## UNISOURCE ELECTRONICS, INC.

P. O. BOX 64240 • LUBBOCK, TEXAS 79464 •

Dear TI-99/4(A) User:

At last, one source for all your software, peripherals and accessories for your TI-99/4(A) Home Computer...Unisource Electronics, Inc. of Lubbock, Texas.

We offer the most complete line of software and hardware available for the 99/4(A)...we offer prompt and efficient service...we offer up to date information on new offerings... and we offer SAVINGS to make your \$\$\$'s go 30% further!

Any software, peripheral or accessory in this catalog can qualify you for your choice of additional free software. For everything you purchase from Unisource, you receive 30% of additional software of your choice at no charge. Simply add up your purchases, select your FREE software, and call toll free, 800-858-4580 (in Texas, call 806-745-8834). Or, to order by mail, simply complete the Order Form included in the back of this Catalog.

We believe our location in Lubbock, Texas (5 minutes from the TI warehouse) allows us to serve your needs best.

Your business is always appreciated, and we look forward to the opportunity to be of service to you.

Cordially,

Craig Reitan  
President

JCR:k

Our goal with this catalog and directory of TI-994/(A) software and peripherals is to provide as comprehensive a listing as possible of available merchandise. Because of the rapidly changing market in the computer field, prices and/or availability may change at any time without notice. Unisource Electronics, Inc. will attempt to keep you informed of these changes as they occur with updates to this catalog but prices will be those in effect on the date of shipment of the order; however, notification of any such price increases will be made prior to shipment.

NOTICE TO CONSUMERS: All products listed in this catalog are produced and manufactured by companies other than Unisource Electronics, Inc. Titles to the packages may be trademarks owned by or licensed to the indicated author. In listing software, peripherals, accessories and other items in this catalog, Unisource Electronics, Inc. does not represent having tested the functioning or utility of such products. Unisource Electronics, Inc. makes no warranty whatsoever regarding the products other than that offered by the author/manufacturer and shall not be held responsible for the contents or performance.

## PERIPHERAL EXPANSION BOX

-----CAT #10001T10--

The Peripheral Expansion System is the easy, convenient, compact and economical way for you to expand your Home Computer's capabilities. Lets you start simple, then gradually build up with different peripheral cards that enable additional capabilities in one compact system. Measuring 7 1/2"x12"x18", the System centralizes your hardware, accommodating the disk memory system (capable of handling 90K bytes of additional storage). Add 32K bytes of random access memory (RAM) with the memory expansion card. The P-code card enables the use of programs written in UCSD PASCAL, FORTRAN and PILOT. The RS-232 interface allows you to use a printer to produce hard copies or to use a telephone to communicate with other computers.

PRICE: \$249.95

MANUFACTURER: Texas Instruments

## RS-232 CARD

-----CAT #10002T10--

A communications adapter that allows you to connect parallel or serially formatted accessory devices, including those from other manufacturers, to your Home Computer. (Not required for the use of TI-99/4(A) peripherals manufactured by Texas Instruments, except with Telephone Coupler and Impact Printer.) The Card includes a cost-saving parallel port for printers.

PRICE: \$174.95

MANUFACTURER: Texas Instruments

PERIPHERALS REQUIRED: Peripheral Expansion Box

## DISK CONTROLLER CARD

-----CAT #10003T10--

The Disk Controller Card is the part of the disk memory system that allows you to add from one to three disk drives to your system, each of the drives capable of storing up to 92,000 bytes of information and defining up to 127 files on each diskette. Included is a command module that supplies all disk utilities and file maintenance commands. Can be used with one disk drive that is inserted in the Peripheral Expansion Box plus one or two free standing drives or with up to three free standing drives.

PRICE: \$249.95

MANUFACTURER: Texas Instruments

PERIPH. REQ.: Periph. Exp. Box; 1-3 Disk Drives

## EXPANSION SYSTEM DISK DRIVE

-----CAT #10004T10--

In conjunction with the Disk Controller Card, the use of one to three disk drives allows you to quickly and efficiently store additional information that you wish to keep and refer to at a later time on 5 1/4" mini-floppy disks. Each disk memory drive will store up to 92,000 characters of information on a disk. In addition, it allows you to run many TI and third party software programs which are not available in command modules or cassettes and to use those which require the storage and manipulation of large amounts of data such as Tax/Investment Record Keeping and Household Budget Management.

PRICE: \$399.95

MANUFACTURER: Texas Instruments

PERIPH. REQ.: Disk Contr. Card;  
Periph. Exp. Box

## MEMORY EXPANSION CARD

-----CAT #10005T10--

Add 32K bytes of random access memory (RAM) (to the 16K bytes available with the console) with the Memory Expansion Card.

PRICE: \$299.95

MANUFACTURER: Texas Instruments

PERIPH. REQ.: Periph. Exp. Box; one or more of the following: Extended BASIC; LOGO; Mini-Ram; P-Code Peripheral; Editor/Assembler

## P-CODE CARD

-----CAT #10006T10--

The P-Code Card enables the use of programs written in UCSD PASCAL, FORTRAN and PILOT.

UCSD Pascal is a highly structured, efficient programming language that is faster, more logical, and substantially more powerful than BASIC. The P-Code Card, together with the Compiler command module, allows you to use existing PASCAL programs; or write your own PASCAL programs with the Assembler/Linker and Editor/Filter/Utilities command modules.

PILOT is an easy to use language for developing and using Computer Assisted Instruction (CAI) lessons for educators utilizing the TI PILOT command module.

PRICE: \$249.95

MANUFACTURER: Texas Instruments

PERIPH. REQ.: Periph. Exp. Box; Memory Expansion

GET 30% ADDITIONAL FREE GOODS FOR EACH \$ YOU PURCHASE!

### PASCAL DEVELOPMENT SYSTEM

-----CAT #10007T10--

The PASCAL Development System includes the P-Code Card and all of the command modules required for using UCSD PASCAL programs as well as developing your own programs in PASCAL at a savings of \$50.00 over buying the items individually. The System includes: P-Code Card - \$249.95; UCSD PASCAL Compiler - \$124.95; UCSD Assembler/Linker - \$99.95; and the UCSD Editor/Filer/Utilities - \$74.95. Total value: \$549.95

(See CAT #10006T10, #60017T10; #60018T10; #60019T10 for detailed descriptions.)

PRICE: \$499.95

MANUFACTURER: Texas Instruments

PERIPH. REQ.: Periph. Exp. Box; Memory Expansion; Disk System.

---

### SPEECH SYNTHESIZER

-----CAT #10008T10--

The Solid State Speech Synthesizer reproduces human speech electronically, accurately and realistically with a variety of inflections and appropriate pitch. For children too young to read the screen, the Speech Synthesizer is ideal since it allows the Computer to "talk" to the children.

The Speech Synthesizer requires either the Speech Editor, Terminal Emulator II command cartridge or other programs designed with the use of speech. The TEII package provides unlimited text-to-speech capability which allows you to listen to data base information or have the Computer say anything within your own program.

PRICE: \$149.95

MANUFACTURER: Texas Instruments

PERIPH. REQ.: Speech Editor module; Terminal Emulator II module; or other software that uses speech

---

### TELEPHONE COUPLER (MODEM)

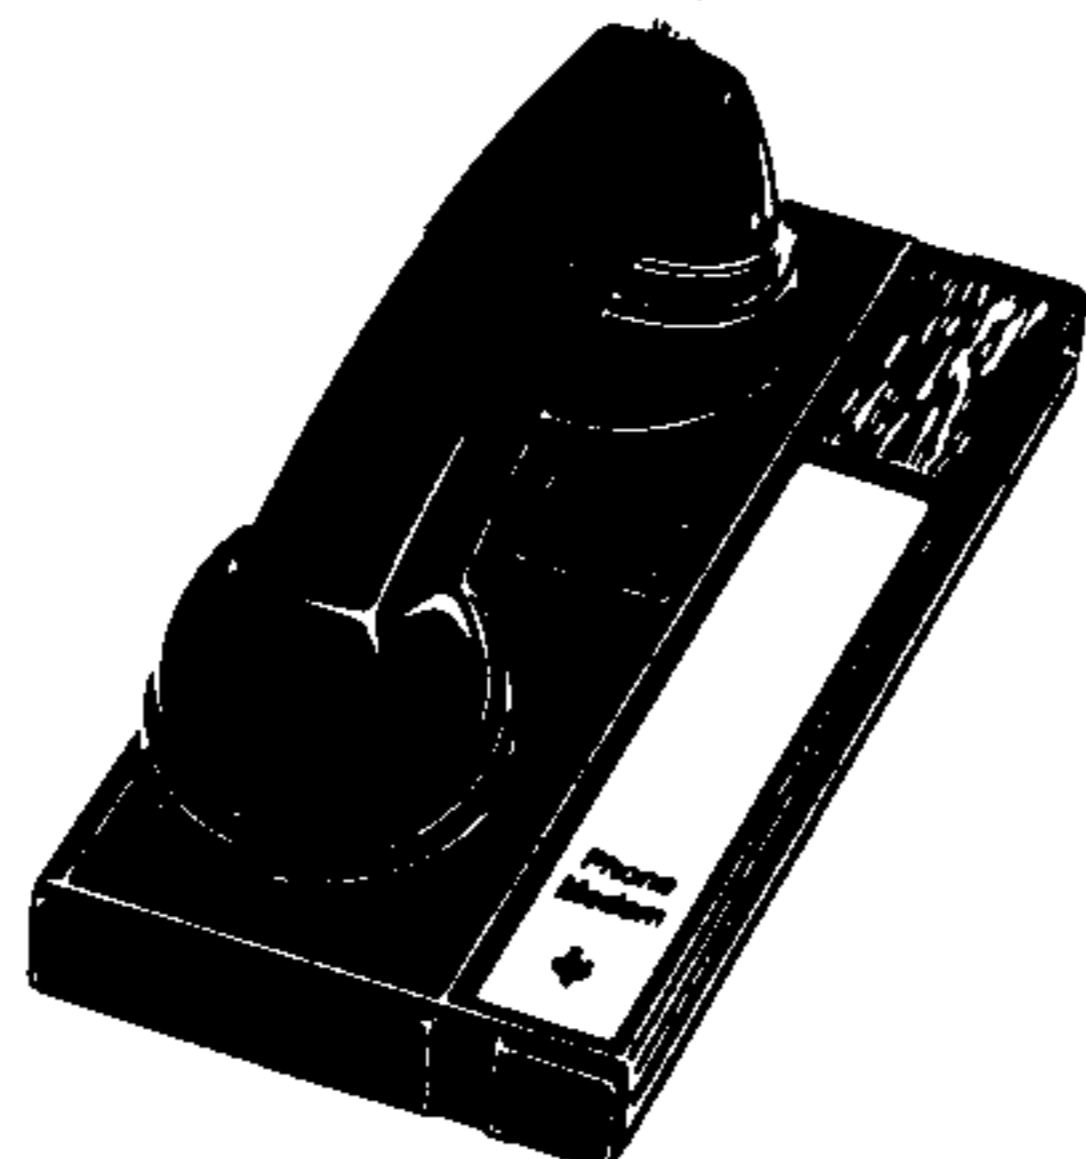

-----CAT #10009T10--

Lets you send and receive messages, data and even entire programs with your own home phone. You just place your telephone receiver in the coupler cradle and you can communicate with similarly equipped computers at remote locations, and access data bases and such software services as TEXNET(SM) Information Service, THE SOURCE(SM), and the Dow Jones News/Retrieval Services.

