization of disk files.

If you are currently the owner of a TI 99/4A with an expansion box who has become frustrated by slow loading and saving of disk files, tired of floppy swapping, and is looking for a better solution to data storage than a desk full of disks, check out the Myarc Hard and Floppy Disk Controller. It will let you store data on super fast hard disk drives with storage capacity you only dreamed of in the past. A 20 megabyte disk drive, for instance, will hold as much as 220 original TI floppy disks!

One more note: all the hard drives sold by TENEX for TI use are compatible with IBM computers, the TENEX Turbo, and IBM compatible computers. So even if you eventually switch to IBM compatibility, you will be able to recover a portion of your TI investment.

"It was worth the wait."

— John Koloen, Editor  
*Micropendium.*

**MYARC HARD AND FLOPPY DISK CONTROLLER.** At last, here's the peripheral that TI should have produced but never did. For years, TI owners have struggled to get more storage capacity than TI's original 90K floppy disk drive. First, they upgraded to double-sided, and then to double-density floppy drives — an improvement, but nothing compared to hard disk speed and power.

Imagine being able to store all your software and files on one disk that's built right into your computer. Imagine retrieving these files with blinding speed (the only thing faster is the computer's own RAM memory). Imagine organizing your files into convenient directories for easy retrieval. Well, imagine no more — now you can own your own TI compatible hard disk system.

If you already own an expansion box, there is no other upgrade that you'll find as productive as a hard disk system. Don't just take our word for it — if you have a friend with another computer who uses a hard drive, ask them if they would go back to just floppy drives again. We'll bet they say, "Not on your life!" Once you start using a hard disk, you'll be totally spoiled by the speed and convenience.

The Myarc hard and floppy disk controller will handle up to three hard disk drives and four floppies, plus an optional tape backup. Compatible with TI 99/4A and Geneve 9640. Great for everything from game collections to business and productivity applications.

65341 Myarc Hard and Floppy Disk Controller

\$299.95

**Supercharge Your TI With 512K Of RAM Plus Extended Basic Level IV**

- RAM Disk • Print Spooler • Dozens Of New Commands
- Actually Makes Your TI Much Faster!

**SPECIAL PACKAGE: 512K CARD.** Step up to big-time personal computing with this powerful card for your expansion box! In addition to giving you bank-switched access to 32K blocks of memory, this exciting card **includes** (at no extra charge!) RAM disk and print spooler routines built-in! Imagine storing your programs of files in memory and being able to load them instantly! A fantastic productivity aid for users of TI-Writer or similar programs where one must switch programs or files frequently! The print spooler lets you "print" at high speed directly to memory — great for downloading files or text.

42231 Myarc 512K Card with Ext. BASIC Level IV

\$339.95

42245 Myarc 512K Card

\$289.95

Rated "A" by *MICROpendium*

**EXTENDED BASIC LEVEL IV.** Executes up to 3 times faster than TI Extended BASIC — makes your TI 99/4A as fast as an IBM PC. Features include 40 character display mode, windowing, high resolution graphics and many new commands including DRAW, FILL, CIRCLE, etc. Requires Myarc 256K or 512K card, and disk drive.

38179 Myarc Extended BASIC II

\$69.95

**POWER PAK.** Want to keep the memory in your 128K card there when you turn off your expansion system and computer? Just connect this handy power pack to the jack provided on the card. (Caution: Not for archival data storage).

38107 Power Pak

\$12.95

**Disk Controller Card**

- Controls up to 4 drives!
- Single or Double-Sided!
- Single or Double-Density!
- Disk Manager on Disk!

**DISK CONTROLLER.** Each card comes with a disk-based disk manager. The card will control from 1 to 4 floppy disk drives; each drive can be single or double-sided and single or double-density. To connect 2 half-height disk drives inside the expansion box, purchase cable assembly #31045. (See page 34.)

32972 Disk Controller

\$169.00

**Interface Card**

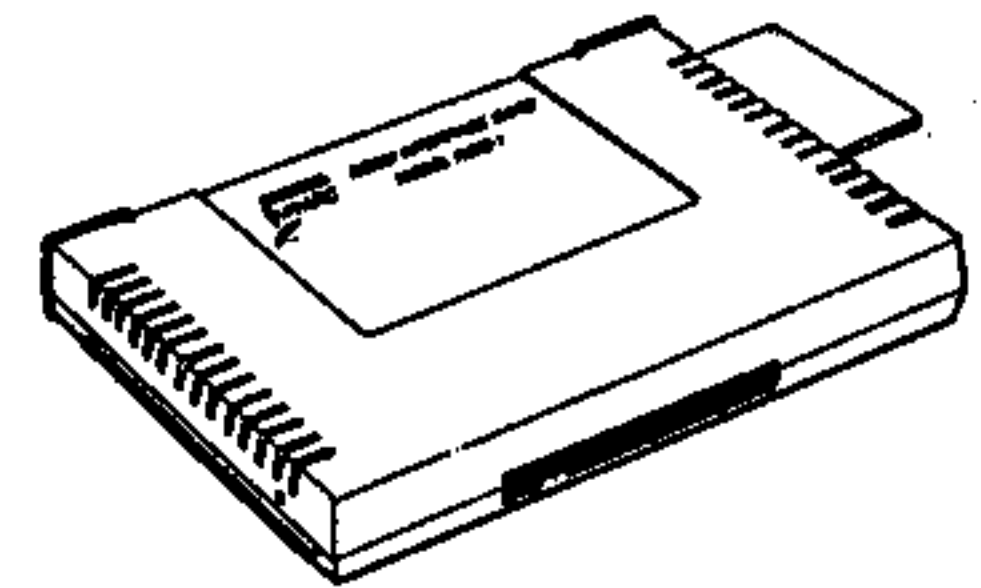

**RS-232 Card**

**Features 1 parallel and 2 serial ports** (requires Y cable #10069 on page 38 to access second serial port). Fits perfectly in TI Expansion Box. Extensive manual included.

32986 RS-232 Card

Sug. Retail \$120.00

\$99.95

To maintain low user prices, Myarc is now shipping most expansion cards as "IBM-style" bare boards for direct insertion in your expansion box.

**20 MEGABYTE DRIVE FOR EXTERNAL USE.** This drive will increase your storage to more than 200 times the amount of an original TI floppy disk. Speedy 28 msec. access time, low power consumption, and automatic head parking. Requires External Hard Disk Box and Power Supply and Cables for External Hard Disk (below). (Note: while some users have successfully installed this drive in their expansion box, we recommend external installation to insure adequate power for the hard disk drive.)

65363 20 Meg. Hard Disk — External

\$359.95

**HARD DISK BOX & POWER SUPPLY.** For using a hard disk drive outside the expansion box.

65364 Hard Disk Box and Power Supply

\$149.95

**EXTERNAL CABLES FOR HARD DISK.** For connecting a hard disk (external) to the Myarc Disk Controller Card.

65374 External Cables for Hard Disk

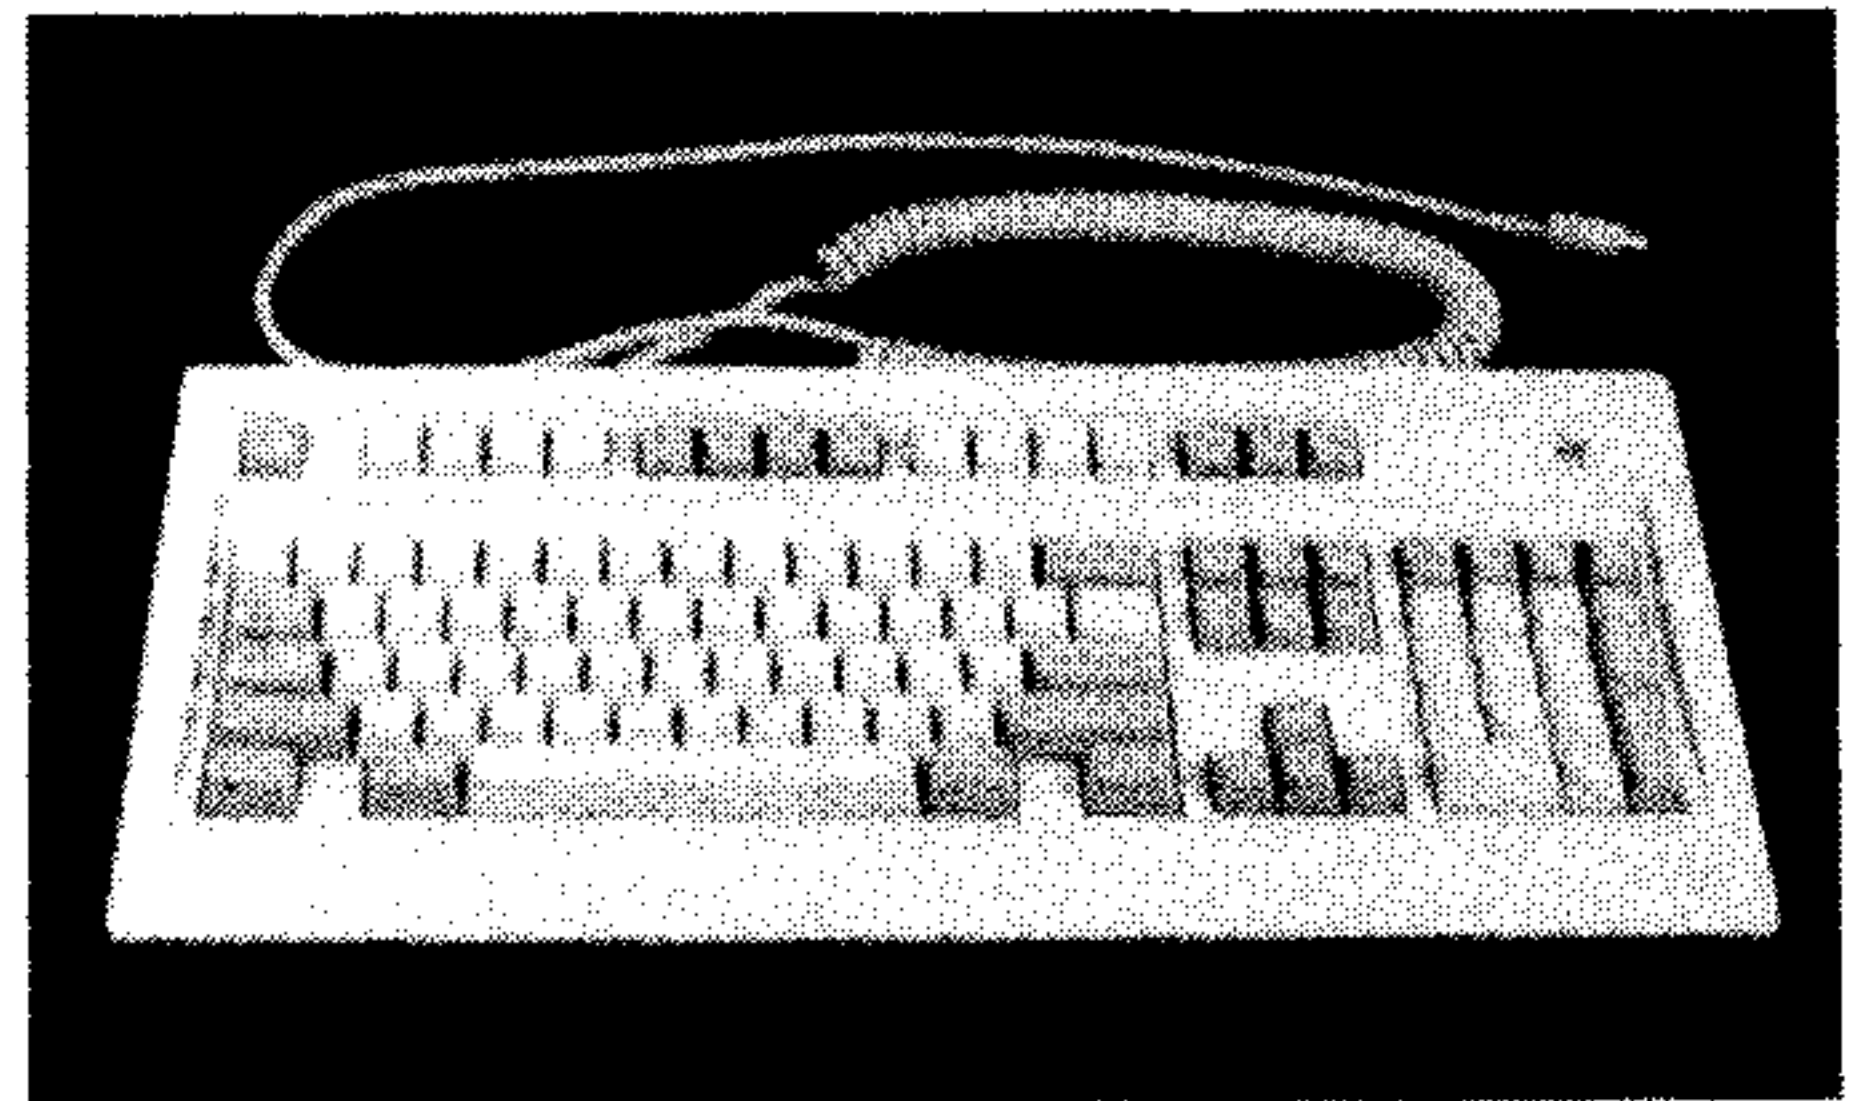

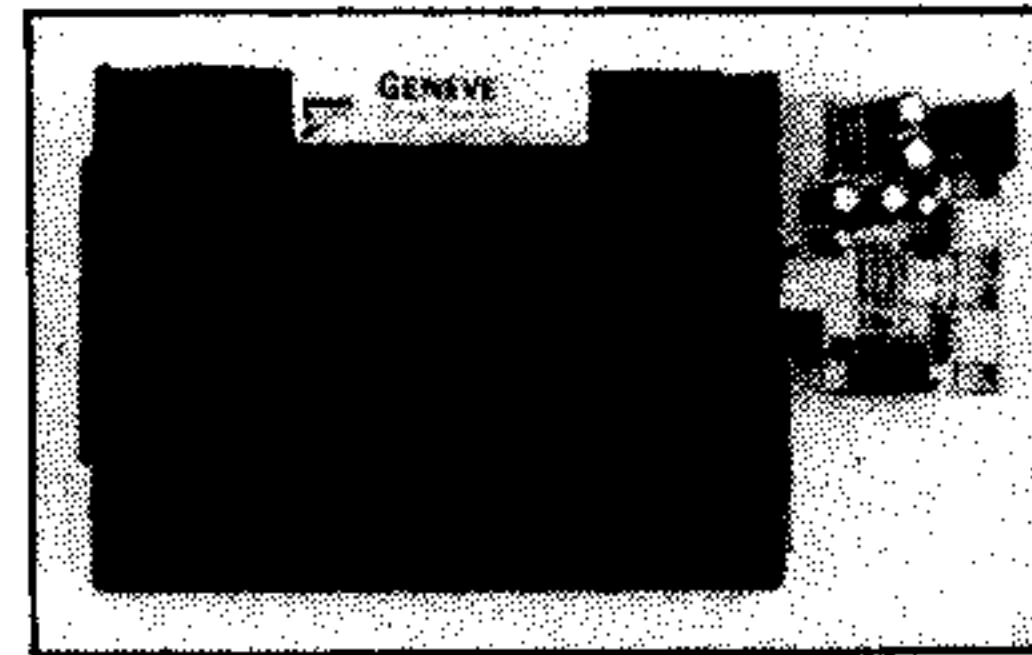

\$24.95

489<sup>95</sup>

**Geneve 9640  
 Computer**

**MYARC™**

**MYARC GENEVE 9640 COMPUTER.** If you are a serious TI 99/4A user who doesn't want to change computer formats but needs more power and speed, the Geneve 9640 is for you. First, it runs virtually all existing TI 99/4A software, so you can continue to use all your old favorites. Software to convert your cartridges to disk format is included.

Second, the Geneve offers outstanding graphics and an 80 column display. My-Word, an 80 column TI-Writer look-alike is included, as is a patch to make your Microsoft Multiplan work in 80 columns. Just think — no more bouncing windows and meager 40 column display.

Third, the Geneve is fast! It runs your existing TI software up to five times faster than your 4A.

The Geneve consists of a card for your expansion box (required) and a superb keyboard with separate function keys, cursor keys, etc. Once you convert your cartridges, you'll never have to use your old 4A keyboard or bulky "firehose" cable again. The Geneve is compatible with your existing disk controller card and RS-232 card. Displays supported are composite (marginal for 80 columns), hi res monochrome, and analog RGB.

**65741 Myarc Geneve Computer/Enhanced Keyboard \$489.95**

**My-Art Software  
 And Mouse  
 For Geneve 9640**

**MY-ART DRAWING SOFTWARE AND MOUSE.** One of the biggest reasons to buy a Geneve 9640 computer is its graphics capability — here's one of the best ways to access that impressive capability. My-Art is a very fast, very powerful drawing program that enables you to create high quality, high resolution artwork. All the commands you would expect to find in a high quality drawing program, like fill, box, circle, line, magnify, etc. are here. The package also includes a high quality mouse for fast, smooth input. Requires Geneve 9640 Computer System.

Sug. Retail \$135.00

**73939 Art & Mouse, Geneve Disk \$119.95**

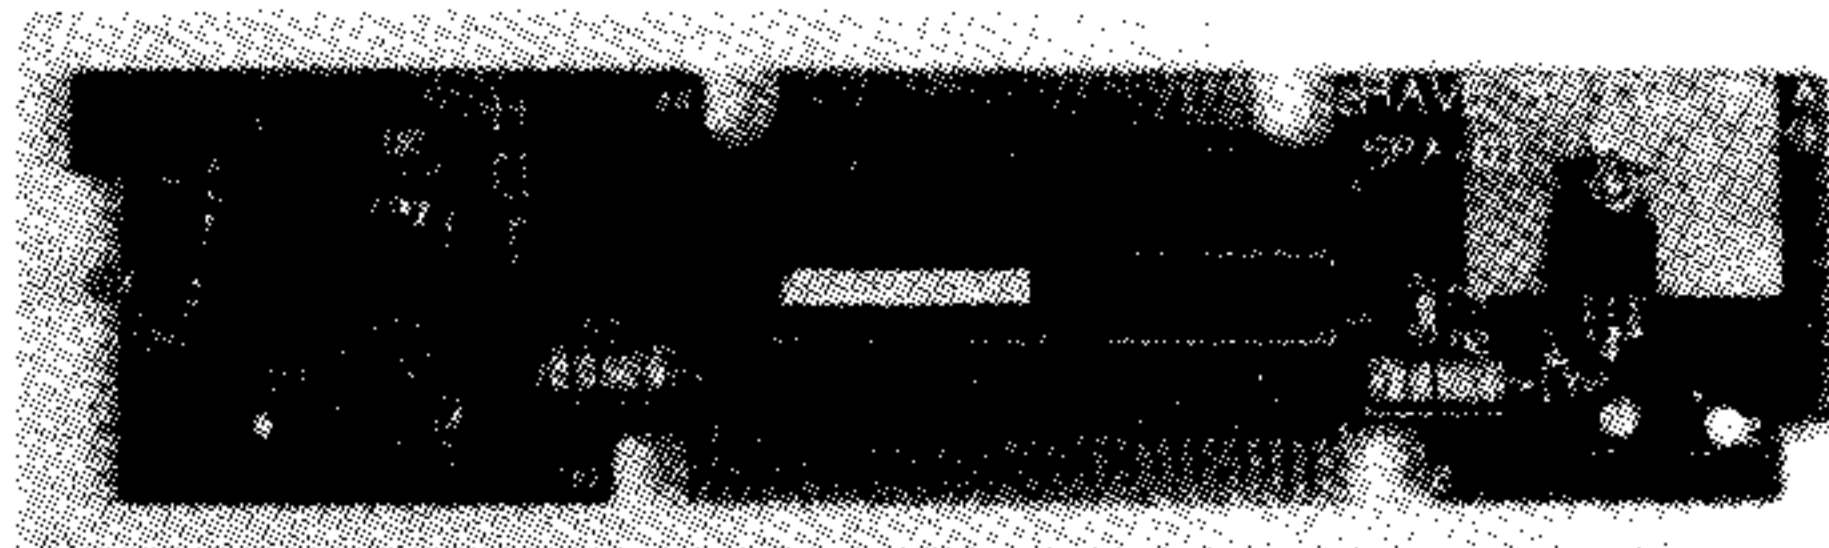

**My-Art Coloring Book**

**MY-ART COLORING BOOK.** Generate beautiful, high-resolution pictures on the Myarc Geneve. It's use of the mouse makes it ideal for young children to experiment with art. The My-Art Coloring Book takes this one step further with a collection of detailed drawings which may be filled in with color, modified or printed out. Requires a Myarc Geneve 9640, My-Art with Myarc Mouse. From Asgard Software. Sug. Retail \$9.95  
**80132 TI, Disk \$9.95**

**Speech For Geneve From Rave 99**

**SPEECH ADAPTER CARD.** Finally, there's a low cost method to move your TI-Speech Synthesizer from the side of the console to the Peripheral Expansion Box (PEB). It takes only minutes to remove the housing from your speech synthesizer and install into the P.E. Box. And it's versatile, too. It is compatible with the TI 99/4A, 9640 Geneve Computer and is software compatible with the TI Speech Synthesizer. Its high quality construction and 90 day warranty make this Speech Synthesizer Adapter Card an excellent addition to your computer and a super bargain. From Rave 99.

**75918 Speech Adapter Card**

**\$49.95**

**UPGRADE UPGRADE UPGRADE**

**CORCOMP MICRO-EXPANSION SYSTEM**

**ADVANTAGES:**

- ✓ Complete TI 99/4A Compatibility
- ✓ Plugs Directly Into TI 99/4A Side Port
- ✓ Includes Disk Drive, 32K Memory, plus printer and Modem Ports
- ✓ Much Smaller and Quieter than TI Expansion Box

If you have a TI 99/4A Console, and want to be able to use more powerful disk-based software, this is the way to go. With this one compact package, you'll get a floppy disk drive, including controller, power supply, housing, and cables; a 32K memory expansion, a necessity for most advanced software packages; a parallel printer port, which will let you connect virtually any printer on the market today; and a serial port, which can be used to connect a standard modem for communication with other computers, online services, data-bases, bulletin boards, etc.

Users who have become used to the TI 99/4A and who do not wish to convert to another machine should consider the CorComp Micro-Expansion System as an ideal way to simultaneously add disk capability, expand memory, and add both printer and modem ports.

Only  
**459<sup>95</sup>**

- CorComp 9900 Micro-Expansion System:
  - Parallel Printer Port — RS 232 Port
  - 32K Memory Expansion —DS, DD Disk Controller
- Half-Height Disk Drive • Disk Drive/Cable Package
- External Box with Power Supply • Filler Plate

**9900 MICRO-EXPANSION SYSTEM.** Have you ever been jealous of your friends who spent thousands of dollars on "full-blown" computer systems while you remained loyal to your TI 99/4A console and cassette recorder?

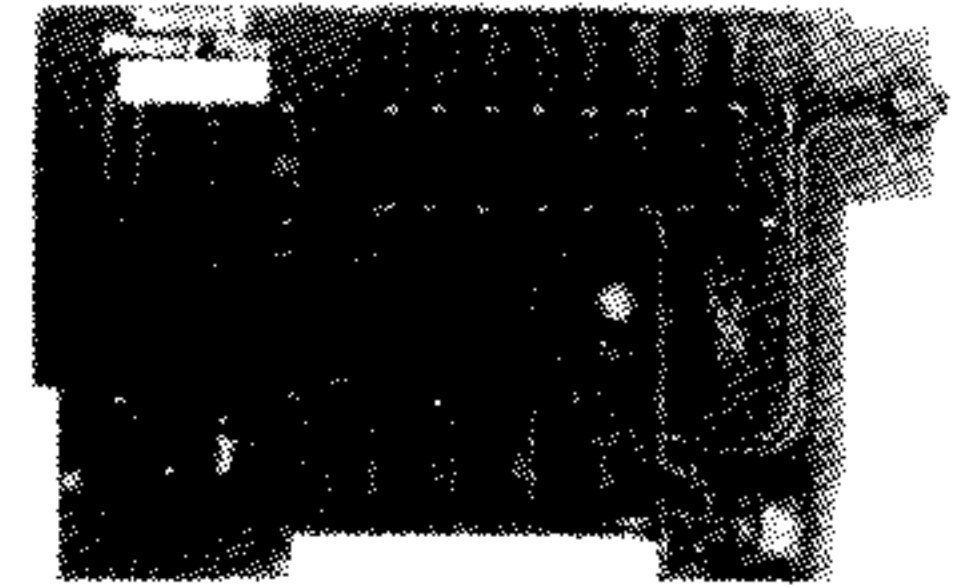

Now you can move up to the "big league" for only \$459.95! This high performance expansion system package offers you a powerful, flexible, **affordable** way to expand your TI 99/4A!

The compact CorComp 9900 Micro-Expansion System unit plugs into the side port of your console and contains an RS-232 interface (allowing hook-up of printer and/or modem); a 32K memory expansion; and a disk controller card with Disk Manager on diskette capable of formatting **double-sided, double-density** diskettes (this card earned straight "A's" in a review by *MICROpendium*). Add a half-height disk drive that offers up to 360K of storage when used to its full double-sided, double-density potential, a box and power supply containing room for a second half-height disk drive (our package includes a filler plate to cover this extra opening until you expand to a second drive); and the disk drive Y cable package (pin-type) to hook your drive up properly. . . and you have a complete computer system that will rival systems costing much, much more!

**33655** 9900 Micro-Expansion System **ONLY \$459.95**

**512K Memory Plus**

- Use with TI PE-Box!
- Super-size RAM disk for lightning quick program and data retrieval!
- Power supply keeps data in memory even if computer is turned off!

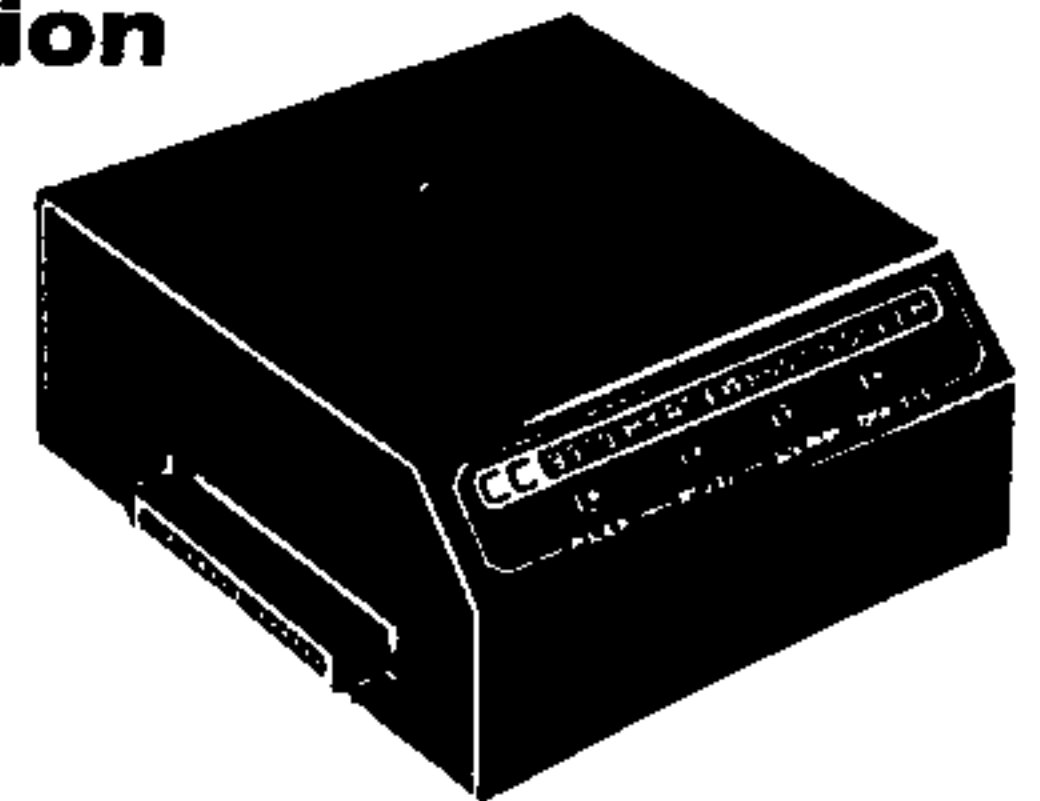

**512K MEMORY PLUS CARD.** If you want to install more memory in your TI Peripheral Expansion Box, use the powerful 512K Memory Plus card from CorComp. The Memory Plus card has its own power supply so that your data and programs stay there even if you turn the computer off. The RAM disk, which acts exactly like a floppy disk except that it allows nearly instantaneous retrieval of data and programs (great for TI-Writer or Multiplan), can be selected as DSK 1, 2, 3, 4, or 5. Your existing 32K card must be removed to install your new Memory Plus card. Total memory on line will be 512K (with 480K available for RAM disk, etc.) Solve your memory problems today!

**41065** 512K Memory Plus Card with Power Supply **\$349.95**  
Prices may vary dependent upon component availability.

**CorComp Expansion Components**

- Compact
- Quiet
- Powerful

**CORCOMP EXPANSION COMPONENTS.** An economical way to expand the versatility of your TI 99/4A home computer. This unit (about the size of 2 Speech Synthesizers) plugs directly into the side port of the computer and eliminates the need for a large expansion box.

The system is available in the following configurations:

- **STAND-ALONE RS-232 INTERFACE.** Get started! Provides 2 serial ports and 1 parallel port for connecting printers, plotters and modems.  
**29784** Stand-Alone RS-232 Interface **\$127.00**
  - **MICRO-EXPANSION SYSTEM — Complete!** SAVE! The RS-232 Interface with 32K memory and disk controller card (supporting double-sided, double-density) installed. Up to 360K of storage per disk!  
**29802** Micro-Expansion System **\$299.95**
- All configurations offer 120 day manufacturer's warranty.

**SPECIAL! UPGRADE YOUR CORCOMP RS-232 STANDALONE**

If you are one of the many users who purchased a CorComp RS-232 stand-alone unit, you can now add 32K of additional memory plus a disk controller (double-sided, double-density for up to 360K storage per disk) for a new low price! An easy and inexpensive way to expand your system!  
**29799** Upgrade Kit **\$199.95**

**CORCOMP** is the world's leading manufacturer of TI compatible peripherals. They offer high quality technical support by phone and fast, fair repair service for CorComp products during and after the warranty period.

To maintain low user prices, CorComp is now shipping most expansion cards as "IBM-style" bare boards for direct insertion in your expansion box.

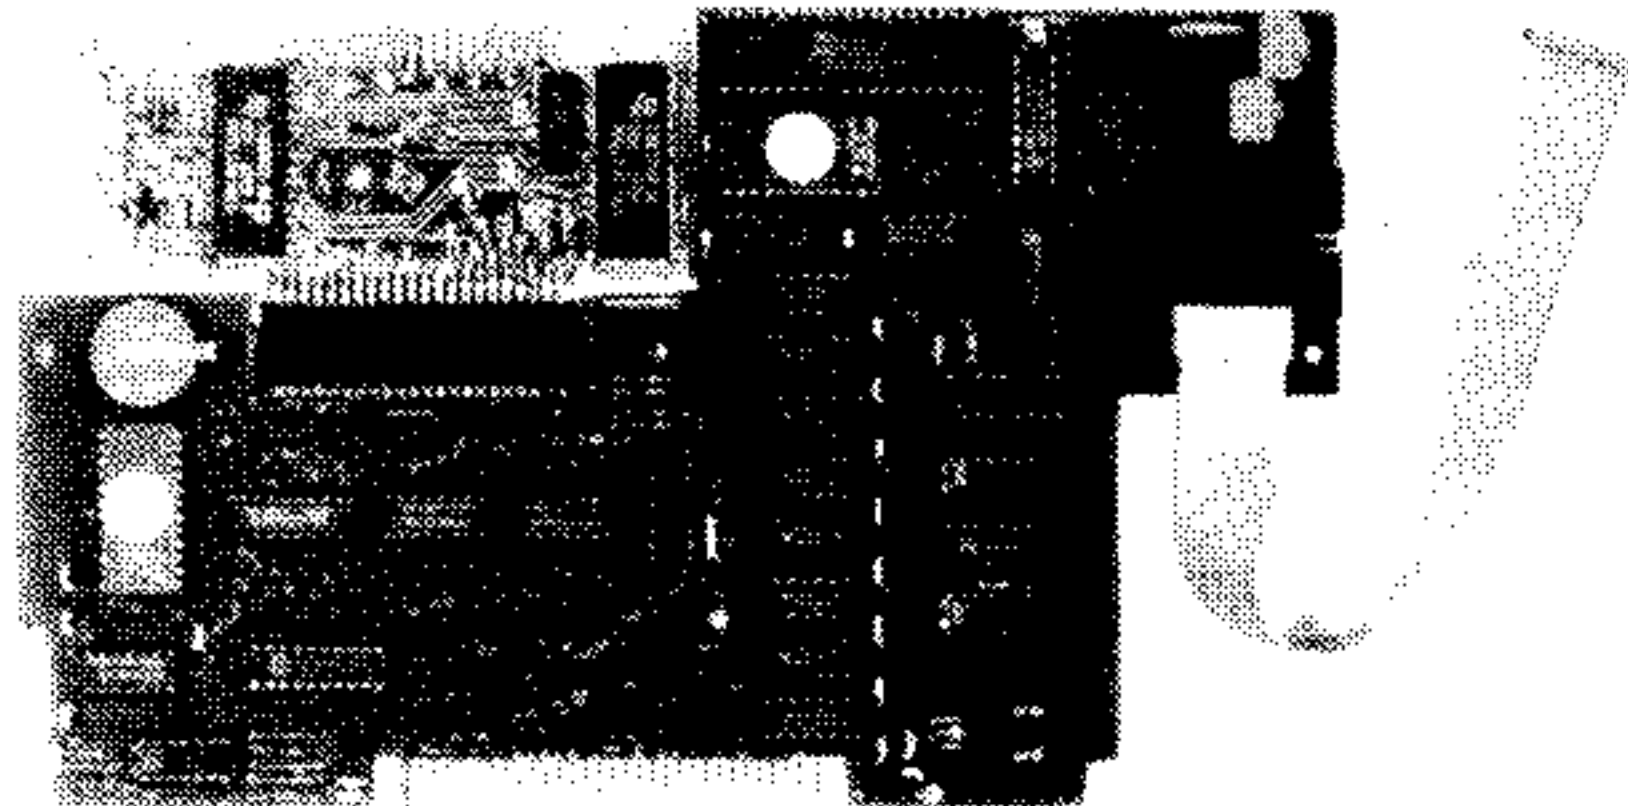

## Triple Tech

- Clock/Calendar!
- Printer Buffer!
- "Hidden" Speech!

