TERMS AND POLICIES

SHIPPING AND HANDLING

We ship orders within 10 days of receipt via UPS-ground, therefore please include a street address. Cost of shipping and insurance in continental USA is \$2.50 minimum per order plus any extra shipping charge for hardware items. Charge for hardware items is 3% of sale price (\$3.00 minimum) unless otherwise noted.

Shipping charges for APO, P.O. Box delivery, Alaska, Hawaii and Canada is \$5.00 minimum per order plus any extra shipping charge for hardware items. Charge for hardware items is 10% of sale price. All of these orders must be prepaid in U.S. funds before we ship.

DEFECTIVE OR BROKEN MERCHANDISE

Claims for loss or damage in shipment must be made to the carrier.

All merchandise is shipped factory sealed with manufacturer's warranty. Any defective material must be returned to the manufacturer's authorized service center for your area. However if the unit arrives defective, please return it to us within 10 days for repair or replacement. Call for a Return Authorization number. Items returned to us that are not defective or without Authorization are subject to a restocking charge.

PAYMENT TERMS

Personal checks (allow 1 week to clear), Cashier's Check, Money Orders or COD (add \$5 for COD) are acceptable. Due to our low prices, Mastercard/Visa are accepted only in lieu of deposit on COD orders. COD orders that are refused are subject to a \$25 charge. When ordering please include phone number. All items are subject to availability and change of price without notice. N.Y. residents please add local sales tax. Any personal checks returned to us due to insufficient funds in your account are subject to a \$15 service charge.

BACKORDERS (PREPAID SOFTWARE ORDERS OF 2 ITEMS OR MORE)

If any item of your order has to be backordered, we will ship what is available and pay the next shipping charges when the backorder item is shipped. An item will remain on backorder at the original price for four weeks after which it will be cancelled unless you notify us otherwise. Upon notification, your remaining prepayment will be refunded in full.

TECHNICAL INFORMATION

If you need help hooking up an item or want information on what you need for a system, please call us after 6pm (EST) and ask for BOB.

WOW! WHAT A PRINTER SALE!!!

STAR MICRONICS

Get great hard copy and near letter quality with . . .

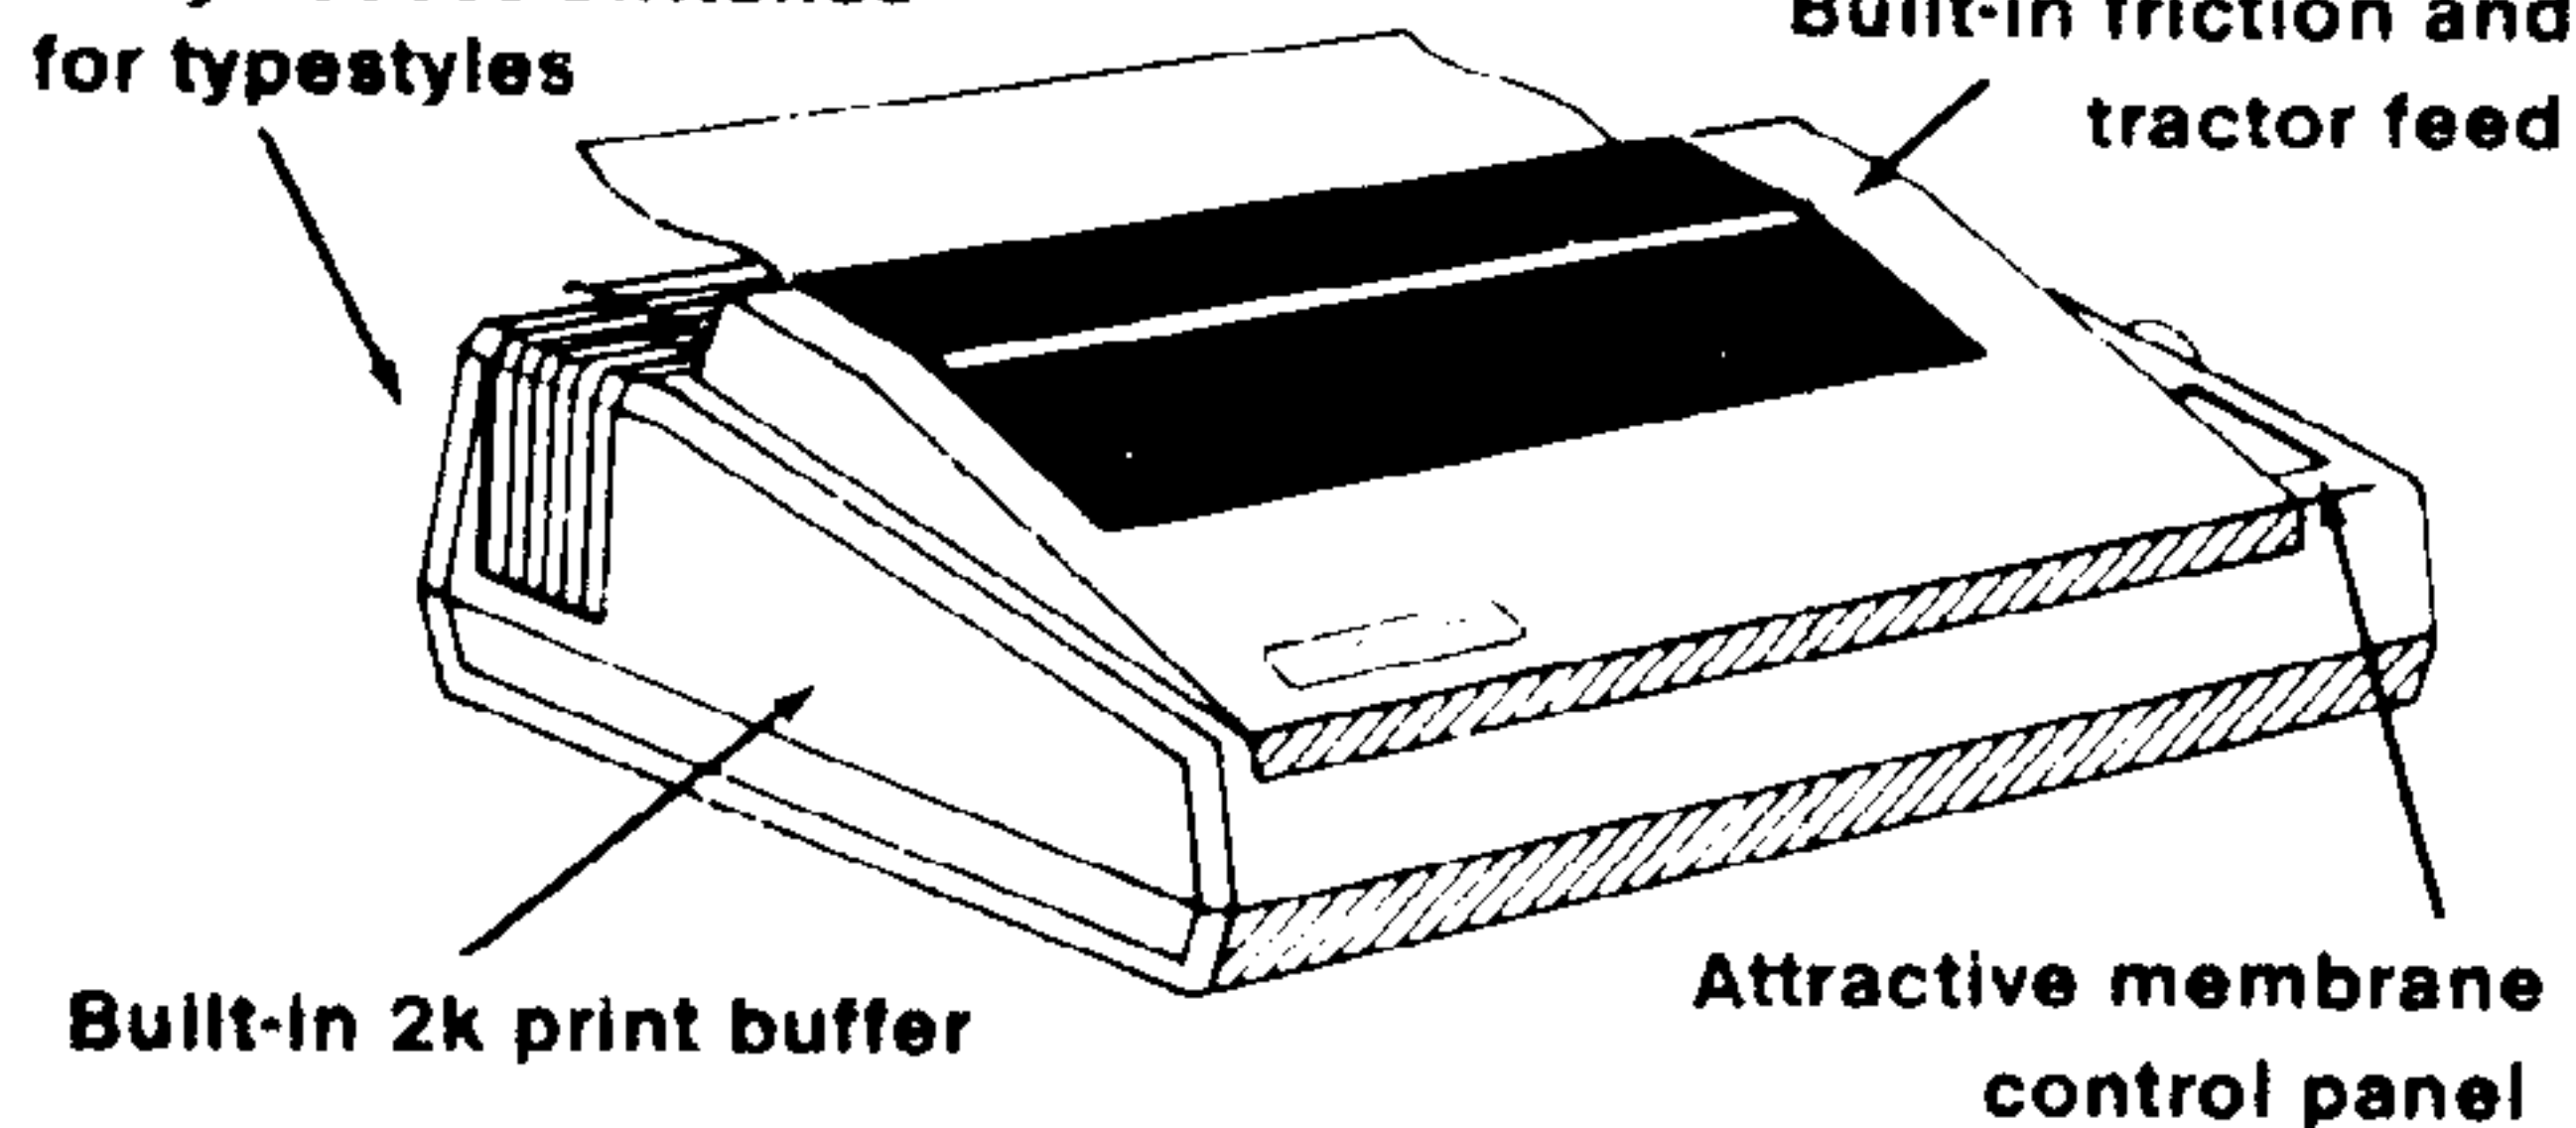

SG-10

(REPLACES THE GEMINI 10X)