PRICE: \$199.95

MANUFACTURER: Texas Instruments

PERIPH. REQ.: RS-232; Terminal Emulator II module

---

### DISK MEMORY DRIVE

-----CAT #10012T10--

In conjunction with the Disk Drive Controller, the use of one to three disk drives allows you to quickly and efficiently store additional information that you wish to keep and refer to at a later time on 5 1/4" mini-floppy disks. Each disk memory drive will store up to 92,000 characters of information on a disk. In addition, it allows you to run many TI and third party software programs which are not available in command modules or cassettes and to use those which require the storage and manipulation of large amounts of data such as Tax/Investment Record Keeping and Household Budget Management

PRICE: \$499.95

MANUFACTURER: Texas Instruments

PERIPHERALS REQUIRED: Disk Drive Controller

---

### TI IMPACT PRINTER

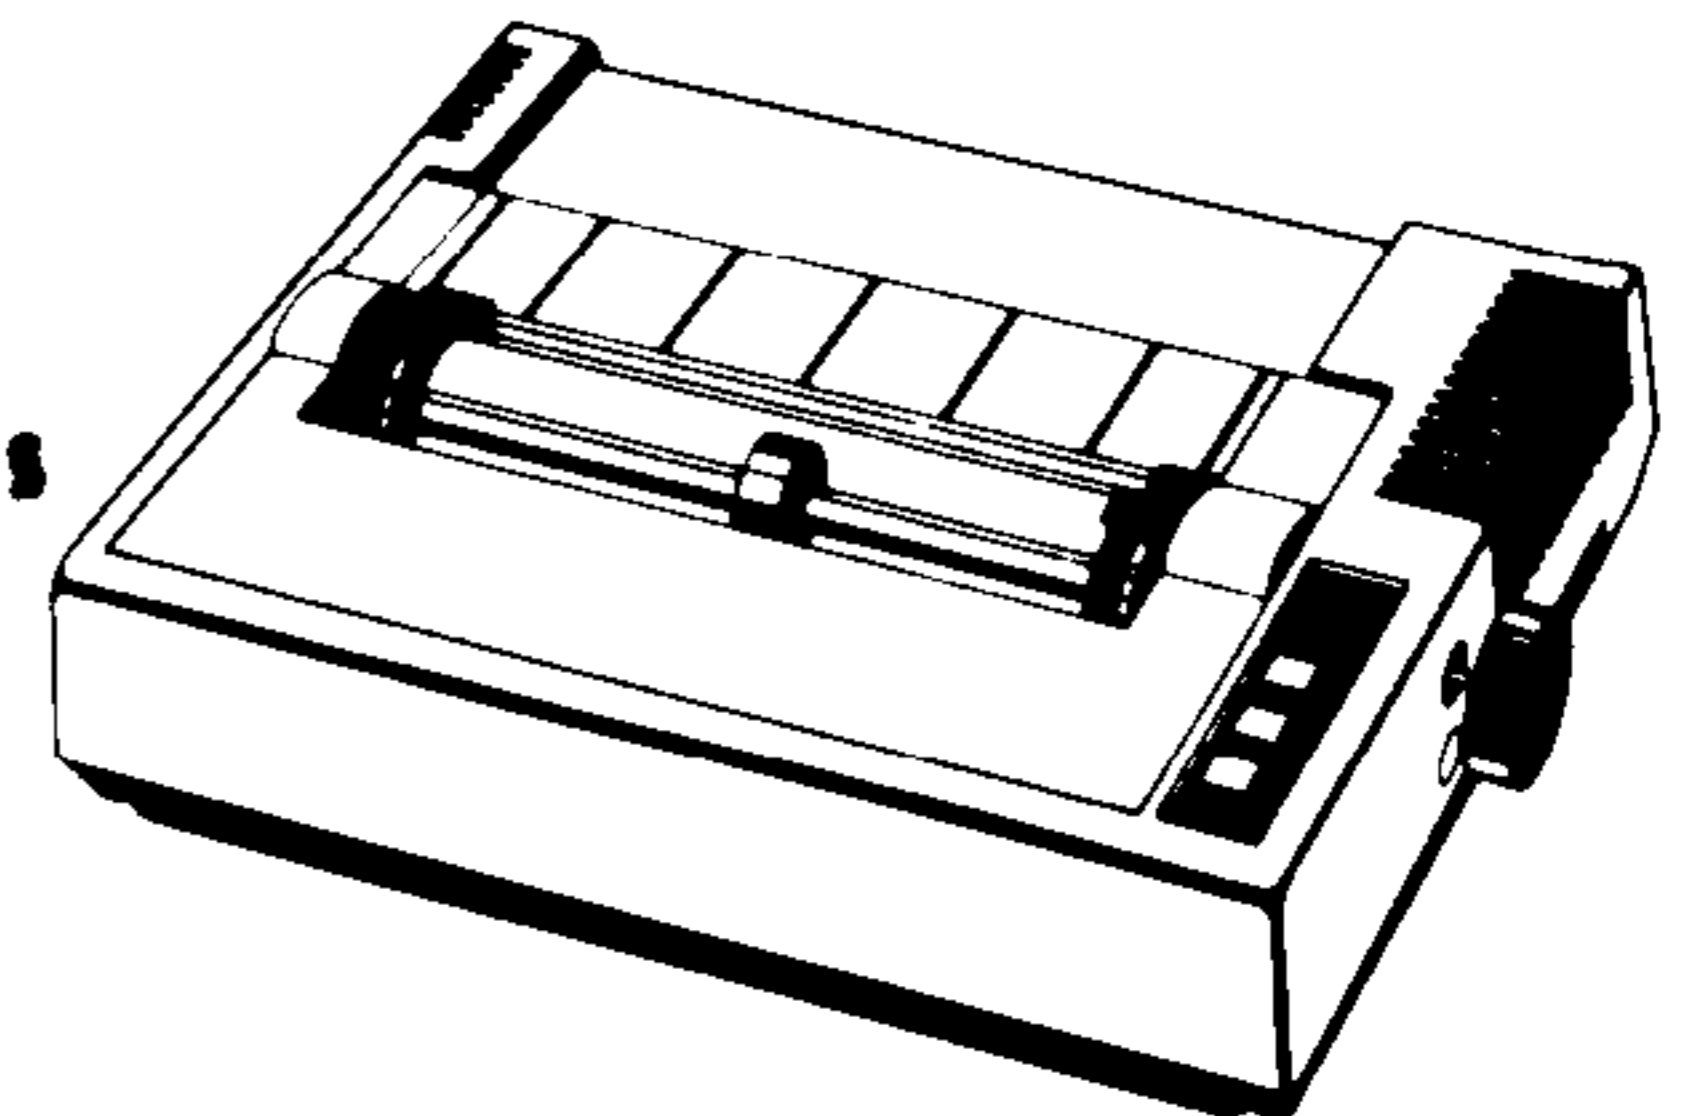

-----CAT #10013T10--

This letter-size, quiet, high-performance, dot matrix, impact printer features 80 characters per second bi-directional printing, three type sizes and four distinct printing densities. The TI Impact Printer also features a long-life 9X9 dot matrix print/head that is easily replaced. The printer can handle 40, 66, 80 and 132-column widths and can print text or graphic data.

PRICE: \$750.00

MANUFACTURER: Texas Instruments

PERIPH. REQ.: RS-232 Interface

---

### VIDEO CONTROLLER

-----CAT #10015T10--

Allows the educator to design courses which allow the home computer to control a VCR in order to provide interactive education paced to the individual student's learning speed. Coupled with one of several popular VCR's and the TI Course Designer Authoring Package, the instructor can develop his own unique learning experience for his student.

PRICE: \$699.95 (Includes choice of Panasonic, Sony or Pioneer cables)

