IBM® CONNECTION
TO YOUR TI-99/4A!
(See Pages 20, 21, 22 & 23)**

Dear TI-99/4A Owner:

Thank you for taking the time to browse our latest TI-99/4A catalog. We at Triton are more committed than ever to bringing you new interesting and challenging products for your TI-99/4A. To make your shopping even easier, here are a few hints on what to look for.

- Super Specials are promotional offers on some of our most popular items. We always feature them in bright, yellow boxes.
- Don't miss pages 8 and 9 for the "Lowest Prices Ever" on Entertainment, Educational and Home Management titles.
- You'll find exciting entertainment products such as *Munchman II* (below), *Centipede* (page 12), two new joysticks and the exciting *Zork Trilogy* from Infocom (page 13).
- Now, for the first time, you can "Make The IBM Connection" with your TI-99/4A. Be sure to see pages 20-23 for all the exciting details.

Shopping with Triton is easy! We have provided a convenient order form in the center of this catalog. But the best part is the added "Bonus" coupons attached—they make shopping with Triton even more fun! Of course our toll-free "800" number puts you in instant touch with courteous and helpful customer service operators that will answer your questions and enter your order the very same day.

We want you to feel good about shopping with Triton. All products we offer are completely tested and covered by the manufacturers' warranties. We also extend to you our own Customer Satisfaction Guarantee (see details to the right).

We like to hear from you! If you ever have any suggestions on how we may improve our services, please don't hesitate to write to me directly.

Sincerely,

E. S. Herman

ENTERTAINMENT

MUNCHMAN™ II

The monster is back and he's hungrier than ever! Test your instincts and reflexes in this challenging sequel to one of TI's most popular games. The evil hoonos return in force and they're looking for revenge. Use your maze skills to outmaneuver them or gobble up an energizer and send them fleeing. Escape out the maze doors with the hoonos in hot pursuit only to find yourself in another maze! Escape this time by munching the roaming teleporter pod. One chomp and you're off to the other maze! More chains, more mazes, more energizers, trickier turns and smarter hoonos make this game the ultimate challenge.

Enter the tournament mode and see if you can get your initials at the top of the scoreboard by surviving the longest on just a single Munchman. Are you ready? Designed and programmed by John Phillips. (Joysticks recommended.)

CONSOLE CALC

Console Calc is a new electronic spreadsheet built into a cartridge for convenience. Its calculator-like simplicity makes it a joy to use. Best of all, because it's a cartridge, all you need is your 99/4A to start simplifying household and business record keeping.

Console Calc allows you to track income and expenses and prepare income tax records easily. Constructing your own professional-looking forms, tables and charts for business or school using the 11 simple commands is even a snap with *Console Calc*.

Console Calc expands its usefulness as you expand your system. A 864 cell spreadsheet enlarges to 2520 cells with *32K Memory Expansion*. Load and save your records to cassette or disk; or get a hard copy on your printer if you have one. Written in 100% Assembly Language from DataBiotics.

CARTRIDGE #BJBS

EXPANDING YOUR TI-99/4A

SYSTEM EXPANSION THROUGH DISK

If you're like most TI-99/4A owners, sooner or later you'll probably want to upgrade your system. The reason is simple. As you grow more and more familiar with your computer, you'll want to use it more and for more complex tasks.

How to expand your system depends on the level of capability you want. For instance, software for your TI-99/4A is available in three formats—cartridge, disk and cassette. Most cartridges containing pre-written programs are simply plugged into the cartridge port on the console. However, some cartridge

programs, such as *Household Budget Management* (page 9), require a Disk or Cassette System or the program will not work. For other cartridges a Disk or Cassette System is recommended or optional, which means the program will run without the added hardware, but you won't get the full power of the program. For still other cartridge programs such as *TI LOGO II* (page 17), you must have 32K Memory Expansion capability and either a Disk or Cassette System is recommended.

Pages 3 and 4 provide guidance to help you make the best product choice for selecting Memory Expansion and either Disk or Cassette capability. Other pages provide information on additional hardware for even more enjoyment from your TI-99/4A: Modems (page 5), RS232 Interfaces (page 5), Printers (page 15), Joysticks (page 13) and Speech Synthesizer (page 17).

WANT TO GET THE MOST OUT OF YOUR EXISTING TI-99/4A PERIPHERAL EXPANSION SYSTEM? HERE ARE A NUMBER OF EXCITING PRODUCTS THAT WILL GREATLY INCREASE THE CAPABILITY OF YOUR PRESENT SYSTEM!

GENERIC DISKETTES

Are you paying too much for your diskettes? These double-sided/double-density diskettes can be used with your TI Expansion System or TRITON TURBO XT, and are first quality products, backed by a lifetime warranty. They are packaged in tens and include sleeves, labels and write-protect tabs.

EXPANDING YOUR TI-99/4A

SYSTEM EXPANSION THROUGH MEMORY, CASSETTE OR SOFTWARE

Your TI-99/4A has a powerful 16K Random Access Memory (RAM). You can expand RAM up to 48K by adding either a 32K Stand-Alone or a Peripheral Expansion System with 32K built-in, such as the ones featured on pages 3 and 4.