\$219

Easy access switches for typesets

Built-in friction and tractor feed

Built-in 2k print buffer

Attractive membrane control panel

If you are looking for a top quality printer at an affordable price, you've found both in the new Star SG-10. The SG-10 operates bi-directionally at 120 cps and includes many special features such as near letter quality printing, easy access format switches for a wide range of character modes and character sets, friction feed for single sheets, and tractor feed for fanfold paper, and even hex dump. Another special feature is the IBM character sets available at the flip of a switch.

These features give the SG-10 versatility enough for home or office. There is also a 2K buffer standard and is expandable to 8k that lets you continue to work without waiting on your printer. Easy to interface with all popular computers such as IBM, Apple, Atari, Commodore, Sanyo, and Zenith. Breakdowns are virtually unheard of with the SG-10 manufactured by the company with thirty-five years of micro-precision experience for quality and reliability. Whatever your personal computer, Star's SG-10 provides reliable and flexible performance so your needs will be met today . . . and tomorrow.

GEMINI SD 10/15

- * 160 cps draft printing
- * Dual Mode-Near Letter Quality - 40 cps
- * 2k buffer for SD 10
16k buffer for SD 15
- * 10" carriage SD 10, 15" SD 15
- * Tractor and Friction Feed
- * Ultra Hi Resolution Graphics
- * Parallel interface (serial optional)

SD 10 SALE \$349
SD 15 PRICE \$459

GEMINI POWERTYPE

- * Daisywheel - 18 cps
- * 96 character print wheel
- * Reverse Paper Feed
- * one line buffer
- * Friction Feed (tractor feed optional)
- * 10, 12, & 15 cpi print style
- * Both Parallel and Serial interfaces standard

- * 7k buffer
- * High Resolution Graphics
- * Tractor and Friction Feed
- * Both Parallel and Serial interfaces are standard

SALE PRICE \$425.

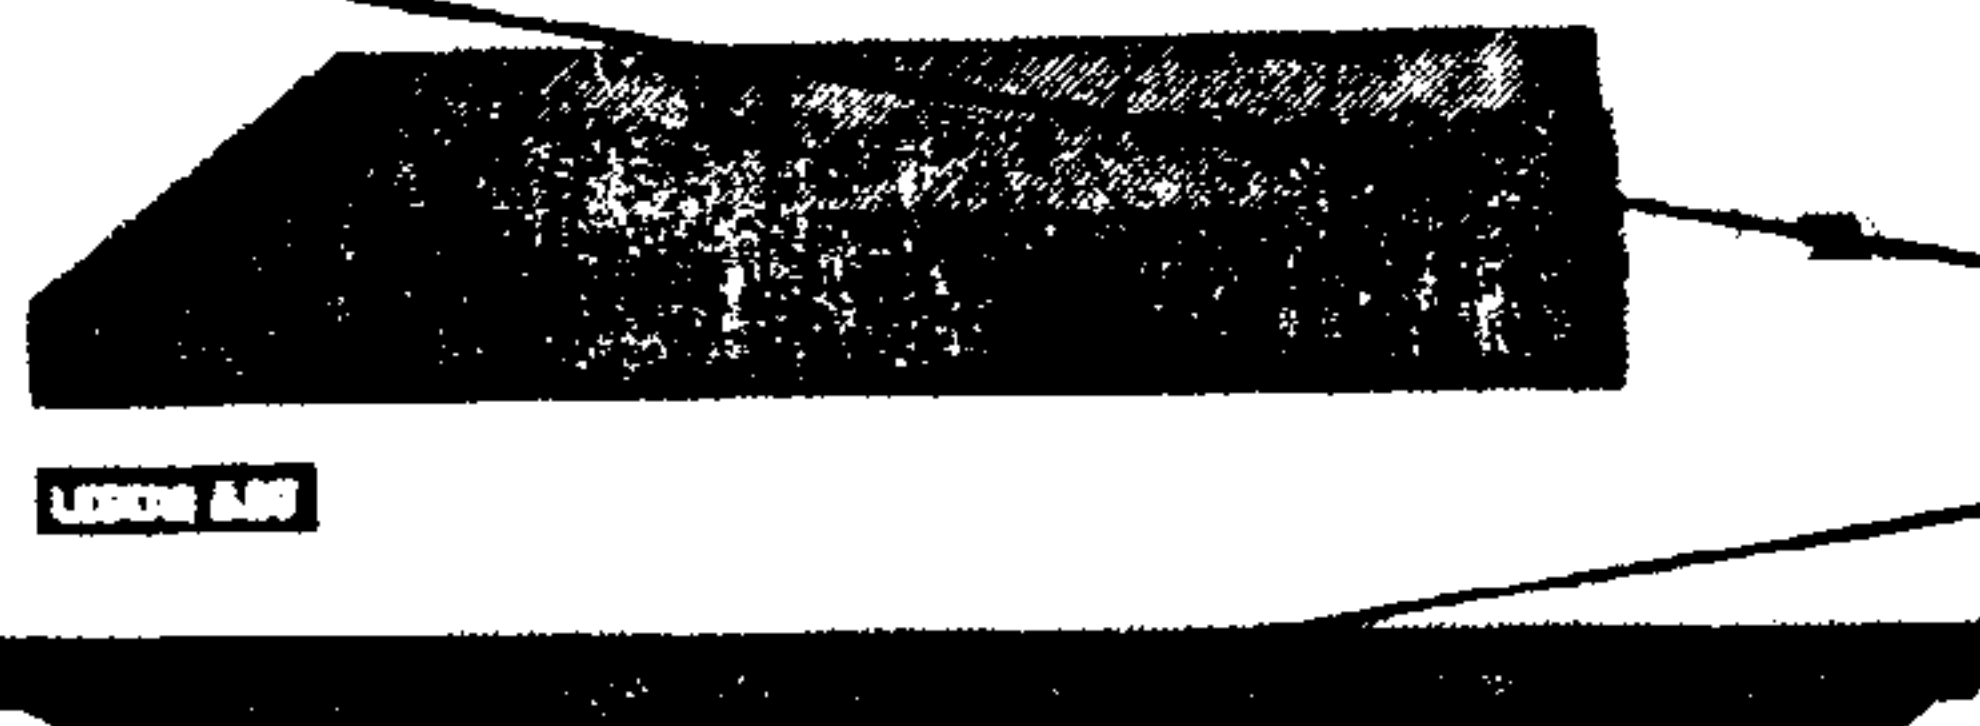

LEGEND PERIPHERAL PRODUCTS

"...Darn near letter quality!"

The high quality, square dot technology used by Legend produces a character so clear, so crisp our users tell us it's "darn near letter quality!" We invite comparisons. In fact, we're so confident about our quality we'll be happy to send you an actual sample of legendary output, just for the asking. Legends are perfect for those important reports and proposals as well as regular office correspondence. The graphs and charts you create with Legend are stunningly good! All you have to choose is how fast you want to go. We use a top-quality carbon ribbon common to the world's most popular typewriter that makes each and every character clean and sharp. And we're so sure about the reliability of our Legends we guarantee our print head... for life!