MANUFACTURER: Texas Instruments

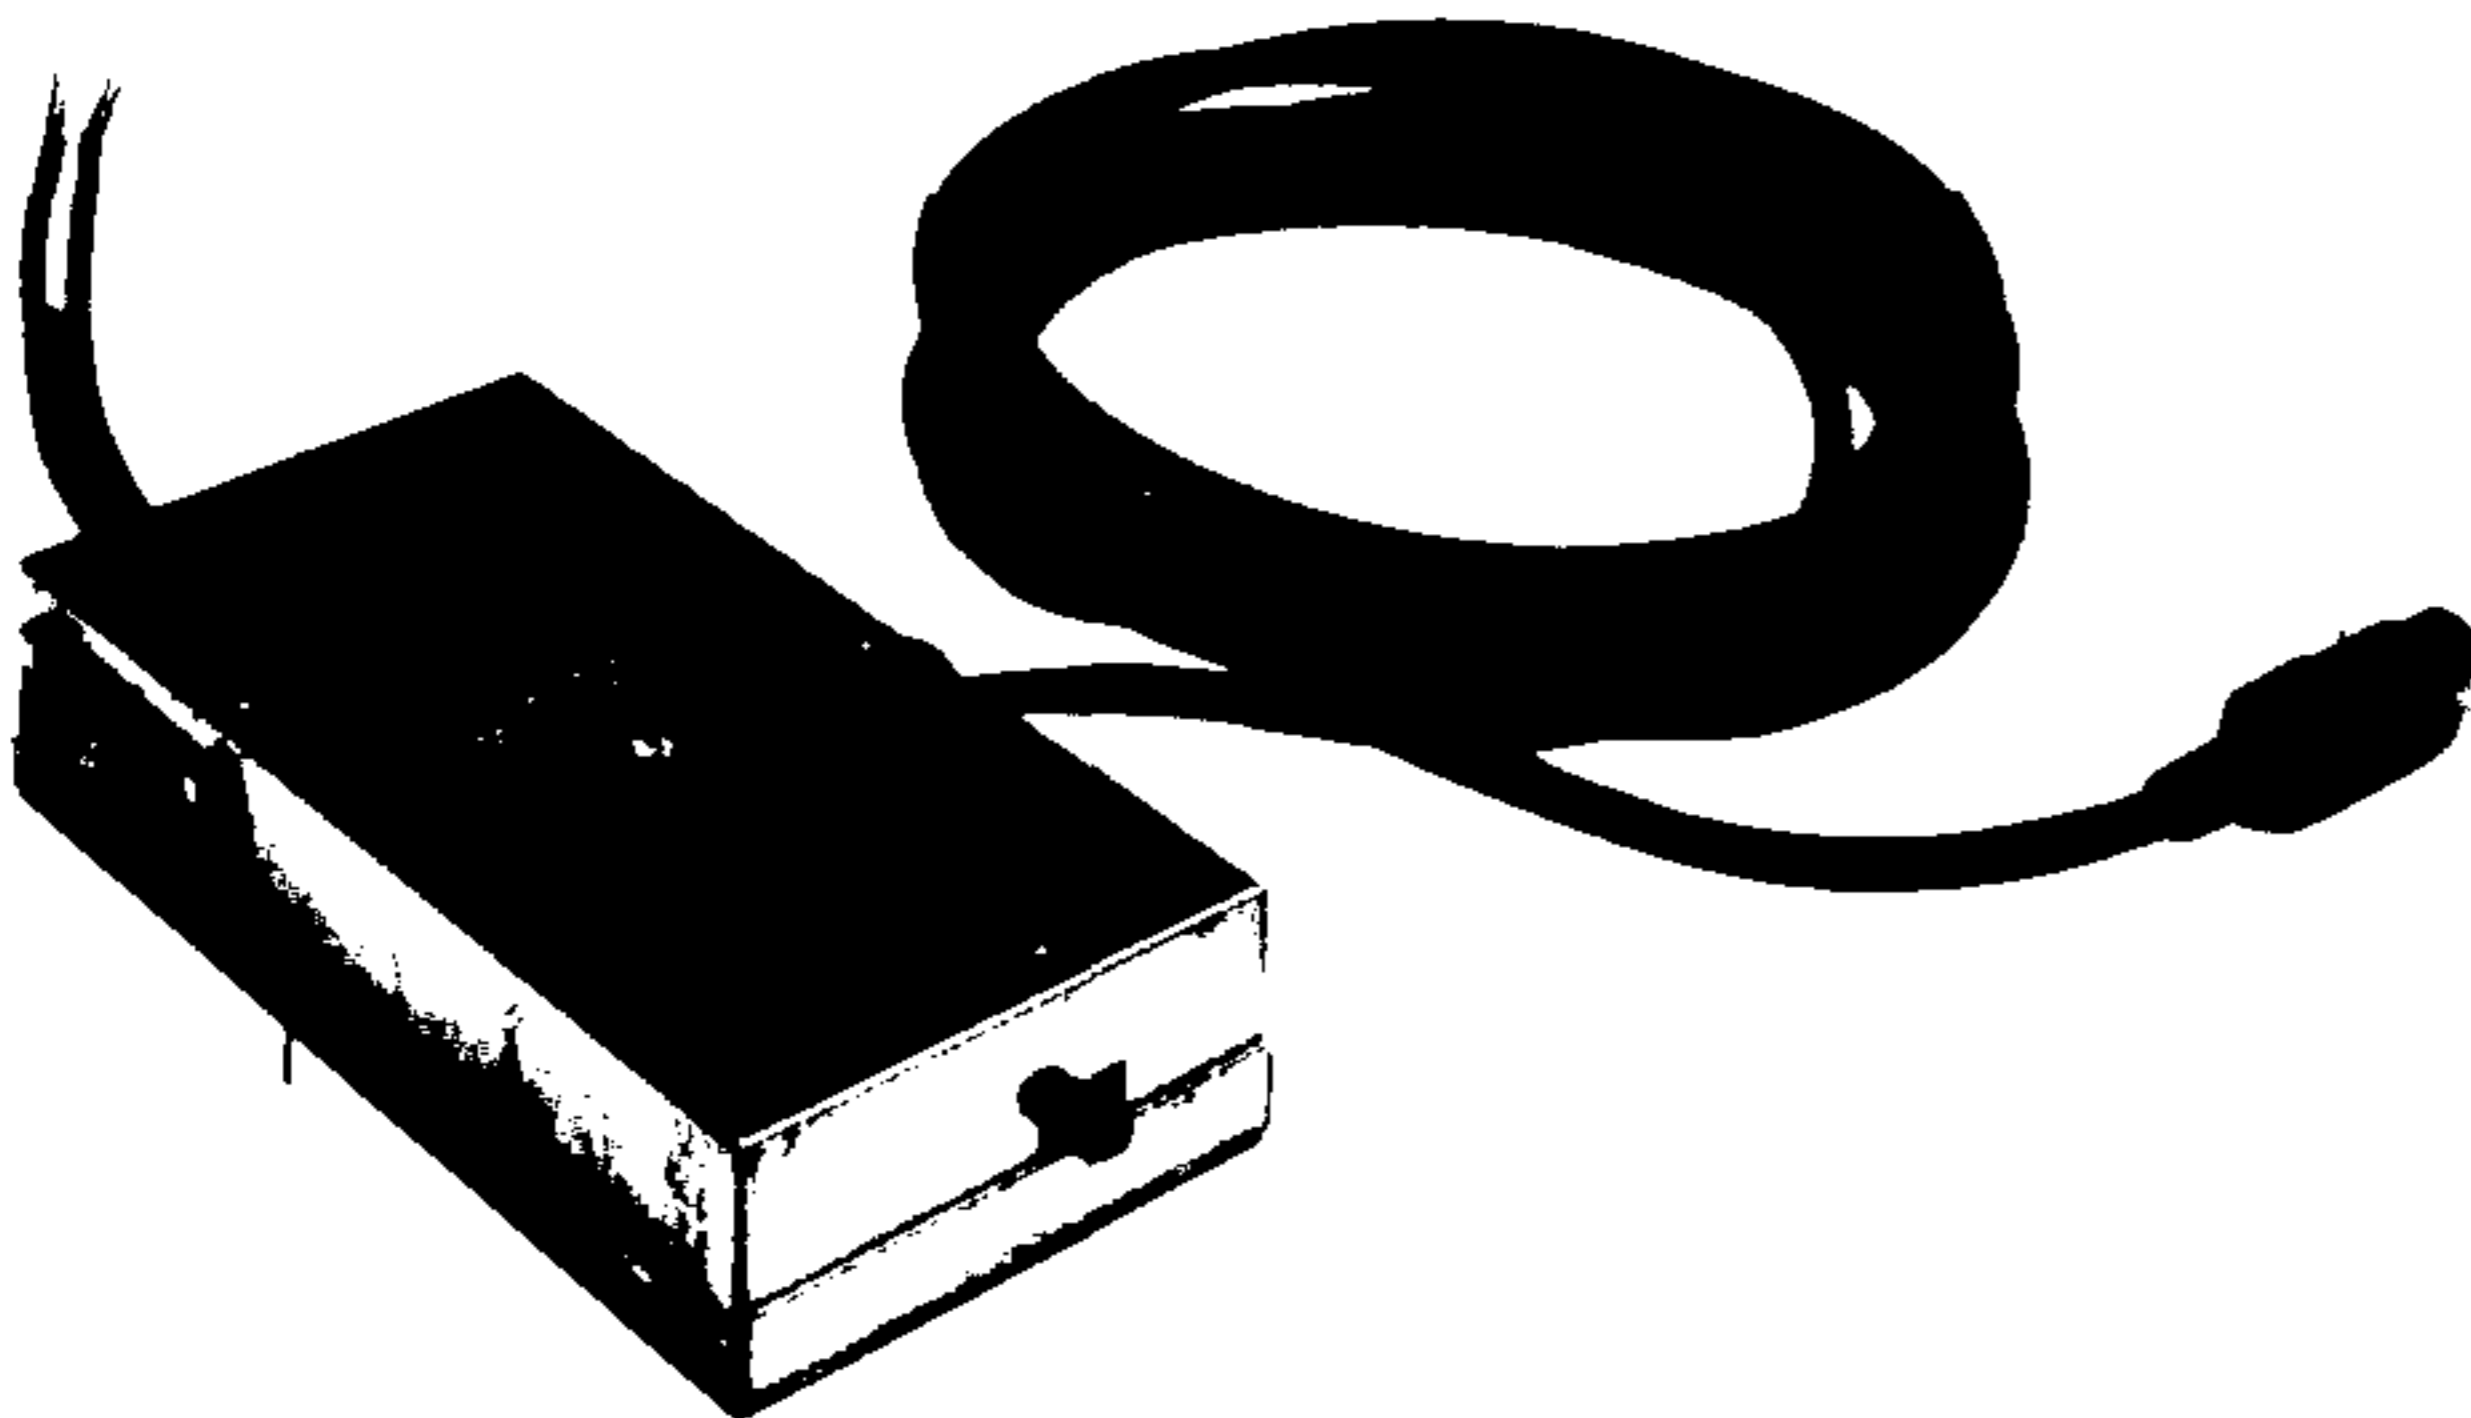

**GET 30% ADDITIONAL GOODS FREE WITH EACH \$ YOU PURCHASE!**

-----  
**R.F. MODULATOR (TV ADAPTER)**

-----CAT #10017T10--

Video modulator allows you to connect the Home Computer console to your own color or black and white TV set. A computer/television switch allows dual use without disconnecting the video modulator.

PRICE: \$49.95  
MANUFACTURER: Texas Instruments  
PERIPHERALS REQUIRED: None

-----  
**COLOR MONITOR 10"**

-----CAT #10018T10--

A compact, high quality monitor specially matched for use with the TI-99/4(A) Home Computer console. The display format is 24 lines of 32 characters. The monitor provides excellent color resolution (192x256 dot density) and picture quality.

PRICE: \$449.95  
MANUFACTURER: Texas Instruments  
PERIPHERALS REQUIRED: None

-----  
**THERMAL PAPER**

-----CAT #10019T10--

Thermal sensitive paper for use with TI Solid State Thermal Printer. Two rolls per package.