**129<sup>95</sup>**

**TRIPLE TECH.** An exciting multifunction board from CorComp that plugs into your expansion box! The **Clock/Calendar** lets you access YEAR, MONTH, DATE, DAY, HOURS, MINUTES, and SECONDS easily from BASIC or Extended BASIC. A great feature for bulletin board systems, time management, and hobby applications. The **Printer Buffer** is compatible with almost all printers and requires **no** user modification of software. It holds up to 64K of output and features a copy function for immediate duplication or print-out. "Clear" function also included.

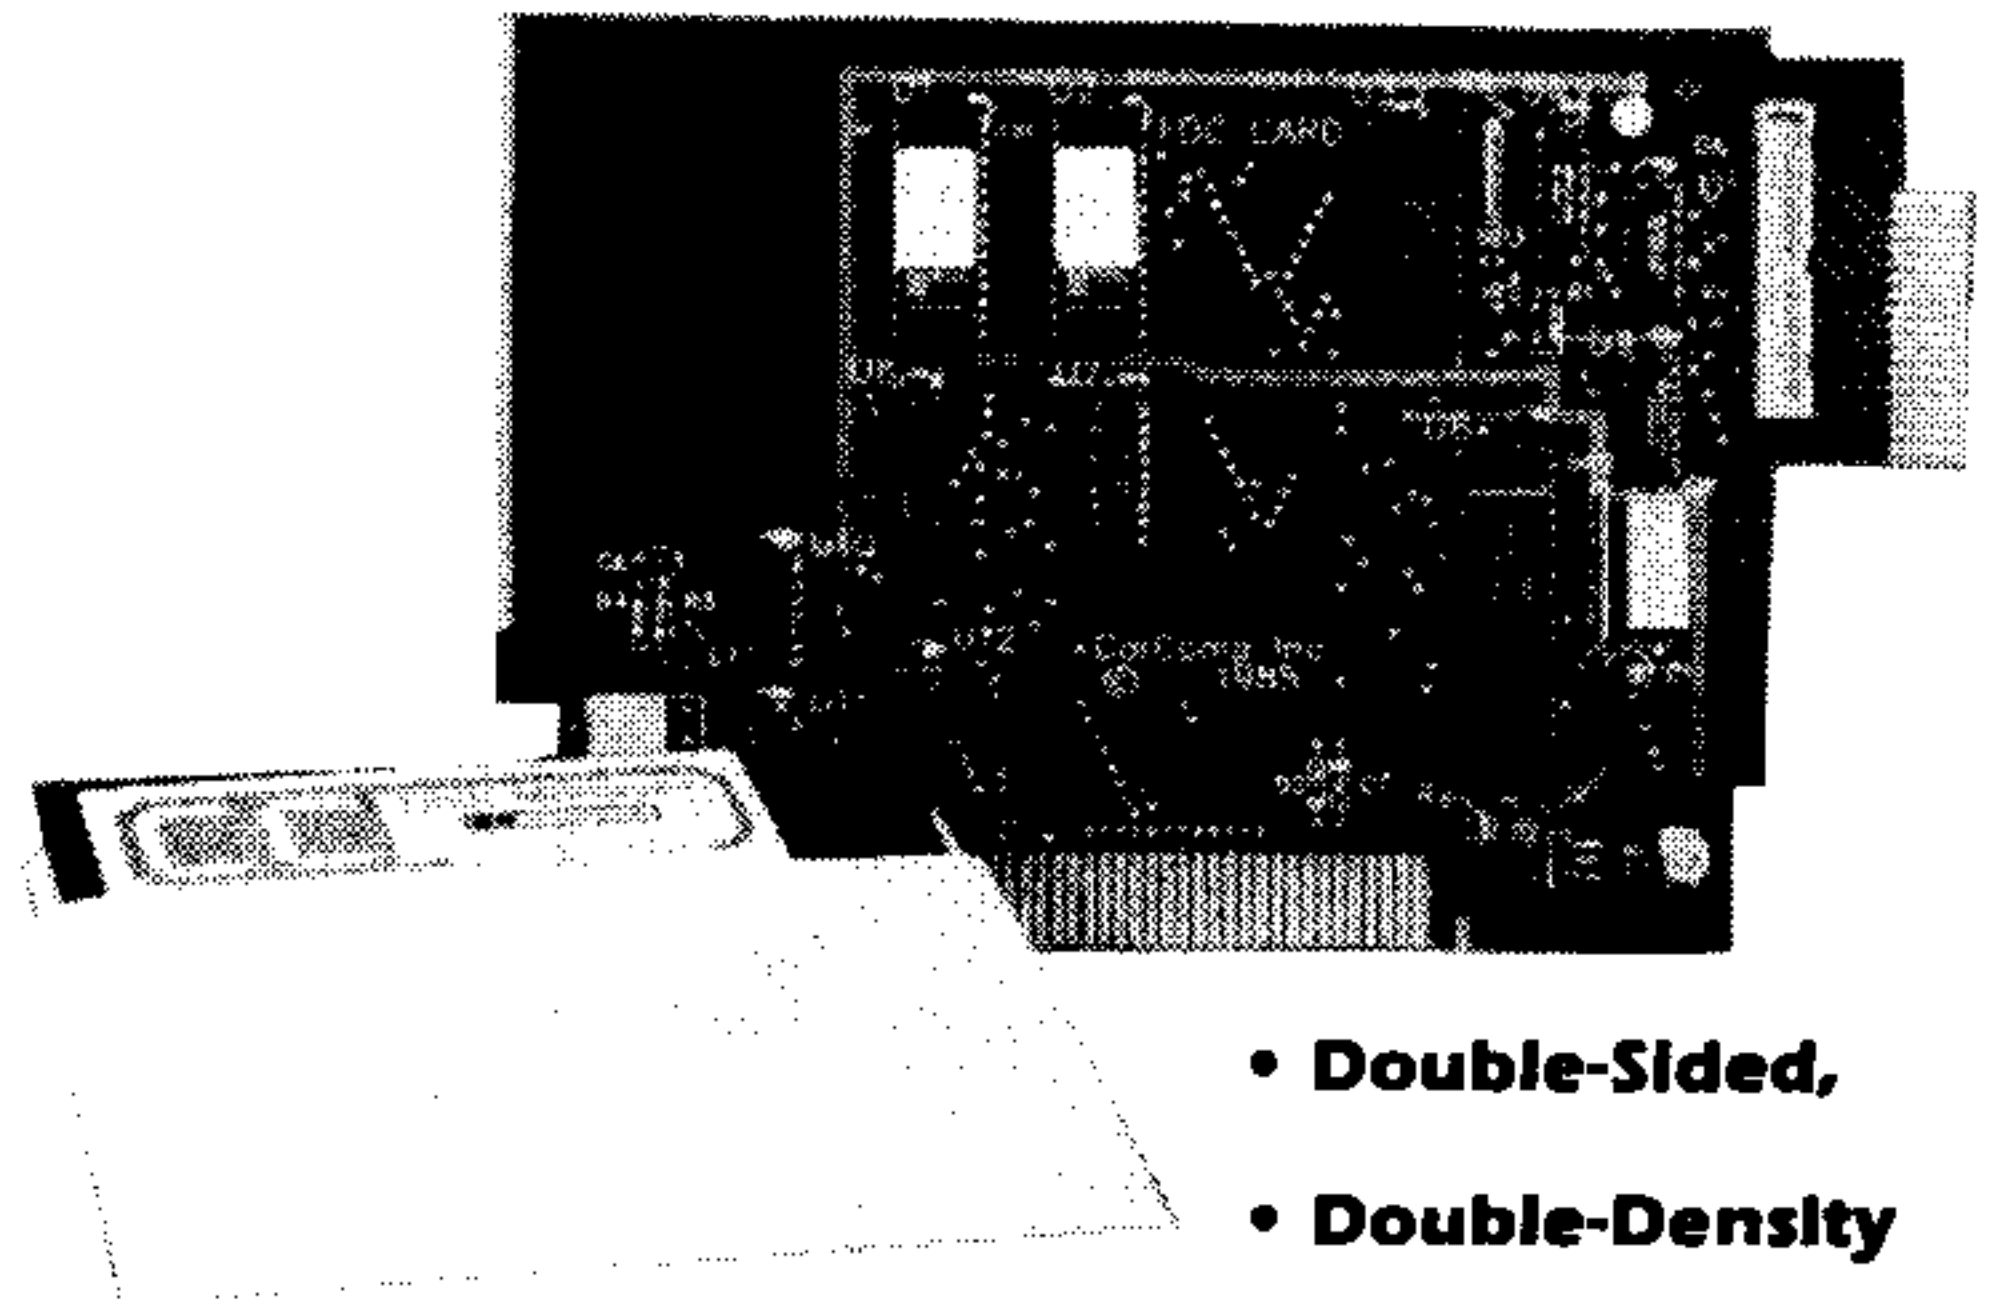

The **Speech Synthesizer Connection** lets you remove your TI speech synthesizer from the side of the computer and hide it in your expansion box! All speech functions are unchanged, but your computer is now neater and narrower!

Any of these functions are a value — to get all 3 in 1 economical package is the best deal of the year! Order now.

34643 Triple Tech

**SALE! \$129.95**

## Disk Controller Card

- Double-Sided,
- Double-Density
- Disk Controller

**9900 DISK CONTROLLER CARD.** Fits in the TI Peripheral Expansion Box. Controls up to **FOUR double-sided, double-density** disk drives and allows mixing any combination of drives; half-height or full-height, single-sided, single-density, double-sided, double-density. Loads files 2-4 times faster than with the TI disk controller. The Disk Manager program is **included** on diskette and provides many enhancements such as allowing you to Load and Run Assembly Language programs without using the Editor/Assembler module. Other additional commands: CALL PEEK, CALL POKE, CALL PEEKV, CALL POKEV, CALL MGR, CALL EXEC, CALL MOVEM. The card also has a provision for setting the head seek times for all 4 drives, allowing use of some of the faster disk drives on the market. Allows sophisticated features, yet is very simple to use. 120 day manufacturer's warranty. Requires cable assembly #30751 listed below for hooking up to one internal drive (inside peripheral expansion box,) #31045 for 2 drives. Requires 32K to use disk manager software.

**29770** Disk Controller Card

**30751** One Drive Cable-Pin Type (see page 35)

**31045** Y Cable Package-Pin Type (see page 35)

**TENEX TURBO IBM COMPATIBLE**

**ADVANTAGES:**

- ✓ 100% IBM Compatible
- ✓ Thousands of Software Titles available, Including: Bestsellers like WordPerfect, Lotus 1-2-3, and dBASE 3 Plus; Games and Education titles from Epyx, Electronic Arts and more
- ✓ #1 in business applications for easy work portability

A few years ago, the IBM Personal Computer had racked up impressive numbers of business installations but had not done particularly well as a home computer. All that has changed. The introduction of low priced IBM compatible computers like the TENEX Turbo made it easy for busy professionals to have a computer at home and, instead of dragging a portable computer home from the office, just bring home a disk or two for evening or weekend work. This influx of IBM compatibles didn't go unnoticed by the software companies, either. Now, virtually every maker of entertainment and education software has a full line of IBM products. The TENEX Turbo is an ideal choice for users who want to be able to accommodate a variety of uses by all family members, and want to be assured of continued availability of an enormous selection of software.

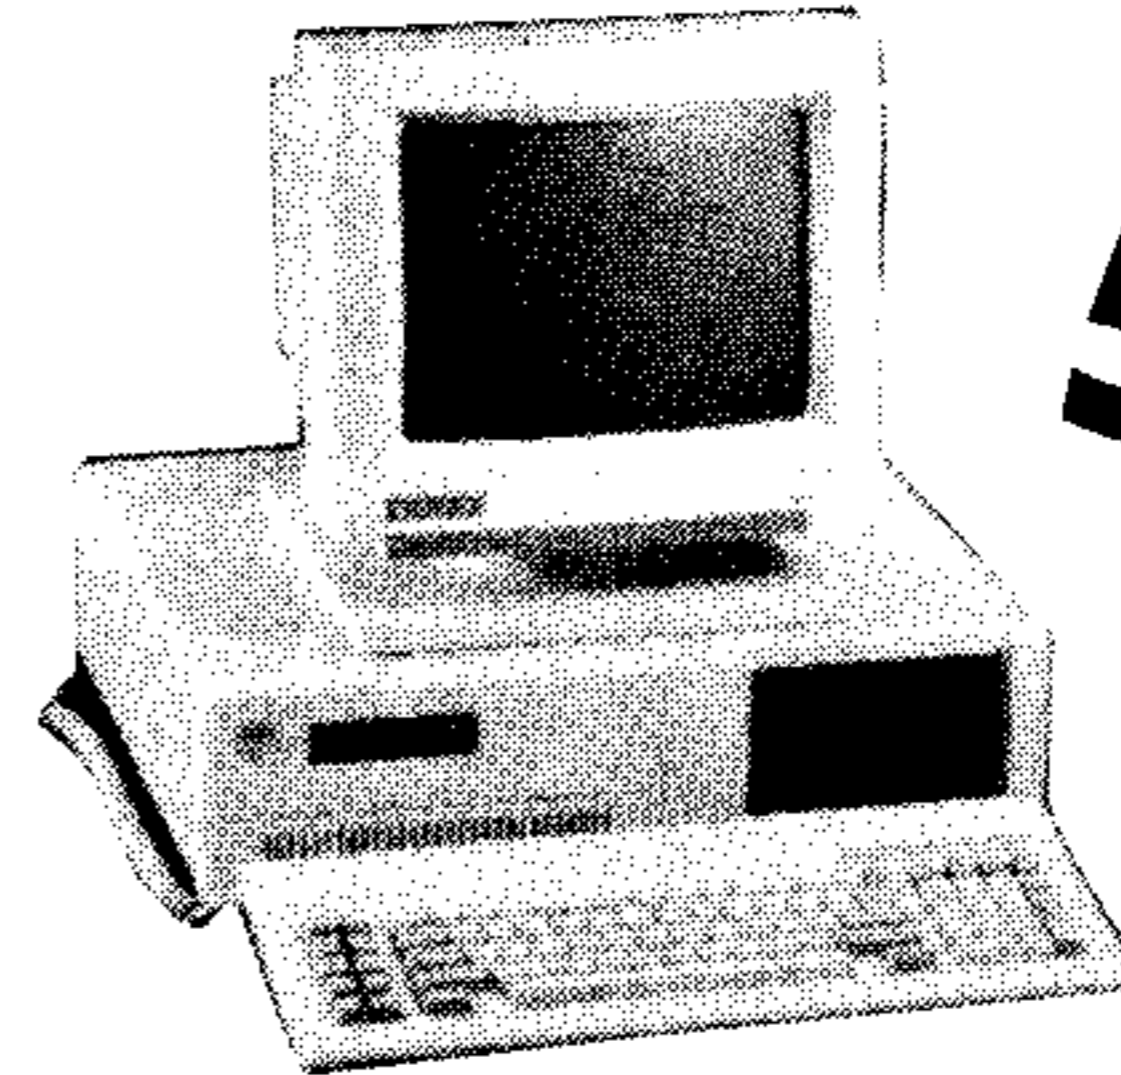

**FEATURE PACKED**  
**99500**

Completely compatible with IBM's AT, but can operate at either 8 or 10 MHz! Comes complete with all this: 640K RAM (expandable to 1 Meg. on motherboard), clock/calendar with lithium battery, one 1.2 Meg. 1/2 height floppy drive, parallel printer port, color graphic OR monochrome graphic monitor adapter, and AT style keyboard. Full-sized metal AT style case with key lock and indicator lights, and 200 watt power supply. You have to try our machines to truly believe the quality, performance and true compatibility.

Color card is compatible with RGB color monitors (IBM's CGA standard). Monochrome card is compatible with TTL monochrome monitors. All support Lotus graphics. For the ultimate in color resolution, consider the great enhanced graphics adapter (EGA) systems listed on opposite page.

- K74880** Turbo 286, Mono System **\$995.00**
  - K74894** Turbo 286, Color System **\$995.00**
- (Please add an additional \$15.00 to our regular shipping charges.)  
Shown with optional amber monitor.

Shown with optional amber monitor.

**FULLY LOADED**  
**59500**

Designed and built by your TENEX technicians, this is the most full-featured, best performing, and lowest priced IBM compatible computer you will find anywhere! Compare these features:

- 2.1 times faster than IBM's PC/XT!
- Full 640K RAM installed on motherboard!
- One 360K double-sided double-density floppy disk drive!
- Parallel printer port!
- AT style case with lighted indicators and turbo/reset switches.
- Serial port for modem or serial printer!
- Color graphic card for RGB color monitor!  
OR monochrome graphics card for monochrome monitor!
- Real-time calendar clock!
- Joystick and lightpen port!
- Controller for second disk drive!
- Guaranteed Lotus 1-2-3 compatibility!
- Terrific new IBM-AT style keyboard!
- FCC certified and legal BIOS!
- **Full 1 Year Warranty Plus the TENEX Satisfaction Guarantee!**

For this breakthrough price, you have a complete system with **more** computing power than the IBM PC/XT! Take your system out of the box, plug it in, connect your monitor and printer . . . and off you go. Run Lotus 1-2-3, dBASE III, Wordstar, Flight Simulator, and the thousands of other PC software products. Full-size metal chassis gives you 8 expansion card slots **and** room and power cables for 4 half-height disk drives.

You choose the speed of calculation: standard 4.77 MHz or 10 MHz. Zoom through programs 1.6 times faster than the IBM PC/XT (Norton benchmark).

The detachable keyboard mirrors the famous IBM AT in looks, quality, and feel. Features 10 function keys, numeric keypad, extra large shift and return keys, and lighted indicators for scroll, caps, and number lock.

Your TENEX Turbo PC/XT will accept IBM compatible components, giving you flexibility in expanding your system and security in the event repair is needed. And remember your TENEX technical staff services what we sell!

No corners have been cut in producing this incredible system for this amazing price . . . we just used our same purchasing power and Ph.D. technical staff we use to bring you the other terrific products found in our catalogs. Note: an IBM compatible disk operating system (DOS) is required. Use your own or choose the one listed on this page.

- K74864** Turbo PC/XT Plus, Mono System **\$595.00**
  - K74875** Turbo PC/XT Plus, Color System **\$595.00**
- (Please include an additional \$10.00 to our regular shipping charges.)

**MICROSOFT MS-DOS 3.3** This is Microsoft's latest operating system that is compatible with both floppy and hard disks. So if you need DOS for your new Turbo, look no farther. Also included at no extra cost is GW-BASIC. Includes all documentation.  
**74297** MS-DOS 3.3 **\$109.00**

**The Hard Disk Difference**

With a hard disk system, gone will be the endless disk shuffles. Load and run your software in seconds without floppies. Save your data the same way. A must for the intensive computer user and sure to spoil the rest of us. You have (almost) instant and effortless access to 2,000K (20Meg) or more of storage. Compare this to 360K on the normal double-sided double-density floppy and you can see why hard disks are so popular.

With TENEX's incredibly low prices, you can enjoy the speed and convenience of the best hard disk systems! Remember, free installation and testing

when you order together with a TENEX IBM compatible computer.

**20 MEGABYTE HARD DISK (FOR TURBO 286 OR OTHER AT COMPATIBLES).** Internally mounted 20 Meg. Seagate hard disk for the AT and compatibles.

**67771** 20 Meg. for AT **\$249.95**

**20 MEGABYTE HARD DISK SYSTEM (FOR PC/XT).** The Famous Seagate ST225 internal hard disk system. Complete with controller card and cables.

**K67345** 20 Meg. System **\$279.95**

**UPGRADE UPGRADE UPGRADE****AMIGA****ADVANTAGES:**

- ✓ **Outstanding Graphics & Sound**
- ✓ **Superb Games and Education Software**
- ✓ **High Quality Productivity & Business Applications**
- ✓ **Unique Desktop Publishing Features**
- ✓ **The Leader In Video & Animation Applications**

Since its introduction several years ago, the Amiga has become a very popular computer both in homes and businesses. Initially, its appeal was its unbelievable graphics and sound capability; one must actually see and hear the Amiga to fully appreciate how it surpasses other PC's. The technical capabilities of the Amiga drew the interest of software developers, who began to create entertainment, education, and productivity titles unequalled on other machines. Today, virtually every major developer of home software is creating Amiga products; even business mainstays like WordPerfect (maker of the #1 bestselling word processor for the IBM PC) are supporting the Amiga.

Because of its color graphics capability, the Amiga is also being used extensively in several key applications: desktop publishing, video titling, and computer animation. Software and hardware products are available in each of these areas to fit both home applications as well as the most sophisticated commercial jobs.

We recommend the Amiga 500 for home use and first-time buyers. The Amiga 500 represents a fabulous value, and will run all Amiga software. The Amiga 2000, which features expansion capability for add-on cards, is recommended primarily for business installations or "power users" who need additional features, such as optional IBM compatibility or hard disk drives.

**Amiga For Desktop Publishing**

When the Macintosh was first introduced, it created a revolution in printing by offering "What You See Is What You Get" (WYSIWYG) word processing and publishing software. For the first time, users could make changes in type size and style, add graphic elements, etc. and actually see, instantly, how those changes would look on the printed document. Like the Macintosh, the Amiga uses a graphics oriented Motorola microprocessor chip for its "brain," and is designed to accommodate WYSIWYG processing, icons, pull-down menus, etc. Unlike many Macintosh models, however, the Amiga offers a full color environment for its software. This makes everything from "paint" programs, publishing programs, to image processors far more versatile and powerful. In fact, the Amiga is the first machine to allow color separation film to be created directly by the computer instead of conventional color separation and film processing.

Even though the Amiga may outstrip the Macintosh in some publishing applications, its price remains far below that of black and white Macs with no color capability at all.

**Amiga For Video**

Many people expect Desktop Video to be one of the next major computer applications. What is desktop video? Simply, it is the ability to use a computer to process images from one or more video sources — for example, a video camera or a VCR — and record those on tape. Some of the simplest effects are recording computer generated titles or graphics on recorded video material. Other, more sophisticated possibilities include computer generated animation, interactive video for education and training, modification or enhancement of video images, etc.

Whether your video interest is purely a hobby or potentially a business, the Amiga is the machine of choice. Its ability to display 4096 colors at one time, its interlaced video, and real time animation (a result of its custom "blitterchip"), and overscan capability are all designed for high performance video work. Many exciting hardware and software options are available that make the Amiga the equivalent of professional video systems costing many times as much. In fact, TV stations, ad agencies, and film production companies have widely adopted the Amiga as a powerful but inexpensive source of video images.

**Amiga For Games And Education**

Game experts agree: no computer can match the selection or quality of games that run on the Amiga. The combination of high resolution color graphics and stereo sound make the Amiga the ultimate game machine, and software developers have taken advantage of these to create games with incredible realism and special effects. Now many developers launch their new games first on Amiga because they want the best sound and graphics to be what both software reviewers and consumers see first.

Whether your taste is for flight stimulation, dungeon adventures, military strategy, or space shoot-em-ups, the Amiga has — simply put — the best quality of any machine on the market. Software for the Amiga is widely available, too — either at your favorite computer store, or, of course, direct from TENEX Computer Express.

**Amiga For Business**

When the Amiga was first introduced, some computer industry wags, after seeing the impressive graphics and sound, thought the Amiga would become "just" a home computer, with the emphasis on entertainment. The so-called experts have been proven wrong on all counts, as business and productivity applications have been developed that offer the power of IBM compatible software with the ease of use normally associated with the Macintosh. These titles include well known products like WordPerfect (the #1 word processor on the IBM PC), Professional Page, Excellence, and more.

In addition to its own superb programming, the Amiga 2000 will also run many IBM compatible business programs without modification. With the addition of the optional Bridgecard, which includes a 5 1/4" disk drive, full IBM compatibility is achieved. While most users will want to use applications designed specifically for the Amiga which take advantage of its unique capabilities, the ability to run IBM software is ideal for bringing work home from the office or any other application where IBM compatibility is a must.

**Amiga For Multitasking**

For most personal computers, the promise of multitasking (the ability to do more than one thing at the same time) has been just that — a promise. The Amiga is the only personal computer to deliver true multitasking. For example, you could actually be sorting a large database in one window while writing a letter in another window. With the Amiga 2000 (see IBM compatibility details above) you can even run an IBM application simultaneously with an Amiga application — try that on any other computer!

### WHAT A CHRISTMAS PRESENT!

### Amiga 500

**AMIGA 500 PERSONAL COMPUTER.** Includes built in 3.5" disk drive, 2 button mouse, 512K memory, parallel port (to connect printer), serial port (to connect a modem or other serial device), an external drive port, and expansion interface. The 512K RAM is expandable to 1 megabyte internally and 9 megabytes externally. The Amiga 500's improved keyboard includes a full function numeric keypad. Built in, of course, are the Amiga's superb graphics, color, and sound capability plus true multitasking.

73729 Amiga 500 Computer System Sug. Retail \$799.00  
\$569.95

### 1084S Stereo RGB/Composite Monitor

**1084S STEREO RGB/COMPOSITE MONITOR.** The best monitor to showcase the Amiga's unmatched graphics and sound! 13" screen offers extra sharp 640X400 pixel resolution. Composite hookup also allows use with TI 99/4A, Commodore 64 and 128, and VCR's. The only RGB/Composite monitor we've seen that offers stereo sound. Sug. Retail \$419.95

74095 1084S Color Monitor \$319.95

### CHRISTMAS SPECIAL AN \$849 VALUE FOR ONLY

# \$299

**Incredible Special Offer**  
— just in time for  
Christmas:

**FREE  
VCR**

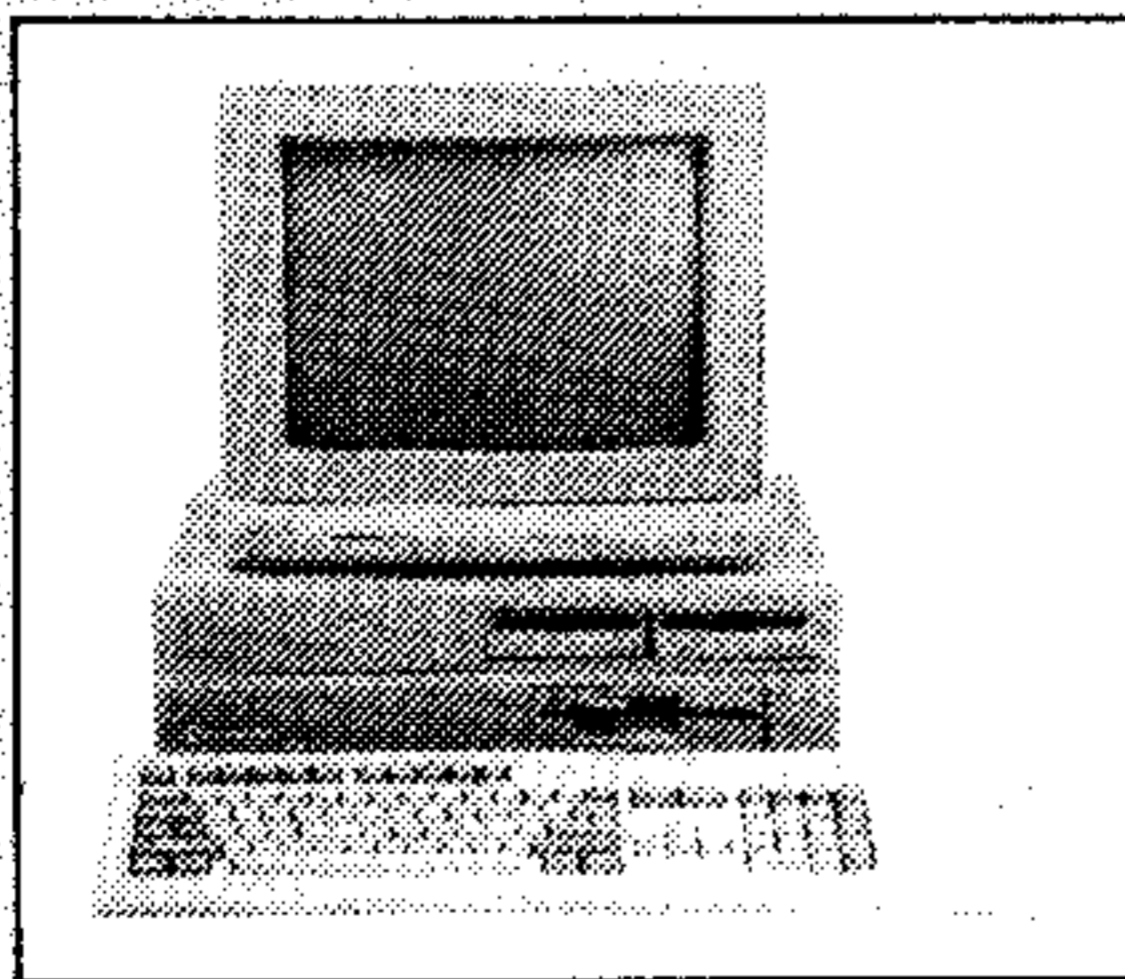

**TENEX CHRISTMAS SPECIAL — HOME STARTER PACKAGE.** This limited quantity special offer will be the best Christmas present your family ever had. Here's how it works: We made a special buy on five of the most popular home software titles — everything you need to start using your Amiga 500 right away — and are making them available in a single low cost package. **And when you buy an Amiga 500, a 1084S Monitor, and this special package, we'll include a national brand VCR absolutely free!** The software in this package includes:

- Text Craft Plus:** High quality word processor
- TV Text:** Video Title Generator; fonts, shadows, 3D effects & more
- Ferrari Formula I:** Exciting racing action
- Money Mentor:** Complete personal finance tool
- Graphics Studio:** Professional "paint" program that fully uses the Amiga's stunning graphics

The normal retail price of this software is \$450, and for the VCR is \$399. That's an \$849 total value, for the incredible low price of just \$299! But hurry — when our supply of this special offer is gone, it will be gone for good. So don't be disappointed — order now, and let your family have its best Christmas ever!

80514 Home Starter Pkg. (Sug. Retail \$450) \$299.00  
 80528 Deluxe Video Cassette Recorder (Sug. Retail \$399) FREE\*  
 (\*with purchase of Amiga 500, 1084S Monitor, and Home Starter Package.)

**ONLY  
AMIGA  
MAKES IT  
POSSIBLE**

**AMIGA 2000 PERSONAL COMPUTER.** This computer gives you features that not even the Macintosh Plus or the IBM PC/AT has. For instance, the Amiga 2000 has multitasking abilities, sprites, a graphics co-processor and built-in speech. With keyboard, mouse, joystick, RS232 and Centronics ports, the 2000 is a powerful computer, indeed. It gives you built-in 3.5 disk drive, mounting locations for 2 internal Amiga floppy disk drives and has an internal option for IBM PC/XT compatibility. Standard RAM is a full megabyte and is expandable to 9 megabytes. The Amiga 2000 really outshines its competition. Sug. Retail \$2,195.00

**Exciting Arcade Adventures**

**BURGER BUILDER.** If you believe that all fast food burgers are greasy, then test your skill and challenge this philosophy with Burger Builder, the "hot" new arcade game cartridge.

You become the short-order cook as you skillfully drop the fixin's onto buns, racing against time to make hamburgers and advance to the next level for more excitement. Another creation of Software Specialties.

**80149 Cartridge \$19.95**

**MIDNIGHT MASON.** It's the graveyard shift and your Midnight Mason is behind schedule. Just as he starts to repair a wall here come some pesky ghosts. Seems as though they were resting and all that heavy work woke them up. Quick! the mason has to make a hole with his pickax to escape their clutches.

The racket wakes more ghosts from their slumber. The mason must pick up the tools and dash to another part of the building. Can you finish the graveyard shift? This adventure requires only a console. Joystick optional.

**80150 Cartridge \$19.95**

**MICRO-PINBALL.** Insert this cartridge into your TI-99/4A and turn it into an incredibly realistic pinball machine! You'll have to experience this flawless simulation to believe it!

You control the "flippers" and launch balls. Sit back and enjoy the flashing lights and ringing bells as your pinball collides with obstacles and ricochets off posts in a kaleidoscope of colors. Be alert or you'll miss the chance to flip the ball back up the alley and pronounce yourself a Pinball Wizard! A creation of Software Specialties.

**80161 Cartridge \$19.95**

**RED BARON.** At last a flight simulator in a module with full 3-D perspective and full acrobatic control! Experience the thrill of piloting your WWI Spad 13 Fighter into aerial combat. Select your flight plan, glance at your controls, ease back on the stick and watch the rolling French countryside drop away. Suddenly you are engaged in a dog fight. This 32K module screens a map to display your position with a keypress. Simulates the sounds and sights of aerial combat, and features colorful scenes of old France as seen from the air. Requires console, Joystick recommended.

**80176 Cartridge \$29.95**

**TI TOAD.** The desert winds have caught you on the wrong side of the road. Unless you can hop to safety, the pebbly skin on your back will soon crack and peel! Quickly but carefully you must leap over the busy highway and avoid being hit by speeding cars. Next you must jump from log to log to cross the creek. Be careful, the logs are all moving at different speeds! This super fun adventure requires quick fingers, and a console. Joysticks optional.

**80182 Cartridge \$19.95**

**BEYOND PARSEC.** Challenge yourself to outsmart and outmaneuver your opponent in this two-player sequel to the best-selling game ever produced by Texas Instruments, Parsec. You'll face the most dangerous enemy you've ever encountered — one that is as intelligent as you are with a ship that is as fast as yours. Beyond Parsec features fast action and clever strategy that will keep you entertained for hours on end.

**80192 Cartridge \$19.95**

**MICRO TENNIS.** Enjoy the action, thrills and excitement of a professional tennis match. Simulated in dimensional perspective for realism, Micro Tennis can be played with one or two players or against the computer. With three levels of play difficulty, color-coded players and scoring, and a unique demo game, Micro Tennis is one of the best tennis simulations for the TI 99/4A. Requires console and joysticks.

**80204 Cartridge \$19.95**

**Spy's Demise**

**SPY'S DEMISE. Now in Cartridge!** You were quietly sipping a double vodka martini (stirred, not shaken) with a twist of Persian lime peel in the lobby of the Bangkok Hilton when you overheard two KGB agents discussing an encoded message which was giving fits to their superiors. The message was the key to a fortune in valuable computer data . . . This begins the official TI version of Penguin Software's best selling game, SPY'S DEMISE. Your score is determined by how fast you move. But, there's more . . . at each of the 11 floors on a screen, part of a secret, encoded message is revealed. It takes a master code breaker to discover the cryptogram and break the code.

**73819 Cartridge \$17.95**

**PAR-FORE.** Either 1 or 2 players can enjoy this fantastic golf simulation from MWS. Features 18 different holes (cassette version has 9 holes) — you choose the club, the direction, and how hard to hit the ball. The computer displays your shot in realistic 3-D (the ball even has a shadow). Pin location on green is set randomly each time you play, so no 2 games are exactly the same. Now you can play golf no matter what it's like outside! Requires Extended BASIC. Disk version requires 32K. Joysticks and speech synthesizer recommended.