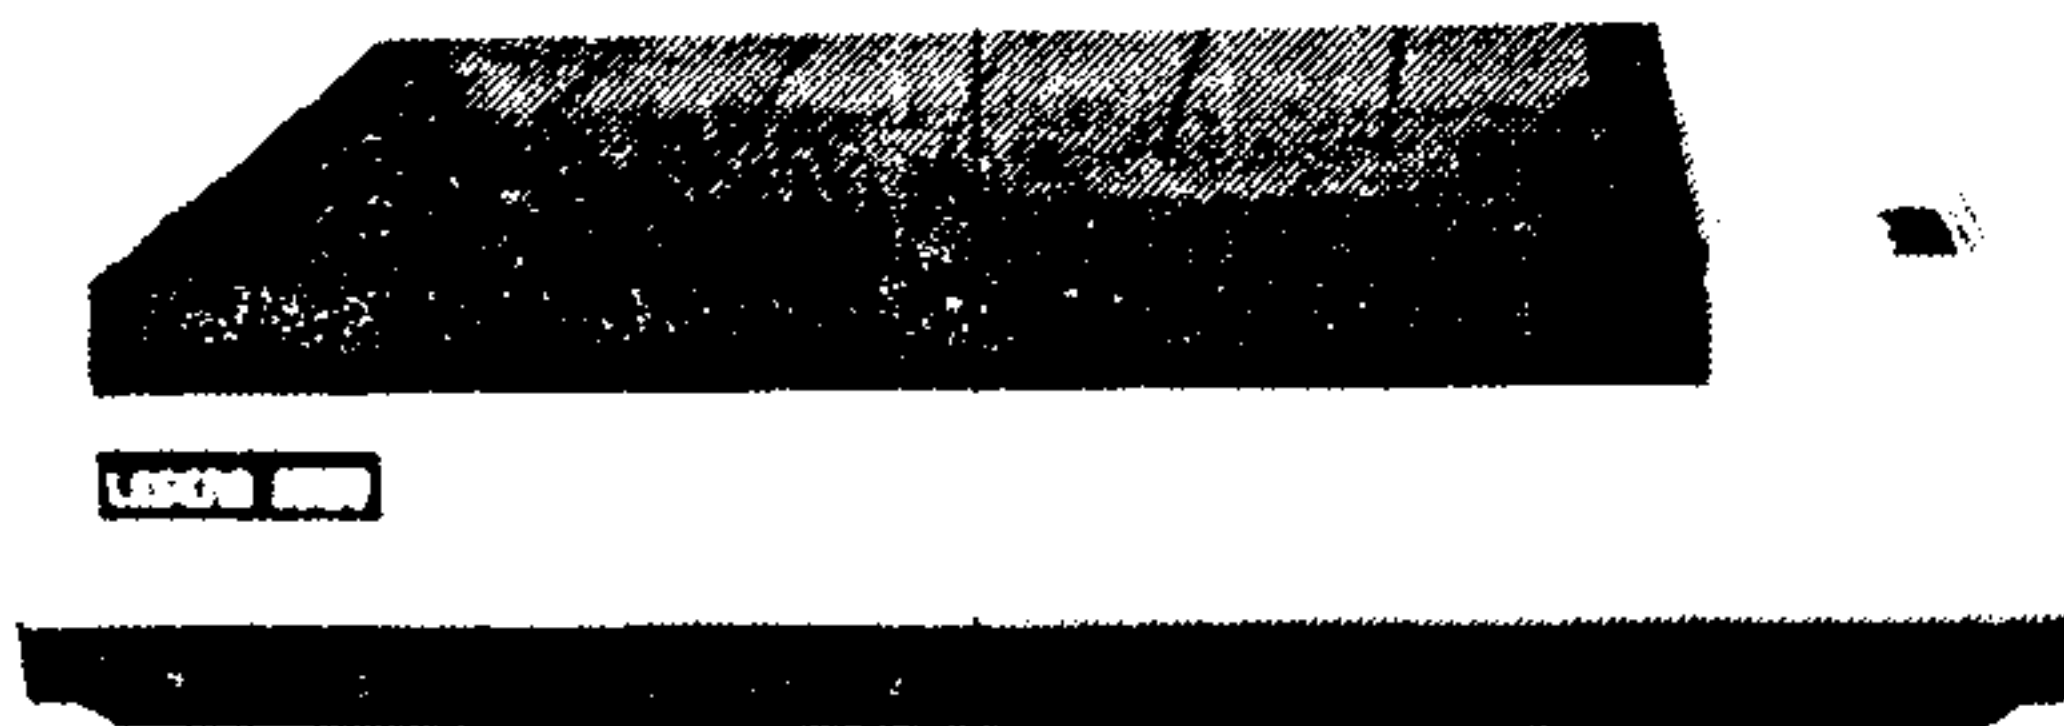

The LEGEND 880 provides over forty fonts, all software-selectable and is rated at 80 cps but purrs along at a comfortable RTS of 104 characters per second. It's designed to work with all popular computers including IBM, most of the IBM-compatibles as well as Apple, TI and Commodore. And all this can be yours today at a really affordable price!

~~REPLACED
by MODEL 808~~ **\$199** ~~SEE
INSERT~~

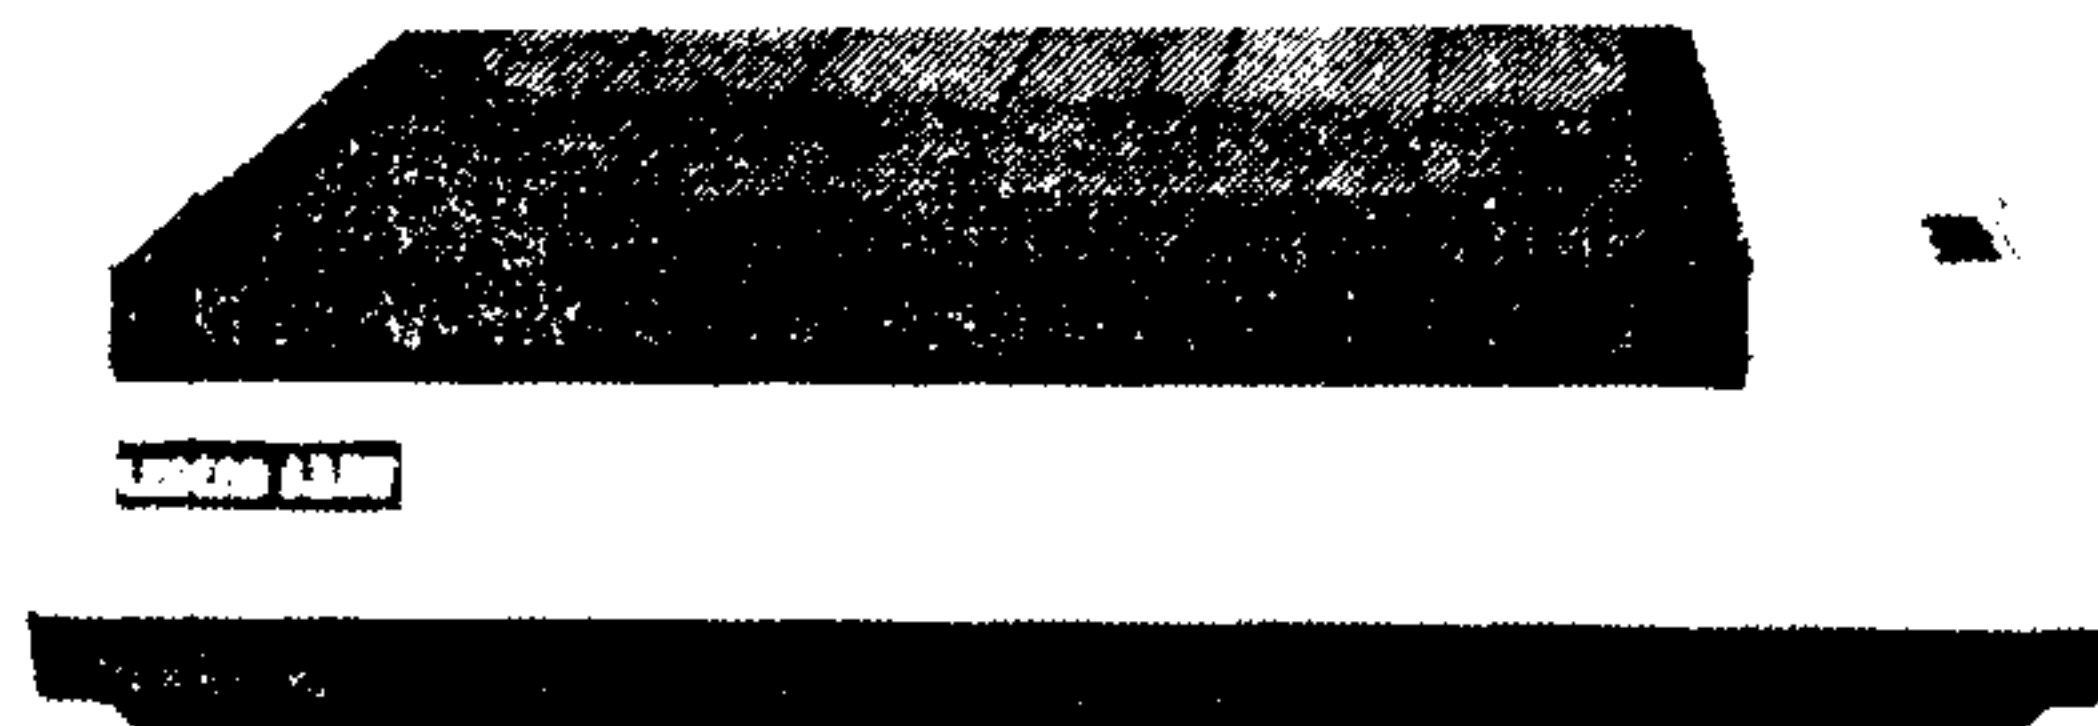

The LEGEND 1080, rated at 100 cps gives you the quality of the 880 at a faster RTS of 140 characters per second. And simple, easy-to-use switch settings bring forty fonts to your fingertips! True Epson compatibility means you can run all the popular software packages including Lotus 1-2-3, Symphony, Framework, Wordstar and more!