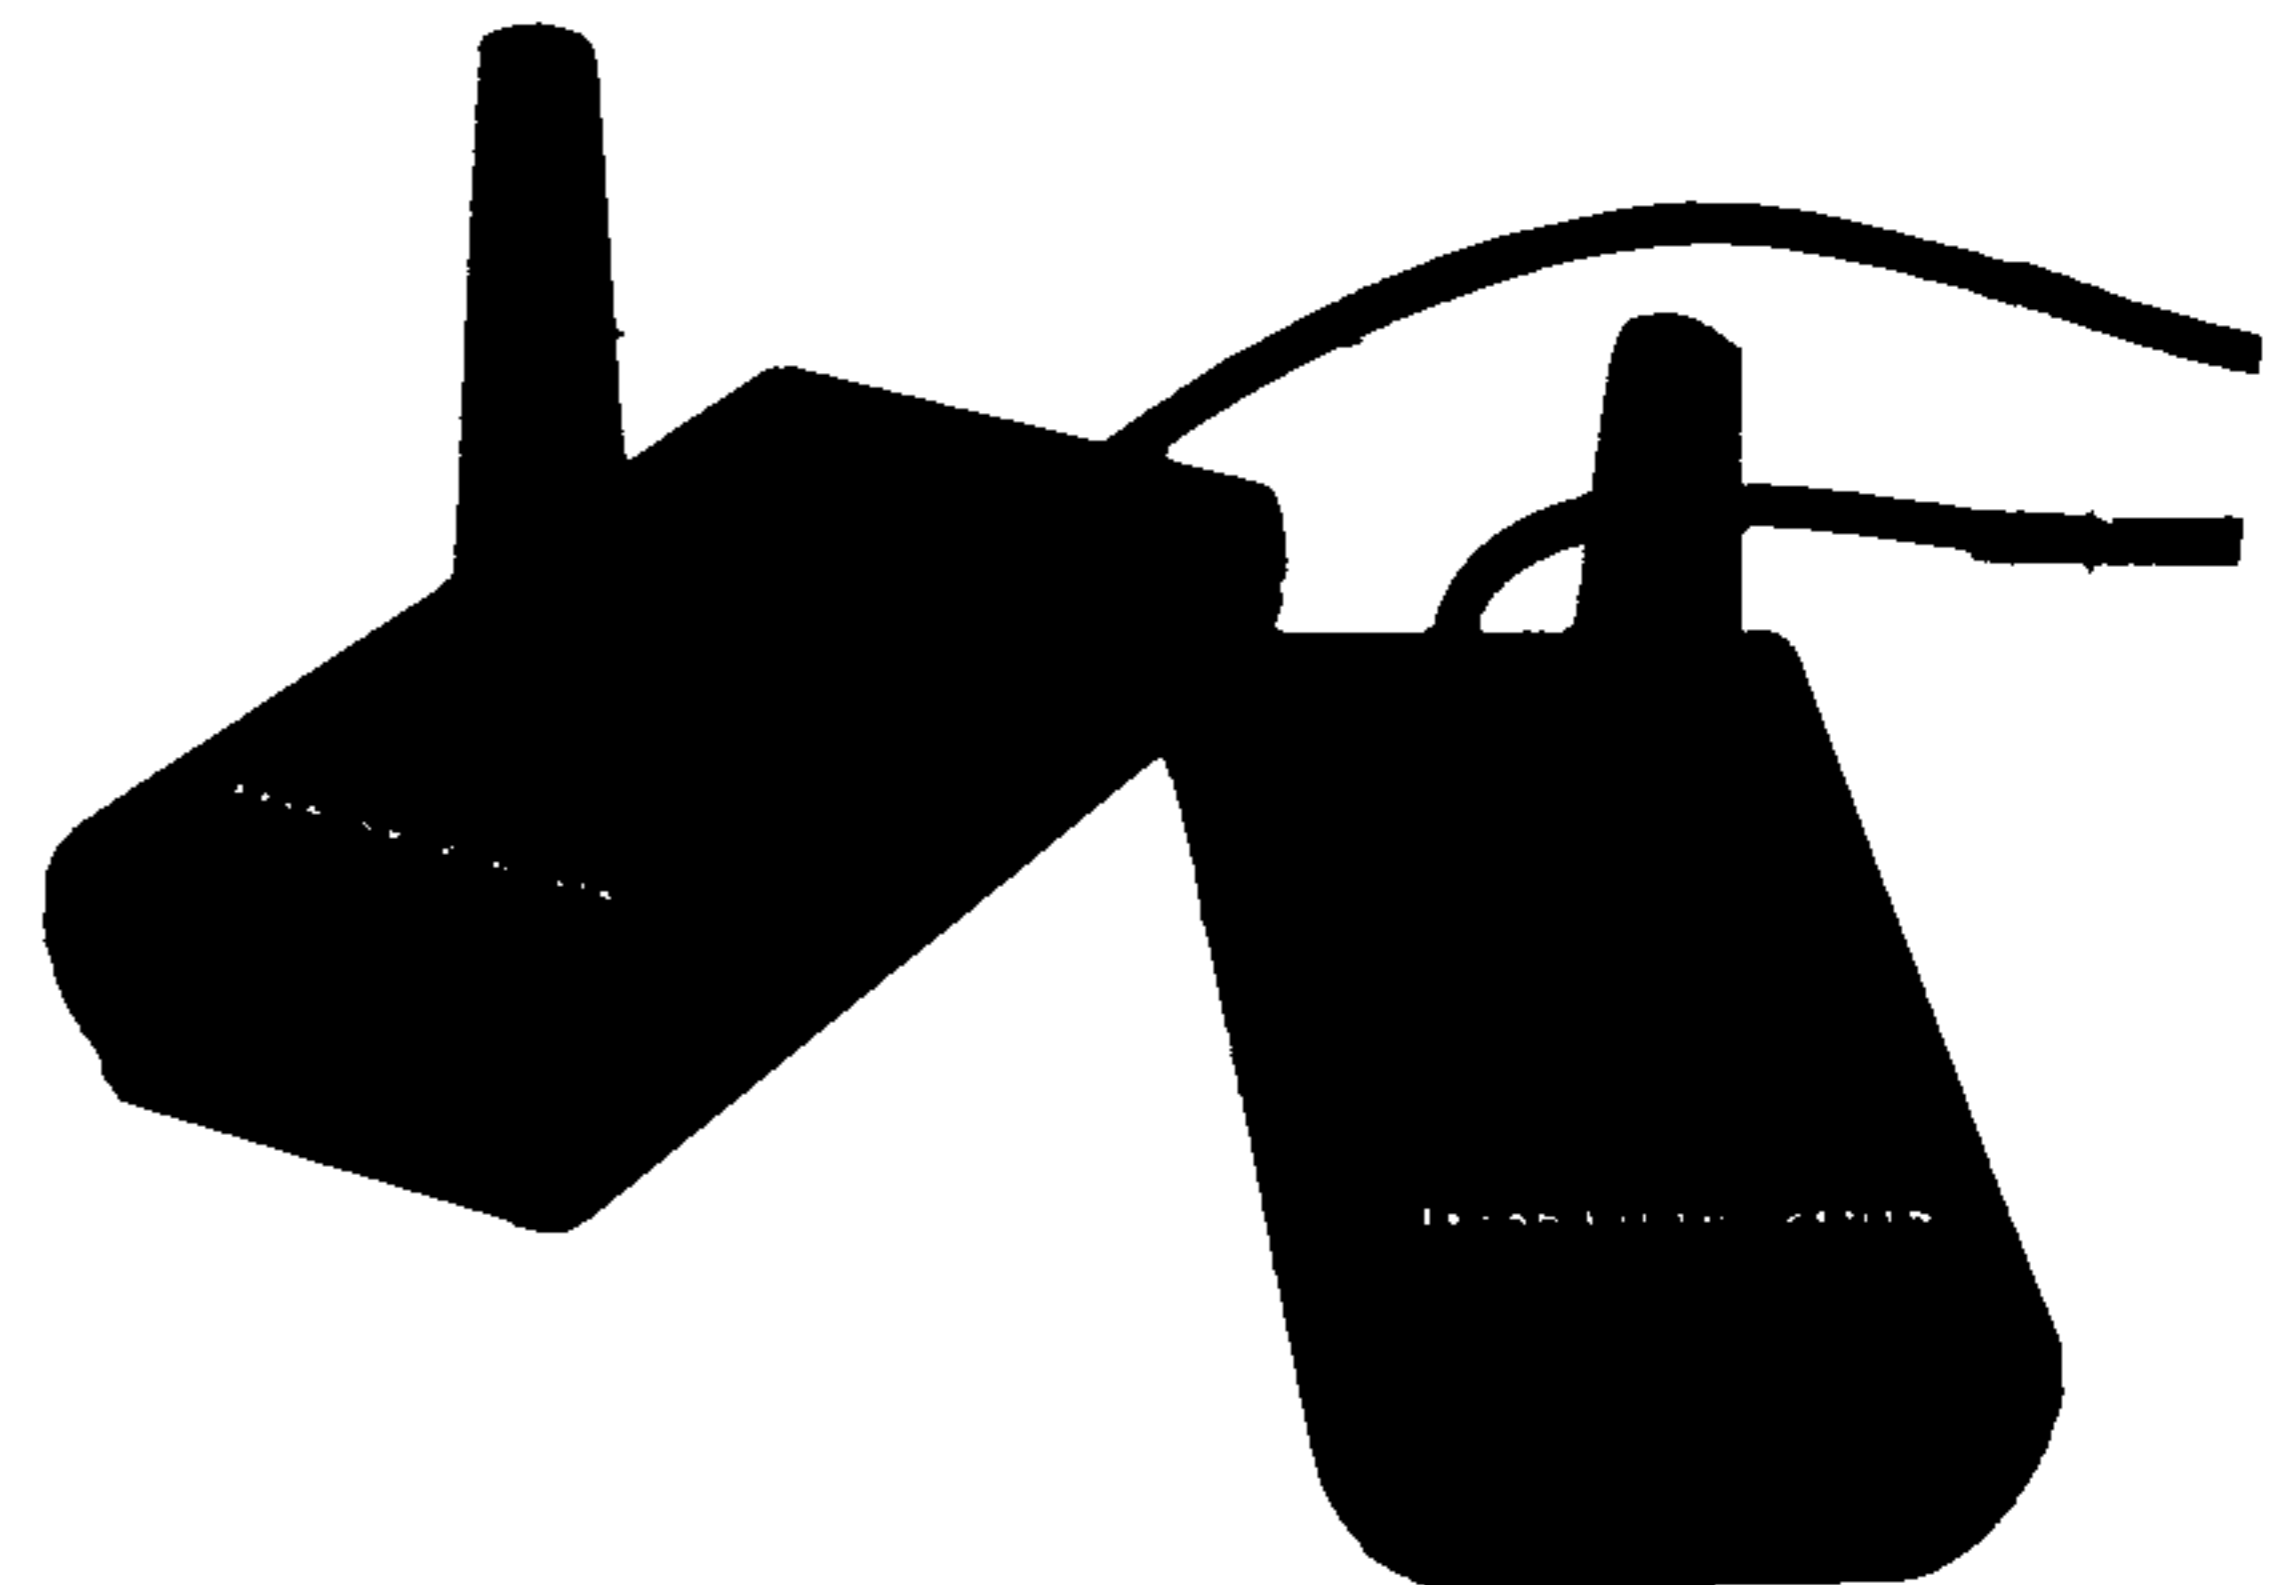

PRICE: \$13.95 per package (2 rolls)  
MANUFACTURER: Texas Instruments  
PERIPHERALS REQUIRED: Solid State Thermal Printer

-----  
**WIRED REMOTE CONTROLLERS**

-----CAT #10020T10--

The Wired Remote Controllers are for fun and games. They let you maneuver objects on the screen. Each unit features an eight-position remote control with side-mounted action button. These "joysticks" are important accessories for TI's fast action games.

PRICE: \$34.95  
MANUFACTURER: Texas Instruments  
PERIPHERALS REQUIRED: None

-----  
**CASSETTE CABLES**

-----CAT #10021T10--CAT #10080T10--

These cassette cables allow you to connect one or two cassette recorders to your Home Computer console, enabling you to use a greater variety of software programs and to store your own programs or data permanently.

PRICE: \$14.95  
MANUFACTURER: Texas Instruments  
PERIPHERALS REQUIRED: Cassette Recorder with tone control and external microphone jack.

-----  
**MONITOR CABLE**

-----CAT #10022T10--

The monitor cable connects any computer video monitor to the TI Home Computer.

PRICE: \$19.95  
MANUFACTURER: Texas Instruments  
PERIPHERALS REQUIRED: None

**GET 30% ADDITIONAL GOODS FREE WITH EACH \$ YOU PURCHASE!**

-----  
**VIDEO CONTROLLER CABLES**  
-----

Panasonic.....CAT #10024T10  
Sony.....CAT #10025T10  
Pioneer.....CAT #10026T10

Video cables connect popular brands of VCR's to TI Video Controller (CAT #10015T10).

PRICE: \$99.95  
MANUFACTURER: Texas Instruments  
PERIPHERALS REQUIRED: Video Controller  
-----

**EPSON MX-80FT PRINTER**

-----CAT #10030C60--

The worlds most popular printer. Dot matrix, 80-column with advanced printing features. Disposable print head rated for 100 million characters. Choice of 40, 66, 80, or 132 columns of printing. Bi-directional printing for extra speed (80 CPS); multi-strike capability for "correspondence quality" printing; 64 different graphic characters; forms handling and much more.

Uses standard 9 1/2"x12" data processing paper with tractor type pin feed that can be adjusted for smaller sizes, i.e., mailing labels. It also has a friction feed roller so you have the option of using standard letterhead or other forms and feeding them in just as in a typewriter. Also comes with GRAFTRAX as standard equipment.

PRICE: \$599.00  
MANUFACTURER: Epson  
PERIPH. REQ.: RS-232 Interface; Serial Interface Board, CAT #10032A50 (not required with RS-232 Card); Cable, CAT #10033A60 or #10034A60  
-----

**EPSON MX-100 PRINTER**

-----CAT #10031C60--

The ultimate dot matrix printer. All of the advance features of the MX-80 are included in the larger MX-100 Printer. This printer accepts up to 15" wide paper so that you can print spread sheets up to 233 columns wide. It also includes the standard features of the MX-80FT (friction or tractor type pin feed) as well as GRAFTRAX as standard equipment. Prints at speeds of up to 100 CPS.

PRICE: \$849.00  
MANUFACTURER: Epson  
PERIPH. REQ.: RS-232 Interface; Serial Interface Board, CAT #10032A50 (not required with RS-232 Card); Cable, CAT #10033A60 or #10034A60  
-----

-----  
**PRINTER SERIAL INTERFACE BOARD**  
-----

-----CAT #10032A50--

Required when connecting either an EPSON printer to your 99/4(A) using a serial interface port on an RS-232 device. Includes a 4K buffer which allows the computer to dump data to the interface board and frees up the computer for further input while the printer continues to print. Installs inside printer. This board is included in the TI Impact Printer.

PRICE: \$125.00  
AUTHOR: Unisource Electronics, Inc.  
PERIPH. REQ.: Printer Cable--Serial, CAT #10033A60  
-----

-----  
**PRINTER CABLE--SERIAL**  
-----

-----CAT #10033A60--

A custom-made six foot cable to connect your EPSON Printer to your TI-99/4(A) RS-232 serial interface port. Long cable allows flexibility of placement of printer. Simply plug into the Serial Interface Board port and the RS-232 port. Included with the TI Impact Printer.

PRICE: \$45.00  
AUTHOR: Unisource Electronics, Inc.  
PERIPH. REQ.: RS-232 Card or HEXBUS RS-232; Printer Serial Inter- face Card  
-----

-----  
**PRINTER CABLE--PARALLEL**  
-----

-----CAT #10034A60--

A custom-made six foot cable to connect your EPSON or TI Impact Printer to your TI-99/4(A) RS-232 Expansion Box Card. Long cable allows flexibility of placement of printer. Simply plug into the parallel port of your RS-232 Card and the printer.

PRICE: \$45.00  
AUTHOR: Unisource Electronics, Inc.  
PERIPH. REQ.: RS-232 Card or HEXBUS RS-232  
-----

-----  
**DISKETTES**

-----CAT #10035C60--

5 1/4" mini-floppy disks from VERBATIM. VERBATIM manufactures the highest quality disks we have been able to find. We have used hundreds ourselves and have sold hundreds more and have never had a defective disk. 40-track, single sided/double density, or double sided /double density, soft-sectored with metal hub ring.

PRICE: single sided \$3.75/ disk; \$35.00/box of 10 disks  
double sided \$6.00/ disk; \$57.50/box of 10 disks

MANUFACTURER: Verbatim  
PERIPH. REQ.: Disk System

-----  
**DISK HEAD CLEANING KIT**

-----CAT #10036E30--

Manufactured by VERBATIM, this is a convenient and easy to use head cleaning system with disposable disks that can remove up to 90% of the debris contaminating drive heads in computers and word processors. A combination of a special disk and reusable jacket allows cleaning in just 30-60 seconds. Each disk is pre-saturated with cleaning solution and individually sealed in foil pouches. The head cleaning kit includes 2 cleaning disks. Additional disks can be purchased separately (See CAT #10037E30).

PRICE: \$12.50  
MANUFACTURER: Verbatim  
PERIPH. REQ.: Disk System

-----  
**DISK HEAD CLEANING DISKS**

-----CAT #10037E30--

Replacement disks for the Disk Head Cleaning Kit (see CAT #10036E30). 10 disks per package.

PRICE: \$24.95/package of 10  
MANUFACTURER: Verbatim  
PERIPH. REQ.: Disk Head Cleaning Kit; Disk System

-----  
**AUDIO ADAPTER (HEADPHONE JACK)**

-----CAT #10038T10--

The audio adapter is an earphone that allows personal listening while working with the TI Home Computer for both speech and tone response. Ideal for many programs for young children where audio responses are used abundantly, or for any use where privacy is desired.