**41609 Cassette \$17.95**  
**41614 Disk \$17.95**

**A  
 New  
 Adventure  
 At Every Turn!**

Rated "A" by MICROpendium

**LEGENDS 1.1.** How would you like to drink strange potions, avoid traps, pitfalls, monsters and teleport from one locale to another? With the new sequel to Old Dark Caves, Legends 1.1, you'll be able to do all these things. It features new spells and more interesting encounters for the adventure player. With up to 3 companions, you begin at Wizard's Rock to organize your party, stay at Legends Inn to rest and heal battle injuries and visit Tall Tales Pub for clues in your quest.

In your quest for gold you will have to cast spells and fight monsters while trying to prove yourself as worthy to explore the 6 dungeons. However, once you've gotten into the dungeons you must again deal with monsters, pitfalls and traps. At every turn there is a new adventure and a new thrill.

Asgard spent over a year writing this game with a goal in mind. That goal has been realized in a game that is not a mere mindless arcade game, but a complex, brain teasing adventure that tests your puzzle-solving abilities and concentration. With 44 distinct game screens, 50 large monsters and 6 separate dungeons, you'll be in for the adventure of your life. Requires Extended BASIC and 32K.

68111 Disk

Sug. Retail \$22.95

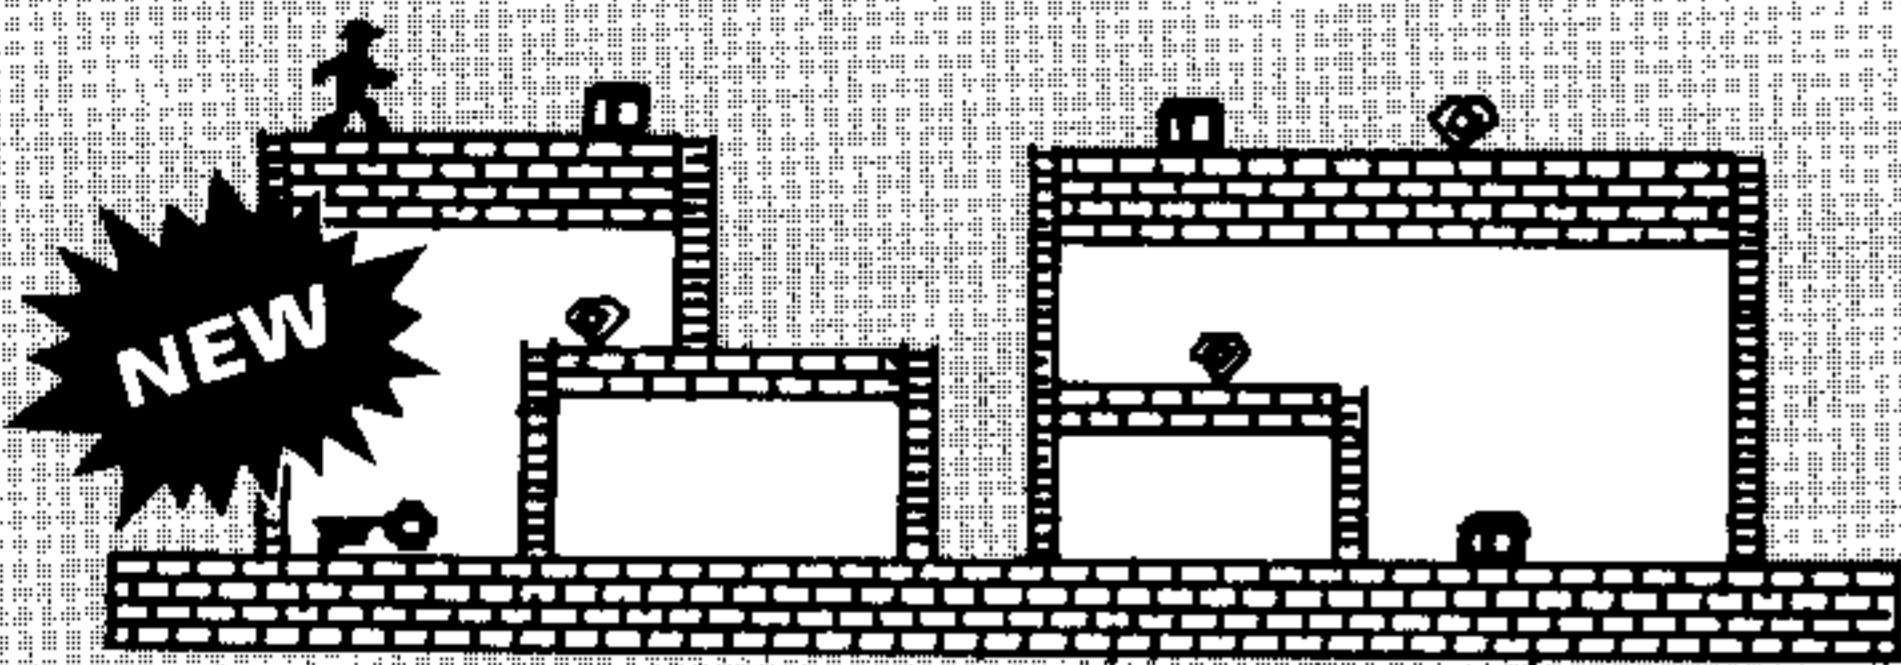

**\$19.95**

**OLD DARK CAVES.** This adventure is a programming feat never equalled for the TI 99/4A. Incorporating 60 Assembly Language subroutines, Old Dark Caves consists of over 100K bytes of program and data. What this all boils down to is 28 multicolored, animated monsters and 240 locations. Some of these monsters are intelligent enough to make decisions based on how they evaluate your player's strengths and character. One of the best features of this program is that no 2 games will be exactly alike. You can play this game for weeks without encountering all the inhabitants of Old Dark Caves. Requires Extended BASIC and 32K.

41628 Disk

**\$19.95**

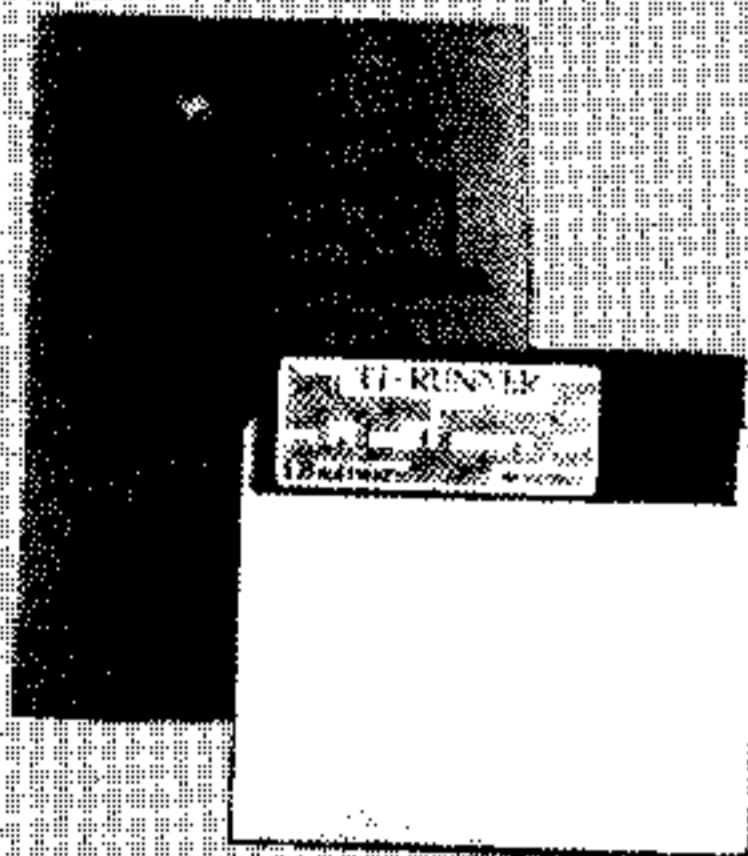

**NEW**

**TI RUNNER LEVEL EDITOR.** Now you can create and edit your own TI RUNNER screens. This screen editor is designed to give you the power you need to add, edit, and manage your TI-RUNNER screens. Easy to use menus and an editor make creating your own levels as much fun as playing them. This editor has two sections, level management and file management. Level management allows you to edit, add, copy, and delete levels, while file management allows you to create, delete, and select different screen files. Requires TI-RUNNER.

80212 Disk

\$18.95

Rated "A" by MICROpendium

**TI-RUNNER.** This hot title from EB Software, similar to the popular Loderunner games for Apple and Commodore, offers 50 levels of excitement. Platforms, ladders, and pursuers abound as you collect treasures and keys. MICROpendium said, "TI-Runner is a very good adaptation... The graphics are very well done. The animation is almost the best I have ever seen on the TI. Joystick response is instantaneous... if you are looking for a game... this is the one." Disk version requires 32K and either Mini-Memory OR Editor/Assembler. Available on cartridge as Star Runner, see page 12.

**One Of The Best Games On The Market Fast Action...**

**KING OF THE CASTLE.** This challenging game requires some quick reflexes and planning to master, but we've found it to be one of the best games on the market! Our resident game master rates this one "excellent."

You'll be amazed at the speed of play and fast screen changes. This machine language program allows lightning-quick response. You are a Norman King asleep in your castle — when suddenly the Vikings attack and invade your fortress. Your guards and servants have fled in fear. You are outnumbered... but unabashed. Your Ninja training in making gunpowder and wielding Oriental weapons gives you a fighting chance. You defend yourself by throwing spinning stars at the Vikings... and laying land mines to stop their advance on the stairways or throughout the various rooms. If all else fails, use the secret passageway for a quick exit and time to regroup and attack again. All configurations require joystick. Cassette requires Mini-Memory. Disk requires Mini-Memory, OR 32K and Editor/Assembler, OR 32K and Extended BASIC. From Cydex Software.

## NOT-POLYOPTICS 1495

### TI Strategy And Board Games

**SPAD XIII Mark 2** is the newest and best game from Not-Polyoptics. In addition to taking off, landing, and all the other aerial maneuvers common in flight simulators, Spad XIII Mark 2 offers much more. After taking off from a French airfield, you pilot your World War I biplane toward the front lines to engage German aircraft. See if you can shoot down their observation balloons protected by flak. Continue on toward the German airfield, where you can try to bomb their hangars and planes. Take a victory spin around the Eiffel Tower before returning safely to your base.

When flying SPAD XIII Mark 2, you can choose from any of 6 views — front, left, right, back, up, and down. Instrument panel includes Altimeter, Compass, Air Speed, and Fuel. Relive the days of open cockpit flying! Requires 32K and Extended BASIC. From NOT-POLYOPTICS.

65757 Disk **\$14.95**

### Winging It Flight Simulator

**WINGING IT.** Turn your television into the cockpit of a private airplane! Learn to fly and then test your skill in 3 games. Displays ground map and weather chart plus instruments. For 1 player. From NOT-POLYOPTICS.

10782 Cassette **\$7.95**  
 34751 Disk **\$7.95**

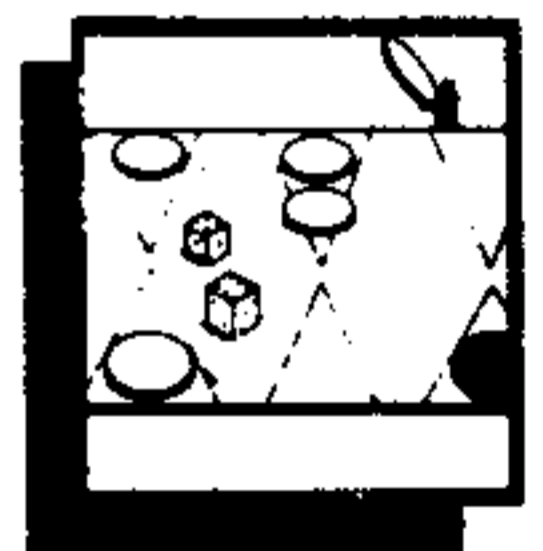

**KHE SANH** is a game about guerilla warfare in South Vietnam during the Tet offensive in 1968. The elusive North Vietnamese and Viet Cong units could remain hidden in the jungle and attack when conditions were right. The American forces could only conduct often futile searches for the guerillas in hopes of preempting these attacks. The baiting game ended in 1972 when the American forces withdrew. In this tactical skill game you command a military base in Vietnam. You have 5 platoons of troops and 4 helicopters at your disposal to search out and destroy 2 companies of North Vietnamese regulars (who are controlled by the computer). To win you must accumulate more points than the computer. From NOT-POLYOPTICS.

10725 Cassette **\$9.95**  
 34765 Disk **\$9.95**

### The Classic Game

**BACKGAMMON.** Play the "all time favorite" board game against either the computer or an opponent. Computer plays quickly and with remarkable strategy. Great way to develop your own playing ability. For 1 or 2 players. Requires Extended BASIC. From NOT-POLYOPTICS.

30465 Cassette **\$7.95**

## Music

### Make Your TI Sing!

Only

**595**

**TI SINGS.** This is one of the most unusual programs we've seen, and it is so economical it would be a shame if even one TI owner missed out on it.

Did you know you can actually make your computer sing? Using TI Sings, you can input, edit, and play back your favorite songs (words and music). It also lets you learn how to use allophones in a fun and painless way. Comes with several ready-to-run song files. What a great way to send an electronic greeting to family members or friends! Connect your computer to your VCR, and you can even record it for someone without a computer! Requires Terminal Emulator 2 and Speech Synthesizer. From Trio + Software.

65451 Disk **Only \$5.95**

**TI SINGS DATA 1.** Includes 16 new songs that your computer can sing. Hear your computer SING the following songs: HEARD IT THROUGH THE GRAPEVINE, THEME FROM M\*A\*S\*H, HOUSE OF THE RISING SUN, plus a variety of others. **SINGS PLAY PROGRAM** included in program. Requires TE II, and SPEECH SYNTHESIZER.

73759 Disk **\$9.95**

### Play All Your Favorites

**SING PLAY PROGRAM.** Copy this program to your SINGS DATA DISKS to make them stand-alone play disks. Select the order of play on your screen and listen to all your favorites at your leisure. You may play as many of your favorite songs as you like automatically. Uses data produced by TI-SINGS. Requires TE II, and SPEECH SYNTHESIZER.

73760 Disk **\$4.95**

### Music At The Touch Of A Key

**MUSIC SYNTHESIZER.** This program is superb for your music lover. Generate scores by placing notes with the arrow keys in any of 360 positions arranged on "sheets" of 24 notes each. The Music Synthesizer is an excellent way to introduce music to someone who has an ear for sound. Requires 32K and Extended BASIC.

73617 Disk **\$9.95**

## Fortran For TI

**BEST  
SELLER**

**Full Screen  
Editor**

**99 FORTRAN.** This is just what all you FORTRAN programmers have been waiting for. FORTRAN 99 offers you a complete programming environment for the TI 99/4A. You'll get an interactive full-screen editor, an optimizing FORTRAN compiler, a Linker, a Symbolic Debugger, a fast save/load facility and an extendable object library.

So, if you're a serious FORTRAN programmer or even a beginner this is your program, as it executes programs hundreds of times faster than TI BASIC and provides more screen and sprite features than TI Extended BASIC. Think of the time you'll save. FORTRAN 99 is a benefit to all FORTRAN users. This package includes 2 diskettes, and a user's manual. Requires 32K, and either Editor/Assembly OR Mini-Memory OR Extended BASIC OR TI-Writer Cartridge. From LGMA Products.

## Genealogy

### The Genealogy Workshop

- A Full-Featured Genealogical Record-keeping System
- Organize Your Family Data
- Catalog Your Sources

Now Only  
**24.95**

**microfal**

**THE GENEALOGY WORKSHOP.** This program allows you to automate many aspects of keeping your genealogical records. This program is easy enough for a beginner, but will also prove useful to more experienced genealogists. "Family Data" function stores all of the vital information on each individual. Searches can be made to find common birth and death locations; you may also search for a name. "Overview" function stores the names and vital dates for each family including up to 20 children; this provides a more distant, less detailed view of the family. "Sources" function stores the details of where specific data was obtained;

source record numbers correspond to citations in Family Data. Program also prints sequentially numbered Cross Reference Forms, Family Group Sheets and Source Sheets. All programs include revision capability and give you the option of hard copy or screen display. Requires 32K, Extended BASIC, and 80-column printer or screen display. Package includes handsome 3 ring binder with ample room for storing additional notes, data, etc.

## Explore Your Family Tree

**TOTAL FILER.** A free-form database for text, this program can help you organize a collection of articles, do a genealogy of your family (with bibliographies available at keyword), create a detailed database of your record, book or videocassette collection, and more! Unlike all other databases, this one doesn't care if you mix numbers with words, or what you put in each field. Find any individual entry in your database in seconds. The number of entries is limited only by the number of disks you want to use! Menu-driven so it's easy to use; very fast because it is written in C99.

Requires 32K, Extended BASIC OR Editor/Assembler OR TI-Writer.  
 65311 Disk

# Create, Access, Manipulate, Report And Print Information The Way You Want

**TI BASE.** For years, the TI-99/4A had no database more useful than a mailing list program. Now you can create, access, manipulate report, and print information the way you want. TI BASE lets you design your own database and gives you a complete procedural command language that allows you to "program" your own database system. TI BASE gives you: database creation/deletion, free interchange of data, complete mathematical functions, structured command language, disk management functions and formatted display and print capabilities. This system supports five active databases of 16129 records, 17 fields per record and 255 characters per field each. Requires a disk system, 32K memory expansion and either extended BASIC, Editor/Assembler, or Mini memory cartridge. From Textaments.

# The Best Word Processor For The TI 99/4A On The Market Today!

**PRESS.** Upstaging TI-Writer, Press is the best word processor for the TI-99/4A on the market today. It is completely new and is written entirely in assembly language for speed. Create single files as large as your disk space allows, type columns on screen, and include pictures in your text. Press gives you a "what-you-see-is-what-you-get" screen so you know that bold text on the screen will print out bold and underlined text will print out underlined.

Press features pop-up menus and automatically configures itself for your system. It functions with any printer, and includes the ability to customize it for the special features of your own. Press comes complete with a 250-page manual, 5 disks and a tutorial.

### Wordwriter

- Cartridge Based Word Processor
- Does Not Require 32K Or Disk System

**WORDWRITER.** Whether you are a beginner or an experienced word processor, WORDWRITER is an efficient and powerful tool for all your writing needs. It includes full-screen editing and such powerful functions as insert/delete characters or lines, text move, text copy, search/replace, reformat, margins, tabs, indentation, and more. Saves and retrieves files from either cassette or disk. Whether you are looking for a powerful, easy-to-use word processor, or a way to start word processing without a big hardware investment, WORDWRITER is your ideal choice. From DataBioTics.

65551 Cartridge Sug. Retail \$44.95

**The Entire  
TI Count  
Accounting Package**

**PIKE CREEK COMPLETE ACCOUNTING PACKAGE.** This is the only system to be recommended and endorsed for the 99/4A by Texas Instruments. It includes all the features of systems costing up to thousands of dollars for only a fraction of the price. You'll get all these:

- **GENERAL LEDGER.** Monitors up to 650 accounts and operates 5 journals such as purchases, sales, receipts, payments and general entries. It uses the familiar double entry book-keeping system.
- **ACCOUNTS RECEIVABLE.** This system keeps up to 200 customer accounts on 1 disk, with ID data, cumulative payment and open invoices. The General Ledger is required to use this system.
- **ACCOUNTS PAYABLE.** It features the ability to keep up to 200 vendor ledger accounts on 1 disk with the terms of sale, cumulative payment and open invoices. It also scans bills for errors and immediately prints and files. This system also requires the General Ledger.
- **INVENTORY.** It stores up to 700 items in 4 departments on 1 disk including ID data, vendor, stock, on-order, re-order, cost, list and sell-

ing price. You'll be able to print labels and invoice forms. This system operates independently of or with the General Ledger.

— **PAYROLL.** Payroll automatically provides you with payroll checks and stubs on your choice of weekly, bi-weekly, semi-monthly or monthly basis. It also provides W2 forms yearly. You can compute 4 withholding taxes per employee, 8 deductions for each, commissions, bonuses, tips and overtime.

— **MAIL SYSTEM.** Change, move or merge mail files with the Mail System. You can add, correct or delete individual names and addresses, sort names and zip codes and print mailing labels. This system also edits and prints letters, labels and cards. You can also operate this system with Accounts Payable and Accounts Receivable or use it independently.

With this package, you get all 6 systems plus a bonus, the Auto-Count Tax Log which allows you to record the date, time, place, purpose, odometer reading and driver for each trip on diskette and then print out any selected data. This alone is a \$50 value. Requires 32K and disk system. Sug. Retail \$99.95

**Learn To Type!**

*The fun and easy way to learn Keyboard Skills!*

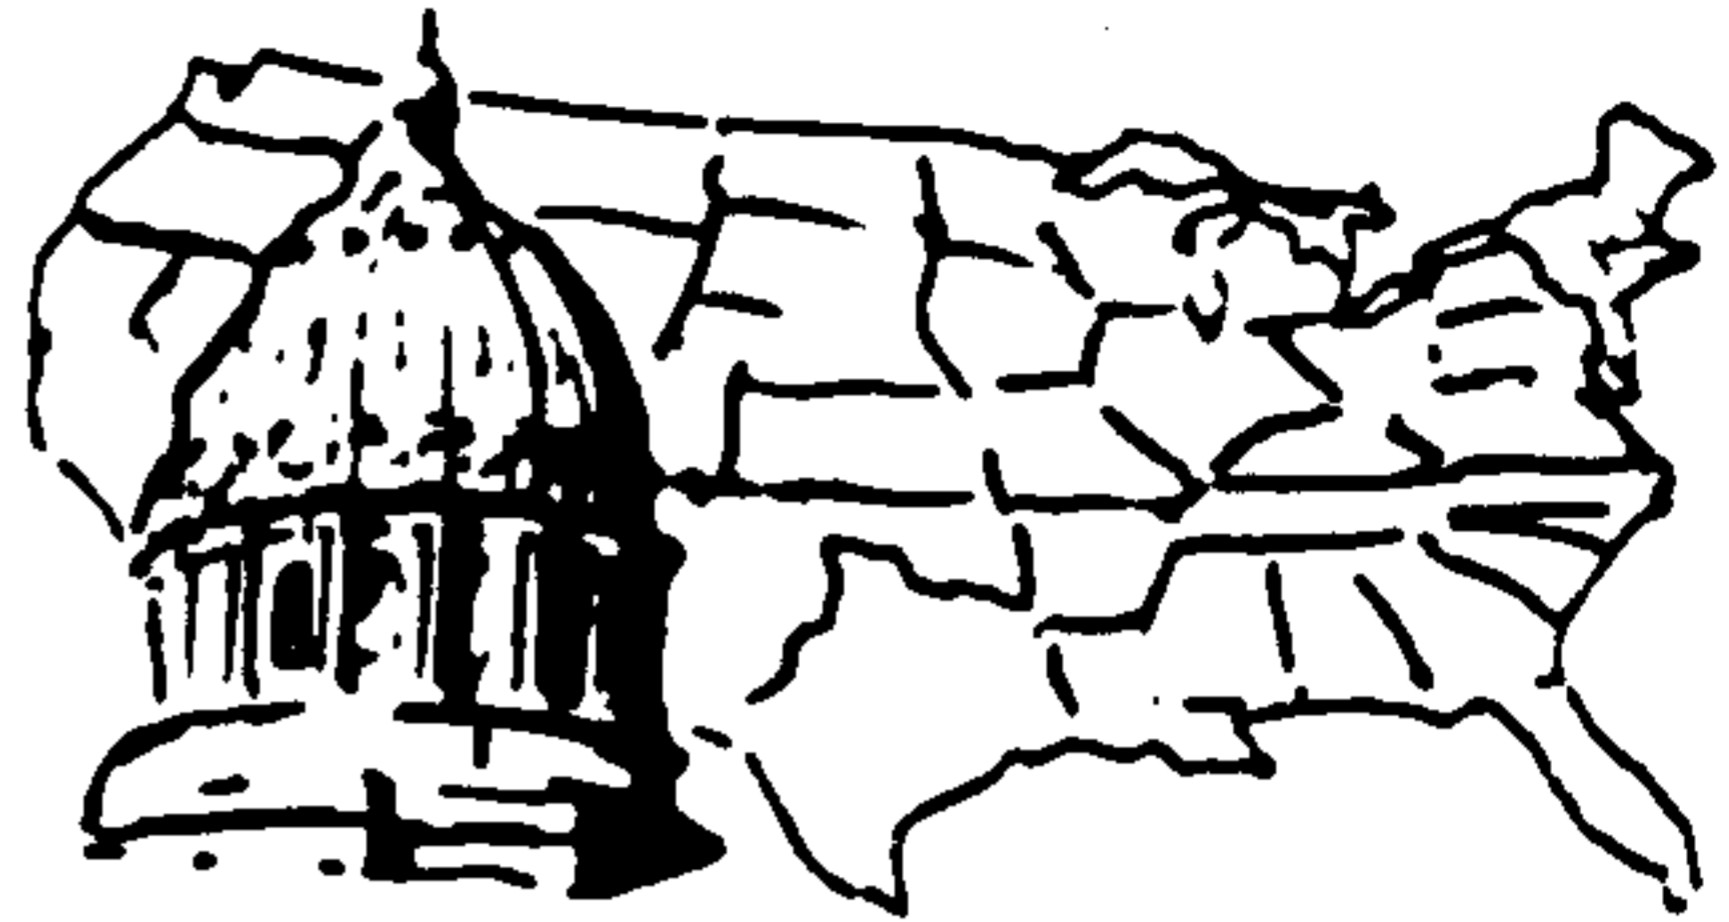

**PRO TYPER.** Today, everyone from kids to adults are finding it necessary to know how to touch type. Computers are so commonplace in schools, homes, and businesses, that "hunting and pecking" just isn't good enough. Pro Typer is designed to take the hassle out of learning to touch type.

Pro Typer starts by teaching you the motions you'll need to type the right way. Each part of the keyboard is touched and felt until you are ready to move on. Once the learner is comfortable with the basic motions, Pro Typer then lets him or her progress from intermediate to advanced levels in 16 easy steps. This is done with Ladderman, a sensational typing game that makes practice fun. From DataBioTics.

AT THE **ZOO**

**Includes  
 World Map  
 Display**

By: D. Loertscher and T. Rednour

**AT THE ZOO.** This fun and educational program for ages 4 and up offers exceptional graphics and makes the most extensive use of the TI Speech Synthesizer we've ever seen. Studies concentrate on spelling, geography and general knowledge about animals. A great way for children to learn how to operate the computer! The first section, "A World of Animals," displays a detailed map of the world, highlighting and identifying 12 major areas. The child may select an animal or area of the world; or let the computer proceed automatically. Homelands of the animals are highlighted on the map while the computer describes (through the Speech Synthesizer) their natural habitat. In the next section, "At The Zoo," the emphasis is on spelling the animal names. A colorful zoo scene is drawn and the name of an animal is spoken and, if desired, printed on the screen. The child then types the name to match. If the spelling is correct, the program says an approving phrase, draws the animal in the zoo, and some information about the animal is spoken. The child has 3 tries to correctly spell the word. Requires TI Speech Synthesizer and Terminal Emulator II.

# KIDware - Software for KIDS!

## Two Games on Each Cassette for Only \$8.95

Non-violent      Colorful Animated Graphics      Musical

### Early Education

**NUMBERS I/NUMBERS II.** Magic hats and number factories teach numbers, simple addition and subtraction, and the concept of before and after.

21222 Cassette \$8.95

**LETTERS I/LETTERS II.** Alien spacecraft and magic genie bottles teach upper case letters and letter location on the keyboard, plus two games: "Before and After" and "Fill-in-the-Blanks."

21237 Cassette \$8.95

**BUNNY COUNT/EARLY MATH.** Count the bunnies hopping across the screen plus adding and subtracting of the numbers 0 to 9.

21256 Cassette \$8.95

**JUNIOR HANGMAN/JUNIOR MEMORY.** The popular word game (with 350 words) on a level for children five and six, plus junior-level Concentration-type game.

21312 Cassette \$8.95

**MACDONALD'S FARM/SIMON SAYS.** Round up MacDonald's run-away animals to the tune of the song. Simon plays a musical tone and color pattern you must match exactly to win.

21241 Cassette \$8.95

**SHAPES/DIRECTIONS.** Two games in geometric shape recognition — one on matching, one on naming — plus a great game on direction concepts.

21289 Cassette \$8.95

**ABC'S/123'S.** Fun graphics teach letter and word association, number recognition and counting concepts.

37902 Cassette \$8.95

**JUNIOR FARMER/BLOCKHEAD.** Find the farmer, his wife, the cat, the child, the mouse, and the cheesel Then draw a zillion silly faces.

37921 Cassette \$8.95

**COLORS/NUMBER NAMES.** Four fun games — two in color discrimination and recognition plus two relating digits and names for the numerals 0 to 9.

21383 Cassette \$8.95

**ALPHABET SOUP/JUNIOR MIXER.** Fill your giant bowl with letters and put them in alphabetical order. Unscramble the mixed up letters and numbers to make words.

30677 Cassette \$8.95

**NUMBER LINE MATH/FOUR IN A ROW.** A game for two players to try to get four markers in a row. Learn the principles of a number line for addition and subtraction.

30696 Cassette \$8.95

**HIDDEN LETTERS/LETTERS III.** Find the five hidden letters using clues from the computer. Match lower and upper case letters for a reward.

21294 Cassette \$8.95

### Primary Education

**ADDITION/SUBTRACTION.** Basic level arithmetic. Features flash card drills, varied difficulty levels based on performance, timer option, and encourages moving to higher difficulty levels.

21260 Cassette \$8.95

**MULTIPLICATION/DIVISION.** Like Addition/Subtraction but featuring multiplication and division.

21275 Cassette \$8.95

**MATH TEST/FACTORS.** Written for the classroom use, but could also be used at home. Computer gives math tests of up to 30 problems to a maximum of 40 students. The computer scores and stores the result of each test for the teacher's information. Each test can be stored on tape for later use. Flash card practice in basic math with any factor you choose.

21345 Cassette \$8.95

**ADDITION II/SUBTRACTION II.** Practice basic adding and subtracting in columns.

37936 Cassette \$8.95

**FRACTIONS I/FRACTIONS II.** Displays fractions pictorially; simple exercises in adding, subtracting, multiplying, and dividing fractions.

37940 Cassette \$8.95

**DELIVERIES/MATH RACE.** Drive a delivery truck through the neighborhood grid to study graphs. Four players can race their cars by answering math questions.

68466 Cassette \$8.95

**HANGMAN/MEMORY.** Over 400 words built-in for individual play or two player game. Concentration-type game matching pairs of letters.

21203 Cassette \$8.95

**SHOOT THE MOON/SPELLMAN.** Spelling competition for up to four players. Three different games let you use your personal spelling list.

21331 Cassette \$8.95

**CALENDAR/CALENDAR II.** Teaches the parts of a year, order of the days of the week, number of days in the months, other information about the months.

68470 Cassette \$8.95

**CLOCK/DICE.** An excellent game for learning to tell time plus addition practice using dice.

30727 Cassette \$8.95

**WEIGHTS/MEASURES.** Practice reading scales, determining weights, converting from pounds and ounces to grams and kilograms, reading rulers, converting inches and feet to centimeters and meters.

68484 Cassette \$8.95

**HANGMATH/THREE FUN GAMES.** Four great number guessing games with varying difficulty levels.

68495 Cassette \$8.95

**SPELLING TUTOR/MATH TUTOR.** Get help with spelling and math. Use your own levels and lessons.

30732 Cassette \$8.95

**WORD PROBLEMS I/WORD PROBLEMS II.** Practice basic math with fun word problems, also give problem explanation.

37955 Cassette \$8.95

**SOLAR SYSTEM/TEMPERATURE.** Learn about the planets with colorful graphics. Also includes how to read a thermometer and how to convert Farenheit to Celsius.

37969 Cassette \$8.95

### Secondary Education

**TYPING I/TYPING II.** Teaches you first how to position your hands and which finger to use to press each key, and then progresses to actual practice.

37993 Cassette \$8.95

**CIVIL WAR/KING.** Command the confederate Army in trying to rewrite history or rule your own country with all the problems sovereigns face.

37988 Cassette \$8.95

**LEMONADE/CODE BREAKER.** A fun lesson in economics with buying, selling, and advertising. Then use deductive reasoning to break the code from clues given by the computer.

38003 Cassette \$8.95

**U.S. CAPITAL/U.S. GEOGRAPHY.** Provides a rounded lesson in states, capitals, regions, and other geographical items.

38037 Cassette \$8.95

**U.S. PRESIDENTS I/U.S. PRESIDENTS II.** A tutorial for learning and reviewing material, or for being tested on it. Great for self-study.

68510 Cassette \$8.95

**QUIZMAKER/TRUE FALSE.** For teachers or parents to create "customized" tests over your own subject matter.

37974 Cassette \$8.95

### Entertainment

**GLOW WORM/HUMPTY DUMPTY.** Two fun games. Help your worm get food and keep him from danger, and a computer jigsaw puzzle — put Humpty Dumpty together again.

21326 Cassette \$8.95

**BURIED TREASURE/EGG HUNT.** Search for riches or Easter eggs in these two fun-for-the-family games.

21364 Cassette \$8.95

**XYLOPHONE/SQUARE PUZZLE.** A computer music maker to play built-in songs or make your own. Also popular 1950's letter game.

21379 Cassette \$8.95

**GO FISH/SLEDDING.** Cast your line and haul in the big ones — watch out for the bait stealers. Then try to guide your sled down the hill, avoid the trees!