\$229

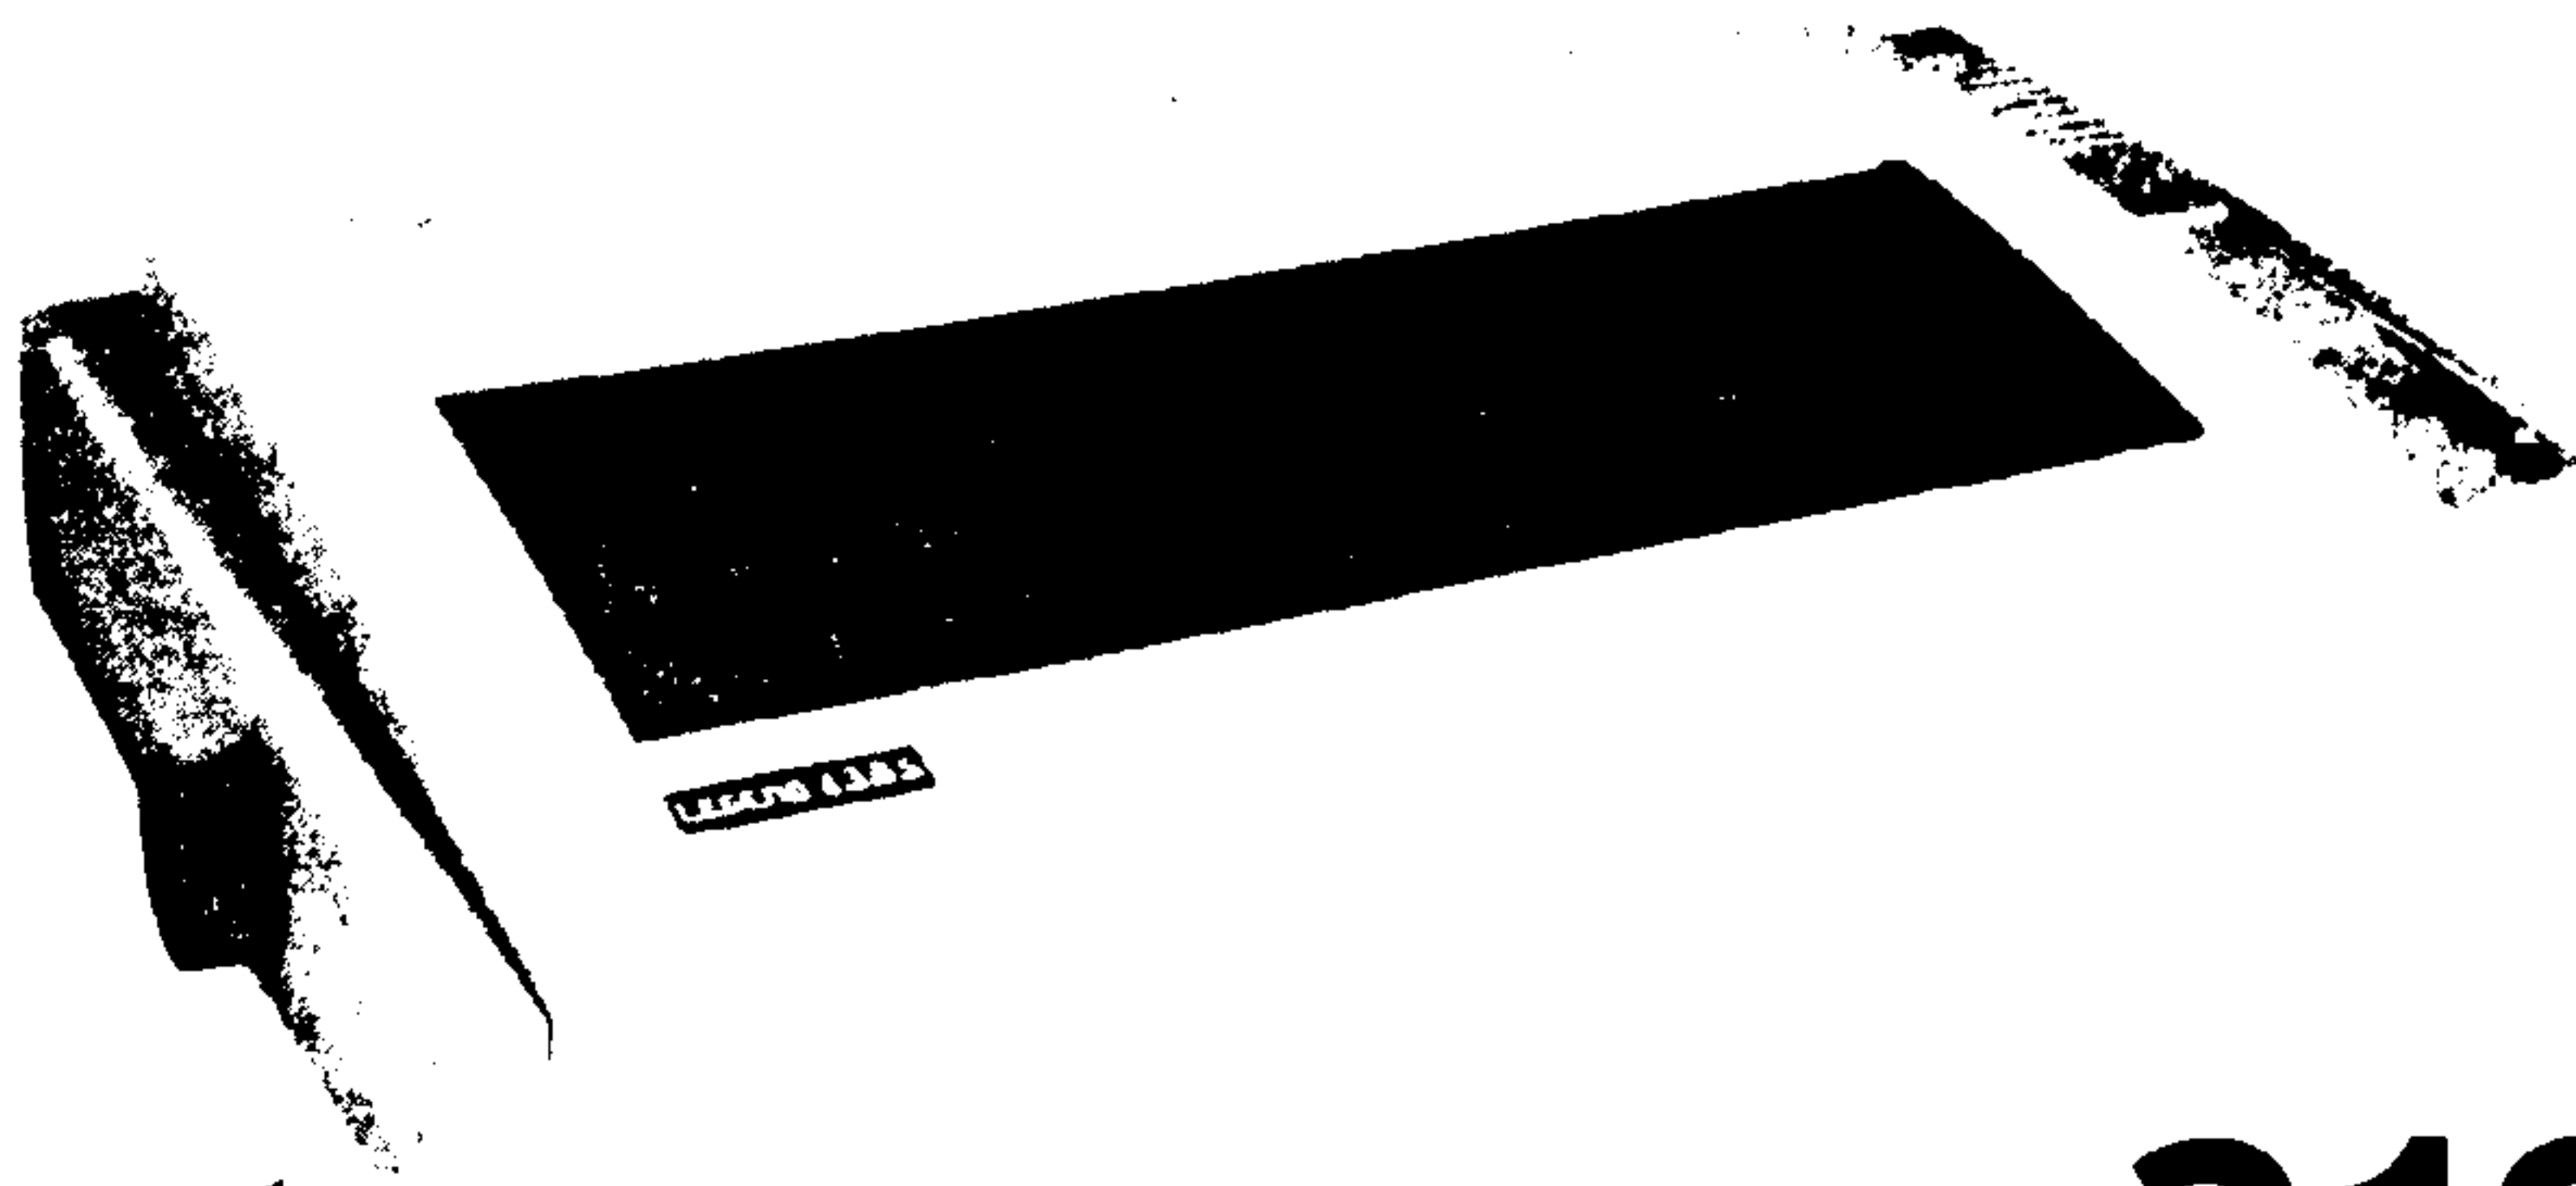

The LEGEND 1380 is perfect for high speed, high performance applications. Rated at 130 cps, it produces legendary print quality at an incredible RTS of 163 characters per second. Full IBM graphics compatibility along with downloadable character sets allows you to design your very own fonts and run all of the new IBM graphics software.

\$275

SAME SPECS AS 1380 WITH 15" CARRIAGE

The Legend 1385 offers wide-carriage near letter quality output at 130 characters per second. Select from more than 40 software selectable fonts or download your own fonts. Choose from 5 to 16.5 pitch.

\$319

LEGEND

808

NEW

The Legend 808 features the latest advances in dot matrix technology using SQUARE DOT printing for crisp output.

The Legend 808 offers outstanding quality print at 100 cps. NLO and compressed print modes are as easy as a flip of a switch. Tractor and friction feed are standard on the Legend 808.

The Legend 808 is one of a full line of quality printers from Legend Peripheral Products.