PRICE: \$19.95  
MANUFACTURER: Texas Instruments  
PERIPH. REQ.: None

-----  
**MAILING LABELS**

-----CAT #10039C70--

Pressure sensitive white mailing labels in continuous feed format. One up; pin feed; 15/16"X3 1/2". Packed 5,000 to a box. Only \$5.99 per thousand.

PRICE: \$5.99/thousand. Min. order 5,000 = \$29.95.  
PERIPH. REQ.: Plain Paper Printer (TI Impact; Epson, etc.)

-----  
**PRINTER RIBBON**

-----CAT #10040S60--

Replacement cassette ribbon for your TI Impact Printer, Epson MX-80 or Epson MX-80FT Printer. Simple to replace. ..simply drop in the new cartridge. Highest quality ribbon you can purchase anywhere

PRICE: \$17.95/ea.  
\$16.95 ea. minimum order of 3  
PERIPH. REQ.: Any Printer Mentioned Above

**GET 30% ADDITIONAL GOODS FREE WITH EACH \$ YOU PURCHASE!**

-----  
**DUST COVERS**

-----CAT #10041N30-10049N30--  
Protect your expensive and valuable computer and peripherals with these high quality, custom-made translucent dust covers. Each one custom fits the peripheral it is designed for. These handsome, high quality dust covers are also antistatic treated.

**TEXNET INFORMATION SERVICE**

-----CAT #10055T20--  
A special edition of THE SOURCE with additional programs and services specifically designed for TI Home Computer users. Tie your computer into a nationwide network of programs, communications and information. The TEXNET Information Service can bring new interests, new convenience and new knowledge to every member of your family. There's a truly remarkable range of more than 1,200 programs and services--with many special services designed specifically for TI Home Computer users. You can get free programs through a TI program exchange, plus product and technology news. There's a text-to-speech phonetic dictionary, music and graphics libraries, and more ...all tailor-made for your TI Home Computer. And then there is the immense variety offered by THE SOURCE--news, sports, stocks, commodities, research, airline and hotel reservations, consumer information, entertainment, games, electronic mail, programming languages, electronic shopping, and much more--all at your fingertips, with a speed, facility and immediacy possible only through a major computer network of this scope and diversity. And all at economical rates. Less than ten cents per minute on evenings and weekends. (Minimum monthly usage charge--\$10)

-----  
**TYPEWRITER/PRINTER**

-----CAT #10104XXX--

Now you can have both a letter quality printer for your computer and a professional stand-alone electronic typewriter for less than the price of either one alone. This typewriter from Silver Reed (Model EX42) is a breakthrough in electronic compact typewriters, embodying the very essence of advanced electronic technology. Any one of its excellent features (unique ultramodern design, sharp print quality, and overall ease of use) is enough to qualify it as a truly outstanding typewriter. The many functions of the EX42 electronic typewriter have been miniaturized into a space-saving design, yet it is fully capable of measuring up to professional requirements. Now, to use as a letter-quality printer, simply connect the Super-Cord Interface directly to your TI-99/4A; simply unplug from the console when you wish to use as a stand-alone typewriter.

PRICE: Silver Reed EX42 - \$595.00

Super-Cable - \$395.00

**AUTHOR/AUTHOR 2000 (ADVOCAITE)**

-----CAT #20020E20--

An authoring program to develop Computer Aided Instruction (CAI) courses. Develop courses quickly and easily by using worksheets to answer simple questions in English. Enables the author to indicate a screen name, the question for the screen, correct/incorrect answers, answer responses, # of answer attempts allowed and answer branches. No need to understand programming. Use "as is" (with CAI disks), or add options (CAT #20022E20-20029E20) for more flexibility as you need it. Demonstration disk available. AUTHOR is the basic program or get AUTHOR 2000 to allow the inclusion of high or low resolution color graphics on the screen. (See CAT #20022E20)

PRICE: AUTHOR-\$450.00; AUTHOR 2000-\$650.00

AUTHOR: EduCAIitor, Inc.

PERIPH. REQ.: Extended BASIC; 2-Disk System

-----  
**CAI/CAI-2000 DISKETTES**

-----CAT #20021E20--

Lesson diskettes for the presentation of finished course material. Special function key allows the student to review as many as five screens that have already been presented.

CAI diskettes are used with the AUTHOR program. CAI-2000 diskettes are used with the AUTHOR 2000 program and allow graphics to be included.

PRICE: CAI= \$140.00, CAI-2000= \$200.00

AUTHOR: EduCAIitor, Inc.

PERIPH. REQ.: AUTHOR Program and Peripherals (CAT #20020E20)

-----  
**GRAPHICS DICTIONARY (ADVOCAITE)**

-----CAT #20022E20--

A file containing a series of graphics characters that can be called up and displayed from the AUTHOR 2000 program (CAT #20020E20) or from the ARTS 2000 program (CAT #20029E20). 180 characters reside in the file. This program should be considered mandatory with the AUTHOR 2000 program.

PRICE: \$200.00

AUTHOR: EduCAIitor, Inc.

PERIPH. REQ.: AUTHOR 2000 Program and Peripherals (CAT #20020E20)

-----  
**EDITOR/EDITOR 2000 (ADVOCAITE)**

-----CAT #20023E20--

An optional program for use with the AUTHOR or AUTHOR 2000 programs. It allows you to alter existing course material developed using the AUTHOR program. It allows for text and answer response editing and the renaming or deletion of screens and branches. The EDITOR 2000 will also allow you to alter or add graphics on a screen developed using the AUTHOR 2000 program.

PRICE: EDITOR-\$65.00; EDITOR 2000-\$115.00

AUTHOR: EduCAIitor, Inc.

PERIPH. REQ.: AUTHOR or AUTHOR 2000 Program and Peripherals (CAT #20020E20)

-----  
**BRANCH (ADVOCAITE)**

-----CAT #20024E20--

An optional program that can be used with either the AUTHOR or AUTHOR 2000 programs. It is used to change the next screen locations for one or more course screens.

PRICE: \$50.00

AUTHOR: EduCAIitor, Inc.

PERIPH. REQ.: AUTHOR or AUTHOR 2000 Program and Peripherals (CAT #20020E20)

-----  
**INSERT (ADVOCAITE)**

-----CAT #20025E20--

An optional program that can be used with either the AUTHOR or AUTHOR 2000 programs. It is used to copy screens from one course lesson to another.

PRICE: \$50.00

AUTHOR: EduCAIitor, Inc.

PERIPH. REQ.: AUTHOR or AUTHOR 2000 Program and Peripherals (CAT #20020E20)

#20020E20)

-----  
**MOLECULAR MASS OF A GAS**  
-----

-----CAT #20031M50--

A tool for teacher evaluation of student data. In this experiment students collect a container of a gas and determine its mass and volume under laboratory conditions.

PRICE: C-\$11.95; D-\$14.95

AUTHOR: C. Morreale Co.

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**REACTION OF Mg AND HCl**

-----CAT #20032M50--

A tool for teacher evaluation of student data. In this experiment students determine the volume of hydrogen gas which is produced when a sample of magnesium reacts with hydrochloric acid. This is a solution of hydrogen chloride gas in water. The volume of the hydrogen gas produced is measured at room temperature and pressure. The data obtained answers the question: How many liters of dry hydrogen gas at room temperature and one atmosphere can be produced per mole of magnesium metal used?

PRICE: C-\$11.95; D-\$14.95

AUTHOR: C. Morreale Co.

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**THE EMPIRICAL FORMULA OF  
COPPER SULFIDE**

-----CAT #20033M50--

A tool for teacher evaluation of student data. In this experiment, students must: (1) find the weights of copper and sulphur that combine; (2) calculate from these weights percentages of copper and sulphur in the copper sulfide; (3) express these percentages as the weight in grams of each element in 100 grams of the compound; and (4) find the ratio of moles of atoms (in terms of small whole numbers) which are the subscript numbers in the formula of the copper sulfide.

PRICE: C-\$11.95; D-\$14.95

AUTHOR: C. Morreale Co.

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**COLLECTING OF HYDROGEN GAS BY  
WATER DISPLACEMENT**

-----CAT #20034M50--

A tool for teacher evaluation of student data. In this experiment the student determines how many grams of magnesium are required to replace one gram of hydrogen from hydrochloric acid.

PRICE: C-\$11.95; D-\$14.95

AUTHOR: C. Morreale Co.

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**MOLAR VOLUME OF A GAS**

-----CAT #20035M50--

A step-by-step process for the student to input and evaluate his experimental data. In this experiment the student collects a known mass of oxygen by water displacement under known conditions of temperature and pressure. The volume of water displaced is measured as an indication of conditions from which the volume of one mole of gas may be calculated. Correct student calculations are rewarded by a change in screen color and a complimentary comment. Errors are indicated by a red screen, a review of procedure or theory and directions for recalculating data.

PRICE: C-\$14.00; D-\$17.95

AUTHOR: C. Morreale Co.

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**COPPER-SILVER NITRATE  
REACTION**

-----CAT #20036M50--

A step-by-step process for the student to input and evaluate his experimental data. Students weigh a sample of solid silver nitrate and prepare a water solution of it. Then a piece of coiled wire is weighed, placed in the silver nitrate solution and observed. By weighing the copper wire at the close of the experiment, the student determines the amount of copper wire reacted and a quantitative relation between reactants and products.

PRICE: C-\$14.00; D-\$17.95

AUTHOR: C. Morreale Co.

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**DETERMINING AVOGADRO'S NUMBER**

-----CAT #20037M50--

A step-by-step process for the student to input and evaluate his experimental data. The student learns a technique to obtain a measurement of something very small and the limitations of this method. He also obtains a clearer understanding of what Avogadro's number is and how it can be calculated directly.

PRICE: C-\$14.00; D-\$17.95

AUTHOR: C. Morreale Co.

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**GETTING AHEAD IN CHEMISTRY**

-----CAT #20040M50--

This is a package of three separate programs which are also available individually. The package includes: Introduction to Writing Chemical Formulas (CAT #20041M50); Practice Writing Chemical Formulas (CAT #20042M50); And Practice Writing Oxidation Numbers (CAT #20043M50). All three programs come on a single diskette and a simple command allows easy access to any of the programs.

PRICE: D-\$50.00

AUTHOR: C. Morreale Co.

PERIPH. REQ.: Ext. BASIC; Memory Expansion; Disk System

-----  
**PRACTICE WRITING  
OXIDATION NUMBERS**

-----CAT #20043M50--

Using the same format as described in Practice Writing Chemical Formulas (CAT #20042M50), this program enables the user to practice with oxidation numbers and the charge for over sixty metals, nonmetals and acid radicals.

PRICE: D-\$17.95

AUTHOR: C. Morreale Co.

PERIPH. REQ.: Ext BASIC; Memory Expansion; Disk System

-----  
**INTRODUCTION TO WRITING  
CHEMICAL FORMULAS**

-----CAT #20041M50--

This program provides tutorial instruction for writing chemical formulas with simulated examples and colorful graphics.

PRICE: D-\$17.95

AUTHOR: C. Morreale Co.

PERIPH. REQ.: Ext. BASIC; Memory Expansion; D-Disk System

-----  
**PRACTICE WRITING  
CHEMICAL FORMULAS**

-----CAT #20042M50--

This program provides the user with drill reinforcement of formula writing. The computer randomly selects a set of ten compounds. It displays the name of the compound and its symbols. The student is given two opportunities to input the correct subscripts. Each input is identified as a correct or incorrect response. If the speech synthesizer is connected, the computer responds with a verbal comment. Then the student's score is displayed. After the set is completed, the user has the option of continuing practice with a new set or repeating the previous one.

PRICE: D-\$17.95

AUTHOR: C. Morreale Co.

PERIPH. REQ.: Ext BASIC; Memory Expansion; Disk System

## TI-COUNT GENERAL LEDGER

-----CAT #30032P50--

The General Ledger System instructs the user, step-by-step, through the day's activities. Each journal entry is typed into a form on the monitor, scanned for errors and edited immediately to speed the process. Ledger accounts (up to 650) can be updated on a daily basis so the businessman can control purchases, receivables, and most importantly, cash.

As each accounting period is closed, the General Ledger System summarizes the journals and prints the Unadjusted, Adjusted, and Closing Balances. Three financial statements are provided: the Income Statements for the profit centers and business (including Special Schedules), a Balance Sheet, and the Change in Financial Position are also printed during the closing procedures.