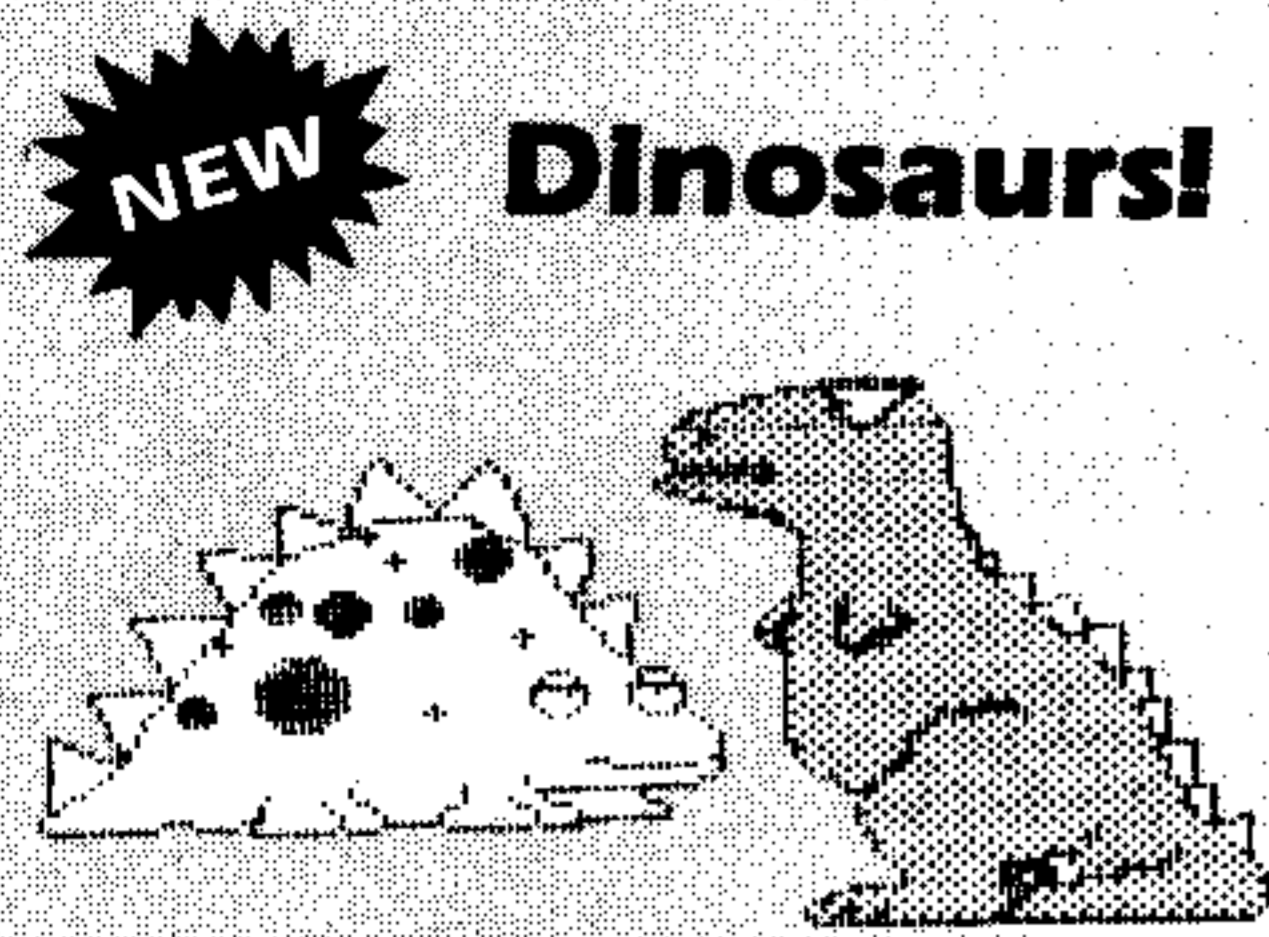

21398 Cassette \$8.95

**DOODLE/MAZE.** Combine a colorful, computerized "Etch-A-Sketch" with an infinite number of mazes.

37917 Cassette \$8.95

MICROpendium

Powerful font slide and instances entry features.

Move Copy and Flip

User-Defined Picture Area

**TI ARTIST.** Here's a full-featured package for drawing in the bit map mode on the TI 99/4A. This easy-to-use program will have you drawing before you've even finished reading the instructions... it is completely menu-driven from a picture screen.

TI Artist presents you with a menu of functions in which each function is selected by positioning the cursor over the desired icon and pressing the "fire" button. The drawing palette is then selected by depressing the space bar. Once on the drawing palette, the selected function may be performed. When a different function is desired, it may be selected by returning to the function menu or by depressing the func-

tion selector. You can see that TI Artist is very straightforward and easy-to-use.

Among TI Artist's functions are: "Draw" which lets you draw designs on your picture, "point" which is like "draw" except that it will only plot 1 pixel at a time, "frame" which lets you draw individual rectangles on your picture and many, many more. TI Artist is an exceptionally versatile and easy to use computer art tool which is designed for persons who are not experienced computer operators. Requires 32K, and Extended BASIC OR Editor/Assembler OR Mini-Memory. Joystick optional.

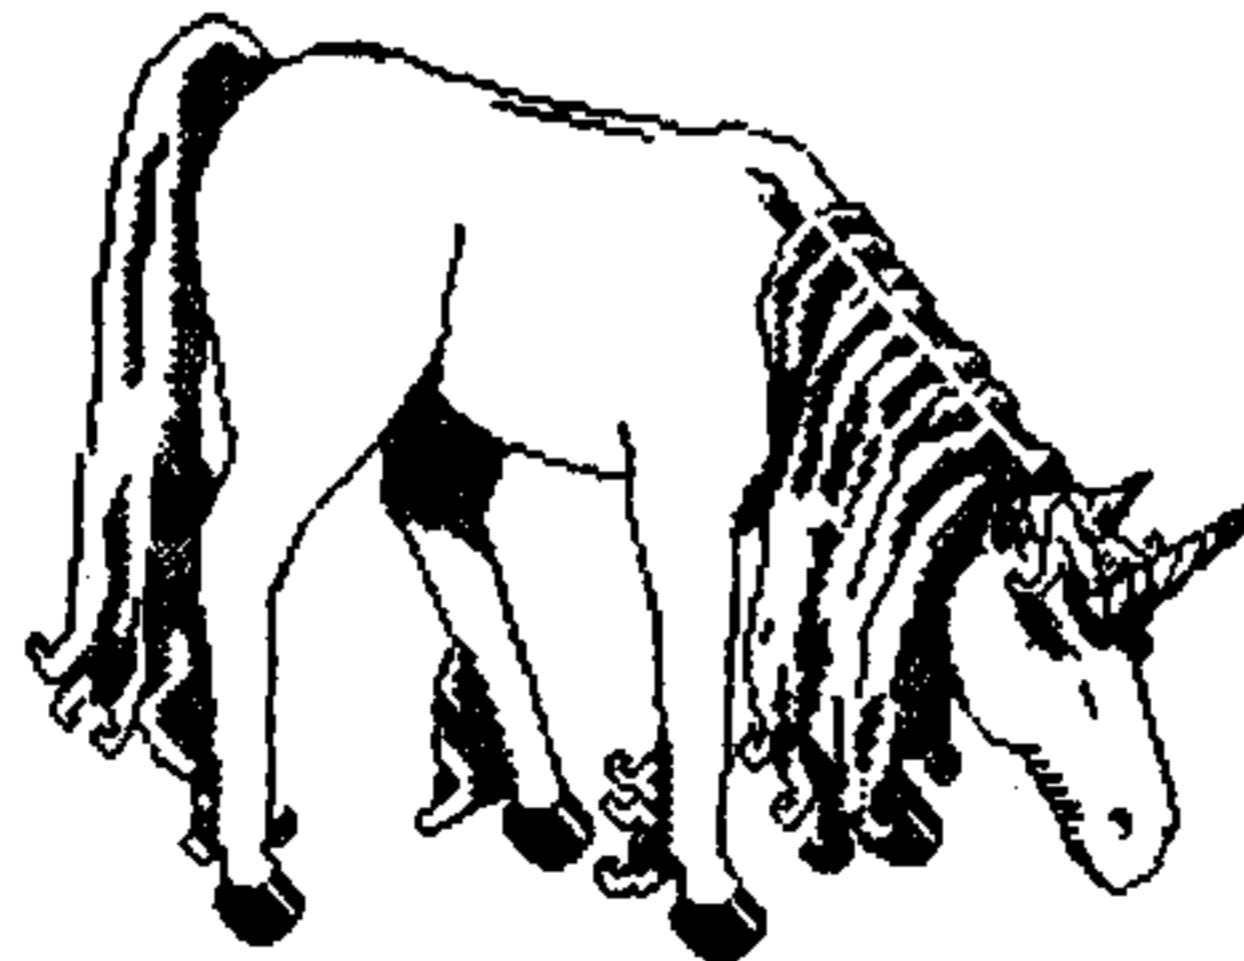

42579 Disk \$19.95

**NEW**

**ARTIST BORDERS #1.** Choose any one of 40 different borders to fix up a drawing, frame a chart or graph or add a nice touch to a greeting card. Requires TI Artist or Font Writer II and TI Extended Basic.  
80260 Disk \$7.95

**ARTIST BORDERS #2.** A new volume of more detailed borders. Requirements are the same as Volume #1.  
80278 Disk \$7.95

**TI-Artist To TI-Writer Conversion**

**ARTCONVERT.** A great way to liven up your TI-Writer, documents! Now you can convert TI-Artist "instances" and small fonts for use with TI-Writer. You can convert a single instance or convert 2 and merge them into one TI-Writer file. You can also convert one-character high fonts for special lettering in your document. (Larger fonts must be converted as in instance using the words desired.) Compatible with Star, Epson, and similar printers as well as the Pro-writer. Features "Other Printer" option which may let it work with some non-standard graphics printers. Requires Extended BASIC, 32K, TI-Artist, and TI-Writer. Printer system recommended. From Trio + Software.  
65493 Disk Only \$9.95

**Trio + Data Disk Sets For TI-Artist**

Here are some great original pieces of artwork for TI-Artist users! Each set features not 1, but 2 disks filled with fonts, slides, instances, and pictures. Comes on a disk packed with all new instances for use with the TI-Artist or Font Writer II. From Asgard Software.  
73573 Disk \$9.95

## The Diskette Deal

MicroPal Diskettes are one of the best-selling items in our catalogs (we've sold literally hundreds of thousands of these diskettes!) They are an excellent buy in our quantities of 50, and their reliability, lifetime warranty and risk-free trial mean you are sure to get your money's worth!

### Here's What You Get.

Diskettes are packaged in boxes of 50. Each box includes diskettes in sleeves, labels and write-protect tabs. All diskettes have hub reinforcement rings and write-protect notch.

### Certified Quality.

MicroPal diskettes are first quality, prime diskettes (no seconds). Each one is individually certified to be 100 percent error free at levels equal to or above ANSI, ECMA and ISO standards.

### Lifetime Warranty Plus Risk Free Trial!

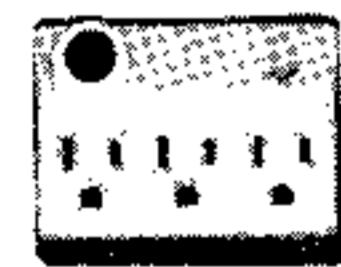

We offer a double guarantee of satisfaction, 1) All diskettes are backed by a lifetime warranty. If you ever have a problem, we'll replace the diskette.

2) To let you discover what a great value these diskettes really are we'll let you try them risk free. Buy a box. If within 30 days you aren't happy with the diskettes for any reason, return them to us for a prompt refund. No questions asked!

Part No	Description	Box of 50
32391	5 1/4" Single-Sided, Double-Density Diskettes	\$19.50 (39¢ each)
32403	5 1/4" Double-Sided, Double Density Diskettes	\$24.50 (49¢ each)

## Economical Surge Suppressors

Protect your valuable electronic equipment from damaging voltage surges and spikes while filtering annoying EMI/RFI interference. Our surge suppressors offer full three-line protection plus a "Power-On" indicator light. Perfect for computers, TVs, stereos, VCRs and other equipment. Two models to choose from: a three outlet wall mount block and a six outlet extension strip. The strip has an additional 15 amp circuit breaker, an on/off switch with neon indicator and comes with a six foot cord.

	Sug. Retail	Low TENEX Price
55878 Three Outlet Surge Suppressor	\$14.95	\$7.95
55880 Six Outlet Surge Suppressor	\$29.95	\$17.95

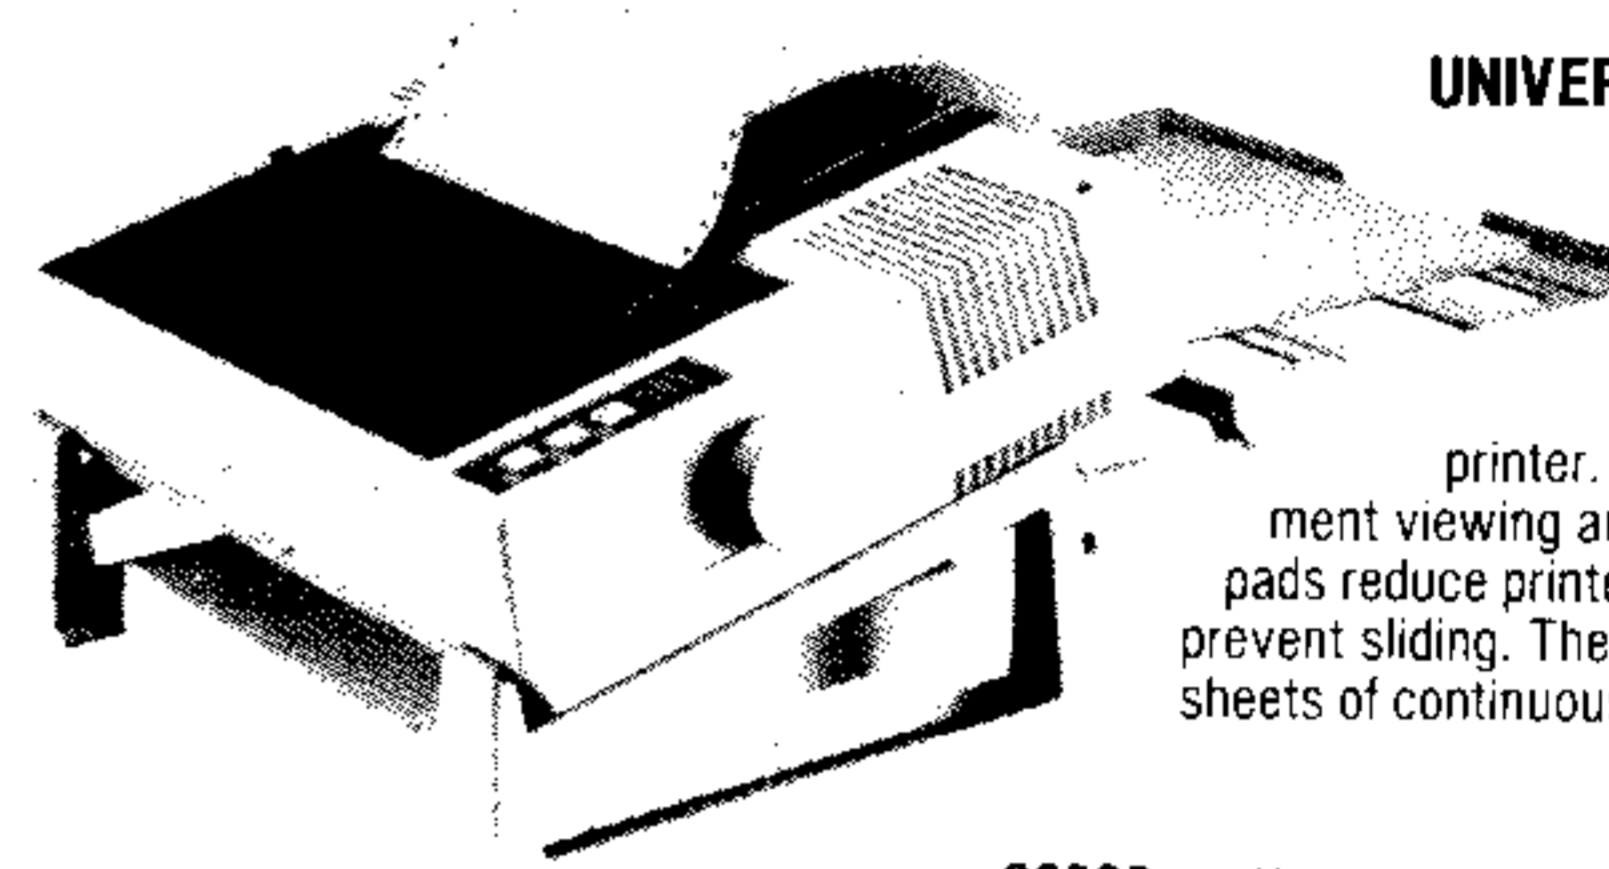

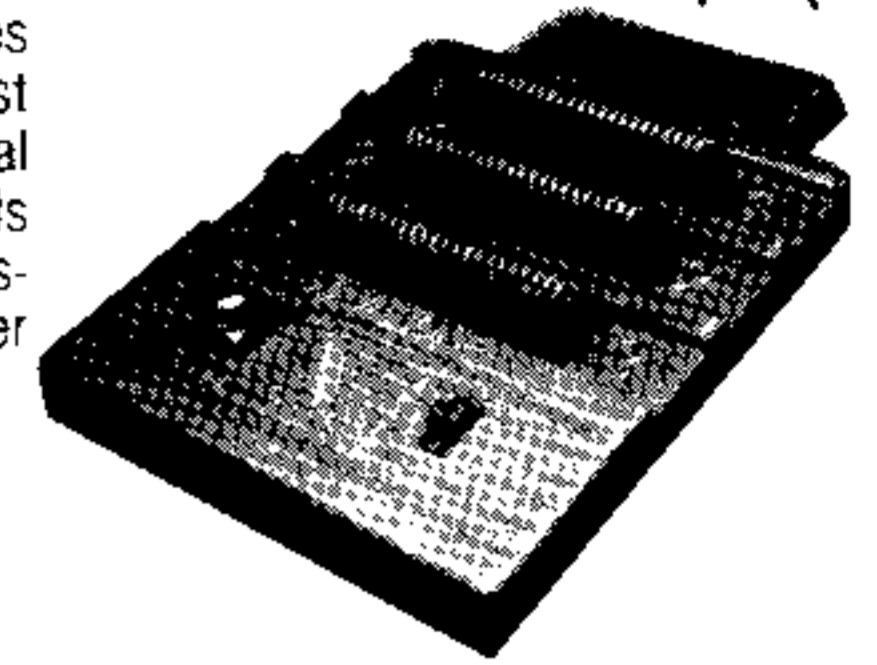

PLEASE REMEMBER: 1) Did you include the expiration date with your credit card number? 2) Is your check signed and enclosed?

3) Include applicable tax, shipping and handling. 4) Transfer your address label from back cover to order form.

## Stop Endless Cartridge Swapping!

Stop wearing out your computer with endless cartridge swap-ping! This three-slot cartridge expander keeps your most commonly used cartridges plugged in and ready for instant selection! This saves wear and tear on the cartridge and the computer. Save yourself just one repair job and the cartridge expander has paid for itself several times over. Do you use your computer frequently? Do your kids switch cartridges numerous times in a single play or learning session? If so, invest in this inexpensive protection for your computer and software. Great for schools and other high use locations, too.

68236 Disk **\$8.95**

**ARTIST INSTANCES #9 — Holidays #2.** Second in a series. For use in greeting cards and your own works.  
80283 Disks **\$7.95**

### Virtually Limitless Potential

**CSGD III-CHARACTER SETS AND GRAPHICS DESIGN III.** You'll get 4 new and powerful graphic printing capabilities for your 9914A. Create letterhead, stationery, labels, and signs while using a myriad of unique fonts and small graphics. Also, by using the special Docuprint program, files generated by TI-Writer can be printed in any one of 6 full graphic character sets. Choose 6 to 8 lines per inch, add page numbers, print multiple file documents, set top/bottom margins, set tabs and print in a 2-column format.

CSGD III includes a special typewriter mode that will even let you print short notes without preparing a TI-Writer file. The complete 3 disk package comes with 25 fonts, 40 small graphics and thorough documentation. It requires 32K, Extended BASIC, and an Epson compatible printer. From Textaments.

65419 Disks **\$17.95**

Since CSGD III is a continuation of the CSGD series, it is compatible with all previous fonts and graphics libraries. CSGD III is already a fully supported software package!

**USER DISK #1.** Contains 7 fonts and 3 graphics.  
65430 Disk **\$5.95**

**USER DISK #2.** Contains 2 disks with 12 fonts and 127 graphics.  
65440 Disks **\$9.95**

**USER DISK #3.** Contains 2 disks with 22 fonts and 86 graphics.  
65446 Disks **\$9.95**

**USER DISK #4.** Contains 2 disks with 16 fonts, 61 graphics, and 50 monograms.  
65545 Disks **\$9.95**

**USER DISK #5.** Contains 2 filled disks with new and original fonts and graphics. There are 16 new fonts, 8 Docuprint fonts, and 28 monogram graphics with a choice of the size that is right for you.  
73645 Disks **\$9.95**

**USER DISK #6.** Contains 16 new fonts and 44 graphics.  
73657 Disks **\$9.95**

**USER DISK #7.** Here's a 2 disk set for CSGD that's loaded with new and exiting fonts and graphics. It's an excellent value as it includes 11 new fonts and a large assortment of original small graphics. CSGD User Disk #7 will really spruce up your CSGD. Requires CSGD and is a steal!  
76103 Disks **\$9.95**

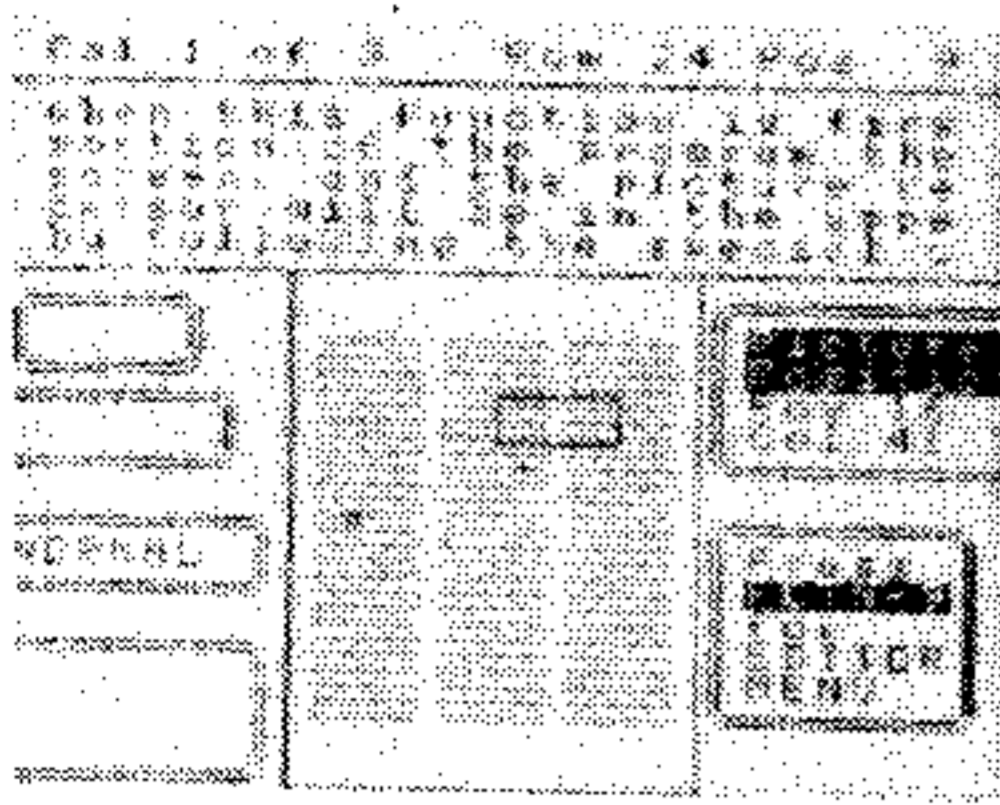

**CATALOGER** is a utility which allows you to print fonts and graphics with ease. Plus, you will have the ability to cross reference CSGD graphic files, and TI-Artist graphic files on data sheets.  
73661 Disk **\$9.95**

## Cartridge Based Desktop Publishing

## Desktop Publisher

**DESKTOP PUBLISHER.** Compose letters and greeting cards, print newsletters and business or school reports with impressive style and ease. Invent striking invitations and much more, even if you can't draw a line! Desktop publisher has a word processor that lets you select among stylish fonts such as bold, italics and emphasized for professional results that you can save or edit for later use. The picture editor lets you create and save stunning graphics easily and combine your words and art together into neat, professional-looking columns. Your console, printer interface and Epson-compatible printer are all you need to start publishing. Cassette system recommended.

80295 Cartridge

\$49.95

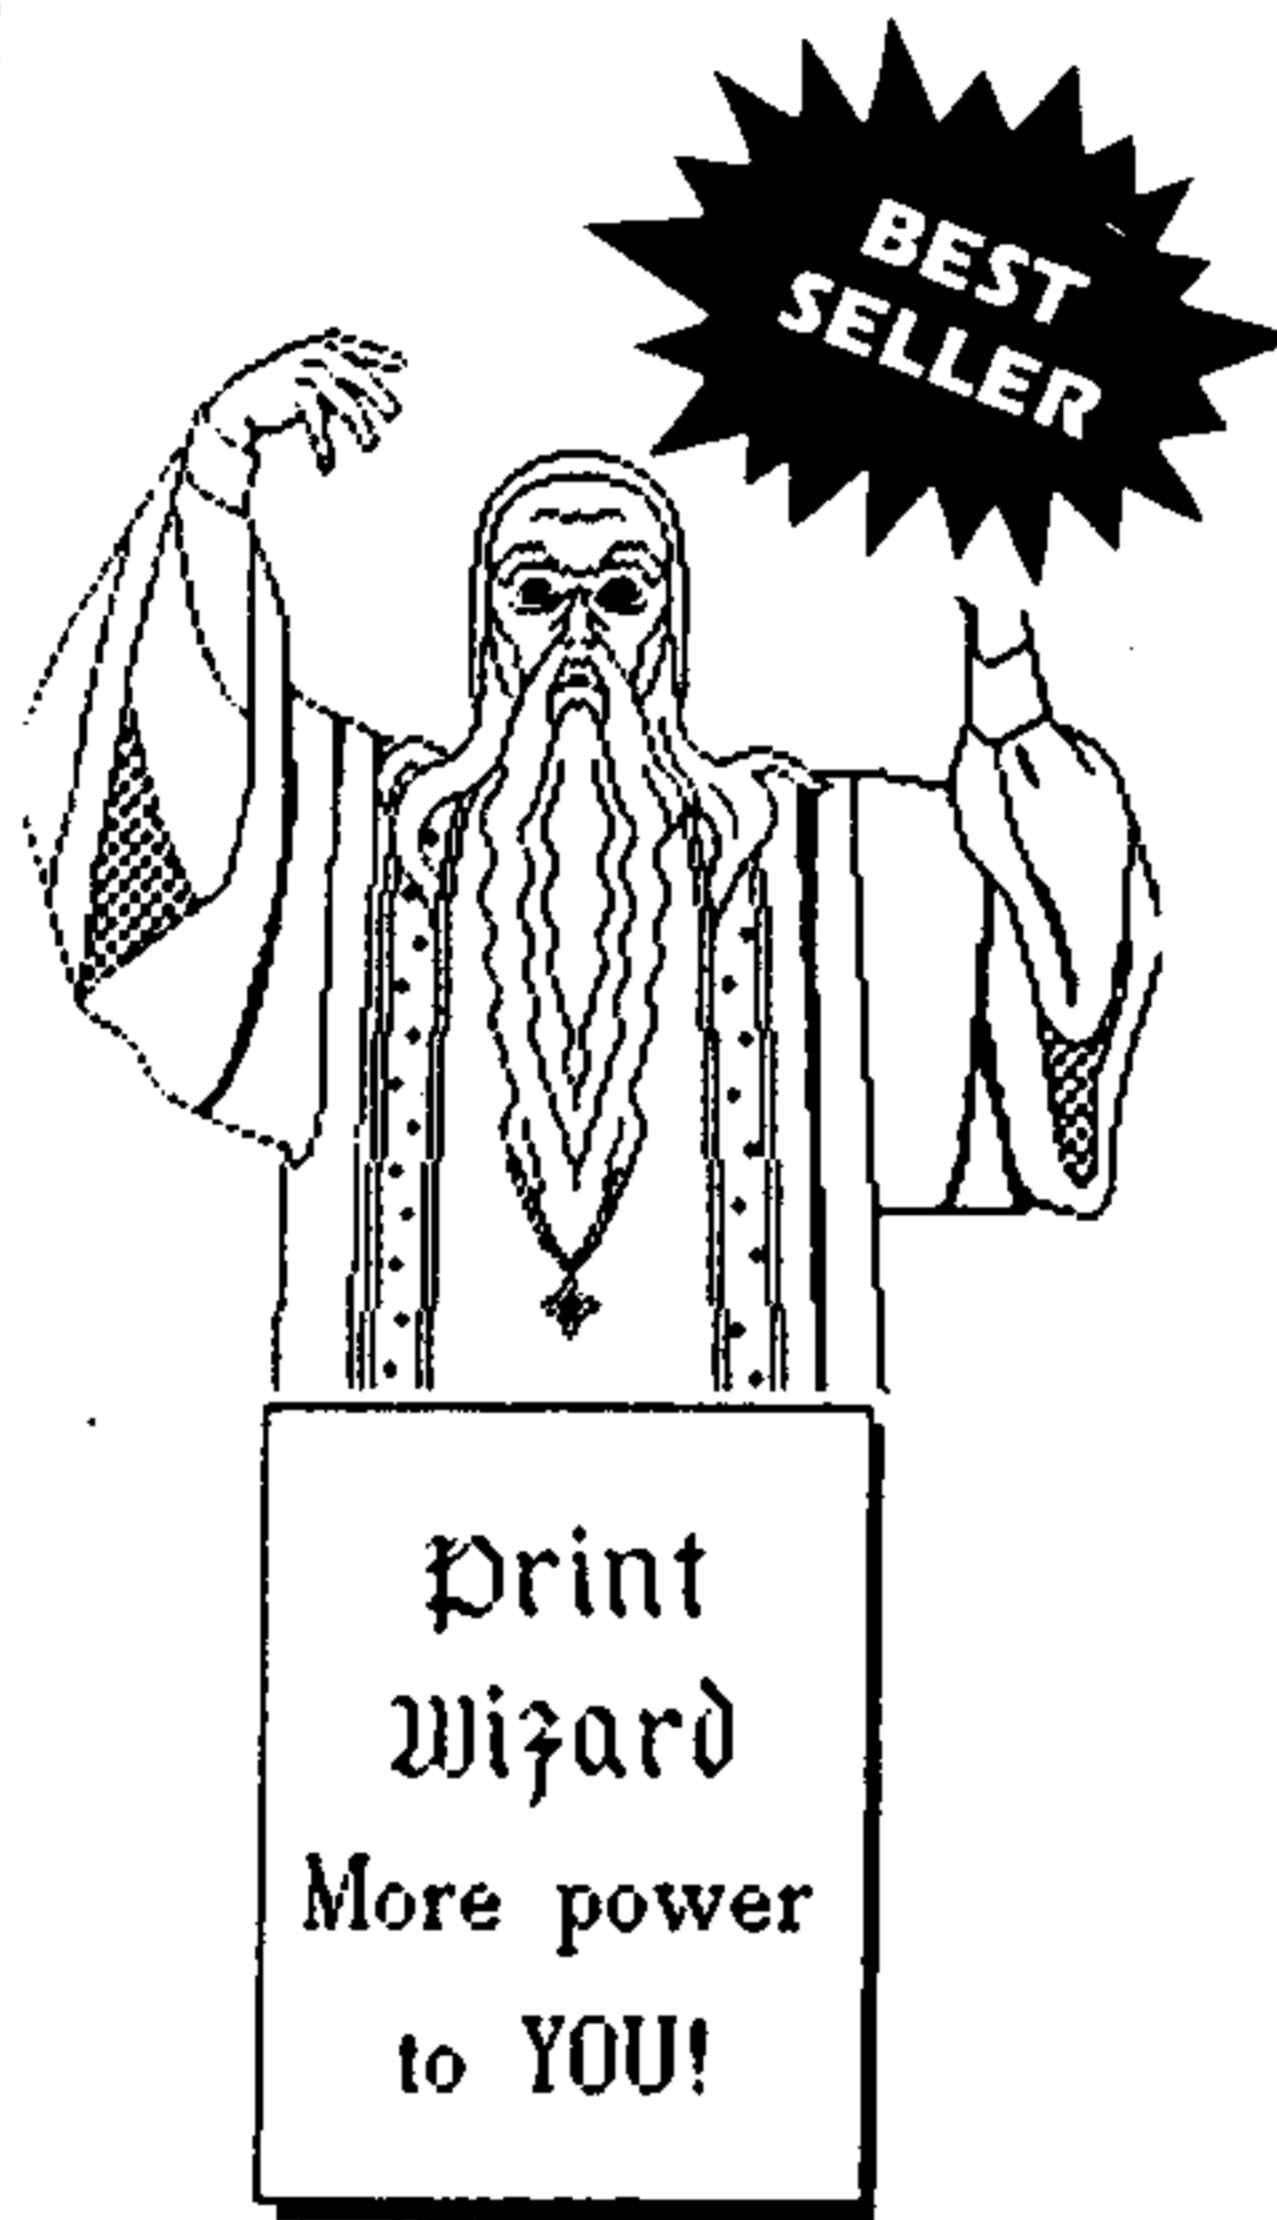

**PRINT WIZARD.** Here's a new program that creates greeting cards, signs, banners and letterhead. It's called Print Wizard and it's so easy to use. Unlike some more expensive programs, Print Wizard is well documented and easily understood. Thus, all 4 programs operate the same, by using the arrow keys to indicate what you wish to accomplish.

If you've ever wanted to design and print your own Christmas cards, banners, signs and letterhead, this is your program. You can even print your graphics in 1 of 4 modes: upright, inverted, sideways left and sideways right. You have total control over these and many other commands such as the size and placement of graphics. It's so easy, a child can use it with little or no computer experience. The package includes 1 program disk, 2 data disks and a comprehensive 20-page manual. Print Wizard requires Extended Basic, 32K memory, and is compatible with these printers: Pro-writer, Epson FX, Gemini 10X or other Epson compatibles. It's also Geneve compatible!

75951 Disk

Sug. Retail \$24.95

An exciting software package that lets you create your own banners!

**BETTER BANNERS.** It's called Better Banners, but this is the best banner program for the TI we've seen yet! TI owners are justifiably envious of owners of **Print Shop**, which only runs on other computers; now, at last, there is a super quality banner program for the TI 99/4A. Better Banners features fully formed characters in 2 sizes plus a full 15 resident graphics, including flag, dog, floppy disk, star, heart, smiley face, car, and many more. A big plus is that you can modify or even replace these graphics with your own designs. You can even use punctuation marks in your banners.

Banner length is limited only by the length of your paper! Compatible with virtually all printers. Requires 32K.

42495 Disk

\$19.95

**BANNER GRAPHICS.** Expand the capabilities of your BETTER BANNERS program with this enhancement disk. Features 45 new graphics and a utility for storing user-designed graphics providing unlimited graphics capabilities! Also, provides a back-up of the BANNER GRAPHICS.

## Desktop Publishing For Your TI

Create great looking documents & combine text and graphics! 16 type fonts!

**THE PRINTER'S APPRENTICE.** If you have been waiting for a desktop publishing program for the TI — one that lets you combine text and graphics and use a great selection of exciting type fonts — your wait is over. The Printer's Apprentice from McCann Software does all that and more!