SOFTWARE INFORMATION

"SKETCH MATE"

from Amerisoft International

Allows save and reload of your "Sketched" drawings from the "Super Sketch Pad" to disk or you can dump the printed screen to your Epson, Star Gemini, or Panasonic printers. Printed picture is double width, double height with 15 shadings and one to eight patterns to represent different colors and tones. Req.: Super Sketch Pad, 32k,disk drive,Extended Basic and a Cartridge Port Expander.

only \$25.95

"MINI-WRITER III"

from DataBio Tics

Word processor that stores up to 12000+ characters. Files are compatible with TI-Writer. Display "windows" emulate an 80 col. screen. Built-in printer interface with 16 pin connector. Word wrap,full screen editing,insert and delete,scrolling text, and save to cassette or disk are standard features. On cartridge. Requires cable for printer.

only \$79.95

"TI-EXTENDED BASIC"

from Micro Pal

Works just like the extended basic from TI. On cartridge and fully guaranteed. (Micro Pal bought the rights from TI to make this identical cartridge). More than 40 new or expanded commands, statements, functions, subprograms and Sprite capability.

only \$59.00

FREE
SOFTWARE
INCL: "NAME IT"
"TYPWRITER"

"SUPER EXTENDED BASIC"

from J & K SOFTWARE

It is a powerful extension to the TI Extended Basic. SXB is comprised of over 100 TMS9900 Assembly language subroutines which are invoked with the LINK subprogram. There are data base subroutines,string array,integer and video display subroutines. Plus user defined subroutines can be temporarily added. On disk. Call for more details.

only \$69.95

"VIDEO TITLES I"

from J & K SOFTWARE

This program, written in TI Basic, provides a means of producing custom titles for video recordings without the need of a camera. Features include: three proportionally spaced character sets,automatic centering of each title line,variable spacing with automatic eye correction,26 foreground/background color combinations and multiple screen division with scrolling. Disk or tape

only \$22.50

"VIDEO TITLES I I"

from J & K SOFTWARE

This program, written in TI Extended Basic, provides a means of producing automated sequences of custom titles for in-store advertising or home video recording. Features include: three proportionally spaced character sets, choice of left, centered or right justification for each title line, variable spacing with automatic eye correction, choice of four frame styles for each title, animation/overlay of custom designs such as logos, etc., and storage for forty titles, forty sprite patterns and ten title sequences. On disk

only \$35.95

"VIDEO TITLES I I I"

from J & K SOFTWARE

This program, written in TI Basic, provides a means of easily producing custom titles in your own program. Features include: proportionally spaced lettering (bold, computer or miniature), variable spacing and automatic justification. Disk or tape.

only \$22.50

"DRAW 'N PLOT"

from Quality 99 SOFTWARE

Create drawings with joystick on screen with pixel accuracy and Assembly Language speed. Mix text and graphics, color. Save to disk or print on Epson-type printer. On disk. Requires 32k, Extended basic.

only \$28.95

"DISK MANAGER I I I"

from Quality 99 SOFTWARE

Resident disk manager program. Access disk manager functions from command mode without disturbing the program in memory and without using Disk Manager Module. Functions can be used in Extended Basic. On disk. Requires 32k, extended basic.

only \$28.95

"QUICK COPYER I I"

from Quality 99 SOFTWARE

Copy a disk in 3 passes or less. Copy an entire disk or selected files. On disk. Requires 32k, Ext. Basic, or Ed/Asm, or Mini-Memory.

only \$28.95

"EZ-LOADER"

from Quality 99 SOFTWARE

Automatically reads disk catalog, then loads and runs any program with just one keystroke. On disk. Requires 32k, Extended Basic.

only \$16.00

"QS-WRITER"

from Quality 99 SOFTWARE

Load and run TI-Writer from Ext. Basic, Ed/Asm, or Mini-Memory. No need to swap modules. On disk.

only \$28.95

"QS-CONVERTER"

from Quality 99 SOFTWARE

Convert a text file into a runnable program!! Aids in program editing. On disk. Req. 32k, Ext. Basic.

only \$28.95

"QS-XREF"

from Quality 99 SOFTWARE

Produce cross reference listing for all variables, arrays, functions, subprograms and line numbers for Basic and Extended Basic programs. On disk. Requires 32k, Ext. Basic.

only \$28.95

"AMA LINK"

from Advanced Microcomputer

This is a Terminal Emulator on disk. Select full or half duplex, baud rate from 110 to 4800, download up to 16k of information or programs to disk or printer. Includes some Assembly Language aids, i.e. disassembler, 40 column screen utility, array handling routines and more

only \$28.95

"GAZELLE FLIGHT SIMULATOR"

from DOW

This is a very popular flight simulator program using the twin engine Gazelle. On cassette

only \$25.95

"TYP-WRITER"

from Extended SOFTWARE

This is a powerful word processor. It is written in Extended Basic which can be modified by users, and it does NOT require memory expansion. Your documents can later be converted to be used with the TI-Writer if you wish. On disk or tape

only \$22.50 cassette
\$27.95 disk

"NAME-IT"

from Extended SOFTWARE

This is a data base program for creating mailing lists, files, labels, etc. The data can be entered in random order, sorted into order, and found or listed in summary or ordered form. 250 records(disk version, 2500 cassette) of up to nine 28-character items per record. Data can be converted to generate the data required by the TI-Writer to print form letters

only \$22.50 cassette
\$27.95 disk

"DRAW-A-BIT"

from Data Force

The ultimate graphic tool for the TI-99. This program is a full function bit map drawing program. Over 90 drawing functions including foreground stroke, background stroke, draw arc and circle, draw horizontal or vertical line, and many more. Stores and recreates drawings. Requires ext. basic, 32k, disk drive. On disk.

only \$42.50

"PRINT-A-BIT"

from Data Force

This program facilitates the printing of Draw-A-Bit creations. Works with Epson and Gemini printers. On disk

only \$18.50

"4A/TALK"

from DataBio Tics

The latest in diskette-based terminal emulators. It allows 300/9600 baud transmission, and offers the following protocols: X-Modem and TE II

only \$16.50

"MULTI-DISK INFORMER"

from J & K SOFTWARE

This program, written in TI Extended Basic, provides a means of producing two master listings: 1) the FILE REPORT - a sorted list of filenames identifying type, protection, size and disk ID; 2) the DISK REPORT - a sorted list of disknames identifying input sequence, up to eight files resident on each disk, sectors used, free and total, and counts by file type.

only \$22.50

NEW! NEW!

"MYARC EXTENDED BASIC for 128k"

from MYARC

The Extended Basic form MYARC is specifically designed to be compatible with the 128k RAM card. It functions the same as the TI Extended Basic and up to three times faster. Features include: 40 character display mode; Full support of Integer Variables; Windowing; Hi Resolution Graphics; Commands of draw, fill, circle, rectangle, etc.

only \$79.95

"TIBBS 48K/128K"

from Amerisoft

TIBBS is a revolutionary program that will turn a TI-99/4A into a Computerized Bulletin Board System. It supports both the standard 32k and 128k cards. Requires 32k, Ext. Basic, Disk Drive, Hayes 300 or 1200 modem

only \$125.00

"MASTER PAINTER 99"

from Amerisoft

Create, edit, change colors, and define special objects for placement anywhere on the drawing field. Mouse-like operation allows the joystick to perform like magic. Image can be saved to disk or printed. Req. 32k, Disk Drive, Ext. Basic

only \$35.95

"3D WORLD"

from Amerisoft

The most versatile, innovative, and sophisticated 3-dimensional program available for the TI-99. Control color, size, and shapes. Uses simple mathematical X,Y,Z coordinates. Build objects by connecting dots. Rotate your structures on any axis. Zoom in on the object or zoom back. You can even print your screen. Req. 32k, Disk Drive, Ext. Basic

only \$35.95

"GRAPHICS GRABBER"

from Amerisoft

This machine code screen dump utility is designed for user friendly operation. You can get fully magnified double size prints of your screen graphics. Use form command level as well as in a running program. Req. 32k, Disk Drive