-----  
**THE SCHEDULER**

-----CAT #30070D30--

A program designed for engineers and other program schedulers who use the CRITICAL PATH METHOD (CPM). User enters activities by name, duration and code number. Other inputs are client's name and address, project name, location and start date. The selectable printouts are a Date Table and a Bar-Graph which show early and late start and finish dates and float time. Bar-Graph has a unique bar print for activity duration. Costs can be summarized for periods of months, quarters, etc., permitting forecast of when funding will be required throughout the project. The program has a built-in calendar with automatic correction for leap years. One year Bar-Graph requires an 80 column printer, Two years requires 132 columns (or compressed print mode).

**COMPUTER MUSIC BOX**

-----CAT #40037T10--

Music composition system which allows three-part music to be entered, played, edited and saved for later reloading. It has an automatic chord creation feature to help you compose computer generated tunes.

PRICE: C-\$9.95; D-\$19.95  
AUTHOR: Texas Instruments  
PERIPH. REQ.: C-Cass. Rec./Cable; Disk System

-----  
**MARKET SIMULATION**

-----CAT #40038T10--

A simulation package places two contestants in head-on business competition. Choose the amount of advertising, how many units to produce, etc., and watch the results. Strikes and economic changes make this educational game even more realistic.

PRICE: C-\$14.95; D-\$19.95  
AUTHOR: Texas Instruments  
PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**TEACH YOURSELF EXTENDED BASIC**

-----CAT #40039T10--

Learn how to use Extended BASIC through this tutorial program. A progressive learning process helps you learn what can be done with this high-level language. Includes seven chapters of tutorial lessons.

PRICE: C-\$19.95; D-\$24.95  
AUTHOR: Texas Instruments  
PERIPH. REQ.: Ext.BASIC; C-Cass. Rec./Cable; D-Disk System

-----  
**MUSIC MAKER DEMONSTRATION**

-----CAT #40040T10--

Demonstrates the kind of musical compositions that can be created with the Music Maker module (CAT #40006T10). Contains five different music files with songs ranging from Christmas and children's songs to some of the most popular classical songs (including Bach).

PRICE: D-\$14.95

AUTHOR: Texas Instruments  
PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**SPEAK AND SPELL PROGRAM**

-----CAT #40043T10--

Offers the same features as the popular TI learning aid. Children can hear a word pronounced correctly as they learn to recognize and spell it. Five activities provide valuable tools to make learning fun. "Spell" pronounces a word and asks the child to type the correct spelling. "Mystery Word" selects a word and the child tries to guess it by spelling it correctly. "Say It" prompts a child to say a word and then spell it. "Secret Code" codes a word so that no one can read it until the coded word is entered and decoded by the computer.

### BRIDGE BIDDING II

-----CAT #40045T10--

Developed for Texas Instruments by Robert Hammon and Robert Wolff of the Dallas "Aces," this second-in-a-series package lets you practice slam bidding. In addition, the program explains some of the bridge bidding conventions which can help you determine whether you should bid a grand slam, a small slam, or no slam. With this second program on their bidding series, Hammon and Wolff continue to give you the benefit of their experience and to share some of their secrets for bidding.

PRICE: C-\$14.95; D-\$29.95

**HAT IN THE RING: A  
PRESIDENTIAL ELECTION GAME**

-----CAT #40068M20--

Elementary grades and up. This 2-player exercise is designed to acquaint students with considerations involved for a presidential candidate. Each candidate makes decisions intended to result in a successful campaign, which is winning a majority of the electoral votes. Within each state the outcome of the campaign hinges upon 4 factors: media exposure, personal campaigning, domestic issues, and international issues. The computer will display the political situation in each state and the number of its electoral votes and the player makes decisions as to how to allocate his resources

**SPELLING SERIES--LEVEL A-E**

-----CAT #40071M20-40075M20--

This major drill and practice series is designed to supplement regular classroom instruction in grades 2-6. Each grade level consists of 36 lessons programmed on a single disk. Each program carries 5 or 6 lessons. All lessons are available through a single loading. The entire series has a total of 180 lessons. Each program, after being loaded, works as follows: First, the student selects the desired lesson from the 5 or 6 offered. This is done by means of a selection menu describing the rules or patterns taught by each lesson. After a lesson has been chosen, the computer displays 10 words that will be used during the lesson. This list of words may be recalled to the screen by the student throughout the lesson. A total of 10 problems are then presented. Each problem consists of a sentence with a word missing. The correct word to be supplied in each instance will be one of the ten spelling words listed for the lesson. If the student does not know the answer, the spelling list may be recalled to the screen, or the computer may be asked to give the answer. At the end of each lesson, the student's performance is summarized, including a listing of the specific words that gave trouble. Each grade level set may be purchased separately.

LEVEL A: GRADE 2 (CAT #40071M20)

LEVEL B: GRADE 3 (CAT #40072M20)

LEVEL C: GRADE 4 (CAT #40073M20)

LEVEL D: GRADE 5 (CAT #40074M20)

LEVEL E: GRADE 6 (CAT #40075M20)

PRICE: C-\$49.95/Level; D-\$49.95/Level

-----  
**ANTONYM MACHINE**

-----CAT #40077M20--

Elementary. The computer randomly selects a pair of words with opposite meanings. One of the two words is displayed in the upper left corner of the screen. The learner must respond with the antonym. The antonym machine processes the first word so that it becomes its antonym. Each lesson is designed to work with 20 pairs of words chosen randomly from a bank of 50 pairs. Whenever the lesson is terminated, the learner's performance will be summarized according to: number of problems, number of errors, number of times computer gave answer, time used on the lesson, and specific antonyms that gave trouble.

PRICE: C-\$9.95; D-\$12.95

AUTHOR: Micro-Ed, Inc.

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**HOMONYM MACHINE**

-----CAT #40078M20--

Elementary. The computer randomly selects a pair of words with the same sound but different meanings (examples: meet, meat). In all other respects, this homonym program works in exactly the same way as the Antonym Machine program (CAT #40077M20) described above.

PRICE: C-\$9.95; D-\$12.95

PERIPH. REQ.: Extended BASIC; C-Cass. Rec./Cable; D-Disk System

-----  
**STORY PROBLEMS IN  
ADDITION AND SUBTRACTION**

-----CAT #40080M20--

Elementary. The computer presents an assortment of story problems in addition and subtraction. Many of these are about a great castle with lords and knights in some of its 103 rooms. Because the settings of these story problems are often repeated, the student cannot rely simply on this basis what operations to perform. The student must read and understand what is being asked before the problem can be correctly solved. At the end of each lesson, the student's performance is summarized.

PRICE: C-\$9.95; D-\$12.95

AUTHOR: Micro-Ed, Inc.

PERIPH. REQ.: Extended BASIC; C-Cass. Rec./Cable; D-Disk System

-----  
**TARGET MATH**

-----CAT #40081M20--

Elementary. The learner selects problems in addition, subtraction, multiplication or division at a difficulty level of his/her choice. After the student types an answer to a math problem, a target area appears on the screen, a plane flies over, and a parachute jumper floats down over the landing strip. If the jumper hits the target area, the next problem is presented. If the learner's answer is too small, the jumper lands to the left of the target...if too large, to the right of the target. The lesson may be terminated at any point and is then summarized.

PRICE: C-\$9.95; D-\$12.95

AUTHOR: Micro-Ed, Inc.

PERIPH. REQ.: Extended BASIC; C-Cass. Rec./Cable; D-Disk System

-----  
**RUN-ON SENTENCES**

-----CAT #40082M20--

Elementary. Each problem consists of a group of words that should be divided into two sentences. Using the space bar, the learner moves an arrow across the screen and places it after the word that should end the first sentence. At the top of the problem screen, the learner and the computer have an airplane race. Each lesson consists of from 10-14 problems, depending on the outcome of the race. At the end of the lesson, the learner's performance is summarized.

-----  
**PUNCTUATION SERIES**

-----CAT #40083M20--  
Elementary and up. Eight programs. These lessons provide drill and practice using a standardized test format, the computer randomly selects and presents a problem sentence. The student must identify where (if at all) a mistake in punctuation occurs. As the learner responds, the computer not only says whether the answer was right or wrong, but sets forth the applicable rule for correction. Each lesson covers from two to seven rules of punctuation. In order to prevent the student from identifying a mistake because of the content of a given problem sentence, many of the problem sentences are identical in content except for the mistaken punctuation.  
PRICE: C-\$56.00; D-\$56.00

-----  
**MISPLACED OR DANGLING MODIFIERS**

-----CAT #40098M20--  
Elementary and up. A phrase or clause modifying a word that it should not modify is a misplaced or dangling modifier. In this program twenty sentences are presented in random sequence. Some of these sentences are worded correctly; others need to be changed. The student must indicate for each sentence whether or not it needs to be re-written. At the end of the lesson, the student's performance is summarized, and the sentences that gave trouble during the lesson are listed.

PRICE: C-\$9.95; D-\$12.95

System

-----  
**TROUBLESOME PRONOUNS**

-----CAT #40099M20--  
Elementary and up. Most errors in using pronouns have to do with sentences that use a pronoun along with a noun, a proper noun, or another pronoun. This program presents an easy way for the learner to decide which usage is correct. Then, using a game format, twenty problems are given to the student to solve. At the end of the lesson, the learner's performance is summarized.

# The entire PLATO® Basic and High School Skills Learning System can now be delivered on the TI Home Computer.

For more than twenty years, PLATO educational courses have set the standard for computer-based education. Until now, PLATO courses were primarily used at terminals connected to a mainframe computer. The kind of computer that typically large organizations could afford. Now, the power of the TI Home Computer makes PLATO courses on disks available to everyone.

Choose from more than 450 programs in the PLATO curriculum.

## Basic Skills

For children who need challenges or additional learning materials in course work generally presented in grades 3 to 8:

- Mathematics
- Reading
- Grammar

## High School Skills

For young adults who need challenges or more work in subjects usually presented in grades 9 to 12, and for older adults who want to brush-up on their skills or prepare for the General Educational Development (GED) exam:

- Mathematics
- Science
- Reading
- Social Studies
- Writing

## The TI Home Computer as a tutor

The TI-99/4A with PLATO courseware now becomes a "special tutor" which

- is available at any hour, during weekends and vacations, never too busy for individual attention.
- lets the student set the pace—never so fast the student gets lost, never so slow it's boring.
- is infinitely patient, willing to repeat and review and retest a hundred times without getting upset or embarrassing the student.

## Here's all that's required to use PLATO courseware:

- TI-99/4A Home Computer
- TI Disk Memory System
- TI Memory Expansion
- PLATO Interpreter Solid State Cartridge
- The PLATO Program Packages you choose

## How to get started

The content of every PLATO program package is outlined in the following pages of this catalog, along with the approximate grade levels at which that course content is usually taught. Young adults who want help with **High School Skills** are able to choose the programs they need from these outlines.

Parents interested in **Basic Skills** programs for their children get additional help when they buy the PLATO Interpreter Solid State Cartridge, because the package includes:

- The Survey Disks, which ask your child questions to determine strengths and weaknesses in reading, grammar, and math.
- The Parent's Questionnaire, which asks you questions that help you assess your child's academic skills.

## Using the PLATO Chart

The range of dots by each program tells you the total span of grade levels where the topic may be appropriate. For example, the first program package on the chart, "Numbers 0-9" has a range of dots from the first through the third grades. You could select this package as enrichment for a first grade child, as enhancement to current school activities for most second graders, and as review, practice, or reinforcement for some third grade children.

## Suggested Retail Prices and Ordering

- PLATO Interpreter Solid State Cartridge and Survey Disk: \$49.95
- Basic Skills Program Packages: \$49.95 each
- High School Skills Program Packages: \$49.95 each

Educators may qualify for quantity discounts. Order by program package title.

-----  
**SPELLER\* ENGLISH**

-----CAT #40194P10--

This program uses the Terminal Emulator II and the Solid State Speech Synthesizer. With this program you enter and build your own list of words. You may add or delete at any time and, provided you have a printer system, a hard copy listing can be obtained.

PRICE: D-\$49.95

AUTHOR: Y-CAN Software

PERIPH. REQ.: Terminal Emulator II; Speech Synthesizer

-----  
**SPELLER\* ENGLISH TO SPANISH**

-----CAT #40195P10--

This is it. You enter the list of English words and their Spanish counterpart. Then the computer will be a patient teacher. Some examples are included and complete instructions make the program easy to use.