First, there are great type faces to choose from — the basic disk comes with 6, and our bonus font disk adds 10 more. You can vary the size of these fonts when printing, of course, to get the look you want on your document — big, attractive headlines, high quality text, etc. All TPA type fonts include **all 96 ASCII characters** — not just the alphabet. And if the fonts that come with the package aren't exactly what you are looking for, you can even use the **Font Editor** to edit them or create your own!

**The Picture Editor** lets you crop, size, edit, or create original artwork; or, load your artwork from artist program. A great way to make any kind of document more interesting and readable!

Your text can be input either in your favorite TI word processor or using TPA's own simple text editor, **The Jotter**. Then, **The Formatter** lets you take your text and convert it to micro-justified font print.

**The Scheduler** lets you do your electronic cut-and-paste job. You can actually mix graphics and high quality text on the same page — no manual cutting or pasting!

System requirements are 32K Memory, disk system, and either Extended BASIC OR Editor/Assembler. TPA works with Star, Epson, TI, Panasonic, and compatible printers.

**More Versatile Than Ever Before**

**Font Writer II**

Rated "A" By MICROpendium

**FONT WRITER II.** The most significant development in TI graphics! Font Writer II has just become more versatile than ever before. In addition to the vast libraries for CSGD and TI-Artist of fonts and artwork, Font Writer II can now use artwork from GRAPHX. The easy-to-use TI-Writer interface has been retained and greatly expanded. More TI-Writer formatter commands than ever before can be used with Font Writer II, and it also has the ability to load TI-Writer Editor directly from the main menu. This will allow you to switch between editor and formatter with ease and without changing modules — plus you get the best editor available!

Now, the graphics commands the Font Writer II accepts have been expanded, and the power increased. Multiple images can be placed on the same line, pictures and fonts can be inverted, graphics can be framed, and up to 8 windows can be opened all at the same time.

If this isn't enough, Font Writer II also includes an expanded Font Editor and Font Manager for sorting, merging, or other editing functions. Plus a disk manager is provided for categorizing multiple disks of artwork, and a banner program is included with CSGD fonts and pictures. And finally, there's a separate art disk containing 12 different typefaces, and numerous pictures.

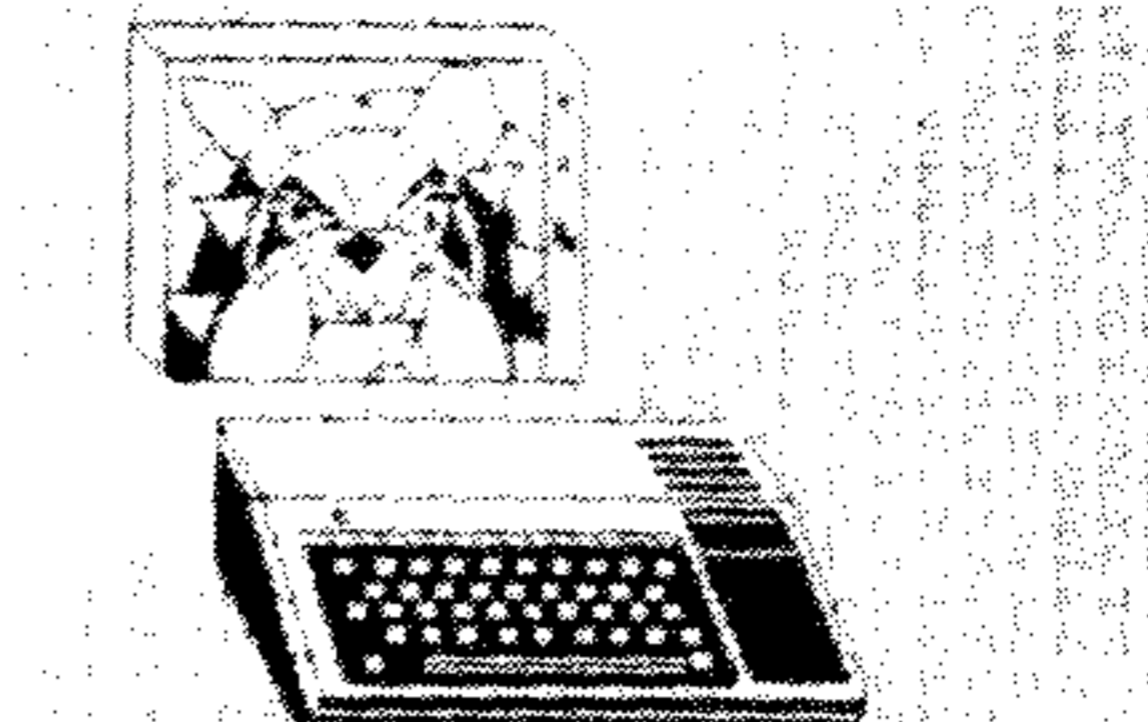

Font Writer II is compatible with the TI 99/4A, the Myarc Geneve Computer (see page 2), and the following printers: Epson, TI Printer, Gemini 10X and Panasonic. Requires 32K and Extended BASIC. TI-Writer and TI-Artist recommended.

Combined with a 32 page manual, Font Writer II is not only the best program of its type, but it's also one of the best values! From Asgard Software.

65398 Disk

\$19.95

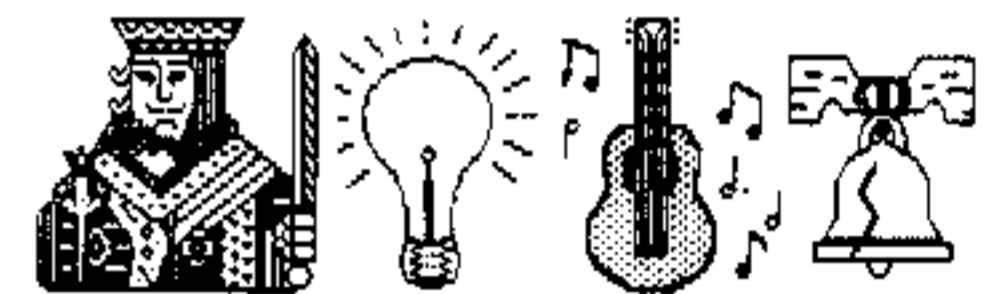

**Publish Like A Pro**

**GRAPHX PLUS.** Now this all time favorite graphics program for the TI 99/4A has become even better. You'll get all the great features that made it an overwhelming success plus all new fonts and Clipart. GRAPHX Plus offers every feature you need to create the best TI 99/4A graphics you've ever seen. It offers free hand drawing and erasing, zoom, auto fill, colors and animation. It will simply astound you. GRAPHX requires a disk system, 32K and Extended BASIC, Editor Assembler OR Mini-Memory. A Star or Epson compatible dot matrix printer is also required.

76301 Disk

\$19.95

**CLIP ART AND FONTS**

**CLIP ART & FONTS.** Choose from over 100 items ranging from sports figures to holiday symbols. The added touch you are looking for to spice up written materials of any kind. \$9.95

"Joy Paint '99 is a truly great graphics program... it is programs like this that will help keep the TI alive."  
 —MICROpendium

**JOY PAINT '99** is a powerful but easy-to-use graphics program that is completely joystick controlled. Creating pictures is easy, because there are no complicated instructions or cryptic keyboard commands to remember. And look at the features: TEXT, PENCIL, SPRAY PAINT, PAINT BRUSH, LINE, CIRCLE, RECTANGLE, ERASE, FAT-PIXEL, FILL, FLIP, ROTATE, INVERT, MAGNIFY, REDUCE, CUT, PASTE, MOVE, COPY, COLOR, VIEW, SHOW PAGE, and more! These are all easily selected by icon with your joystick. JOY PAINT '99 also allows almost twice the graphics space of many other programs by using the screen as a window to work on a larger drawing area. A useful UNDO feature helps correct mistakes. JOY PAINT '99 even conserves disk space by not saving blank areas in your graphic designs. Print-outs can be made in normal or double size, and in single or double-density. Works with Star, Epson and compatible printers. Requires 32K and either Extended BASIC, OR Editor/Assembler, OR Mini-Memory. From Great Lakes Software. Sug. Retail \$39.95

## CorComp Inc.

Now, with the Peripheral Diagnostic Module you can troubleshoot your TI 99/4A system in your own home

**PERIPHERAL DIAGNOSTIC MODULE.** Until now, the TI 99/4A owner's only recourse when attempting to pinpoint a system malfunction was to find a willing friend with a similar TI system and swap out pieces... or send the system off, piece by piece, to various manufacturer's service centers. Not viable options for many 99/4A owners!

Now, thanks to the Peripheral Diagnostic Module from CorComp, you can do troubleshooting at home! Saves lots of time and money!

The module plugs into the cartridge slot of the 99/4A and tests the operations of the expansion cards or stand-alone units.\*

The module will check the following peripherals and functions:

### Disk Controller and Drive System

- Test SS, SD; SS, DD; DS, SD; DS, DD.
- Select each drive for format and test.
- Display head step settings with CorComp card.

### 32K Memory

- Perform bit check and data retention test on 32K memory.

### RS-232 Interface

- Check Port 1 loop to Port 2 without a printer. (Requires Loop-Back Plug-included with module.)
- Check Port 1 or 2 out to printer with selectable baud rate.
- Check PIO out to parallel printer

If you're serious about maintaining your TI 99/4A system in top-notch working condition, you'd be wise to invest in this module. 120 day manufacturer's warranty.

**38412** Peripheral Diagnostic Module **ONLY \$25.95**

**PLEASE NOTE** — If you have a 1983 version 2.2 TI 99/4A console, you'll need the CorComp '83 module adapter (see page 28) to be able to use this module.

\*Compatible with TI and CorComp cards and peripherals.

### HOW ARE WE DOING????

Please send us a note with your comments... whether compliments or suggestions on how we might improve. Your business is genuinely appreciated and it is important to know how well we are serving you.

## Extended BASIC Programming At Its Best

**EZ-KEYS** is a new utility with a split personality. EZ-Keys is the Assembly Program that helps programmers more easily write Extended BASIC programs, and is also a program that lets users get much more out of any Extended BASIC program. How can it do both? EZ-Keys is the one program that lets one key do the work of many keys — among other things.

Here are some of the ways you can use EZ-Keys as a Programming Utility: • Write programs in any foreground and background color desired • Write programs in a character set with a true lower case • Enter up to 23 screen lines for each programming line • Set EZ-Keys to automatically save your program to disk every 1 to 18 minutes.

As a Productivity Tool, EZ-Keys will sit behind almost any Extended BASIC program, even those with Assembly. You can create customized versions for each application quickly and easily, plus call other macros from within a macro or even chain macros for truly large definitions and added versatility.

EZ-Keys requires 32K, Extended BASIC, 1 disk drive and a TI 99/4A, OR a Myarc Geneve and 1 disk drive. It includes a manual and tutorial. From Asgard Software.

73603 Disk

\$14.95

## The Ultimate Disk Dissector

**ADVANCED DIAGNOSTICS** does all the things you would expect a disk utility to do — read, print, or change — individual sectors, format and/or copy disks, show directories... and much more. Now you can look "in between" the sectors for hidden information, partially format disks, create and crack protection schemes, even check the speed of rotation of your disk drive. Compatible with TI and CorComp disk controllers plus Myarc's 256K RAM disk. Package includes comprehensive 40 page manual. Requires 32K and Extended BASIC OR Editor/Assembler OR Mini-Memory.

# TI/IBM

## Conversion Software

### Transfer Files To IBM PC With Pep Works With Any Computer Including TI 99/4A

**PEP.** Printer Emulator Program is a utility that runs on your IBM PC and turns it into a "printer" for other computers. The PC accepts the input through its RS-232 port, and can display it on the screen, print it on a printer, and/or save it to disk. PEP will accept data at a very high rate of speed — 960 characters per second or about 50K per minute. Even lengthy lists or documents can be "printed" to the IBM PC in a snap. The new file created by the IBM PC is an ASCII file for easy manipulation by commercial or user-written software.

The uses for PEP are many. Users who have created lengthy mailing lists, word processing documents, or spreadsheets on the TI or other computers may want to transfer them to an IBM PC for use in sophisticated programs like 1-2-3, Wordstar, etc. The time saved by using PEP instead of retyping documents or data could pay for the program in just a few days, not to mention the prevention of keying errors.

Here's what you need: a computer (TI or other) with an RS-232 output, an IBM PC with at least 128K of memory (356 preferred), and an RS-232 output, DOS 2.0 or higher for the IBM, and a connecting cable. The documentation describes the cabling requirements so you may make your own or provide specifications to a cable maker. The cable listed below fits most configurations for connecting the TI 99/4A RS-232 output to the IBM PC. Contact our Customer Service Department to confirm what is right for your setup.

Package includes TI and IBM PC software plus complete and easy-to-use documentation. Runs on IBM PC, and many compatibles. From Intelpro.

### The Real TI/IBM Connection Easy! No Cables Needed!

**THE REAL TI/IBM CONNECTION.** At last you can convert files from TI format to IBM format. It's so easy that you don't need to physically connect 2 computers to do it. This revolutionary new program from CorComp actually lets your TI read and write IBM formatted disks using your existing TI system.

Think of the benefits: you can convert large databases or word processing documents to IBM format without time consuming and error prone retyping. You can even use your TI at home in the evening, then convert your information to IBM format for use in the office. Your possibilities are endless.

The most unique feature about this program is that it just plugs into your TI computer, and you're ready to go. Also, it does not require you to attach your IBM computer, because it turns your TI drive into an IBM compatible drive. All you have to do is select the files you want transferred from TI to IBM.

This product requires a TI system with 2 double-sided, double-density drives, and a CorComp disk controller card. (NOTE: This program can be used to convert a TI BASIC program stored in ASCII format to an IBM compatible format, due to software differences, modifications will be necessary in most cases. Also, some editing may be required when converting word processing or database files to make the converted files fully compatible with the software on the other computer.) In our opinion, this is the best new utility we've seen in some time.

### Exploits Your TI 9/4A's True Potential

**NIBBLER.** This is the most powerful disk duplicator available for your TI 99/4A. Unlike the TI Disk Manager Module which cannot access the 32K memory expansion, this program reads as much as the memory can hold and then writes it to the new back-up disk. In other words, your disks can be duplicated in only 1 to 3 passes. You'll save lots of valuable time. Compatible with both TI and CorComp systems, Nibbler copies most protected diskettes. Runs on Extended BASIC, Editor/Assembler OR Mini-Memory.

76274 Disk

\$9.95

**SUPER EXTENDED BASIC WITH DRAW 'N PLOT.** Whether you're an experienced operator or just a novice, you'll get everything Extended BASIC has to offer plus 33 new commands and 6 modified commands. You've got total control at your fingertips with this cartridge that is one of the most important upgrades for Extended BASIC.

Included in this powerful cartridge is the Draw 'N Plot graphics program from Quality 99 Software. It has 15 subroutines that can be used for extraordinary high-resolution plotting and graphing. Its greatest feature is its simplicity. You don't have to be an experienced computer operator to use this program as it is straightforward enough for children. Print out your graphics on any Epson-compatible printer. Draw 'N Plot requires 32K Memory Expansion only.

76130 Cartridge

\$59.95

## Utility Hardware

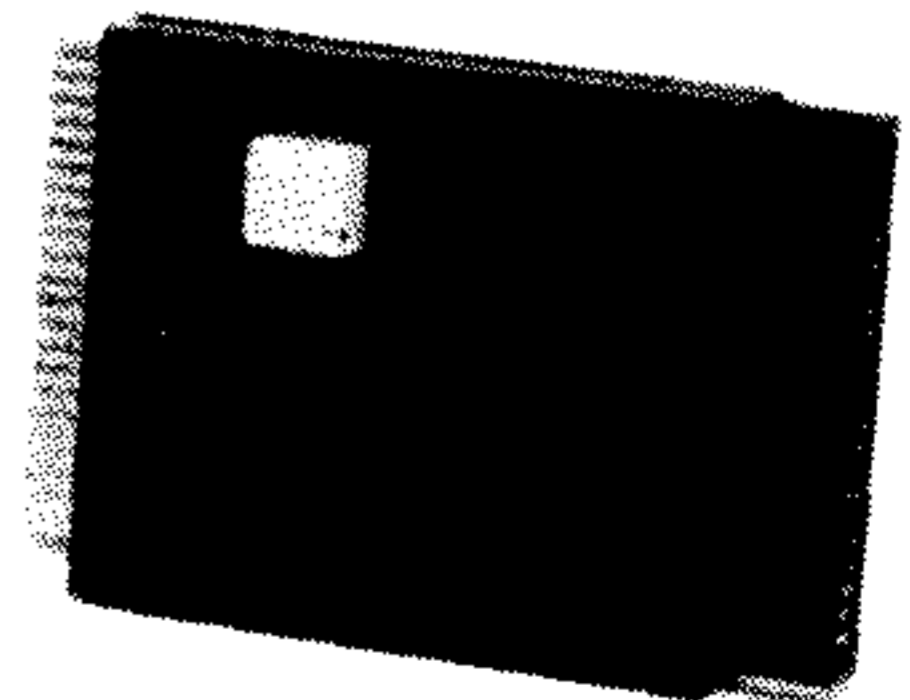

Screen  
Dump  
Aid

**CORCOMP LOAD INTERRUPT SWITCH.** Designed for use in conjunction with screen dump software like Screen Dump II from Quality 99 Software, this handy device lets you dump many cartridge screens at the touch of a button. (See page 27 for software details on Graphics Pak which includes SDUMP II) All you have to do is plug the interrupt switch into the side of the computer, load the screen dump program, and run the cartridge program. When you get to the screen you want, just push the button to print the full screen.

38164 Interrupt Switch

\$13.95

Do You  
Have An  
'83 TI?

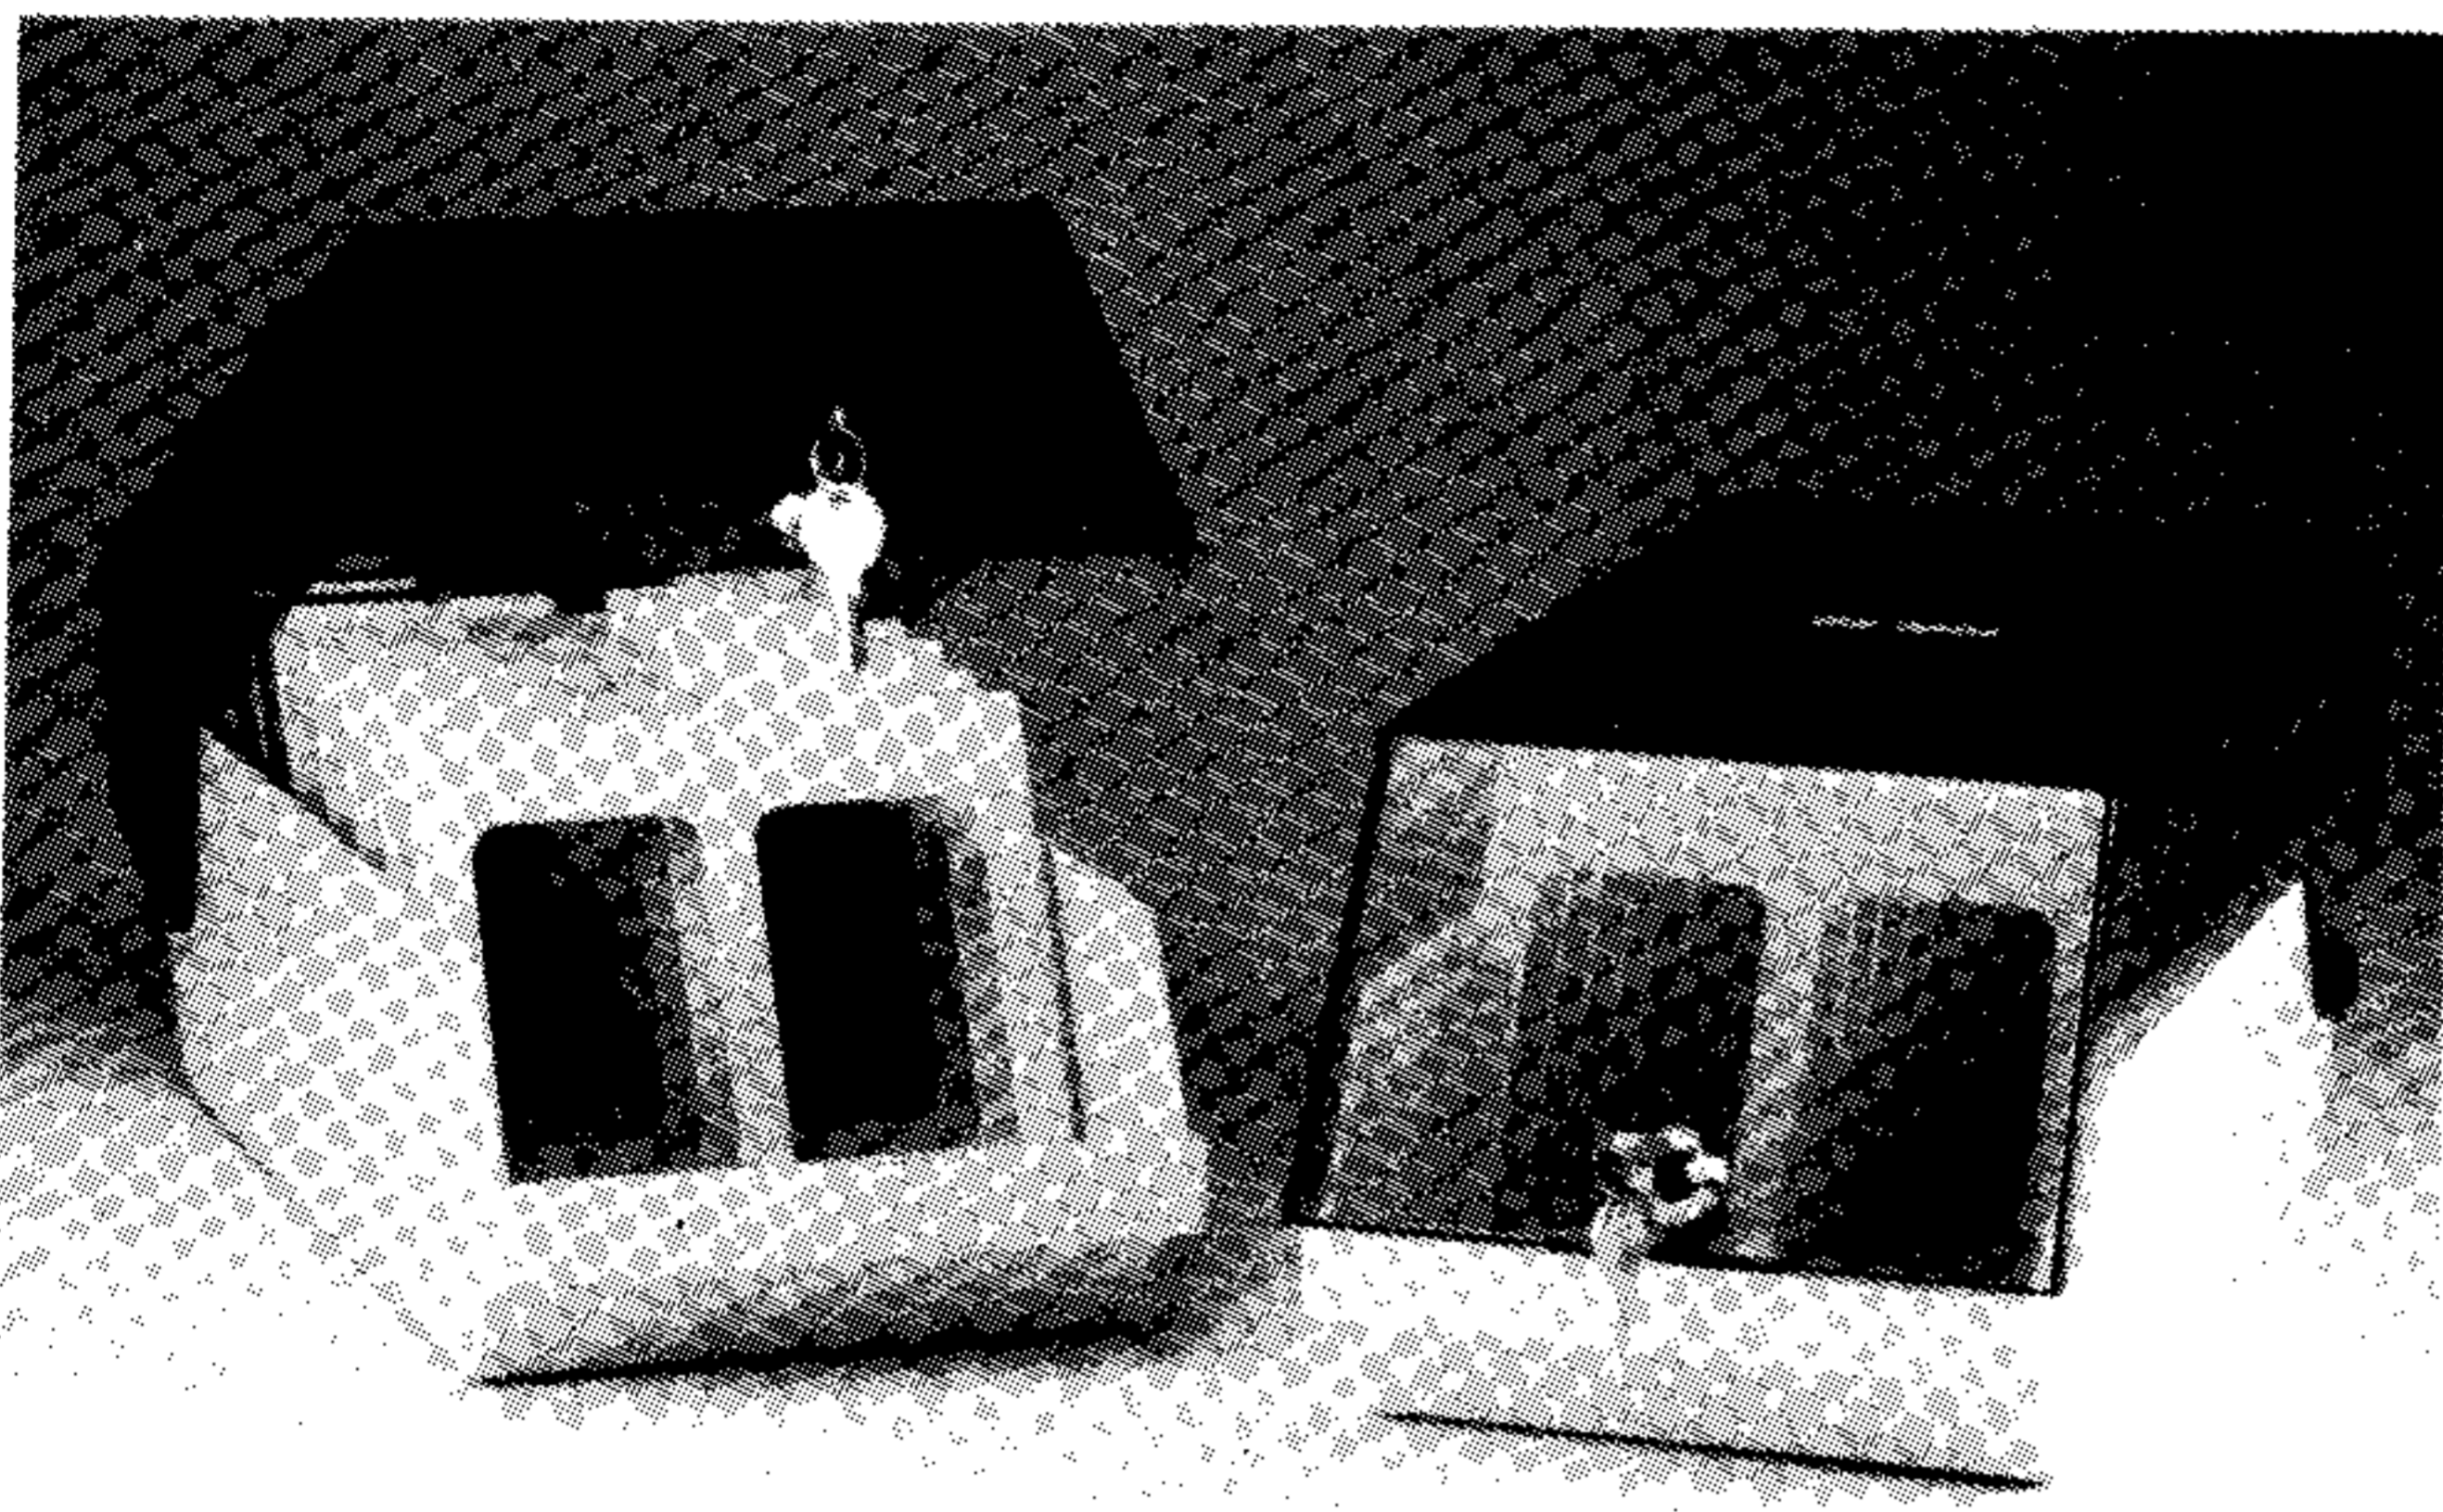

**CORCOMP '83 MODULE ADAPTER.** In 1983 Texas Instruments produced a version of the TI computer which contained a GROM program that prevented the use of some cartridge software produced by other firms like Atarisoft. These computers can be identified by the tile screen which displays "Texas Instruments V2.2." This module plugs into the side of your TI 99/4A and lets you bypass the GROM and run the module of your choice.

# OKIDATA®

**High Performance, Low Cost, Full Width**

## The Compatible, Speedy, Versatile, Affordable Printer For Everyone!

**OKIDATA 180.** This is one dot matrix printer that is compatible with most computers, not just your TI 99/4A. By virtue of its exclusive **dual interface**, this printer is compatible with dozens of computers. Its Commodore serial interface allows you to easily connect to the Commodore C64 or C128, while the Centronics parallel interface connects to your TI's RS 232 card as well as to IBM and compatible computers. To use with your TI 99/4A, use one of the parallel printer interfaces described on page 32. Other computers with a parallel output such as the Apple II, II+, IIe, Atari ST, Amiga, FX and virtually all CP/M and MS-DOS computers can also be used with the Okidata 180.

Print text and graphics at a blazing 180 CPS in High Speed Draft Mode and 120 CPS in Utility Mode. Also print in near-letter-quality at 30 CPS. The Okidata 180 even supports super- and subscripts as well as continuous underline and condensed print modes. With its standard friction feed and fixed tractor you can print on computer paper, letterhead, 4-part forms, legal sized paper and more.

The printhead is rated for a life of 200 million characters and ribbon life is 3 million characters. The Okidata 180 is also covered by a full year warranty. Compatibility, durability and reliability all describe the Okidata 180.

- 71655** Ribbon for Okidata 180 **\$8.95**
- 73959** Okidata 120/180 Tractor Feed Kit (for non-standard paper width) **\$39.95**

**OKIDATA MICROLINE 183 PERSONAL PRINTER** is a lightweight, multi-function printer that handles full width 15" computer paper. Featuring 120 CPS bidirectional printer, 30 CPS in near-letter-quality mode at only 13.2 lbs., the Microline 183 stands just 5" tall. It includes a friction and tractor feed, supports super-, subscripts and underlining, as well as double width and condensed characters. At 55 decibels, the Microline 183 is one of the quietest dot matrix printers around. It's now-famous 9-pin printhead has a rated life of over 200 million characters. A Centronics-compatible parallel input board is standard. To use with your TI 99/4A, you'll need a parallel interface, see page 32. Includes one year warranty. Sug. Retail \$399.00

**NX-1000 Rainbow Color  
Printer. Near Letter  
Quality ... And In  
Color!**

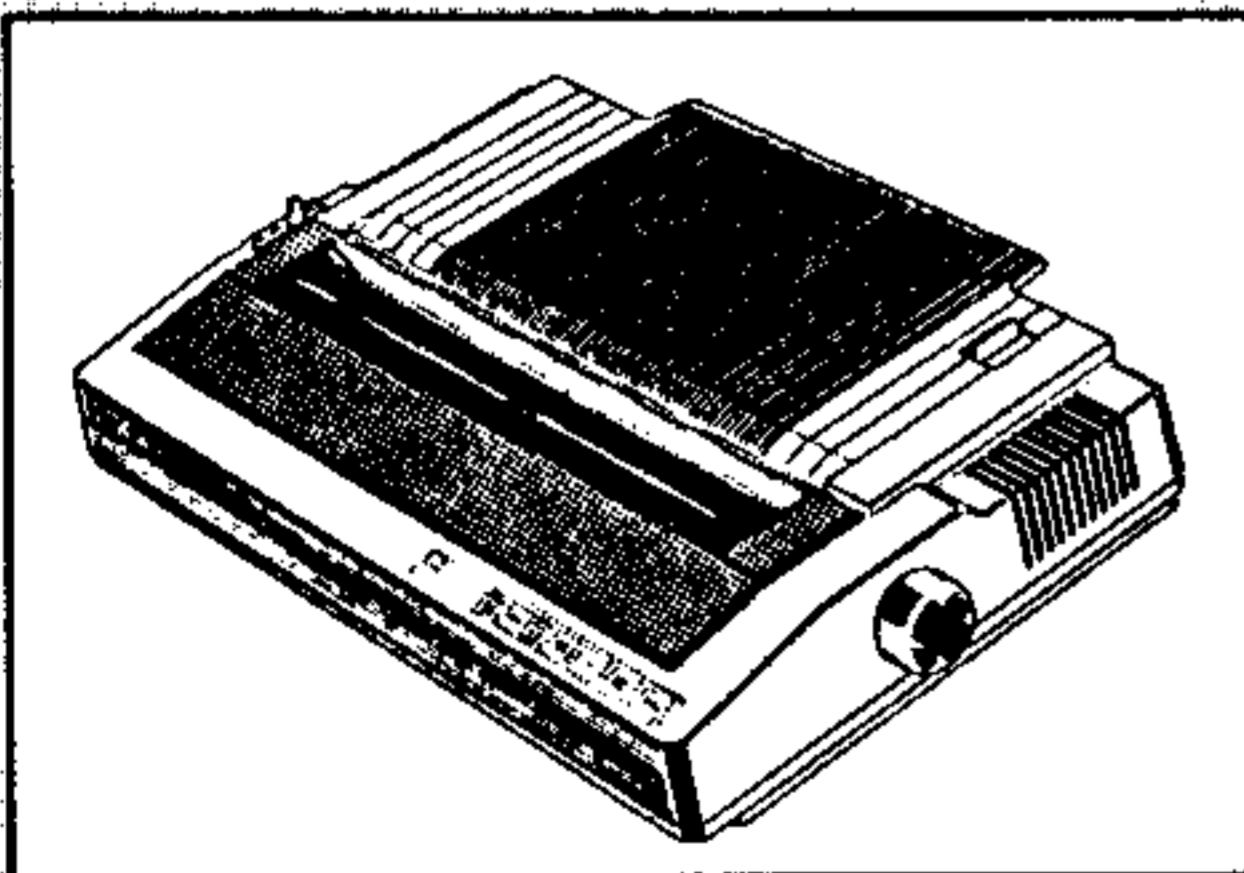

**NX-1000 RAINBOW COLOR PRINTER.** Get near-letter-quality at 36 CPS and high-speed draft at 144 CPS. With its new paper parking function, you are able to use the single sheet feeder without removing the tractor feed. Light Emitting Diode (LED) indicator lights located on the control panel tell you at a glance the status of the printer such as power on, print pitches, type styles and on-line status. The NX-1000 Rainbow gives you the choice of typestyles like Courier, Sans Serif, Orator-1 and Orator-2, in a choice of Pica, Elite, condensed Pica and condensed Elite. Italic is available in all print modes. Although no compatible color graphics software currently exists for the TI 99/4A, the NX-1000 Rainbow can be used to produce color text, or you may design your own programs for use with this printer. Sug. Retail \$379.00

- 75077** NX-1000 Rainbow Color Printer **\$269.95**
- 75485** Ribbon for NX-1000 Rainbow Color Printer **\$9.95**

**STAR NX-1000.** The NX-1000 gives you a choice of pitches and print styles: Courier, Sans Serif, Orator-1 and Orator-2 type styles, in a choice of Pica, Elite, condensed Pica and condensed Elite. Italic is available in all print modes. Get near-letter-quality at 36 CPS, and high-speed draft quality at a blazing 144 CPS.