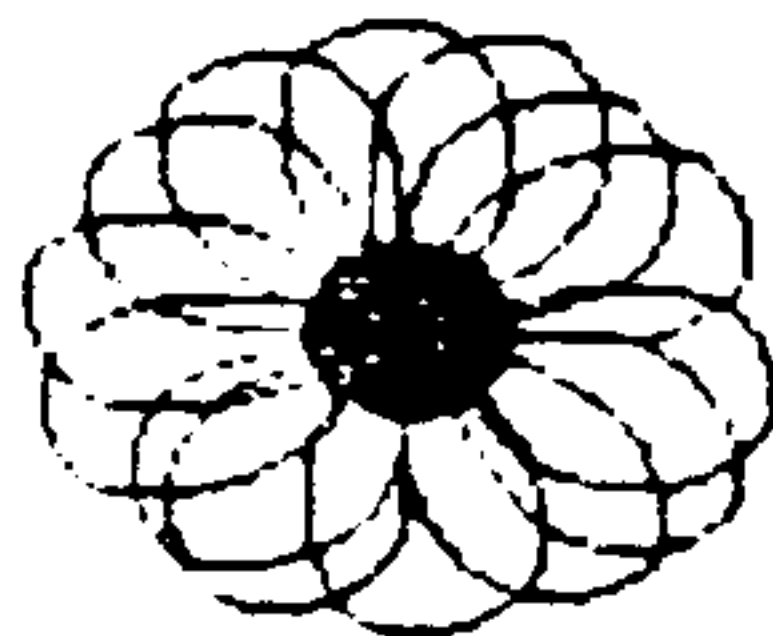

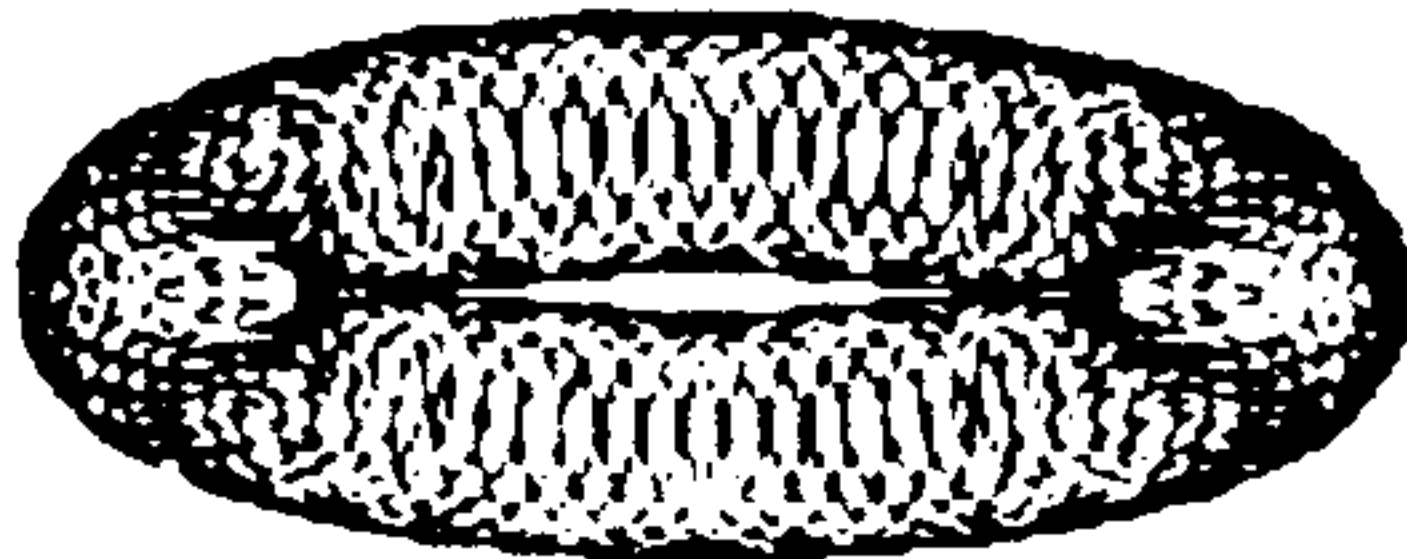

only \$19.95

EXPANDED GRAPHICS BASIC

From AMERISOFT INTERNATIONAL

With 40 new commands available your 99/4A is transformed into the most comprehensive graphics generator available at any price! Runs in Basic or Extended Basic. Add routines to your financial programs that generate sales graphs to single pixel accuracy! Generate complex schematics and curves from BASIC that will make even business machine owners drool. Mix graphics and text just like the big boys! All this and we still have more. With an Epson formatted dot matrix printer you can dump your work to paper! Comes complete with well documented manual that includes many demo programs. Don't miss this one. Requires 32K Memory Expansion, Disk Memory System, and either the Editor Assembler or Extended Basic Cartridge.

\$ 45.00

"DISK SURGEON 99"

FROM AMERISOFT INTERNATIONAL

This is a high speed disk repair and disk service utility. It allows access to individual sectors instead of files. Recover lost data, alter disk information, inspect disk contents, and much more. Rebuild blown directories, alter disk organization and find hidden secrets. Allows printing of all sector information. Displays hex as well as ASCII. Search for specific information. Any serious user will not want to be without this program. Requires 32K, DISK MEMORY SYSTEM, and EXTENDED BASIC. An optional RS232 and printer are required for printing operation.

\$ 27.00

"COPY-CAT"

From AMERISOFT INTERNATIONAL

This high speed disk copy utility is a must for every computer room. Copy single sided disks approximately three passes. Initialize disks single or double sided without having to use the Disk Manager Cartridge. Make backup copies of your valuable programs as well as important data disks. The most user friendly program of its kind offered. Requires 32K, and one to four disk drives.

LOW
PRICE!**

9900 MICRO-EXPANSION SYSTEM. An economical way to expand the versatility of your TI 99/4A home computer. This unit (about the size of two Speech Synthesizers) plugs directly into the side port of the computer and eliminates the need for a large expansion box.

The system is available in the following configurations:

- Stand-Alone RS-232 Interface. Get started! Provides two serial ports and one parallel port for connecting printers, plotters and modems.

- Upgrade Kit. The 32K memory expansion and disk controller card may be purchased separately as an upgrade kit and are easily installed into the RS-232 Stand-Alone Interface.

- Micro-Expansion System — **Complete! SAVE!** The RS-232 interface with 32K memory and disk controller card (supporting double-sided, double-density) installed.

10 All configurations offer 120 day manufacturer's warranty.

MYARC 512K

MYARC 512K RAM EXPANSION CARD FOR THE TI-99/4A. USE IN PERIPHERAL BOX

only \$299.00

CARTRIDGE EXPANDER \$27.95

Eliminates cartridge overheating and increases console life. Cartridge Expander's three module sockets and selector switch allow the TI 99/4A user the luxury of changing programs without removing the modules. With the added feature of our built-in reset button, you can reset your computer without turning the power on and off. Features save cartridge wear and tear and help prevent program failure.

Plug, unplug, plug, unplug. Sound familiar? All that plugging and unplugging is more than a nuisance — it's slowly but surely wearing out the contacts on your computer.

There is a way to combat this wear by up to 90 percent or more through a cartridge expander! The Navarone Cartridge Expander holds three of your most used cartridges so that you can switch back and forth between modules with the press of a reset button rather than jerking the entire module out of the computer.

Always switching back and forth between Extended BASIC and Disk Manager? Kids play 10 modules 100 times a day? Active computer user? This cartridge expander is the inexpensive answer.

NEW!