Some software programs such as *TI LOGO II* (page 17) require only Expanded Memory capability. Other software programs, such as *Editor/Assembler* (page 6), *TI-Writer* (page 16), and *MicroSoft Multiplan* (page 16), require both Expanded Memory and a Disk System.

Perhaps the ultimate home computer skill is origi-

nal programming. You achieve maximum satisfaction and challenge when you design your own information packages . . . create your own games . . . fulfill your most minute program specifications.

Tackling programming is now easier than ever before.

Extended BASIC (below) multiplies programming capabilities if you want to step up from *TI BASIC* . . . design more advanced operations . . . write complicated programs . . . get the most out of hardware, disks and memory expansion.

Therefore, it's important to decide how you want to

use your TI-99/4A before deciding how to expand its memory.

To take advantage of many of the cassette format programs available, all you need is a Cassette Recorder and connecting cable. The Cassette Recorder is controlled by the computer. A Cassette System is also an inexpensive way to store information . . . providing reliable loading and retrieval of data on standard cassette tapes. However, a Cassette System operates slowly compared to a Disk System. To decide on a Cassette System vs. a Disk System weigh your desire for reliability and speed against cost.

Now!

SUPER EXTENDED BASIC New Super Extended BASIC adds 13 new enhancements (commands) over and above the best-seller TI Extended BASIC.

Super Extended BASIC multiplies programming capabilities if you want to step up from *TI BASIC* . . . design more advanced operations . . . write more complicated programs . . . get the most out of new hardware and accessories. PLUS, *Extended BASIC* is required to run many of the disk and cassette programs offered in this catalog.

Super Extended BASIC includes new commands: LIST, RES, TRACE, COPY, DEL., MOVE, CALL, LOAD, PERK, POKEB, PERKV, POKEV, QUITON and QUITOFF. New Cursor Control for program line, Inputs and Accept A's editing, Fctn-Shift and the Up and Down arrow keys now allow you to move to the beginning and end of the program line listing on the screen.

Super EXTENDED BASIC is 100% compatible with all programs written in *TI Extended BASIC* and all functions are identical. Now is the time for you to enter the world of *Extended BASIC*.

Choose from the entire range of entertainment: from arcade action and adventure epics . . . through strategy, sports and simulation . . . to the fun of voice commands.

COMPUTER WAR

One of the best programs ever written for the 99/4A! Based on the film "War Games", this program became a best seller for the Commodore and Atari computers. You defend the U.S. from missiles as the Defense Department's computer goes wild. Track the enemy on a giant map. Then, as you target them, fly a fighter to shoot them down in air-to-air combat. Finally you must crack their secret code to survive! Outstanding strategy, graphics and simulation. (Requires Joysticks.)

CARTRIDGE #BAAK

\$24.95

FROG STICKERS

You, the little frog, must cross a moat full of alligators, swimming snakes and the deadly Frog Stickers without getting hit. If you survive this chal-

lenging and exciting adventure you are rewarded with a kiss from the beautiful princess. Provides hours of challenging entertainment for ages 8 and up. From Navarone. (Joysticks recommended.)

CARTRIDGE #BAAG

\$14.95

MOONMINE

You're the captain of the USS MoonMine. Your mission: re-capture treasure stolen from earth by the villainous Zygonaut and his menacing men. A one-player game demanding quick planning and thinking. (Speech Synthesizer and Joysticks recommended.)

CARTRIDGE #ACBC

\$9.95

SLYMOIDS

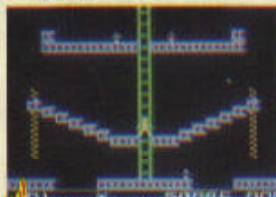

Great 1-player arcade entertainment. Fiendishly clever alien Slymoids are attacking. You're a cowboy sharpshooter—and you've got to be, to score hits with your Slymoid Scanner and Laser Fireballs! Chase through fields, castles and caves. 3-D effects and 5 levels of difficulty enhance

the fun. (Joysticks recommended.)

CARTRIDGE #ACGZ

\$11.95

In addition to new programs, old favorites make for a prize selection of exciting, amusing, amazing programs. You'll find items for every age and number of players . . . for the family to enjoy together. Or accept the ultimate challenge: just you vs. the computer.

JUNKMAN JR.

The year . . . 2487 A.D. The place . . . Aging planet Earth in the dying city of Burrwin, Illinois. You are collecting pollution for transport to an outer space junkyard in an attempt to save Earth from extinction. But you must listen for tiny harks—your only warning that mean and vicious micro-dogs give before they attack. Only your agility will save you!

Entertains with lively music, spritely action, imaginative graphics and sound. From DataBiotics. (Joysticks recommended.)