PRICE: D-\$49.95

AUTHOR: Y-CAN Software

PERIPH. REQ.: Terminal Emulator II; Speech Synthesizer

-----  
**SPELLER\* SPANISH TO ENGLISH**

-----CAT #40196P10--

This is a companion to the English to Spanish program. You enter the Spanish word and its English counterpart and the computer takes over. Instructions and examples make this program easy and fun to use.

PRICE: D-\$49.95

AUTHOR: Y-CAN Software

PERIPH. REQ.: Terminal Emulator II; Speech Synthesizer

-----  
**STATES AND CAPITALS**

-----CAT #40197H10--

This game makes learning the States and their Capitals interesting and fun. The program allows you to let the computer specify either the States or their Capitals, and the player must specify the other. Three tries are allowed, after which the computer gives the correct answer. At the end of the game the number correct on the first, second, and third tries are displayed.

Extended BASIC version available on special order.

PRICE: C-\$12.95

AUTHOR: Hall Software

PERIPH. REQ.: Cass. Rec./Cable

-----  
**LEARNING FRACTIONS**

-----CAT #40198H10--

The best way to learn fractions is to study examples. This program allows you to input any fraction problem: addition, subtraction, multiplication, or division. The computer solves the problem in steps which the student can follow and analyze.

Extended BASIC language.

PRICE: C-\$12.95

AUTHOR: Hall Software

PERIPH. REQ.: Ext BASIC; Cass. Rec./Cable

-----  
**COMPUTER MATH GAMES I, III, IV**

-----CAT #40199T10 to CAT #40201T10--

Specific descriptions can be found at the end of the Education section. Each of these three modules explores different areas of math in several different game formats. Each module will challenge students in grades 1-9 by allowing the student to select from a large number of difficulty levels. The games can be played by from one to three players.

PRICE: \$39.95

AUTHOR: TI/Addison-Wesley

PERIPH. REQ.: None

-----  
**SMU ELECTRICAL ENGINEERING LIBRARY**

-----CAT #40202T10--

Electrical engineering students faced with repeating tedious calculations can now easily use the TI Home Computer to do the work, enabling them to evaluate more cases in a shorter amount of time. This gives the student an intuitive feeling for the behavior of circuits.

Developed for TI by Southern Methodist University, the package is centered around basic electrical engineering concepts. Designed as a teaching aid for both instructors and students, it can be used in conjunction with any college-level textbook on introductory circuit analysis. The package consists of a plug-in module and either two disks or 10 cassette tapes. Teaches three basic laws: Ohm's, Kirchhoff's Current, and Kirchhoff's Voltage Laws. 10 programs or lessons are included.

PRICE: C-\$149.95; D-\$149.95

AUTHOR: TI/SMU

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**NUMERATION I**  
**NUMERATION II**

-----CAT #40311T10-CAT #40312T10--

These two modules which were developed by Scott Foresman Co. teach your child number concepts such as "greater than" or "less than", rounding, and place value.

Both modules have built-in speech capability. A Speech Synthesizer is required to use this optional feature.

Numeration I--Grades 2-5

Numeration II--Grades 5-7

PRICE: \$39.95 each

AUTHOR: TI/Scott Foresman

PERIPH. REQ.: None

-----  
**LAWS OF ARITHMETIC**

-----CAT #40313T10--

A self paced "Tutor" which presents mathematical principles to help your child develop strong math skills by understanding the reason for the rules. Divided into 19 levels of difficulty, the program covers: the property of zero; the principles of identity elements; and the commutative, associative, and the distributive properties. It covers not only the rules themselves but how they are applied.

Grades 4-8

PRICE: \$39.95

AUTHOR: TI/Milliken

PERIPH. REQ.: None

-----  
**EQUATIONS**

-----CAT #40314T10--

A self paced "Tutor" which introduces children to the solution of mathematical equations. The program is divided into 26 levels of difficulty. It introduces the concept of variables (finding the value of an unknown number  $N$ ) in equations. It also provides practice with a wide variety of skills related to solving equations, including working problems in more than one step and solving equations by adding, subtracting, multiplying, and dividing.

Grades 6-8.

PRICE: \$39.95

AUTHOR: TI/Milliken

PERIPH. REQ.: None

-----  
**MEASUREMENT FORMULAS**

-----CAT #40315T10--

A self paced "Tutor" which presents a variety of geometric problems involving perimeter, area, and volume measurement. This program is divide into 25 levels of difficulty. Where necessary, the appropriate formulas are given when a particular measurement is required. Children are periodically given problems similar to those of earlier levels for review.

Grades 6-8.

PRICE: \$39.95

AUTHOR: TI/Milliken

PERIPH. REQ.: None

-----  
**ALLIGATOR MIX**

-----CAT #40316T10--

Friendly, but finicky alligators lurk in this colorful swamp. They are hungry and they must be fed...but they only eat apples which bear the correct answers to the addition or subtraction problems that appear on their stomachs. You open the mouth of the alligator when an apple with the right answer appears and close it rapidly when the answer and the problem do not match. Feeding one successfully lures others from the swamp that you must be faster to feed successfully.

Kindergarten through grade 6.

PRICE: \$39.95

AUTHOR: TI/DLM Arcademic

PERIPH. REQ.: None

-----  
**ALIEN ADDITION**

-----CAT #40317T10--

Waves of alien invaders challenge a missile base far from Earth. The aliens can only be stopped by firing a mobile laser cannon which "equalizes" the enemy by firing correct answers to the addition problems on the invaders spacecraft. Your quick reflexes and rapid addition skills are all that stand between the defenders of the missile base and the enemy invaders.

Kindergarten through grade 6.

PRICE: \$39.95

AUTHOR: TI/DLM Arcademic

PERIPH. REQ.: None

---

## DEMOLITION DIVISION

-----CAT #40318T10--

For division skills.

Four tanks, each carrying a division problem, advance menacingly toward the four barricades which defend each of your cannons. Your only ammunition against these enemies is the correct answer. Quickly, move the answer next to the cannon which faces the foremost enemy. Fire. Now, move to the next cannon and fire once again with the correct-answer ammunition necessary to save it too. Fast action and rapid division may yet keep back the enemy.

Grades 3 through 11.

PRICE: \$39.95

AUTHOR: TI/DLM Arcademics

PERIPH. REQ.: None

---

## DRAGON MIX

-----CAT #40319T10--

For discrimination skills.

The vigilant dragon stands guard, but the enemies of the city are everywhere. The fire-breathing dragon can defend the city only when you rapidly match the correct answers to the multiplication and division problems which the invaders carry. With your skill in multiplication and division and the dragon's power, you can succeed. You fire. Victory! But if you are wrong the enemy advances to bomb the city.

Grades 3 through 11.

PRICE: \$39.95

AUTHOR: TI/DLM Arcademics

PERIPH. REQ.: None

---

## MINUS MISSION

-----CAT #40320T10--

For subtraction skills.

A robot fights valiantly to defend its territory from the "creeping slime" above it. Blobs of slime carrying subtraction problems drop down upon the robot who can only destroy the blob if you supply it with the correct answer. You must help the robot to fight back against this vile enemy.

Kindergarten through grade 6.

PRICE: \$39.95

AUTHOR: TI/DLM Arcademics

PERIPH. REQ.: None

---

## METEOR MULTIPLICATION

-----CAT #40321T10--

For multiplication skills.

A violent "meteor shower" threatens a star station. The inhabitants of the star station defend themselves against each of the meteors, which bear multiplication problems, by firing a cannon loaded with the correct answer. The defenders need your help...both your quick action and your multiplication skills...to survive this dangerous threat from space.

Grades 3 through 11.

PRICE: \$39.95

AUTHOR: TI/DLM Arcademics

PERIPH. REQ.: None

---

## FOREIGN LANG-KEYS TO SPANISH

-----CAT #40322T10--

For people who want to learn conversational Spanish. The library consists of four modules and four audio cassettes packaged in a binder. An introductory lesson and six subsequent lessons and word games are contained in the modules. The audio cassettes, which are controlled by the modules, help beginning speakers learn correct pronunciation. The system concentrates on useful phrases and words that are most common in day-to-day Spanish usage. The software is designed primarily to teach vacationers and business travelers the Central and South American dialect of Spanish.

-----  
**SPACEMATH**

-----CAT #40351N40--

Junior rocket pilots explore the galaxy while practicing the four arithmetic functions of addition, subtraction, multiplication and division. Difficulty levels are infinitely selectable. Correct answers advance the space jockey's rocket toward the next planet; incorrect ones lead to disaster! Each rocket pilot achieves a score -- in lightyears traveled -- based on the correctness and speed of his answers and the difficulty level of his problems. Fast and skillful space pilots can achieve the rank of Captain of the Cosmos, while lesser ranks are awarded for less perfect performance. Don your spacesuits, astronauts!

**COMPUTER MATH GAMES I**

-----CAT #40199T10--

Grades 1-9. contains 5 math games which cover addition, subtraction, multiplication, division, ordered-pair plotting, and place values. "MESSAGE" require a player to decode a message by correctly answering math problems. "SQUARE-OFF" is the familiar game of dots where the player competes against the computer to form boxes by drawing lines within a grid of dots. In "DOT-DOT-PLOT" the player draws pictures by plotting coordinates on a grid. "MATH BOXES" is a game for two players. The object is to connect boxes containing math problems. "BEANS AND PITS" is a strategy game for two players. The object is to fill your pit with beans.

PRICE: \$39.95

**COMPUTER MATH GAMES IV**  
-----

-----CAT #40201T10--

Grades 1-9. Five innovative and graphic math games. "NIM 25" is a game of strategy where the object is to claim the last of 25 blocks. One player can compete against the computer and each takes turns claiming from 2 to 7 blocks. "MATH DARTS" is an interesting variation of darts. Each player must answer math problems. The numbers used in the problems are determined by throwing darts at a number board. Scoring depends on accuracy and speed. "500" is the Game variation of the schoolyard baseball game of "500". The screen displays a pitcher and batter. Every time a math problem is answered correctly, the batter hits the ball and scores points. The math problems include: (1) compact numerals; (2) expanded numerals; (3) place values; and (4) a random mixture of all three. Two or four players may play for the two teams. "WOODCHUCK" is a dice game with an interesting twist. One to four players may participate and each player must answer a math problem which contains numbers determined by a roll of the dice. Both round scores and total scores are kept. Watch out, though, because the woodchuck appears randomly and eats scores. The trick is to force your opponent to be playing when the woodchuck appears.

-----  
**CORNER-BOUND**

-----CAT #50080M10--

Exciting skill and strategy game which involves maneuvering a winding, snake-like line so it hits triangular targets set in the corners of the screen. Excellent eye-hand coordination challenge with three levels of difficulty. Ages 8 to adult.

PRICE: C-\$12.95; D-\$16.95

AUTHOR: Microcomputers Corporation

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**AMERICA**

-----CAT #50081M10--

This program graphically displays the flag and plays the music of America. Easy to follow if you want to learn how to create music and graphics in TI BASIC.

PRICE: C-\$12.95; D-\$16.95

AUTHOR: Microcomputers Corporation

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**PIANO SONG**

-----CAT #50082M10--

This program can be incorporated in your own TI BASIC program to play piano music. It also contains samples of some popular songs you might want to incorporate into your own programs.

PRICE: C-\$12.95; D-\$16.95

AUTHOR: Microcomputers Corporation

PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**FUN HOUSE**

-----CAT #50083M10--

This program contains a list of simple games the user can play. The games are written in TI BASIC and TI Extended BASIC. These programs are easy to follow if you want to learn how to create game programs in either BASIC or Extended BASIC.

PRICE: D-\$16.95

AUTHOR: Microcomputers Corporation

PERIPH. REQ.: Extended BASIC; Disk System

-----  
**STARSHIP PEGASUS**

-----CAT #50089M10--

Contact Extra-Terrestrial Intelligence in this game for one player. Explore and conquer a different quadrant of the galaxy every time you play! Your screen shows you each solar system during approach, and the challenge is to find, contact, and exploit alien races (by force or diplomacy). Complete with names and descriptions of the alien life forms. But watch out for Hyperdimensional Marauders!

PRICE: C-\$18.00

AUTHOR: Not-Polyoptics

PERIPH. REQ.: C-Cass. Rec./Cable

-----  
**TICKWORLD**

-----CAT #50090M10--

When does the hunter become the hunted? Eight hungry giant ticks are after you! To survive, you must capture the ticks and put them in cages. Played on a randomly generated board that is different every game.