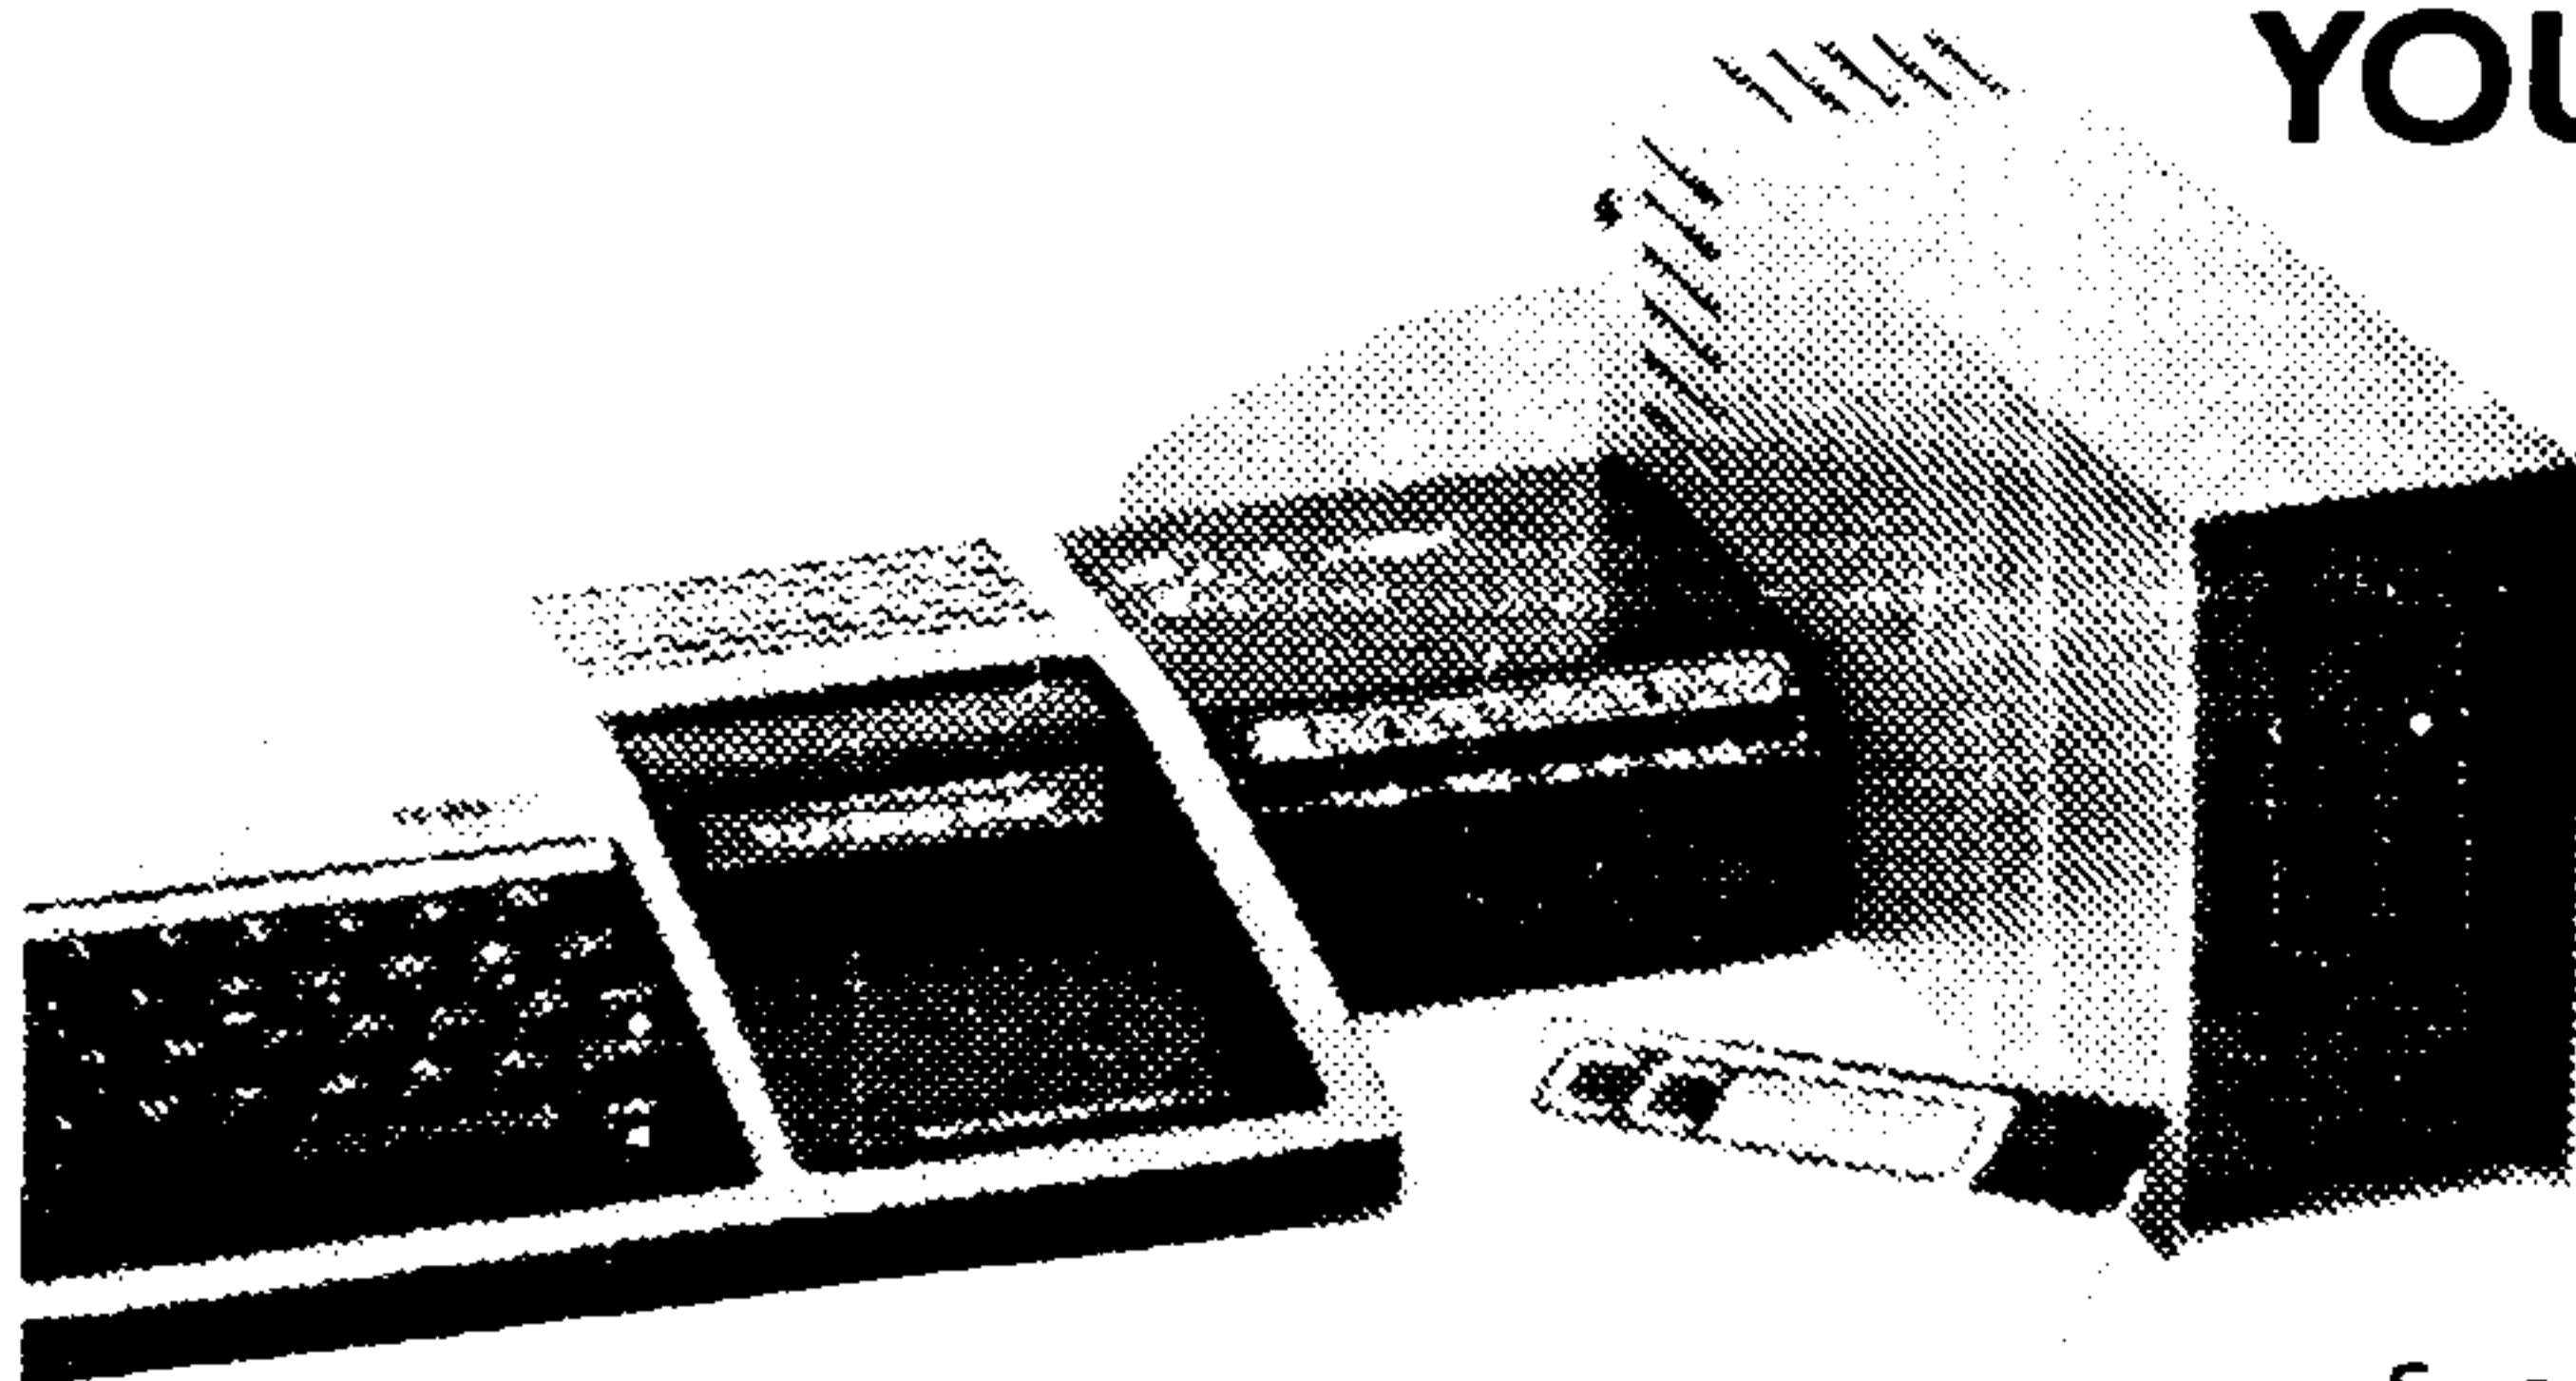

NEW! Tremendous Power from Myarc! 128K Card with RAM disk and Print Spooler!

Step up to big-time personal computing with this powerful new card for your expansion box! In addition to giving you bank-switched access to four 32K blocks of memory, this exciting card **includes** (at no extra charge!) RAM disk and print spooler routines. Imagine storing your programs or files in memory and being able to load them instantly! A fantastic productivity aid for users of TI-Writer or similar programs where one must switch programs or files frequently! The print spooler lets you "print" at high speed directly to memory—great for downloading files or text. Take the next big step in expanding your TI system and letting it perform like systems that cost thousands more! Order your 128K card at our super discount price today!

- CorComp 9900 Micro-Expansion System: RS-232 Interface, 32K, DS DD Disk Controller Card
- Teac Half-Height Disk Drive
- External Box with Power Supply
- Filler Plate
- Disk Drive Y Cable Package

NOW ONLY \$ 499⁰⁰

Have you ever been jealous of your friends who spent thousands of dollars on "full-blown" computer systems while you remained loyal to your TI 99/4A console and cassette recorder?