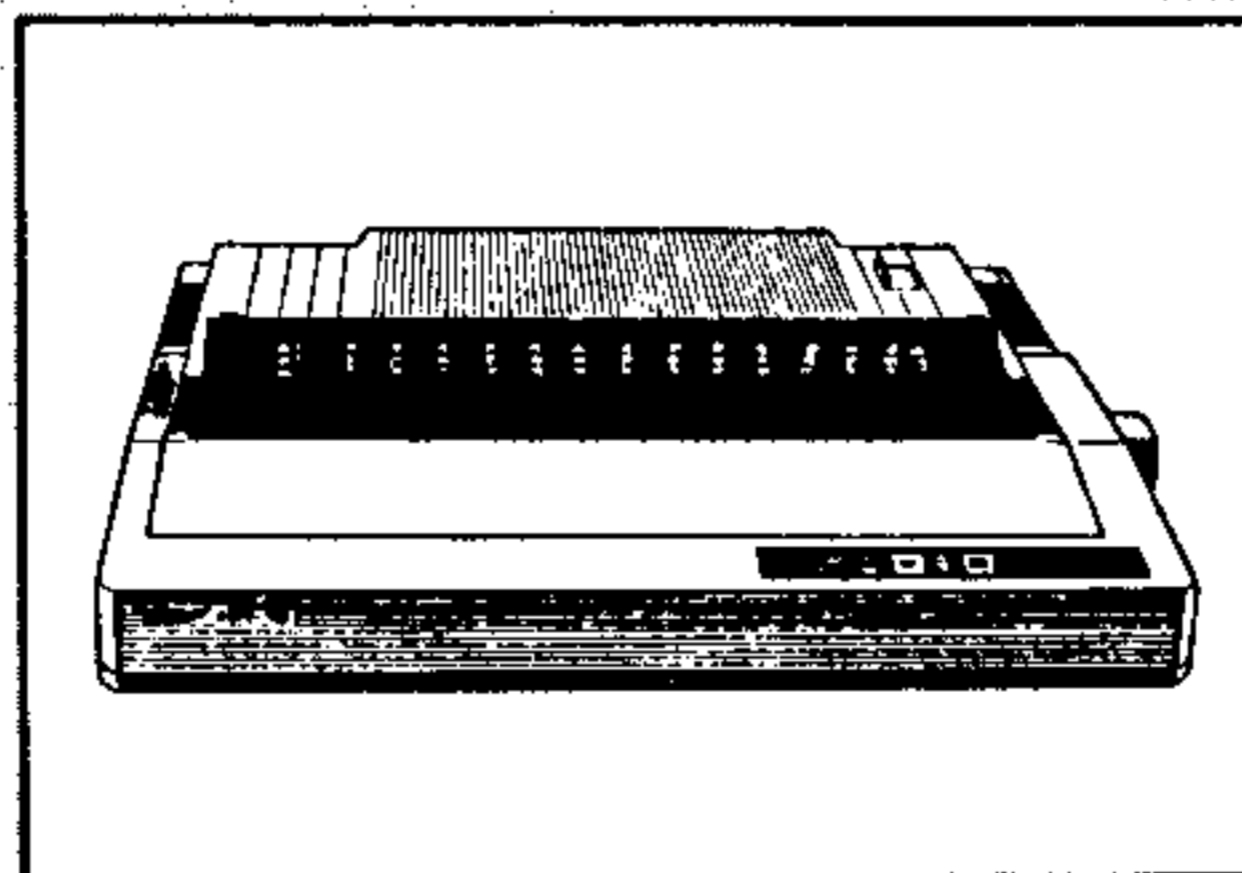

With the aid of the new paper parking function you can now use the single sheet feeder without removing the tractor feed. The operator panel features LED indicator lights for instant confirmation of power, type styles, print pitches, and on-line status. Extra features like enlarged and proportional printing are also included on the NX-1000, a printer that easily out-distances all other printers in its class. For use with your TI 99/4A, a parallel interface is required (see page 32). Sug. Retail \$289.00

Sug. Retail \$19.98  
**\$14.95**

## Space Saving Printer Stand

**PRINTER STAND.** At last a printer stand priced for homes and small offices! We've always liked the convenience and organization of an elevated printer stand — you can put your paper underneath the stand to save valuable table space and make feeding easier. The problem, up until now, has been price. Stands sold to the office market often cost \$40, \$50, \$60 or even more! These great stands from Suncom, a leader in microcomputer accessories, solve the price problem and offer features not found on models costing more than twice as much. The stands feature **heavy-duty welded steel wire construction** and have a vinyl coating to reduce noise and vibration and provide an attractive appearance that will blend with your computer decor. Another plus that the designers of many more expensive stands left out: our Suncom stand holds the printer at an angle that makes it much easier to see your output as it is being printed.

We use one in our office and agree that this much convenience at such a low price is real value. Available in 2 widths: 12" for most 80 column printers (Gemini 10X, SG-10, NX-10, etc.), and 18" for most 132 column printers (Gemini 15X, SG-15, FX100, etc.).

33232 12" Printer Stand  
33246 18" Printer Stand

**Now Only \$6.95 ~~\$14.95~~**  
**Now Only \$10.95 ~~\$22.95~~**

**11.95**

**PAPER TRACTOR.** Carries ordinary sheet paper through your tractor-feed printer! simply place your letterhead, checks, invoices, forms, even legal-sized sheets into the durable flexible plastic carrier and feed into your adjustable tractor-drive printer. Works with most printers.

22084 Paper Tractor

**\$11.95**

**DATA TRANSFER SWITCH.** Instantly switch your computer between two printers (or any other "Centronics" parallel devices) with one knob on this top quality "A-B" switch. Back of switchbox has three female 36 pin ribbon connectors, just like almost all the parallel printers on the market. Plug your computer's male 36 pin printer cable into the connector marked "common," then use the cables described below to connect the other connectors to your printers.

68104 Parallel Switch Box

Sug. Retail \$59.00

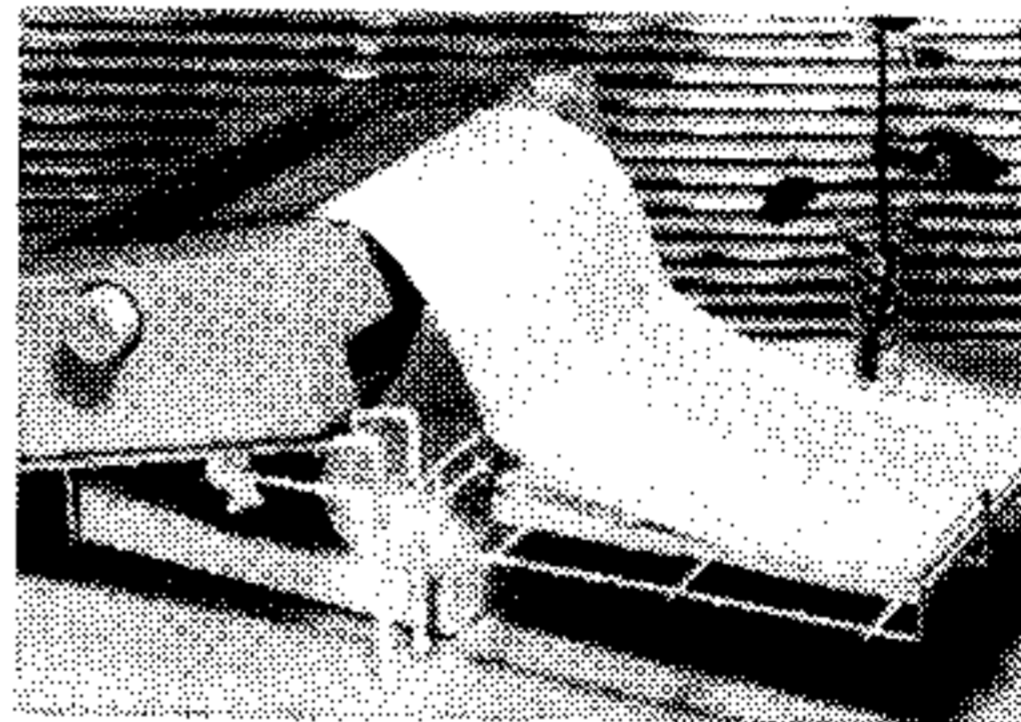

**\$24.95**

**Parallel "Centronics" Male-to-Male 36 Pin Cable.** Connects parallel data transfer switches to parallel printers. Six foot length.

33570 Parallel Male-to-Male Cable

Sug. Retail \$39.00

**\$11.95**

**11.95**

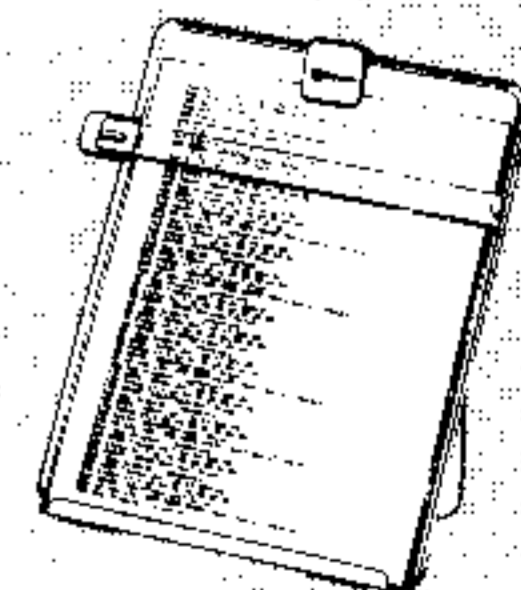

**PAPER TRAY.** Once Suncom gave us an efficient, economical printer stand, they went to work on another problem... what to do with the printout that comes out of the printer and tends to spill all over the table and floor and get into a real mess? They developed the Suncom Paper Tray! The tray is of the same solid construction as the printer stand and attaches to the rear of all Suncom stands. It receives the printed paper as it comes out of the printer and helps to neatly fold and stack it. A real labor saver!

42091 Paper

Sug. Retail \$14.95

**\$11.95**

**12.95**

**DOCUMATE 2.** Tired of craning your neck to read the material you're typing into the computer? DocuMate 2 puts your work up on a 9"x12" easel and holds it in place while you type. This also frees up desk space for greater efficiency. Made of durable, lightweight injection-molded plastic. DocuMate 2 includes extra clips and conveniences not found on most other copy holders. Adjustable ruler keeps you from losing your place on the page. Great for home, school or office. From Suncom.

42404 Documate 2

**\$12.95**

**SPECIAL!**  
**9995**

**Double-Sided  
 Double-Density  
 Half-Height Disk Drive**

Double-sided, double-density slimline disk drives that provide up to 360K of double-density storage when used with CorComp or Myarc disk controller cards. Can also be used with the TI disk controller and Disk Manager module to access up to 180K of storage.

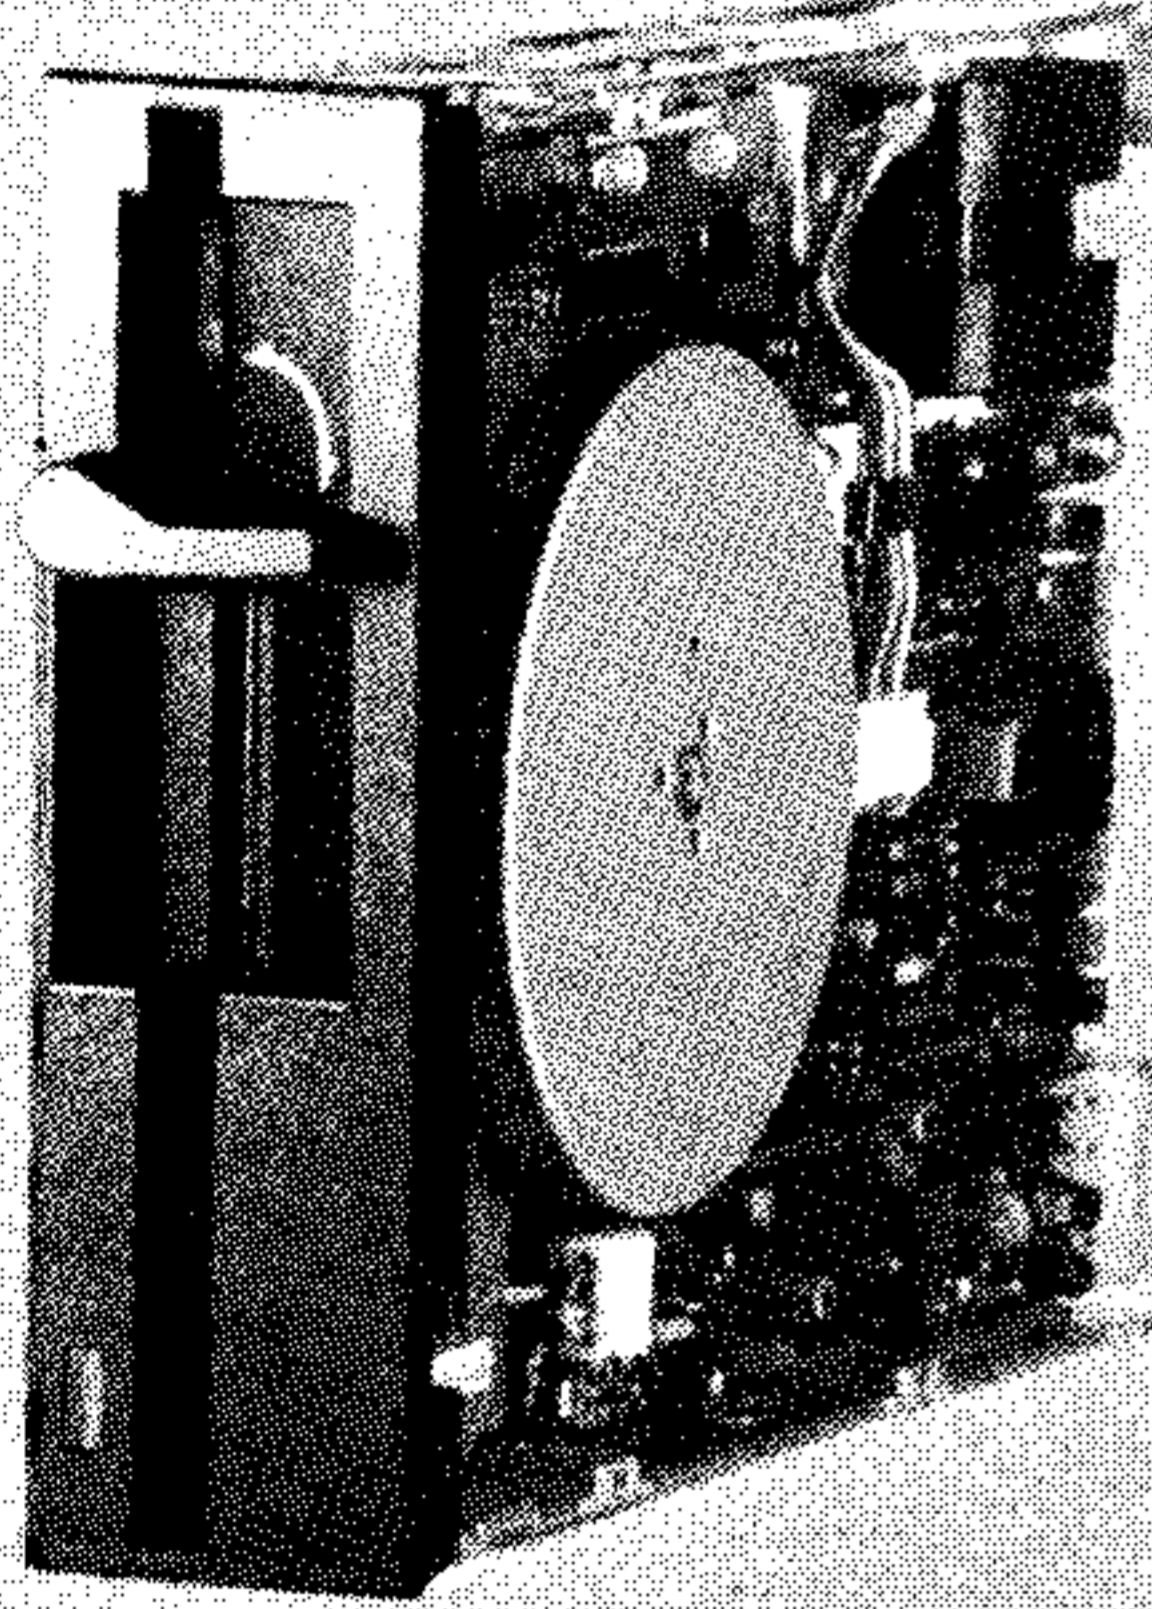

The drives are shipped "bare" and can be installed in the TI Peripheral Expansion Box. The drives may also be used externally by installing them in the box listed on this page. If only one drive is installed in the box, a filler plate may be ordered to cover the additional space.

**Please Note** — Disk Controller and hook-up cables required. See "Disk Drive Accessories" section in the next column to order appropriate cables for hooking up disk drives to your Disk Controller.

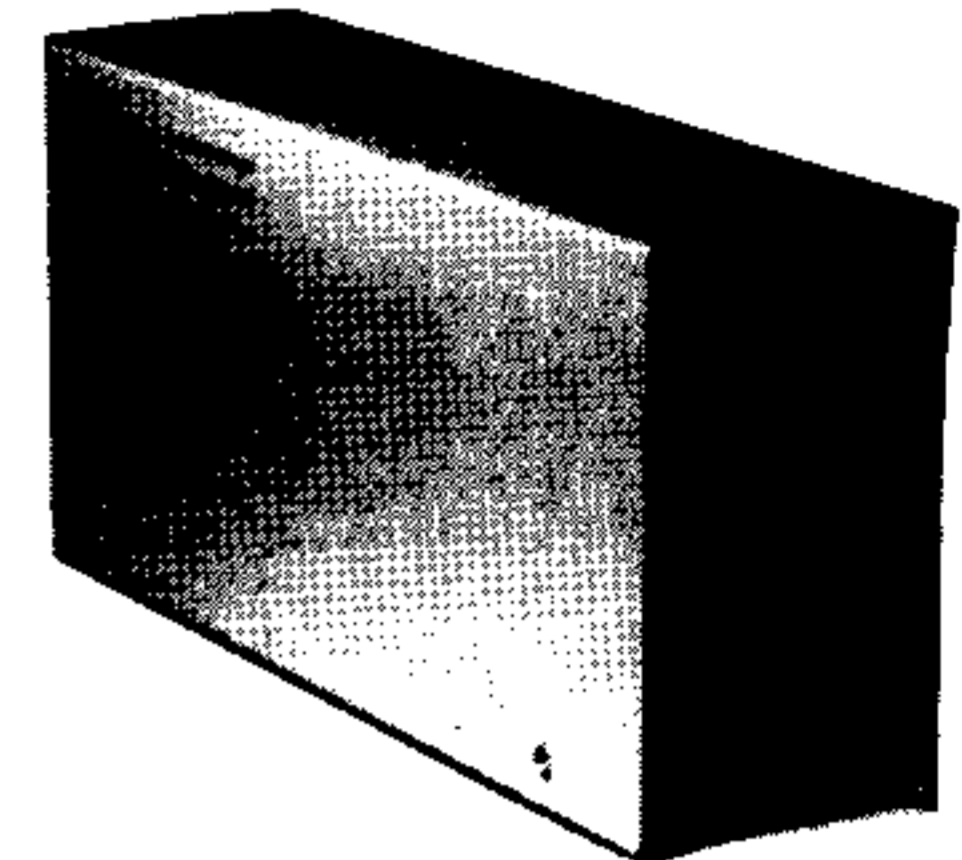

**38604** Half-Height Disk Drive **You Pay Only**  
**\$9995**

**Two Drive Mounting Plate.** Allows 2 half-height drives to be mounted securely in the Expansion Box or box with power supply, without drilling holes.

**33181** Two Drive Mounting Plate **\$8.95**  
**20164** Box With Power Supply **\$59.95**  
 (see next column for description)  
**38923** Filler Plate (optional accessory) **\$8.95**

**Disk Drive  
 Accessories**

To add external drives to your TI expansion box system, or to connect any drive(s) to the CorComp Micro-Expansion System, you will need a box with power supply and the appropriate cable to connect the drive(s) to the disk controller. The accessories listed below may be used with the bare Texas Instruments drive, a single or double-sided Tandem drive, or half-height drives.

**BOX WITH POWER SUPPLY.** Accommodates 1 full-height or 2 half-height disk drive(s). Vertical type. Heavy gauge formed steel.

**20164** Box with Power Supply **Only \$59.95**

**CABLE WITH ONE EXTERNAL DRIVE.** Connects 1 drive to the card edge (external) connector on the TI, CorComp, or Myarc disk controller card.

**10178** Cable for One External Drive **Only \$21.95**

**CABLE FOR TWO EXTERNAL DRIVE.** Same as above for 2 drives.

**10182** Cable for 2 External Drives **Only \$24.95**

**DISK DRIVE Y CABLE PACKAGE-PIN TYPE.** Includes • Y power adapter (connects 2 half-height disk drives to 1 power source), and • Cable to connect drives to the pin-type (internal disk drive) connector on a TI, CorComp, or Myarc disk controller card (i.e., when installing 2 half-height drives in TI expansion box) OR the CorComp Micro-Expansion System (i.e., installing 2 drives in 1 external box and power supply).

**31045** Y-Cable Package — Pin Type **\$29.95**

**DISK DRIVE Y CABLE PACKAGE-CARD EDGE TYPE.** Includes • Y power adapter (connects 2 half-height disk drives to 1 power source), and • Cable to connect drives to the card edge (external disk drive) connector on a TI, CorComp, or Myarc disk controller card (i.e., installing 2 half-height drives as DSK2 and DSK3 in 1 external box and power supply).

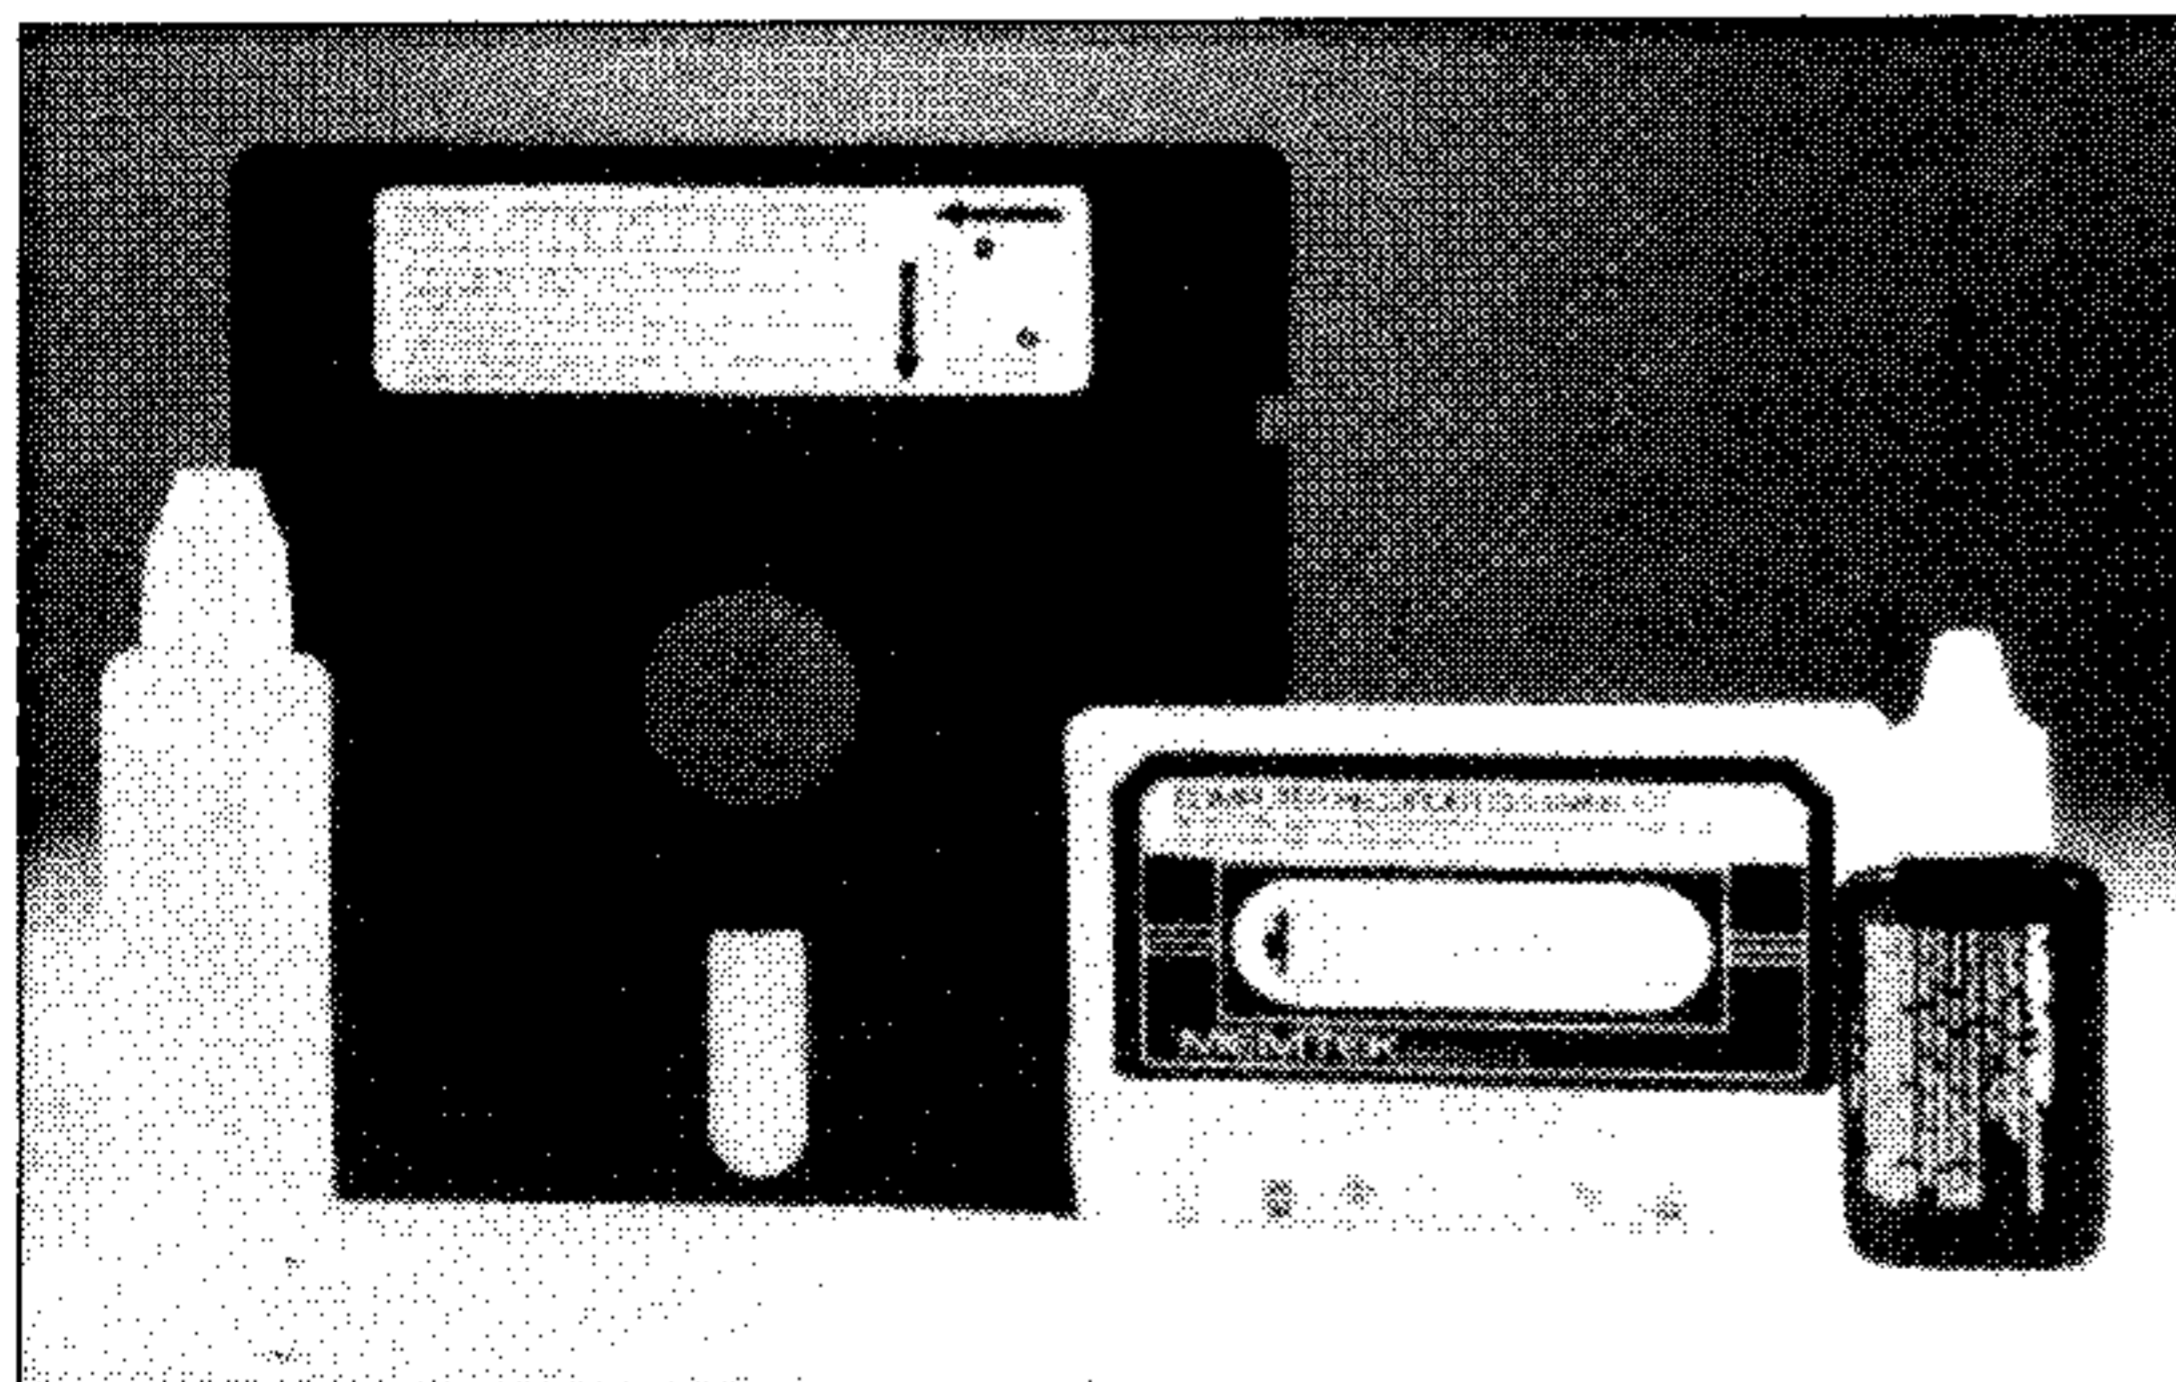

**31523** Y-Cable Package Card — Edge Type **\$29.95**

**ONE DRIVE CABLE-PIN TYPE.** Connects 1 drive to the pin type (internal) connector on the CorComp or Myarc disk controller card (i.e., installing 1 drive in TI expansion box), OR the CorComp Micro-Expansion System (i.e., installing 1 drive in external box and power supply).

**30751** One Drive Cable — Pin Type **\$16.95**

**TWO DRIVE CABLE-PIN TYPE.** Same as above for 2 drives. To install 2 half-height drives using a single power source, see Disk Drive Y Cable Package-Pin Type, part #31045.

**31538** Two Drive Cable — Pin Type **\$24.95**

**Prevent Data Errors and Repair Bills**

**DISK DRIVE HEAD CLEANING KIT.** Includes cleaning diskette, fluid and instructions. Provides 15 cleaning operations.

**40569** Disk Drive Head Cleaning Kit **\$4.95**

**CASSETTE HEAD CLEANING KIT.** Contains cleaning tape, fluid and instructions. Recommended cleaning frequency — every 20 hours of use.

