22 JULY 1986

MR. ROBERT BUTLER
P.O. BOX 16864
MEMPHIS TN 38186

Dear Mr. BUTLER:

Enclosed you will find your order for ARCHIVA*II. There are four "gift" programs on the face side of the ARCHIVA*II disk for you. We advise moving *these only* to another disk as soon as you can and then "DELETING" them from the ARCHIVA*II disk.

To move them, while in Extended Basic, use the OLD command to load them into memory and then use the SAVE command to save them on another disk. These are the four programs:

1. GIFT - is an Auto-Run program. Save it on any other of your disks with the name "LOAD". If that disk is in drive one at bootup it will automatically load a list of all "RUNable" programs on that disk so that with one entry you can make your choice.
2. CATALOG1 - a regular catalog of contents of a disk with optional printout.
3. CATALOG2 - a graphics version of the disk catalog.
4. MASTER*CAT - allows you to create a master disk file of all your disks, sort them and do a print-out.

If you ever change to a dual-sided disk drive and/or acquire a second drive or get an Epson compatible printer, please remember that we will be happy to convert your version to the new version at no extra charge. During the first 30 days of use of Archiva* you may call the helpline for help with problems with Archiva* only at any hour on any day. Please remember to avail yourself of our Helpline service as often as you need it during regular hours on any other TI 99/4A matter.

Respectfully,

AMNION STONEWARE

HELPLINE HOURS

9-4 MON-SAT (Pacific Time)

(415) 753-5581

TO ALL TI 99/4A OWNERS

This letter is to tell you about the Free Access Library. It is a large collection of Public Domain software for many areas of interest comprising about 4000 programs. The Library will always be maintained as a *non-profit entity* with its aim of making the contributions of generous authors to Public Domain available to all at no profit. All programs are available to everyone so long as they are not copied for for sale or for profit either directly or indirectly. See the accompanying sheets for the details. Although the programs in the Public Domain library are free, as they should be, there is a minimal *copying fee* for programs. This fee applies only to the acquisition of whole volumes of programs, however. Remember that it is both unethical and exploitative for anyone to *sell* Public Domain software by the program no matter how "low cost" the price it is presented to be. It is tantamount to theft from the author who has made it free to the world!

In the meantime, please avail yourself of this standing offer. If you are looking for a special kind of program for a specific purpose, send me a note telling me as specifically as possible what you want with \$2.50 for the disk, postage and mailing materials. I will go through the library and extract the programs that seem to fit your needs and send them to you. Naturally, the more specific the request, the better I can help. If there are no programs that match, I will return your payment. I do not have time to fill unreasonable or nonsensical requests like "Fill 'er up with games" or "I want business programs". Such requests waste my time and will result in the return of your payment to you. These requests are also limited to one disk per request so that I can spread my time out more equitably. I want to help as many people as I can and, therefore, I have no time to waste on greed or nonsense. With your requests, you **MUST** include the signed statement that is printed on the library order form.

In addition to Public Domain programs, we have a collection of the current Shareware programs in circulation. We have all updates that TI released before the pullout. We also have a number of "stand-alone" program sets, like business applications, that do not fill a volume and, therefore, do not incur a copying fee. ALL of the items mentioned here are ALWAYS FREE with no copying fee (you pay only for the disk, postage and materials). Just let us know your needs. We've probably got *something* to fill the bill. **WE ONLY USE DISKS THAT ARE CERTIFIED AS DOUBLE SIDED QUAD DENSITY** - they cost more, naturally. Your cost, including first class postage, etc, is \$2.50 per disk - which gives us 27 cents to work with!

Should you wish to donate programs to the Public Domain library please do the following: send your program (ON DISK ONLY) along with a letter stating that you are the author of the program and that you are placing it in the Public Domain. Your disk will be returned to you in a few days along with acknowledgement and a thank you.

Looking forward to hearing from you and helping you,

AMNION HELPLINE

HELPLINE HOURS 9-4 MON-SAT (Pacific Time) (415) 753-5581

To all TI 99/4A Owners ----- A CLARIFICATION ABOUT THE HELPLINE

Library Services, a subsidiary of Amnion Stoneware and a completely independent company, for a short period had as one of its service clients, the *International 99/4 Users Group* of Oklahoma City. We accepted them as clients because we believed that they were what they represented themselves as, a bona fide Users' Group. When we learned that they were and always had been only a mail order business going by this patently misleading name, we canceled all service to them in January of 1984, not desiring to be partner to any misrepresentation or deception. That business, now bankrupt and dodging lawsuits for fraud, etc., never was a bona fide Users' Group working as a non-profit organization, but a regular company doing business in a manner that many view as a deliberate attempt to deceive and exploit the innocent and trusting public for their own personal gain. In the world of Public Domain it is considered grossly unethical, immoral and exploitative to *sell* programs that authors have made available *free* to the world. We apologize to all those to whom we recommended this firm in good faith.

Library Services is known as The Helpline since Jan. 1984. Service is offered to all individual TI 99/4A owners or Users' Groups at NO CHARGE and with "no strings" whether you own Amnion software or not. No "sales pitches" will be made. The service will attempt to give help on anything having to do with the TI 99/4A. Information on hardware or software quality, sources, availability, reputability and service is available in a totally unbiased manner. We maintain constantly updated lists of genuine Users' Groups in your area (AND YOU SHOULD BELONG TO ONE). Help with programming problems or referrals is offered. We also maintain files of reports from callers on service, quality, reputability and support from third party suppliers. We maintain the national Free Access Library, a *non-profit entity*, of public domain programs for the 99/4A and all TI program update releases.