CARTRIDGE #BAAM

\$19.95

ANTEATER

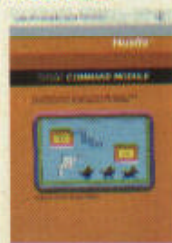

Some people say it's just like Dig Dug, but *Anteater* is a classic on its own merit. You (as the ant) can dig through the ground and lay deadly exploding eggs. A supply of sugar cubes is placed on the surface guarded by the dreaded *Anteater*.

The object is to retrieve all the sugar cubes, bringing them to the nest, while avoiding the deadly Anteaters. Great fun from Navarone. (Joysticks recommended.)

CARTRIDGE #BAAL

\$14.95

HUSTLE

This speedy challenge requires fast, fast, fast reflexes and hand-eye coordination. Direct a snake-like object to hit targets. But you've got to avoid not only your opponent, but the edge of the screen—and even yourself! (Joysticks recommended.)

CARTRIDGE #ACCG

\$7.95

A-MAZE-ING

Mazes with a different twist; you control the difficulty! Go from simple to complex—even invisible—mazes. You have 13 options with a total of 5,200 variations, all while you're a mouse trying to snatch cheese guarded by clever cats. (Joysticks recommended.)

CARTRIDGE #ACCC

\$9.95

TI's *Speech Synthesizer* (page 17) adds excitement to many programs. And Joysticks (page 13) are recommended for most titles. Check the individual program recommendations to be sure you experience the ultimate sensation in home entertainment.

STAR RUNNER

You are a captive, aboard the starship Arcturus, laden with plundered treasure taken from your planet.

Your mission . . . recover the stolen booty stored on all 25 decks of the starship, one deck at a time. Your only weapons are blinding speed and your blaster. You must guide your runner up ladders and along decks while dodging crewmen, blasting your way to safety and through vaults to gather treasure.

Music, sound effects and colorful visual cues combine to make *Star Runner* the best entertainment value ever for your 99/4A. From DataBiotics. (Joysticks recommended.)

CARTRIDGE #BAAP

\$19.95

CHICKEN COOP

Excellent graphics! *Chicken Coop*, from Navarone, challenges your skills of flying and is a great family game designed for one or two

players. You are a rooster who hatches from an egg in the chicken house. Flapping your wings will set you flying and it's up to you to keep the hens from straying out of the coop. For ages 8 and up, but can be useful in developing hand-eye coordination in even younger children.

News!

MEMOCAL

MemoCal is a unique 100% Assembly Language program that organizes all your monthly memorandums for the complete year. It allows the user to input 7 daily memos of up to 16 characters each and save the day in memory. It also automatically writes files to disk after finishing each month or moving on to a new month.

This program is excellent for keeping track of: appointments, work schedules, daily reminders, special occasions, etc. The user then has the option of printing a monthly and/or yearly calendar. Your disk files are a great reference source for previous years' appointments, events, etc.

MemoCal stores up to 1 year on SS/SD disk, 3 years on DS/SD disk, and 7 years on DS/DD disk. The input screen also has a mini calendar showing the day being worked on, so you don't have to use a separate calendar while inputting data. The program also has many helpful functions: back day, ahead day, clear day, clear line, insert character, delete character, new month, and complete cursor control: up/down/right/left when working in the data input field.

You'll love this unique program and wonder how you ever got along without it! From Unique Software. (Requires Disk System, 32K Memory Expansion, *Extended BASIC* or *Editor/Assembler* cartridge, and an Epson-compatible printer.)

BUSINESS MANAGER

This unique collection of programs, including *Inventory Control*, *Order Entry & Invoicing*, and *Mail List*, are designed to work together to offer you tremendous versatility.

The *Inventory Control* program will enable you to keep track of 1000 items—by record number, stock number or description, and can be displayed or printed for your review.

The *Point of Sale* subprogram will generate a printed invoice for you immediately, or use the *Batch Entry* when you require a permanent disk record of your invoices.

The *Mail List* program stores up to 1000 names and addresses. Adding, deleting, or changing listings is a simple task, and you can design your own format for printing labels and/or reports from any one of nine different fields. (Requires Disk System, *Extended BASIC* cartridge and Printer.)

EDUCATION

The computer is an infinitely patient, non-critical, personal teacher. It never gets tired of repeating . . . never pushes at a faster pace than the child can absorb. Yet it is never boring. It recognizes the instant a skill is mastered and immediately proceeds to challenge with the next lesson or level of mastery.

Children who need help in one particular subject can repeat, review, retest . . . without embarrassment, in total privacy. And gifted children can set their own fast pace. They can master more subjects than their school curriculum allows . . . learn at

TI SPEECH SYNTHESIZER

A marvel of solid state technology, this popular peripheral reproduces human speech electronically, accurately and realistically—with a variety of inflections and appropriate pitch. Ideal for children too young to read the screen . . . while older students benefit from voice interaction. Plugs directly into the TI-99/4A console without external cables. When used with software designed for speech, gives voice instructions, asks and answers questions. With *Speech Editor* cartridge (not offered in this catalog) or *Extended BASIC* cartridge, allows you to add speech to your own programs drawn from a vocabulary of 370 words. With *Terminal Emulator II* cartridge, provides virtually unlimited text-to-speech capability.