**40574** Cassette Head Cleaning Kit **\$3.95**

## Cassette Recorder

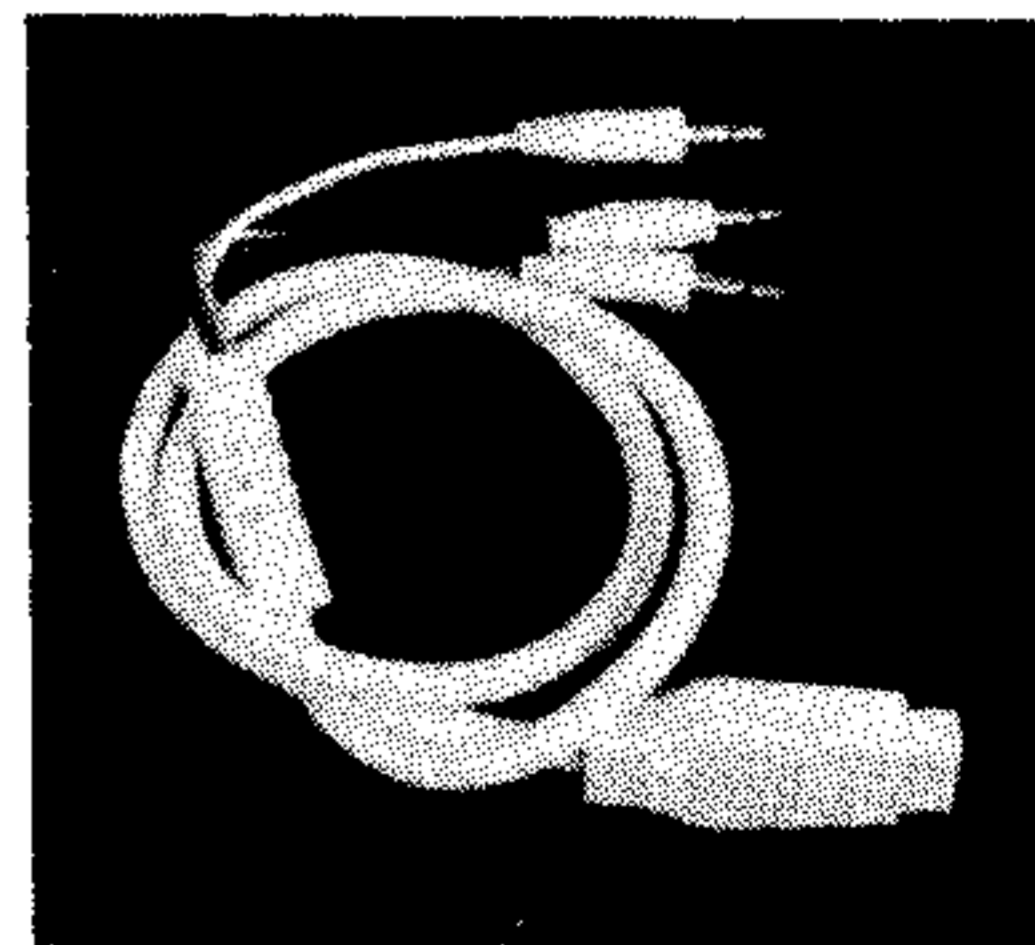

**Extend the Versatility Of Your TI 99/4A Console**

**GE CASSETTE RECORDER.** GE's Model 3-5157B Cassette Recorder will expand your system and allow you to take advantage of the available cassette-based software. This slim style recorder combines the latest features in a compact, space-saving design. Features include a digital tape counter with reset, 6 push-button operation with stop/eject and pause control, and variable tone control. The AC power cord is included. Also included is our Cassette Adapter, (described to the right) — **at no extra charge.** Requires cassette cable #21186 or #15592 to operate with TI 99/4A.

**80311** GE 3-5157B Cassette Recorder with adapter **\$29.95**

### Cassette Accessories

**SINGLE CASSETTE CABLE**

**CASSETTE ADAPTER.** If your present cassette recorder does not operate when the cassette cable is attached, simply plug this adapter into your recorder. It reverses the polarity of the remote control to be TI compatible. You save the cost of a new recorder.

**10074** Cassette Adapter **\$5.95**

**DUAL CASSETTE CABLE.** Will connect your TI 99/4A to either 1 or 2 cassette recorders.

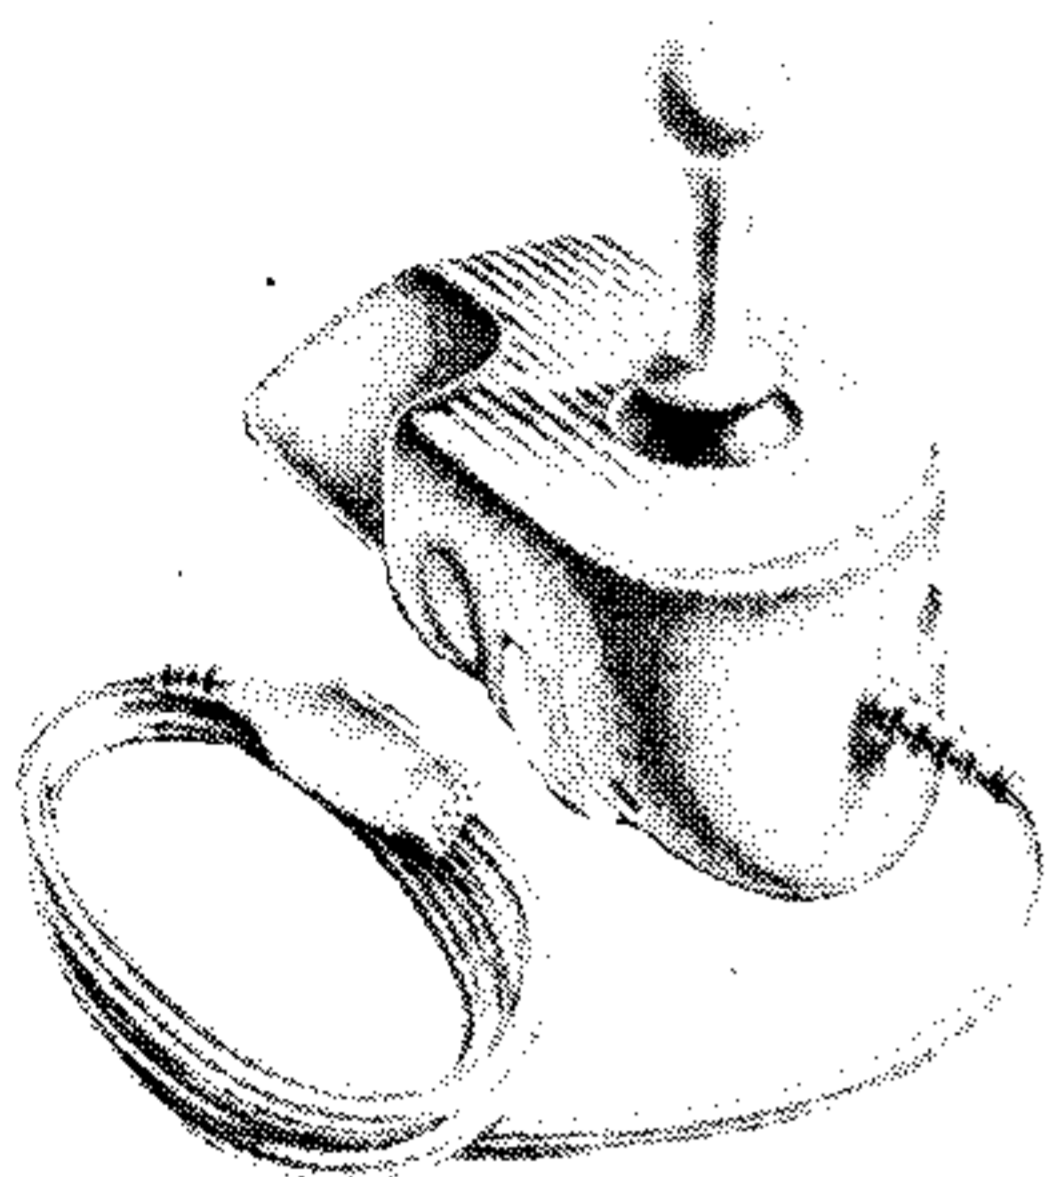

**21186** Dual Cassette Cable **\$9.95**

**SINGLE CASSETTE CABLE.** Connects your TI 99/4A to 1 cassette recorder. Suitable for most needs.

**15592** Single Cassette Cable **\$5.95**

# EPYX

**Introducing The  
World's First High  
Performance  
Joystick!**

**EPYX 500XJ JOYSTICK** features a molded design that fits the palm of your hand for a comfortable, natural feeling. Unique shaft switches allow you to not only feel, but hear each move of the stick for exacting control. Trigger finger firing gives you faster, more accurate shooting. This joystick scores significantly higher, faster and easier than any joystick ever made! To top it all, the Epyx 500XJ comes with a 5 year warranty! There's only one thing you're ever going to break — your previous high scores! Requires joystick adapter for use with TI 99/4A.

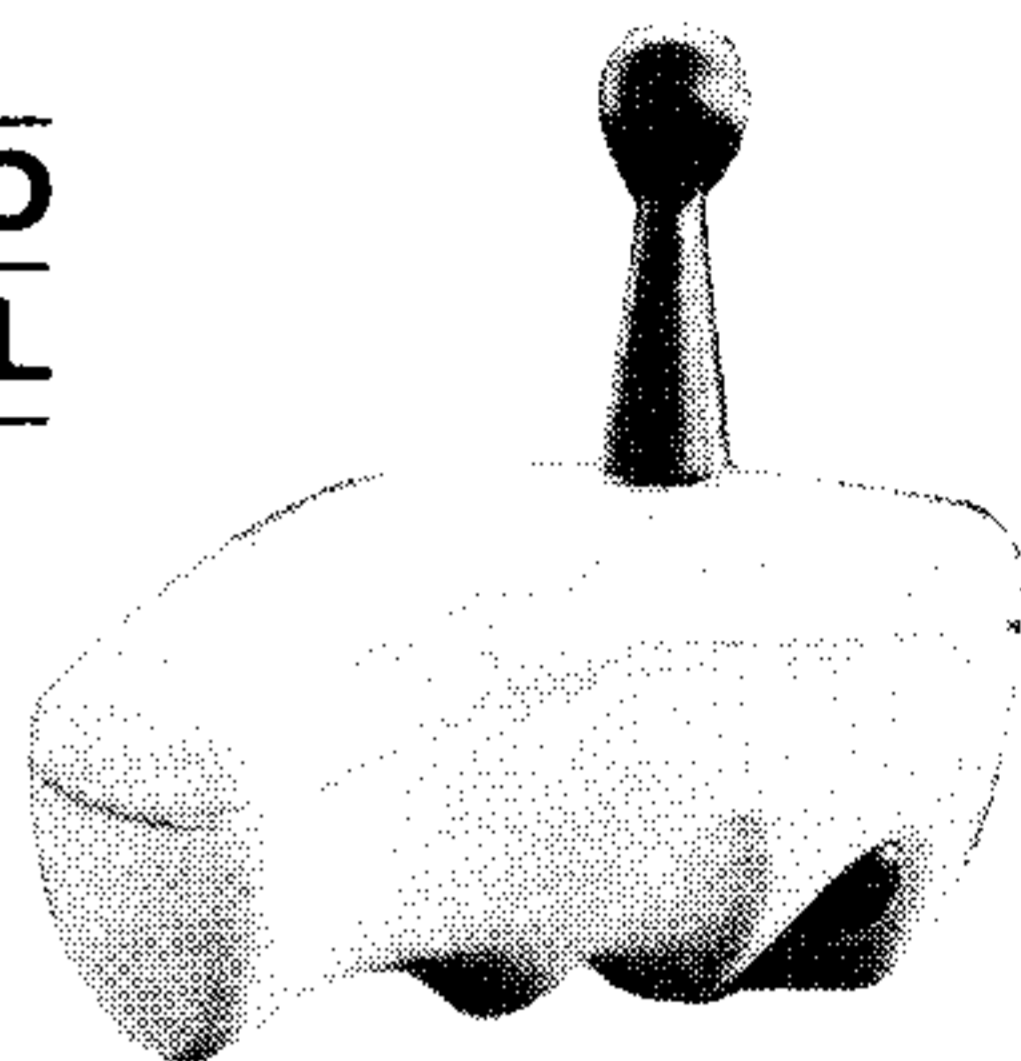

65942 Epyx 500XJ Joystick

Sug. Retail \$19.95

# WICO

## COMMAND CONTROL

**Formed Especially  
For The  
Human Hand**

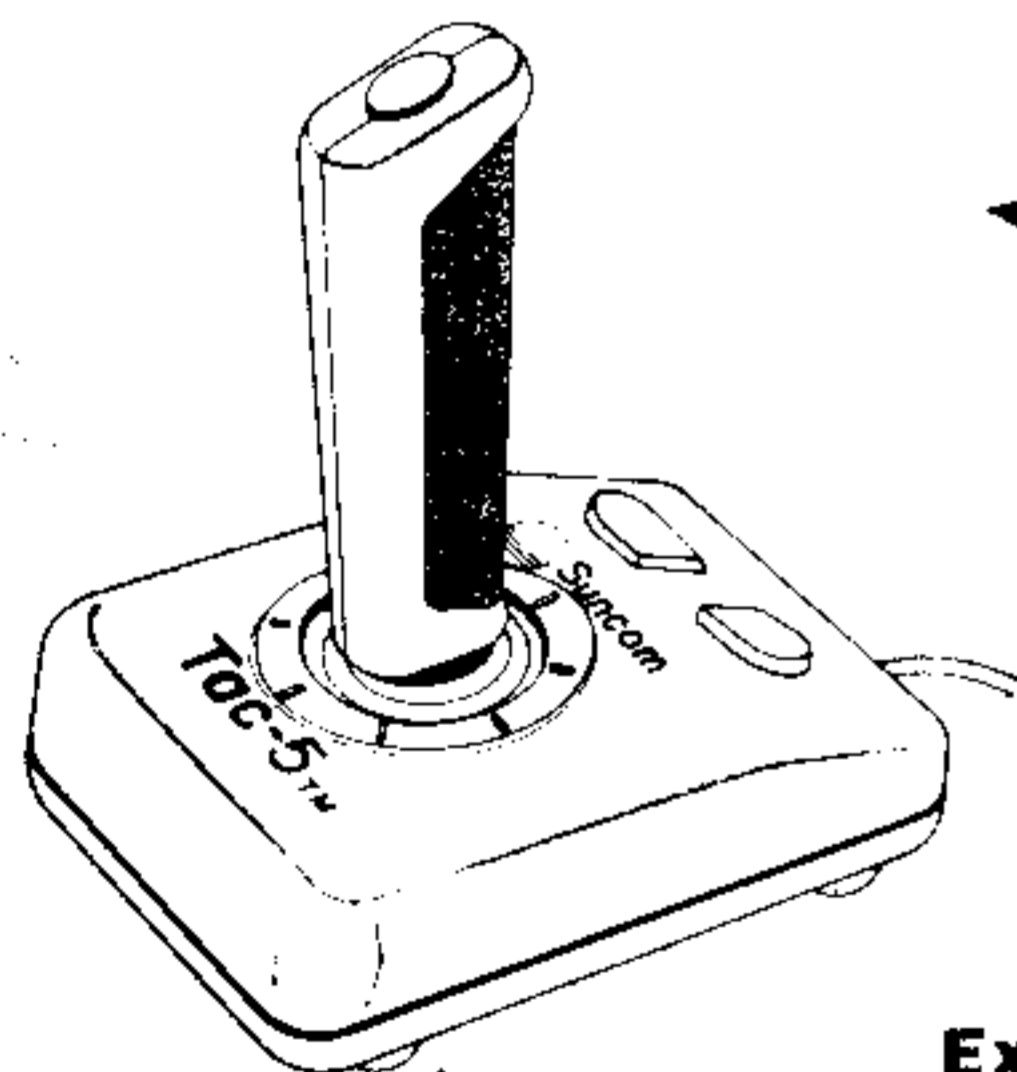

**ERGOSTICK JOYSTICK.** This is the cutting edge of joystick technology. It's the Ergostick Joystick and you'll be amazed at its innovations. Unlike all other joysticks, the Ergostick is literally formed around the human hand which optimizes the operator's hand/eye coordination. Its soft, skin-like texture combined with its design minimizes physical and mental fatigue and gives it a degree of versatility previously unknown to joystick users. For instance, it fits both large and small hands while placing the "fire" button directly adjacent to the index finger.

Like All Wico products, the Ergostick is built with speed, accuracy and durability in mind. It's the shape of the future. Requires TI Adapter. Sug. Retail \$24.95

76253 Ergostick

**\$19.95**

# Suncom

**Exclusive Micro-Switch  
Technology  
TAC 5™**

**TAC 5™.** Introducing the latest in joystick technology from Suncom... the TAC 5 joystick controller. With its innovative MicroSwitch Array Technology, the TAC 5 responds instantaneously to your commands with a level of smoothness and agility that makes it a standout from other joysticks. Including 3 "fire" buttons, the TAC 5 allows you versatility, too. Two buttons are located on the base and the third is on the handle. They give you the fastest possible firing and diagonal response.

So durable is the TAC 5 and so convinced is Suncom of its longevity that they include a lifetime limited warranty. Its five and one-half foot cord and direct hook-up to your Commodore makes the TAC 5 a leader among joysticks. Only from Suncom. Requires Joystick Adapter for use with TI 99/4A.

42442 TAC 5

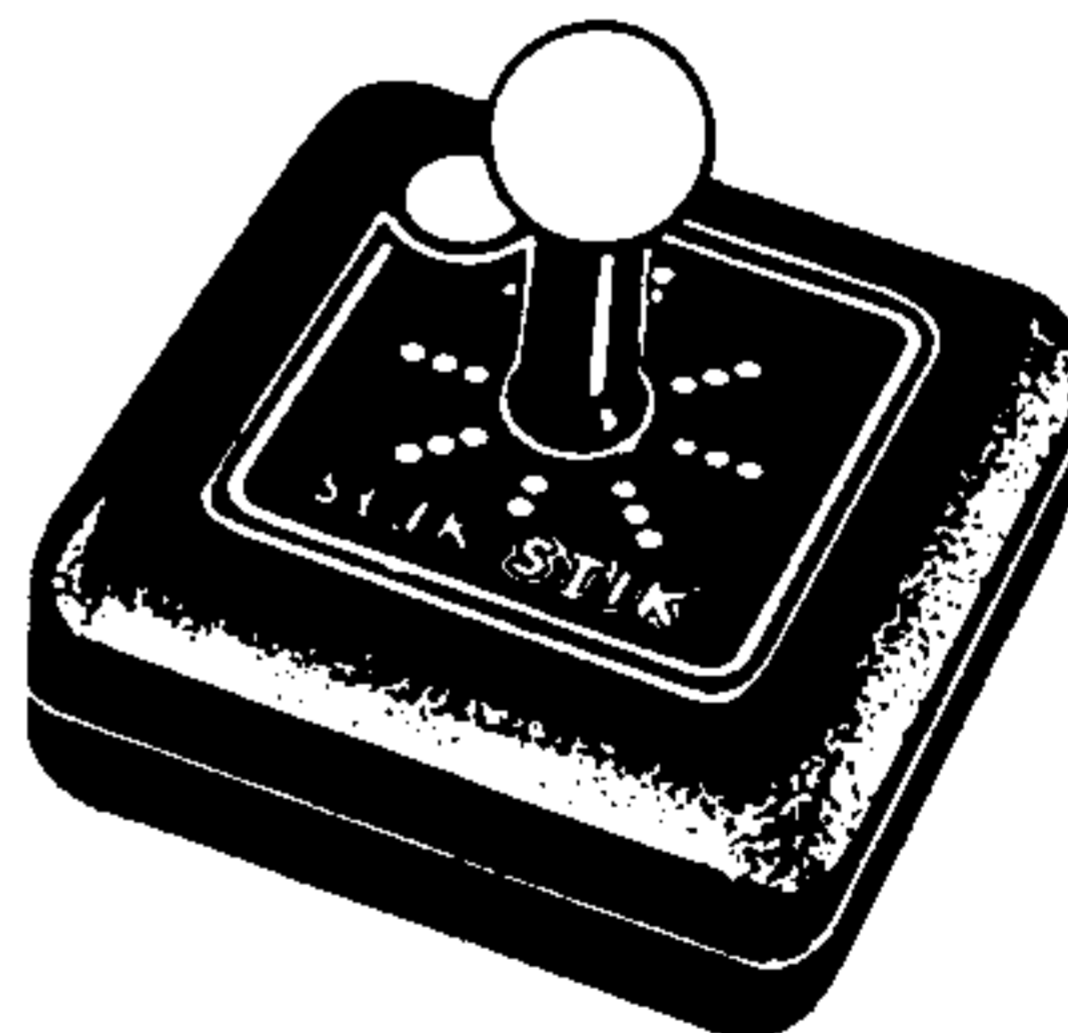

**\$14.95**

**The Ever Famous**

**Slik Stik™**

Only

**6.95**

**THE SLIK STIK™.** A favorite for years, the Slik Stik maintains its position as a superior value. Its original patented design ensures a long, useful and reliable life. It's ideally suited to playing games as well as learning lessons.

The Slik Stik is just the right combination of responsiveness, accuracy and economy. You'll probably never find a joystick that is this useful at this unbeatable price. You even get 90 day warranty with the Slik Stik. From Suncom. Requires TI Adapter.

42086 Slik Stik

**Only \$6.95**

### Joystick-Adapter

**TI 99/4A ADAPTER.** One adapter can accommodate up to 2 Atari-compatible joysticks.

10285 Joystick Adapter

**LOW PRICE \$5.95**

### Give The "Foot" The Boot! Peripheral Extension Cable.

Have you ever knocked the heavy black peripheral box cable out of the computer at a crucial moment? Are you frustrated trying to arrange your equipment on a too-small computer table because the cumbersome "foot" sticks out too far? You'll find our Peripheral Extension Cable to be a lifesaver! One end of this highly flexible 30 inch cable plugs snugly into the expansion port on the right side of the 99/4A console; the other end connects to the 44 contact slot of the P E Box cable, or any stand-alone peripheral (such as the speech synthesizer, memory expansion, etc.). Allows you to place peripherals conveniently according to your individual set-up, and hide ugly cables, too. Customize your system set-up today!

**22633** Peripheral Extension Cable **\$24.95**

**PERIPHERAL EXPANDER CABLE.** Similar to above, but with 2 peripheral connectors on 1 cable. Allows attachment of up to 2 separate peripheral branches.

**22647** Peripheral Expander Cable **\$32.95**

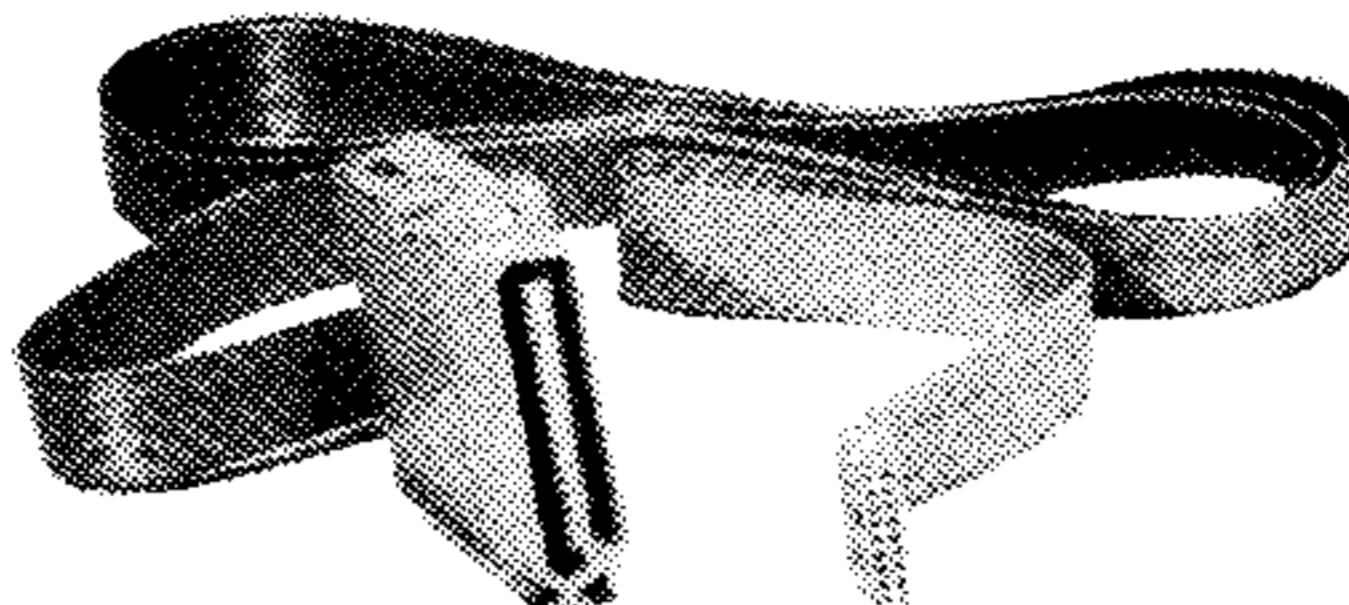

### Parallel Printer Cables

Guaranteed to work with the appropriate printer! Simply plug one end into the 16 pin parallel connector on TI's RS-232 Interface Card and the other end to the 36 pin "Centronics" type connector on most parallel printers. Then print away! All lengths are 5 feet unless noted.

**PARALLEL CABLE — STANDARD.** For all the following printers with parallel inputs: Epson (all models), Star-Micronics (all models), TI, Prowriter, Gorilla, TP-II, L1000, Mannesman Talley, and many more!

**10021** 5 foot length **\$24.95**  
**22243** 10 foot length **\$34.95**

**micro fat**®

**IBM PC to PARALLEL CABLE.** Connects the 25 pin parallel output on the Bondwell, IBM PC, TI-Pro, Compaq and most compatibles to the 36 pin input connector of any printer using the "Centronics" standard parallel input.

**13009** IBM PC to Parallel Cable **\$19.95**

**TI MODEM CABLE —** Connects a standard modem to your TI 99/4A RS-232 interface.

**34287** TI Modem Cable **\$24.95**

**TI MODEM MALE/ MALE CABLE, MODEL 1.**

**40697** TI Modem Male/Male Cable, Model 1 **\$24.95**

**RS-232 CABLE.** For connecting the 25 pin female serial (or RS-232) port on the RS-232 Expansion Card to any RS-232 standard devices; printers with serial inputs, modems, etc. Cable is standard at a 5-foot length, 25 conductors, and terminated at each end with 25 pin, male "D" connectors.

**10055** RS-232 Cable **\$24.95**

**PARALLEL CABLE — TP-1.** Contains interface electronics within the connector housing to adapt the 99/4A to Smith Corona TP-1 printer.

**10040** Parallel Cable-TP-1 **\$37.95**

**"Y" CABLE.** Allows use of both serial ports from the serial connector on the RS-232 Interface Card. The cable has a single 25 pin male connector going to the RS-232 Card and two 25 pin female connectors for up to 2 serial peripherals. Standard length is 1 foot for one branch of the "Y" and 5 feet for the other.

**10069** "Y" Cable **\$49.95**

**CASSETTE CABLE — DOUBLE.** Connects a standard type cassette recorder with 3 inputs for microphone, external speaker, and remote control to your TI 99/4A. Also allows a second cassette recorder to be connected — useful when data files are to be manipulated.

**21186** Double Cassette Cable **\$9.95**

**CASSETTE CABLE — SINGLE.** Connect your TI 99/4A to 1 cassette recorder. Suitable for most needs.

**15592** Single Cassette Cable **\$5.95**

**MONITOR CABLE-COMPOSITE.** Interface your TI 99/4A to any composite monitor. DIN connector plugs into computer, and RCA type plugs connect to monitor. Includes ear phone plug adapter to connect to monitors with earphone type audio plug.

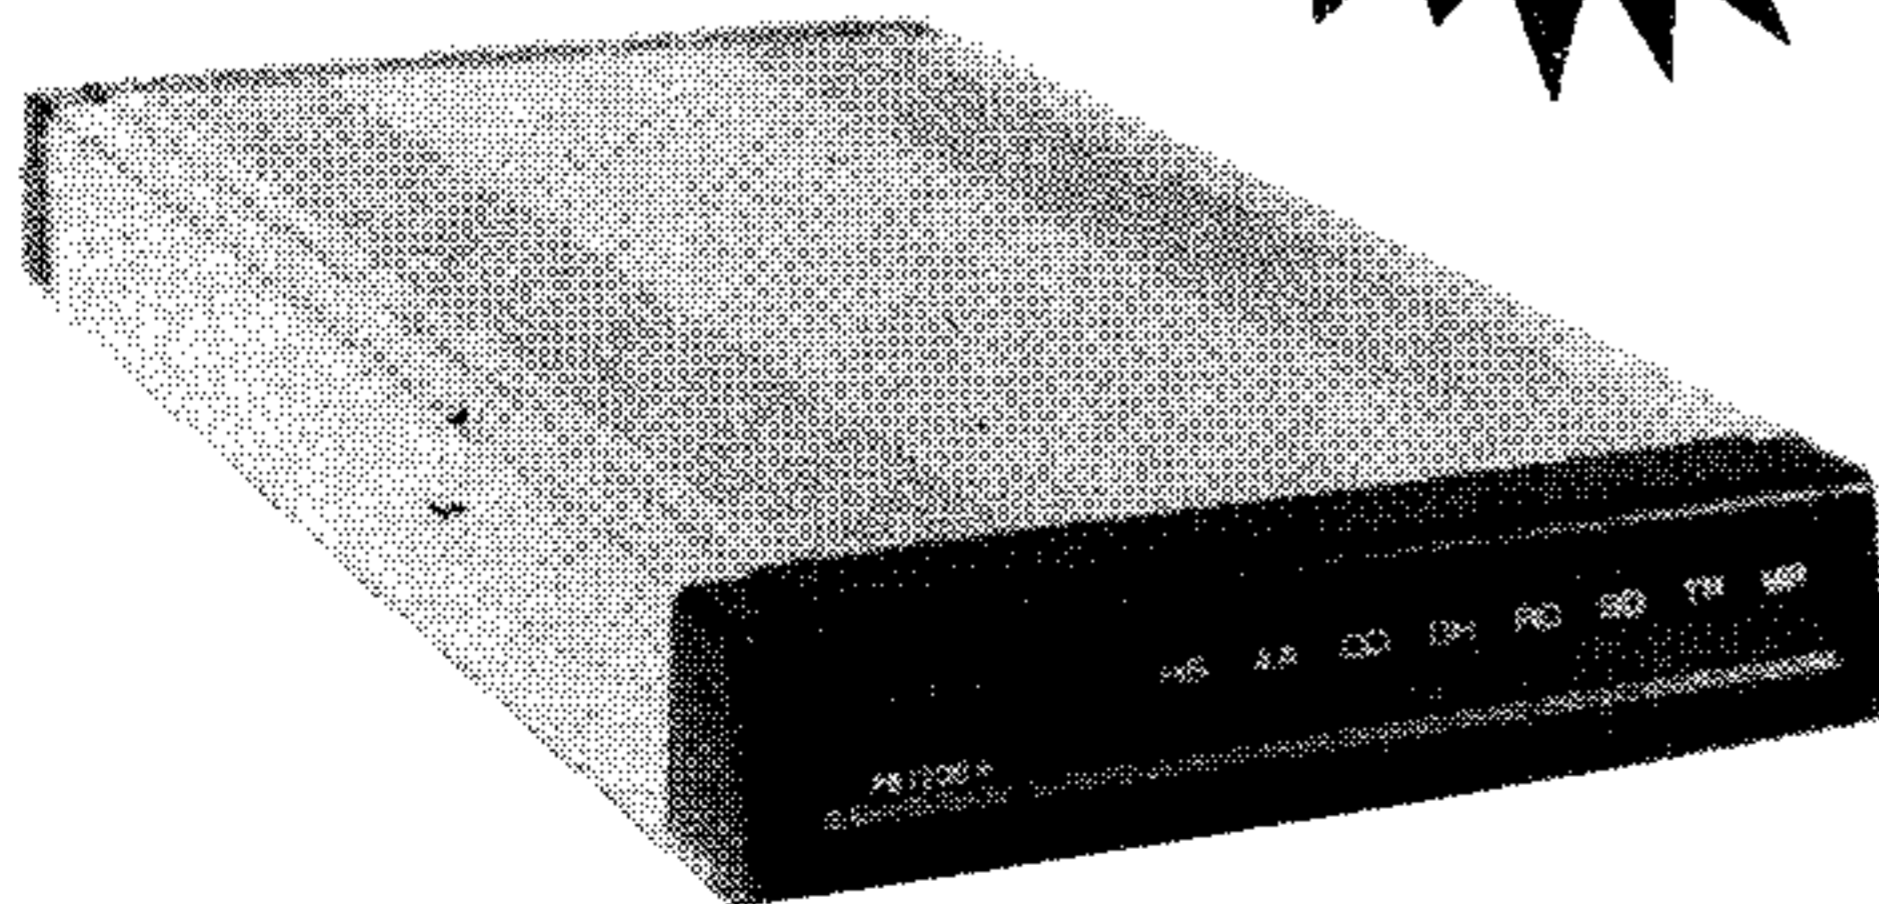

**37424** Composite Monitor Cable **\$7.95**

### Cassette Adapter

If your present cassette recorder's tape drive isn't turned on and off when connected to your 99/4A, it's probably because the polarity of the remote control is wrong. Simply plug-in our adapter to your recorder's remote jack and then plug-in your cassette cable. It's a lot cheaper than a new cassette recorder — guaranteed.

**10074** Cassette Adapter **\$5.95**

## Telecommunications

## From A Leader In Electronics

**PACKARD BELL MODEM PB 1200 PLUS.** It's easy to add communications capability to your TI if you have a serial (RS-232) card or interfaces.

This Hayes-compatible, 1200 baud modem from Packard Bell includes auto-dial, auto-answer, and built-in test mode for easy trouble-shooting. This excellent modem will also work with the IBM compatible computers as well as any other computer with an RS-232 port. [Some modem features, such as auto-dial, and auto-answer may not be supported by all software packages.]

The PB-1200 Plus is compatible with IBM and other computers with RS-232 outputs. To use this modem with the TI 99/4A, you will need an RS-232 card or interface [see pages 2 and 4], a connecting cable, and telecommunications software [see pages 10 and 26]. 1 year warranty from Packard Bell.