You may call at the hours listed above (Pacific Time) or send a SASE with your letter with questions. We promise that you will receive the "straight dope" with no obligations. Our resident PH.D., Guy-Stefan Romano, whom you may already know for his free help to 99/4A users since March of 1981, is there to give valid and COMPETENT technical help as he always has. Dr. Romano is doing this strictly on a volunteer basis and, at his insistence, receives no fee or reimbursement for his services so that he can be free to give all information without being obligated to anyone -- even Amnion! He is there to help in any way he can.

Remember that this service is free to all whether or not you own Amnion products. Use it as often as you need it. We await your call at THE HELPLINE.

HELPLINE: 9AM-3PM MON-SAT (415)-753-5581

We are pleased to send you this information about the **WORTEX** Word-Processing System for the TI 99/4A Home Computer. Below are listed the main features of the programs. If you need further information, please feel free to contact us. We are happy to be able to customize **WORTEX** at no extra charge wherever possible. Ask us for details.

WORTEXTM Version 9.0

A Word-Processing, text-editor especially for the Texas Instruments 99/4A Home Computer and "Epson family" printers.

FEATURES:

1. Uses single files - no need to keep formatted files.
2. Uses TI Mailing List* for mass mailings with all functions.
3. All Epson features available directly from keyboard.
4. Multi-file chaining up to 40 files and multi-copy capable.
5. Auto-formatting and automatic letter format.
6. All editing features with auto wraparound of text.
7. Assembly language speed in format printing.
8. All updates **FREE** for 3 years from purchase date.
9. Right Justification with a "switch-on/off" feature.
10. Easy Copy/Move lines or blocks.
11. Global/Local Search/Replace with optional selective search.
12. Has TWO built-in letterheads.
13. Emergency tape storage of text in case of drive failure.
14. Memory remaining indicator.
15. One key line duplication.
16. Join two lines feature.
17. Line superimposition for fancy print formatting.
18. Automatic paragraph reformat during editing.
19. TWO independent Tab setting features gives maximum flexibility in reports.
20. Automatic line-centering in ALL different size print modes.
21. Fully menu-driven with all on-screen "**HELPS**" at all times.
22. Create a document up to 360,000 characters long (about 180 pages) and print up to 999 copies in one setup session.
23. **FREE** customization for non-Epson printers.
24. Versions for use with OR without Speech Synthesizer.

New LOW System price only \$49.95 - shipping included.

MINIMUM REQUIREMENTS:

TI 99/4A CONSOLE w/EXTENDED BASIC MEMORY EXPANSION UNIT
RS232 INTERFACE ONE DISK DRIVE & CONTROLLER
SPEECH SYNTHESIZER (optional)
EPSON TYPE PRINTER (Epson, TI, IBM, Gemini, Spirit 80, etc.)

Respectfully,
AMNION STONEWARE

*Included **FREE**

These forms **CREATED** and printed with **WORTEX**.

LIBRARY ORDER FORM

Single-sided and dual-sided orders are handled differently so please use the appropriate section for ordering. Standard fees for QUAD density certified disk, 1st class postage and copying charges per volume are as follows:

SINGLE-SIDED VOLUME

DUAL-SIDED VOLUMES

\$5.00 incl. disk & postage

\$7.50 incl. disk & postage

Since all programs are free these charges only cover the cost of materials, copying, packing, mailing, postage and labor. The average copying cost per program comes to about 11 cents.

WHAT IS A VOLUME? A volume is a disk, filled as full as possible, with programs in a same category. No printed descriptions or instructions are available. There are no duplications of the programs either on a single disk or from disk to disk. All of the programs have been "cleaned", made as compact as possible and given preliminary checks. **ALL PROGRAMS MAY BE COPIED AND DISTRIBUTED FREELY IN THE SPIRIT OF PUBLIC DOMAIN SO LONG AS SUCH COPIES ARE NOT FOR SALE OR FOR PROFIT.**

Disks may contain a mix of programs in Basic, Extended Basic, or Assm/Lang. and may require various peripherals like Memory Expansion, printer, RS232, Speech, etc. or cartridges such as XBasic, TE II, Editor/Assembler, etc.

ORDER BY SERIES INDICATOR LETTER AND VOLUME NUMBER

SERIES ID#	# VOLS AVAIL.	GENERAL DESCRIPTION
A	42 ⁴³	Entertainment, leisure activity, games.
B	16	Graphics items, screens, graphics development.
C	19	Things musical, songs, music education, many with graphics included in the programs.
D	17 ²²	Learning materials for all levels in many different subject categories.
E	10	Money stuff, things financial, business use.
F	8	Programs for technical, higher math, scientific and statistics fields.
G	8 ⁹	Practical, personal and home use programs.
H	13 ¹⁴	The hodge-podge - a collection of programs that do not fit in other categories from baseball statistics to programming utilities.
I	11	Informational, unedited text files downloaded from various BBS's, etc. with all sorts of tips, programs.

THERE IS ONE DUAL-SIDED (2 SINGLE-SIDES) VOLUME OF PASCAL PROGRAMS.

WE INVITE ANYONE TO CONTRIBUTE PROGRAMS TO THE LIBRARY SO THAT ALL 99/4 USERS OF THE WORLD CAN SHARE IN THEM. If you are interested in helping this library to grow, simply send us any programs with a note stating that you are placing them in the Public Domain. The library reserves the right to reject duplications, to correct noticeable errors in programs, etc. There is no reimbursement for contributing programs to the library except the satisfaction that you receive from sharing and strengthening the base of TI 99/4A users.

REMEMBER - the HIGHER the Volume NUMBER, the NEWER the programs!
NOT necessarily better, just newer acquisitions!