PRICE: C-\$13.00

AUTHOR: Not-Polyoptics

PERIPH. REQ.: Cass. Rec./Cable

-----  
**WINGING IT**

-----CAT #50100M10--

Fly your own private plane in this excellently visualized simulator. But after you've mastered flying, the excitement isn't over...three different games test your skill. Ground map and weather indicator chart your position on a randomized earth simulacrum.

PRICE: C-\$15.00

AUTHOR: Not-Polyoptics

PERIPH. REQ.: Cass. Rec./Cable

-----  
**ADVANCE--COMPUTERIZED  
BOARD GAME**

-----CAT #50101M10--

Take the best features of board games like Monopoly and Backgammon, add the abilities of a computer, and the result is Advance. Move your piece across the screen, purchase squares, attack opponents, and block or run for it. The board is always different and changes as you go. Optionally, the computer plays its own piece. For 1, 2 or 3 players.

-----  
**SPACE RESCUE 2.0**

-----CAT #50110P20--

Introduction: In the year 1998 man is enjoying a new golden age. The vast capabilities of off-world manufacturing have given all men the opportunity to live as they please. It is a time of peace, plenty and constant expansion. Then...from the darkness of the Coal Sack sweep the Xyollian Hoardes. Man's planetary colonies are destroyed, the orbiting factories are vaporized, and, most important of all, the supply of energy pods from the lunar mines is cut off. Almost immediately, the Earth plunges toward chaos. With no terrestrial energy sources remaining the power pods are vital! Ten old fashioned lunar landers are loaded on the last surviving mothership, "Last Hope," and a team of brave volunteers take off from the moon to face the Xyollian blockade. At stake: the survival of mankind! Joysticks are recommended.

PRICE: C-\$16.95

PERIPH. REQ.: Ext. BASIC; Cass. Rec./Cable

-----  
**STAR SENTINEL**

-----CAT #50111P20--

In another time...another place...a sleek Sky Blazer pulled a swope-arc around Solarg, preparing to Federation Star Command Post in Corp. Sector g7/19A. His mind was adrift in pride, as this was his first solo patrol. He failed to notice a swirl of energy off in the gamma-north corner of the star system. With a sudden bright flash, an unmanned star fighter launched the Galactic Holocaust of the Taldarial Empire. This training simulation examines how you would have done had you been this young man by evaluating your battle in terms of numeric values based on the types of ships that participated. After the battle, your evaluation will be compared to the highest ranking warrior and if higher, your level can be examined in the future.

**MARTIAN LANDER**

-----CAT #50138810--

With only a limited fuel supply, the player attempts a successful landing with his spaceship on the Martian surface. The lander is controlled by joystick controllers and by keyboard commands. The joysticks control the horizontal thrust while keys 1-7 control vertical thrust with 1 giving the least amount of thrust and 7 giving the greatest amount.

PRICE: C-\$9.95

AUTHOR: Galactic Software

PERIPH. REQ.: Ext. BASIC; Wired Remote Controllers; Cass. Rec./Cable

-----  
**CUBE (THE)**

-----CAT #50139L10--

The Cube is a vivid color simulation of the puzzle invented by Erno Rubik. The Cube permits all the rotations of the mechanical puzzle plus a command that enables the user to view the back surface of the puzzle. The program features special scrambling and unscrambling commands which allow the user to store up to 30 moves. The puzzle can be randomly scrambled with as many as 30 moves, or it can unscramble 30 moves. Other commands allow a puzzle to be saved in a file on cassette. Package includes documentation and patterns which can be reproduced.

### DEFENDER/AVENGER

-----CAT #50147N20--

This soon to be released program is based on the popular arcade game, "Defender."

AUTHOR: Norton Software

---

### AERONAUT

-----CAT #50148S10--

You are in control of a hot-air balloon in this simulation. The balloon will respond to your burner and maneuvering vent commands according to the laws of physics in real time. Your destination depends on the wind, fuel supply and your skill in avoiding any obstructions. To keep you oriented, the balloon is equipped with the FAA required flight instruments and your position relative to the terrain is displayed on screen. A map of the area is also included in the instruction manual.

PRICE: C-\$19.95  
AUTHOR: Simulsoft

-----  
**SANTA PARAVIA AND FIUMACCIO**

-----CAT #50181I10--

The year is A.D. 1400, and you are the ruler of a tiny Italian city-state. You are ambitious by nature and intend to build your little city-state into a powerful kingdom. You and your fellow players compete as rulers of neighboring cities. You control the grain harvest, set tax rates, exercise justice, and invest in public works. If your decisions are wise your city will grow and you will acquire loftier titles. If your decisions are poor your serfs will starve and you will be invaded by your neighbors.

You can play alone or with up to 5 others. BASIC language.

PRICE: C-\$14.95

-----  
**AIR MAIL PILOT**

-----CAT #50182I10--

Fly your airplane from Columbus to Chicago, recreating the early days of flying during the early 1900's. Your plane is the Curtis JN4-D, affectionately known as the Jenny. The Jenny carries only 26 gallons of fuel so you will have to plan stops along the way. Weather will play a factor in your decisions...electrical storms can turn your plane into a mass of flaming wreckage, or ice may form on your wings and plunge you to a certain death below...but the mail must go through.

-----  
**"I CHING" CASTER**

-----CAT #50226910--

The I CHING has been used in the orient for over 200 years as a book of divination. The computer performs the ancient stick casting ritual in graphics and sound as you concentrate on your problem. It will generate one of 64 hexagrams. You then look up the meaning of the hexagram in the I CHING (page references are given for the Dover paperback edition) and hopefully you will gain the insight to solve your problem. In many cases the hexagram will be "unstable" and will yield another hexagram with future implications.

PERIPH. REQ.: None

-----  
**TERMINAL EMULATOR II**

-----CAT #60004T10--

TELECOMMUNICATIONS--Links your home computer to the world--accessing subscription data services and time-shared computer systems. File transfers with error definition, improved keyboard interface; ability to handle color, speech, sound and graphics.

SPEECH--Access unlimited text-to-speech from user-written programs are just some of the features included.

PRICE: \$49.95

MANUFACTURER: Texas Instruments

PERIPH. REQ.: TELECOMMUNICATIONS--RS-232 Interface; Phone Coupler (Modem). SPEECH--Speech Synthesizer

-----  
**EDITOR/ASSEMBLER**

-----CAT #60005T10--

Allows user to program in TMS9900 Assembly Language. Enables direct access to all system features, including sound, speech, graphics, and I/O, as well as providing the fastest speed possible from the computer's 16-bit microprocessor. Routines may be run either as stand-alone programs or linked into TI Basic or TI Extended BASIC programs through the use of a subroutine call. Includes two floppy diskettes, plus an Owners Manual which provides extensive documentation of the software's architecture. Also included in the package is the source and object code for an interactive Assembly Language debugger and the source and object code for the game, Tombstone City.

PRICE: \$49.95

MANUFACTURER: Texas Instruments

PERIPH. REQ.: Disk System; Memory Expansion

-----  
**MINI-MEMORY**

-----CAT #60006T10--

Provides additional memory for your system plus important tools for program development. A built-in battery permits the programs and data stored in the module's RAM to be retained when the console is turned off, even if the module is removed. The module contains a total of 14K bytes of memory: 6K--6ROM; 4K--ROM; and 4K--RAM. Besides this 4K byte RAM file in the module itself, the Memory Expansion Unit, if attached, can be used by TI basic programs when the Mini-Memory module is inserted. Other features: additional file-handling capabilities; resident debugging program; line-by-line assembler; line drawing program (for 4A only). Cass. Rec./Cable recommended.

PRICE: \$99.95

MANUFACTURER: Texas Instruments

PERIPH. REQ.: Editor Assembler Manual (CAT #70010T10)

**GET 30% ADDITIONAL FREE GOODS WITH EACH \$ YOU PURCHASE!**

-----  
**PROGRAMMING AIDS I**

-----CAT #60009T10--

Provides knowledgeable programmers with more powerful tools for enhancing TI-BASIC. Includes the following capabilities: cataloging disks, "DISPLAY AT," "ACCEPT AT," screen print, lower case letters, second ASCII set subroutines and user-defined characters.

PRICE: C-\$9.95; D-\$14.95  
AUTHOR: Texas Instruments  
PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**PROGRAMMING AIDS II**

-----CAT #60010T10--

Provides the experienced user with the ability to sort information into alphabetic or numeric order for reporting or processing purposes. Includes disk sort, ram sort, file dump and a merge program which makes this package an essential programming tool.

PRICE: Disk- \$24.95

PERIPH. REQ.: Disk System

-----  
**MATH ROUTINE LIBRARY**

-----CAT #60011T10--

Provides users with Fourier series calculations, function analysis, ordinary differential equations, base conversions, prime factorization, hyperbolic functions, and simultaneous equation calculation.

PRICE: C-\$9.95; D-\$29.95  
AUTHOR: Texas Instruments  
PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**ELECTRICAL ENG. LIBRARY**

-----CAT #60012T10--

A library of useful tools commonly used by electrical engineers including filter design, root locus, Smith chart, phase-locked loop and a variety of other tools.

PRICE: C-\$9.95; D-\$29.95  
AUTHOR: Texas Instruments  
PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**PROGRAMMING AIDS III**

-----CAT #60013T10--

Provides a useful tool for experienced programmers who want to cross reference a list of all variables, arrays, keywords, functions and line number references. The user can then find where certain variables are used, where subroutines are called, or even which lines need changing to make a program compatible with another version of BASIC. Resequencing, deletion of program parts, and the merge of a sequence of code is also made possible.

PRICE: D-\$19.95  
AUTHOR: Texas Instruments  
PERIPH. REQ.: Ext. BASIC; Disk System

-----  
**GRAPHING PACKAGE**

-----CAT #60014T10--

Plotting techniques such as Cartesian and polar plots, scatter plot (with curve fitting) and XYZ plot are all included. Easy to use in a number of graphing applications.

PRICE: C-\$9.95; D-\$19.95  
AUTHOR: Texas Instruments  
PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**STRUCTURAL ENG. LIBRARY**

-----CAT #60015T10--

This useful package provides structural Engineers an easy to use computer program that helps them make complex calculations and evaluations. (Specifics not available at this time.)

PRICE: C-\$9.95; D-\$29.95  
AUTHOR: Texas Instruments  
PERIPH. REQ.: C-Cass. Rec./Cable; D-Disk System

-----  
**AC CIRCUIT ANALYSIS**

-----CAT #60016T10--

Two programs are included that can help you in determining the performance of AC circuits: AC Circuit Analysis; AC Circuit Plot. The package includes the following features: up to 11 nodes and 31 components can be analyzed without program modification; the components allowed are resistors, capacitors, inductors, and voltage-controlled current sources; analysis can be either logarithmic or a linear frequency sweep; output from the AC Circuit Analysis can be printed or saved for plotting on the display or a printer by the AC Circuit Plot; the network description file can be sorted on disk for future use; multiple passes can be made using varied parameters; AC Circuit Plot offers the option of magnitude or phase plot; vertical plot limits resetable.

-----  
**GRAPHICS PACKAGE**

-----CAT #60024N20--

High resolution graphics used to require painstaking days mapping out hexadecimal points and continuous running of the program to get things right. Now you can create high resolution graphics in intricate detail in minutes. With control of a few keys, you have available four levels of detail ranging from 768 to 49,152 accessible points. Draw anything, any size, anywhere on the screen (straight lines between two points, circles, parabolas and eclipses and a lot more), automatically for you. The graphics can then be saved on tape or disk to be incorporated into your own program. Has commands for sprites graphics.

AUTHOR: Extended Software  
PERIPH. REQ.: Ext BASIC; Printer System; C-Cass.  
Rec./Cable; D-Disk System

-----  
**SMASH**

-----CAT #60040T10--

SMASH is designed to minimize the size of any Extended BASIC program by combining lines, shortening variable names (including function and subprogram names), and deleting REM's and tail remarks(!). SMASH can also be used to convert console BASIC to Extended BASIC format. Using SMASH allows writing programs in an easy-to-read, well-documented manner with meaningful variable names, then compressing them into a more efficient form for execution after debugging. You can write programs that would not fit into the machine by writing segments and then using the "merge" function during the SMASHing process. Will save up to 20% of the memory or disk space required.