**76225** Packard Bell Modem PB 1200 Plus Modem **\$99.95**

**73963** TI to IBM Modem Cable **\$19.95**

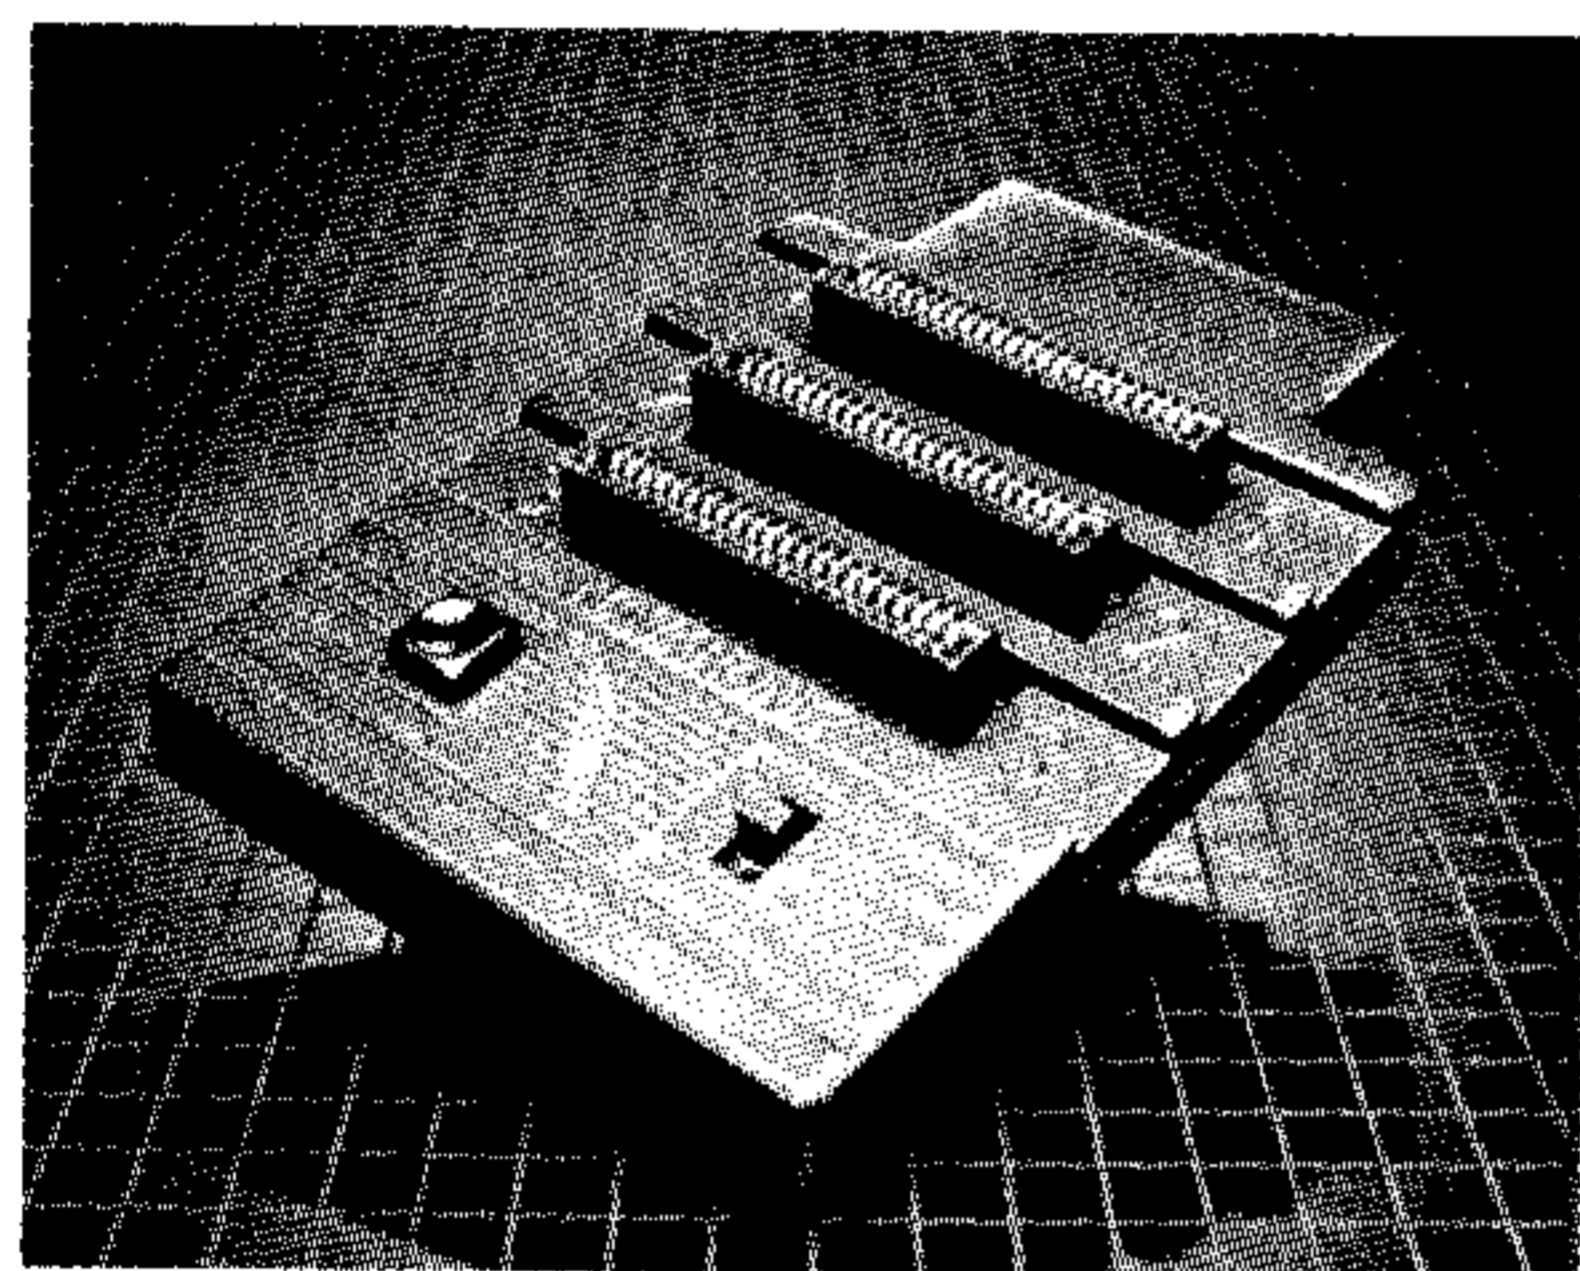

## Cartridge Expander

**SAVE YOUR COMPUTER!**

- Don't Wear Out Your Console and Cartridges!
- Avoid Overheating!
- Includes Instant Reset Button!

**CARTRIDGE EXPANDER.** Are you constantly plugging in and pulling out cartridges? The constant wiping action on the contacts can eventually wear them out. This Cartridge Expander, featuring 3 cartridge slots, helps you avoid costly repair bills in 2 ways. First, you will **immediately** stop wearing out the contacts in your computer; you'll never have to insert a cartridge directly into the computer again! Second, you can keep your most commonly used cartridges (say, Extended BASIC and TI-Writer, or your favorite games) parked permanently in the expander — this will reduce wear on the cartridges by 90 percent or more.

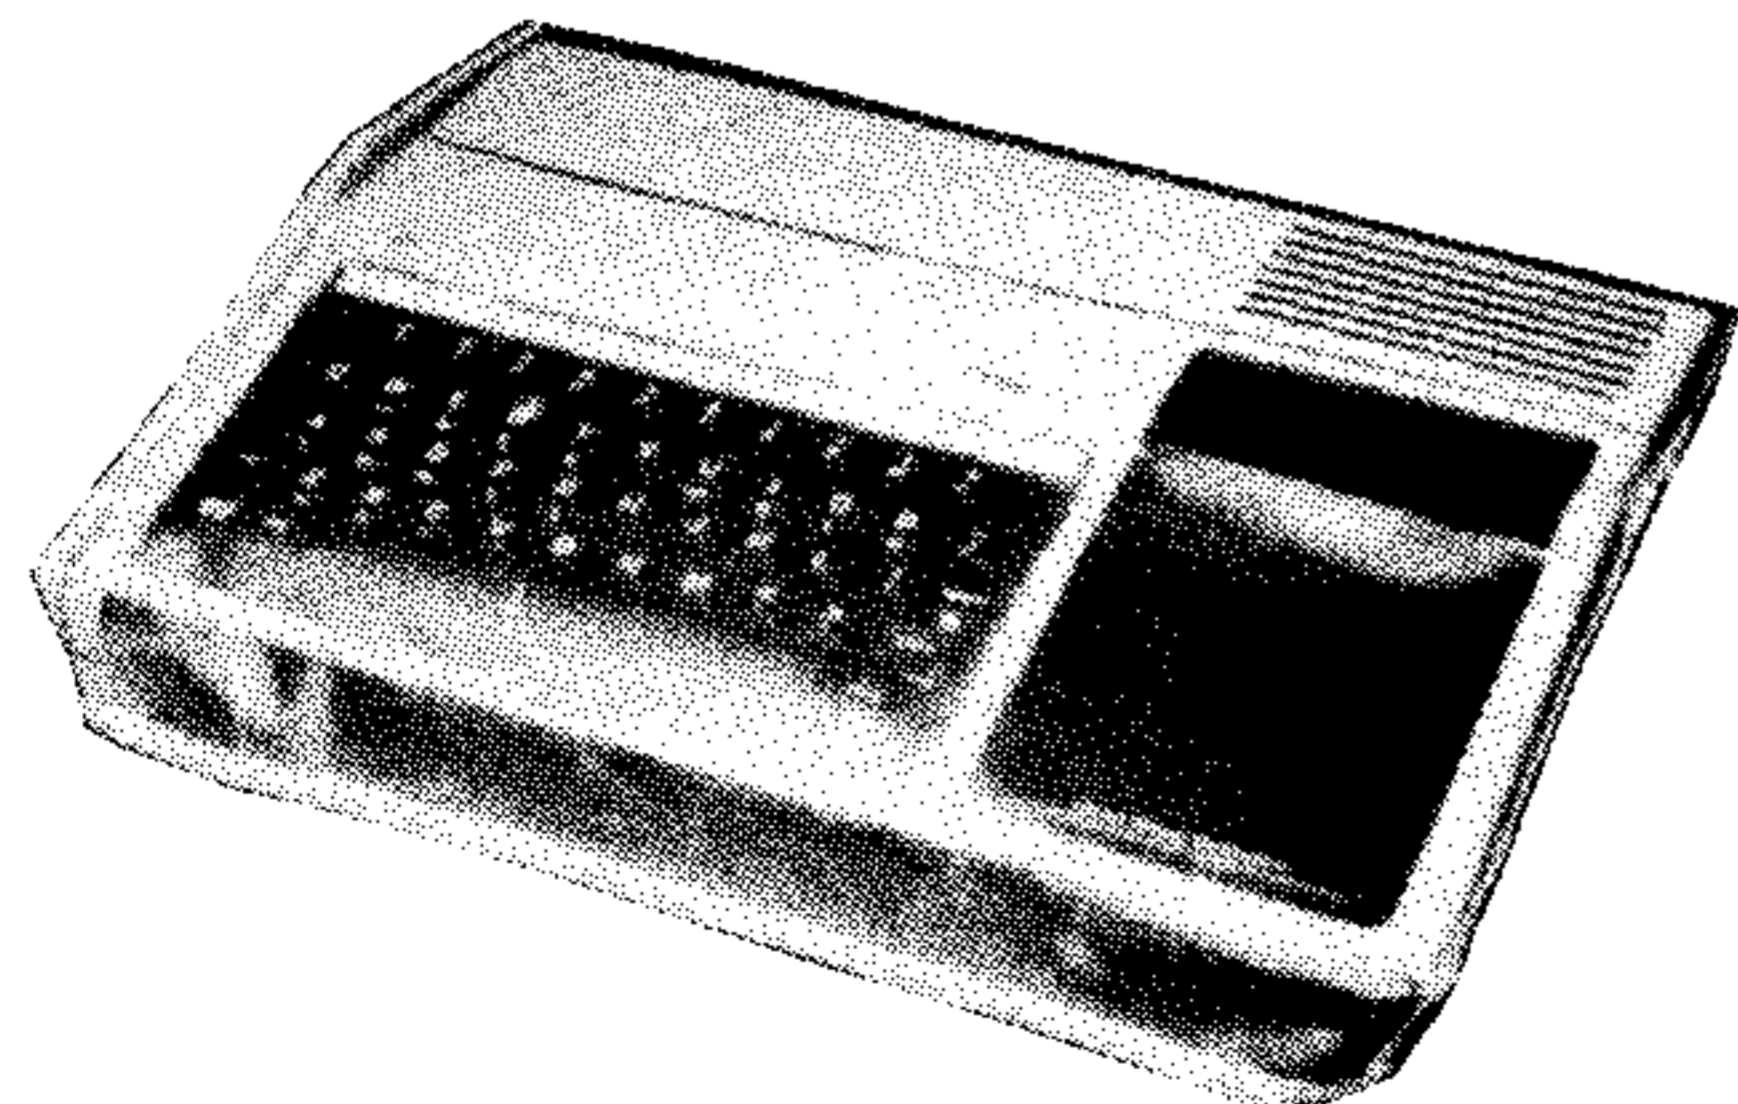

Also very useful is the reset button that lets you initialize the computer without the console on/off switch. Do you use your computer frequently? Do your kids switch cartridges numerous times in a single play or learning session? If so, invest in this inexpensive protection for your computer and software. Great for schools and other high use locations, too. This small investment can save big dollars in hardware and software!

13329 Cartridge Expander

## Diskettes

### The 39¢ Diskette

Lifetime  
Warranty

micro pal

MicroPal Diskettes are one of the best-selling items in our catalogs (we've sold literally hundreds of thousands of these diskettes!). They are an excellent buy in our quantities of 50, and their reliability, lifetime warranty and risk-free trial mean you are sure you get your money's worth!

**Here's What You Get.** Diskettes are packaged in boxes of 50. Each box includes diskettes in sleeves, labels and write-protect tabs. All diskettes have hub reinforcement ring and write-protect notch.

**Certified Quality.** MicroPal Diskettes are first quality, prime diskettes (no seconds). Each one is individually certified to be 100 percent error free at levels equal to or above ANSI, ECMA and ISO standards.

**Lifetime Warranty Plus Risk Free Trial!** We offer a double guarantee of satisfaction. 1) All diskettes are backed by a lifetime warranty. If you ever have a problem, we'll replace the diskette. 2) To let you discover what a great value these diskettes really are we'll let you try them risk free. Buy a box. If within 30 days you aren't happy with the diskettes for any reason, return them to us for a prompt refund. No questions asked!

Part No.	Description	Box of 50
32391	5 1/4" Single-Sided, Double-Density Diskettes	\$19.50 (39¢ each)
32403	5 1/4" Double-Sided, Double-Density Diskettes	\$24.50 (49¢ each)

## A Tough Breed of High Performance Diskettes Rainbow Disks from

**RAINBOW DISKS.** Bored with black, look-alike diskettes? Have some fun with Fuji Rainbow Disks. Great durable diskettes made with colored jackets. Each 10-pack gives you 2 red, 2 blue, 2 green, 2 gray and 2 beige diskettes!

**65234** DS, DD Rainbow Diskettes **\$12.99**

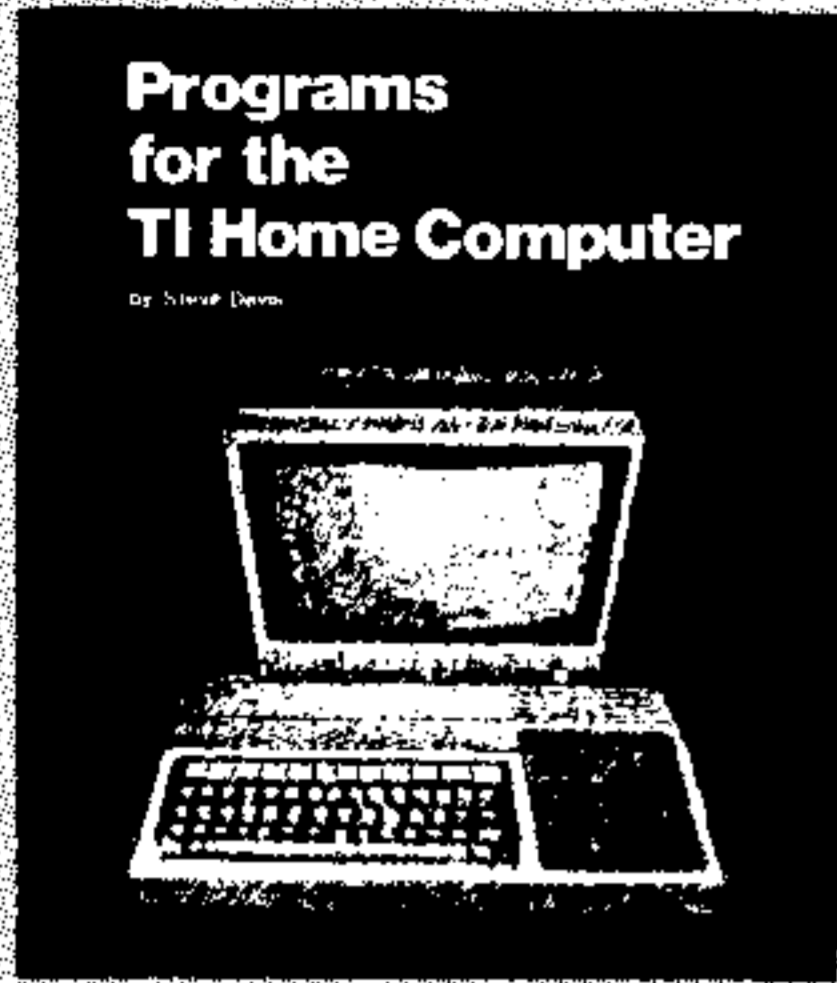

**5 1/4" DISKETTES.** These diskettes are durable — they'll take continuous operation on the same track for over 20 million passes without deterioration in performance! All diskettes feature a super plastic-reinforced hub ring and heat-resistant jacket. Every track of every Fuji diskette is certified to be 100% error-free. Diskettes are packaged in boxes of 10 with color-coded index labels.

**A Great Addition To Your Library**

**PROGRAMS FOR THE TI HOME COMPUTER.** At last, here is a book of programs written especially for users of the popular Texas Instruments 99/4 and 99/4A Home Computers. Fifty unique programs in TI BASIC and Extended BASIC are presented in an easy-to-read format, ready for you to type into your computer and use. Most of the programs are listed in TI BASIC and may be used with just the console and a cassette recorder, while others take advantage of the special capabilities of optional modules and peripheral equipment, such as Extended BASIC, Mini-Memory, Terminal Emulator II, and TI Speech Synthesizer, a printer or the disk system. A wide variety of programs for home applications are featured, including games and entertainment, educational programs, programming aids, and more. Best of all, this volume offers programs that highlight the many unique features of the TI Home Computer, such as color graphics, music, sound or speech. Whether you are a beginner or an experienced TI Home Computer user, you will find this collection to be an entertaining and useful addition to your program library. 128 pages, soft cover. From Steve Davis Publishing. Sug. Retail \$14.95  
**10209 Book** **Now Only \$4.49**

**Get The Most Out Of Your TI System**

**HARDWARE MANUAL FOR TI 99/4A.** Finally, a book detailing the operation of TI 99/4A hardware. Use your TI system to its full potential by learning the detailed functions of the console design, custom chip operation, TMS9900 H/W organization, TMS9900 instruction set, interface pitfalls, console schematics, PEB card description and much more.  
**68263 Book** **\$19.95**

**COMPUTERFACTS**

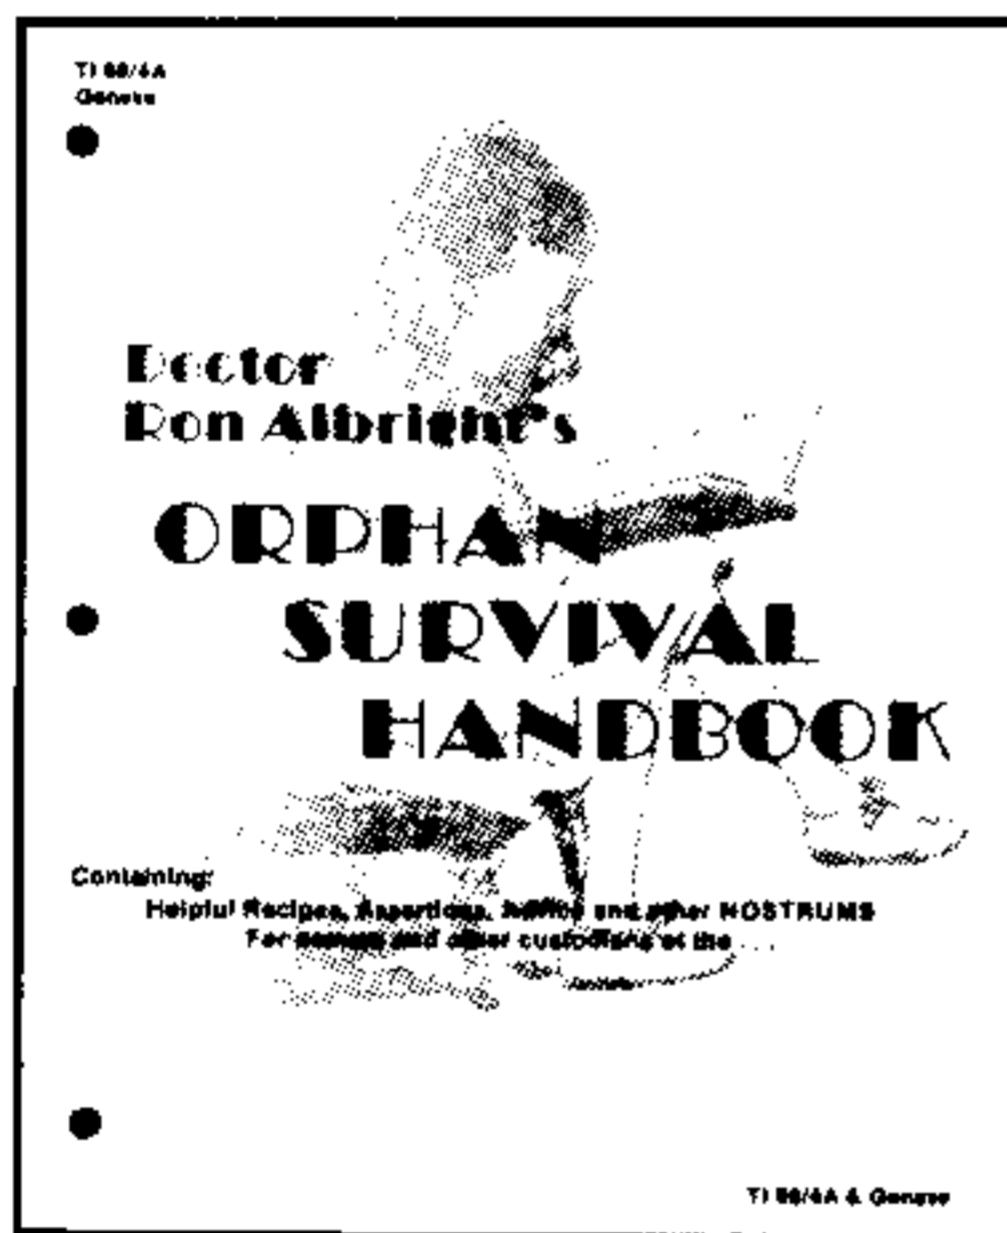

from **SAMS**

Sams introduces **COMPUTERFACTS™**... packets of information that reveal the inner workings of major brand micros, monitors, printers and disk drives. Includes schematic wiring diagrams, parts lists, disassembly instructions, troubleshooting techniques, and other repair data.  
**33532 TI 99/4A Computerfacts** **\$17.95**

**A Technicians Helper**

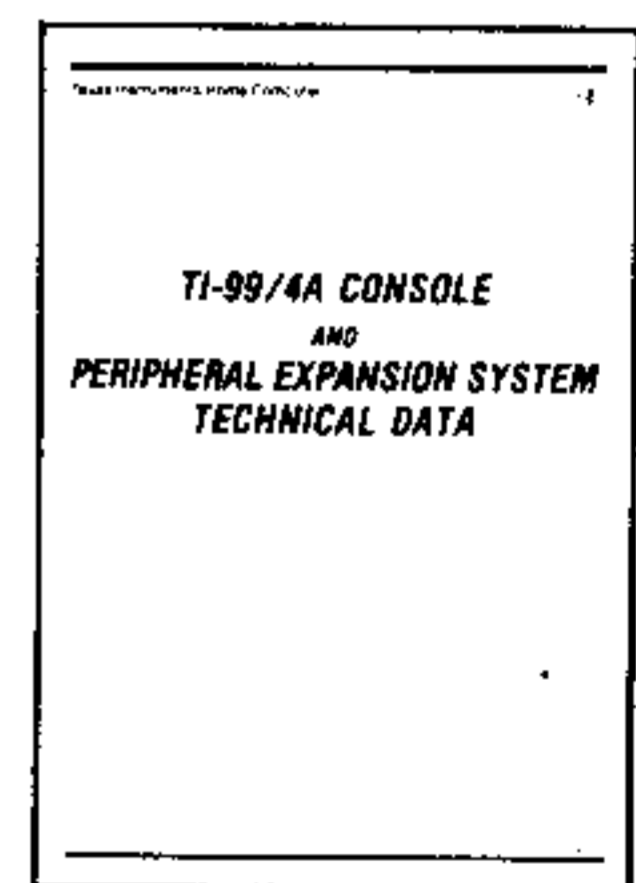

**TI 99/4A TECHNICAL DATA MANUAL.** Designed for the person interested in designing peripherals for this computer, this manual provides necessary information concerning the input/output signal connection. This manual includes technical specifications, diagrams and schematics, some of which fold out to twice the size of the standard 8.5"x11" page. The manual assumes a working knowledge of electronics and computers, especially in regard to the TMS 9900 microprocessor and its Communications Register Unit (CRU) input/output technique.  
**15905 Book** **\$14.95**

**The "Orphan Survival Handbook"**

**"ORPHAN SURVIVAL HANDBOOK"** is filled with a multitude of material from across the country for **YOUR** TI. It contains new, "never-before-seen" material from some of the most knowledgeable minds in the TI community. The "Survival Handbook" is a convenient three-hole looseleaf manual that fits nicely into a binder for easier access. This gives you the freedom to incorporate any further developments or any notes of your own that may come available. The "Orphan Survival Handbook" will continue to grow... in comprehensiveness and in its personal value to **YOU!**  
**73761 Book** **\$17.95**

**Sheds New Light On Your Expansion Box**

**PERIPHERAL EXPANSION BOX MANUAL.** Learn about the inner workings of your Peripheral Expansion Box. This is a great manual for technically inclined "hackers" who enjoy knowing how equipment operates. Includes all text in Tech Data Manual listed above. From TI Staff.  
**41543 Book** **\$24.95**

**Extended Basic Reference**

**EXTENDED BASIC MANUAL.** This is the same manual included with the MicroPal Extended BASIC cartridge. Explains all Extended BASIC functions and commands. Softbound, 240 pages.  
**33177 Book** **\$8.95**

**Know Your Computer**

**USER'S REFERENCE GUIDE** by TI Staff. One is packaged with the 99/4A console. Care and use of the Home Computer with explicit summaries of TI BASIC commands. 208 pages, loose bound.

### A Hacker's Best Friend

"... I found it quite valuable... it's an entertaining tome about a guy and his computer. I liked it."  
 — John C. Dvorak *Info World*

**THE HACKER'S HANDBOOK: AN INSIDER'S GUIDE TO MODEMS AND TELECOMPUTING.** Have you always wondered how the "hackers" do it? This book will satisfy your curiosity. Filled with the How-To's of passwords protocols, access codes, operating systems, phones, programming, and identifying and analyzing signals. Famous "Salami," "Trap Door," and "Trojan Horse" techniques are explained. The 169 jam-packed pages include charts, tables, lists of Hacker Bulletin Boards... plus much more! If you run a bulletin board or have an interest in telecomputing security, you'll find **THE HACKER'S HANDBOOK** to be a treasure trove of information. From E. Arthur Brown Company.

**42419** Book **\$12.95**

### Convert Your Own Programs!

**THE BASIC BOOK: A CROSS-REFERENCED GUIDE TO THE BASIC LANGUAGE** by H.L. Helms. A great tool for converting programs from one machine to another. This book is a reference to the most popular versions of BASIC: Apple, Atari, Texas Instruments, Commodore PET, IBM, and TRS. Includes cross-reference chart and special graphics section. Softbound, 48 pages.

**21819** Book **\$8.95**

## Our Shipping & Return Policy

Your charge card is never billed until your order is shipped! If we must send you partial shipments, your charge card is only billed for the items shipped.

**SHIPMENT.** Most items are shipped via UPS. Other modes of shipment include Parcel Post and, for certain heavy items, common truck carrier. TENEX maintains an extensive warehouse with over 50,000 items in stock, and automated systems are in place to speed your order to you. Rapid shipment benefits both you and us. Items not in stock may require 2 to 6 weeks.

**DAMAGE.** We inspect each item before shipment. Please examine your packages carefully when you receive them, and REPORT ANY DAMAGE TO THE CARRIER. No replacement merchandise can be issued unless a damage claim has been filed with the shipper.

**RETURNS.** Defective products may be returned for replacement within 30 days of receiving them. Items returned for replacement **MUST** include original packaging materials and any manuals, cables, warranty cards, etc. included in the original package. (For your convenience and protection, do not discard packaging materials or mail in warranty cards until you are certain the product is working properly.) **Please write or call our Customer Service Department for a Return Authorization number prior to returning any items to TENEX.** All returns must be shipped to TENEX freight prepaid. All items are subject to inspection by TENEX prior to issuance of replacement merchandise.

**PRICES.** All prices are subject to change without notice. You will be notified of any change at the time of order placement, or prior to shipment on a non-stock item.

**WARRANTIES.** All of the products offered by TENEX feature a manufacturer's warranty or guarantee. Information about the type or length of coverage of any item is available by calling or writing our Customer Service Department. Generally, warranty service on equipment can be obtained by either shipping or taking the unit to the nearest service location for that manufacturer, along with your receipt

and/or other information required by the manufacturer.

**SPECIFICATIONS AND PRODUCT AVAILABILITY.** Specifications and product availability are subject to change without notice. We have made every effort to be accurate in the specifications and descriptions included in this catalog, but cannot guarantee accuracy or completeness of said specifications and descriptions.

**PAYMENT METHODS:** For fastest shipment, VISA, MASTERCARD, AMERICAN EXPRESS, a cashier's check, certified check, or money order may be used. Personal checks are also welcome — please allow about 10 extra days for shipment. Purchase orders will be accepted from qualified institutions and firms, please inquire.

**IF ORDER FORM HAS ALREADY BEEN USED,** please write your order on a plain sheet of paper or order by telephone using our convenient toll-free number. If you send your order on plain paper, be sure you include your name and address, the catalog number of each item ordered, and the appropriate shipping charge. If you would like us to send you additional order forms, please write or telephone us.

**APO, FPO, ALASKAN, HAWAIIAN, CANADIAN.** All payments must be in U.S. Dollars. Checks drawn on Canadian or foreign banks cannot be accepted. Canadian Postal Money Orders payable in U.S. funds are acceptable. VISA, Mastercard or American Express are the preferred methods of payment. **PO, FPO, Alaskan, Hawaiian, Canadian, Puerto Rican, Virgin Islands, Guam orders:** add \$4.00 to shipping and handling charge to cover postage and insurance cost. Contact us about charges for bulky and/or heavy items. **Foreign orders other than above:** add \$8.00 to shipping and handling charge. If ordering large or heavy items, consult desired carrier for estimated freight charges and include with order, or contact us prior to ordering for a freight estimate. If funds included with order are inadequate to cover shipping costs, we will notify you by airmail. Postage or freight and insurance charges will be billed at actual cost on credit card orders.

### If You Have Questions About Your Order...

For questions about your order, call (219) 259-7051 between 8 a.m. and 5 p.m. Eastern Standard Time, Monday through Friday. No collect calls, please.

**For faster service, provide us with the date of order, your customer number, order number, items in question, how order was placed, and name as it appeared on the order.**

### SHIPPING & HANDLING CHARGES

## Speedwinder

**Don't Tie Up Your VCR Rewinding Tapes...**

**SPEEDWINDER™ VHS.** Now rewinding and fast-forwarding video tapes can be quick and convenient when you let Speedwinder do the job for you. Let your VCR's delicate motors do what they were designed for — record and playback — and leave the wear and tear jobs to Speedwinder. It's barely larger than the tape itself, battery operated (4 "C" cells not included), and can be placed where it's convenient for you. You'll wonder how you got along without it! From Suncom.

- 55890** Speedwinder
- Optional AC Adapter for Speedwinder.

**THE RABBIT.** Haven't you ever wanted to watch a movie in a room where the VCR isn't located? Or do you have a video source, like cable TV or satellite TV, at just one location in your home?

Now, with the amazing Rabbit, you can see the output of your VCR anywhere in your house! And there's a big plus — if your VCR has a wireless remote control, you can control it from any TV set in the house.

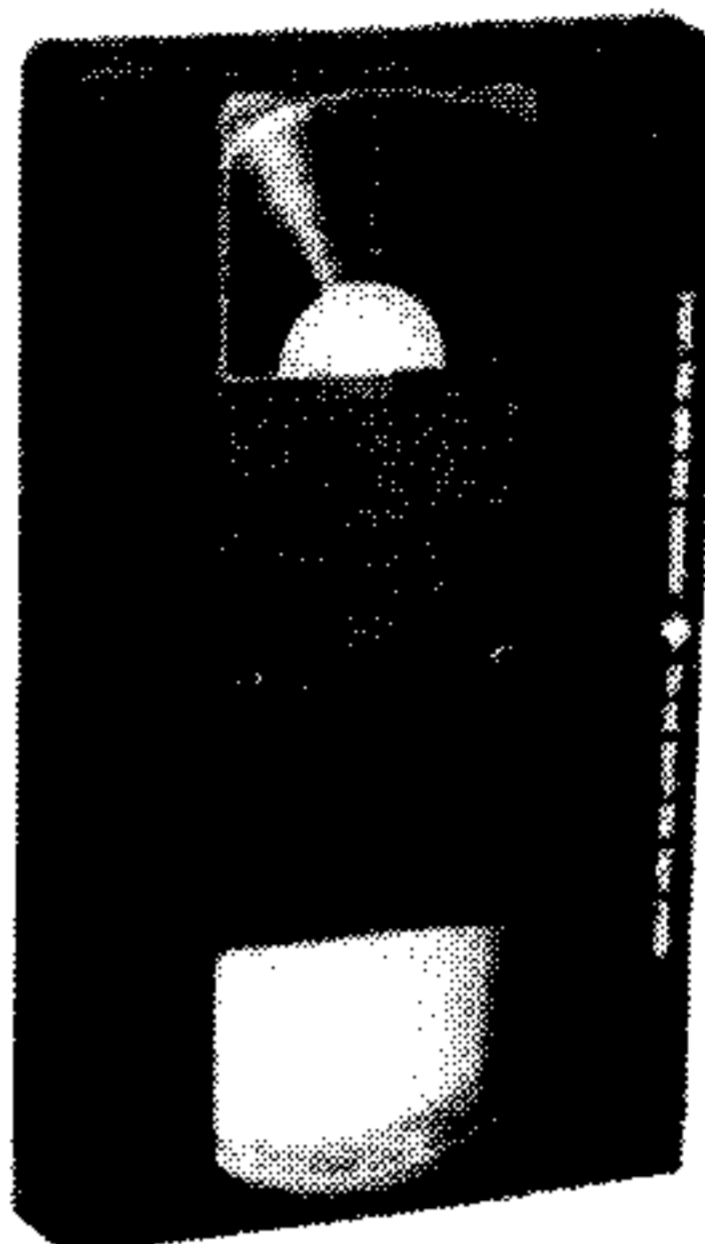

The Rabbit hooks up in minutes. Everything you need is right in the package: A compact transmitter, receiver, plus special connecting wire so thin it can be easily hidden from sight. If you want to connect more than one remote TV to your VCR, just order an extra Receiver.

You'll wonder how you lived without the Rabbit. Order yours today!