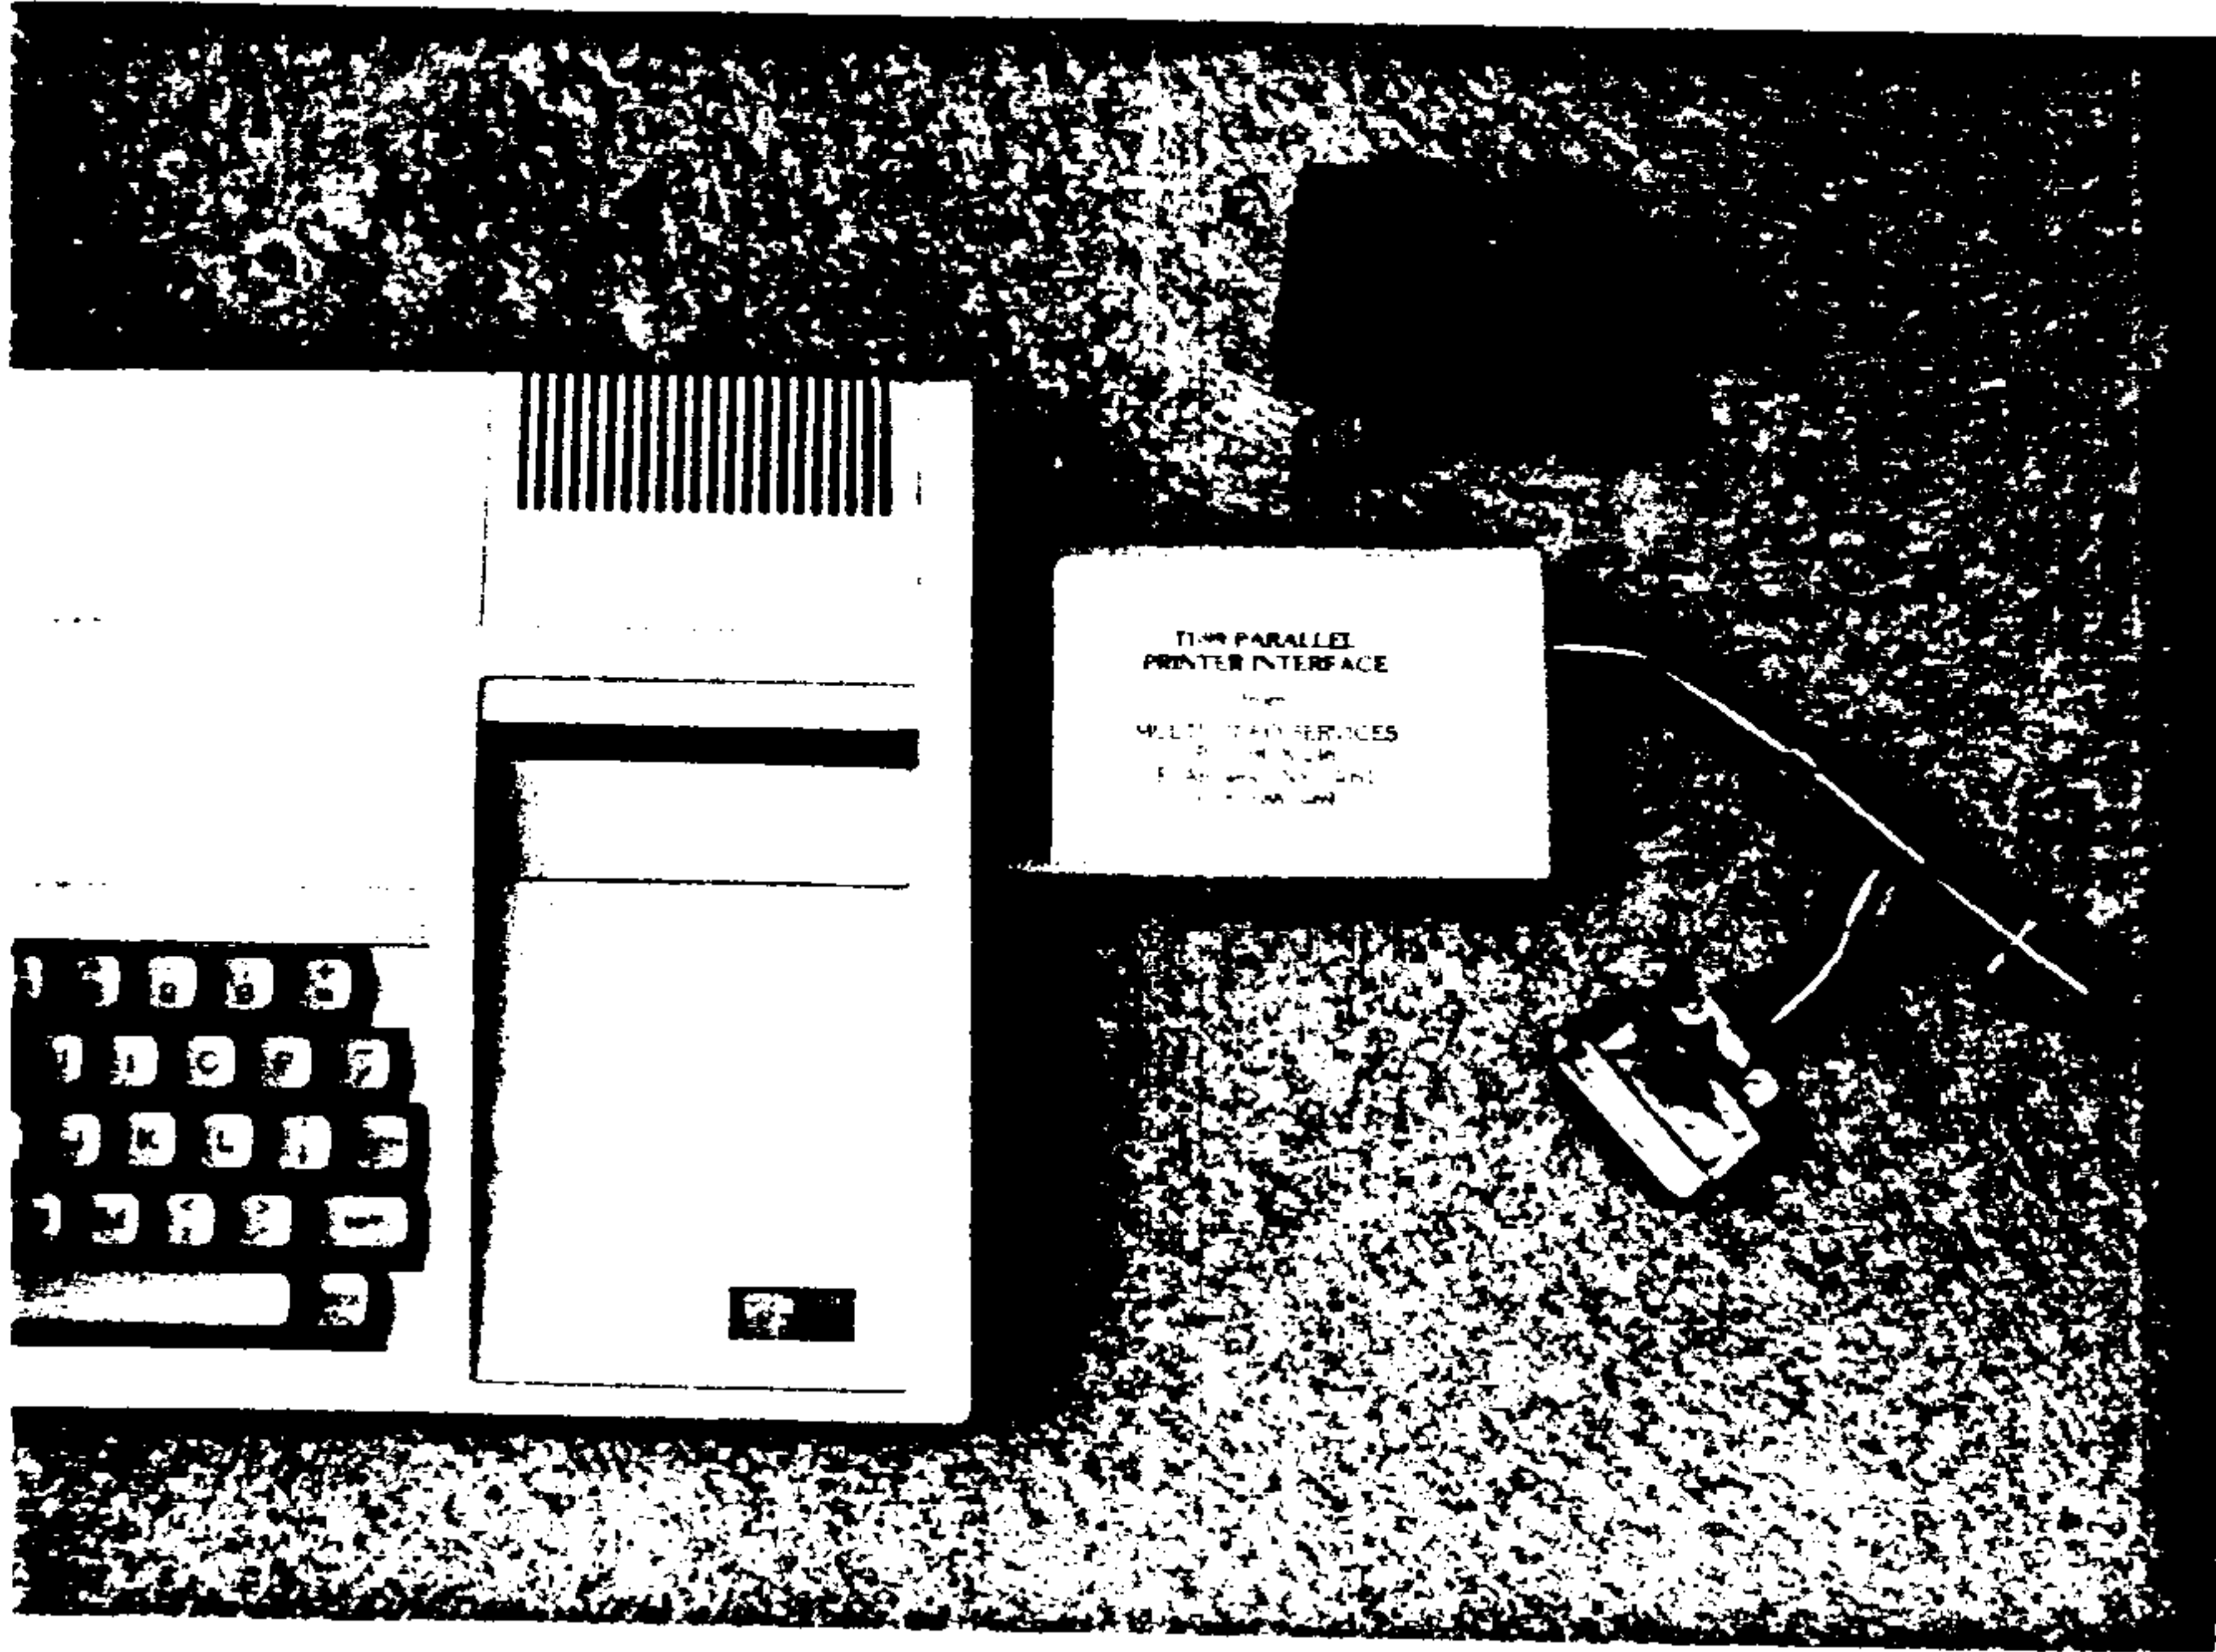

Now you can move up to the "big league" for only \$499!! This high performance expansion system package offers you a powerful, flexible, **affordable** way to expand your TI 99/4A!

The compact CorComp 9900 Micro-Expansion System unit plugs into the side port of your console and contains an RS-232 Interface (allowing hook-up of printer and/or modem); a 32K memory expansion; and a disk controller card with Disk Manager on diskette capable of formatting **double-sided, double-density** diskettes (this card earned straight "A's" in a review by *Micropendium*, Nov. '84). Add a Teac half-height disk drive that offers up to 360K of storage when used to its full double-sided, double-density potential, a box and power supply containing room for a second half-height disk drive (our package includes a filler plate to cover this extra opening until you expand to a second drive), and the disk drive Y cable package (pin-type) to hook your drive up properly. . . and you have a complete computer system that will rival systems costing much, much more!

TI-99/4A PARALLEL PRINTER INTERFACE

MULTI VIDEO SERVICES

Introduces its new stand-alone parallel printer interface. You no longer have to settle for Texas Instruments' bulky expansion box when you can connect any centronics parallel input printer to your TI computer using our new standalone interface. The unit plugs directly into the side of your TI computer.

FEATURES:

- o Complete with all necessary cables to connect to any parallel printer such as Gemini, Epson, Panasonic, etc.
- o Unit is completely standalone and comes with its own module power supply.
- o Works with all software including Extended Basic.
- o Can be used with other standalone devices such as 32K memory, Speech Synthesizer, etc.
- o No software required to operate and no internal modifications to computer required. Plugs directly into the side I/O port of your TI computer or other standalone device.
- o Printer commands "No Line Feed After Printing-Only a Carriage Return", and "No Line Feed or Carriage Return After Printing" are directly accessible from commands you input from your computer program. They are useful for emphasizing characters or tab functions respectively.

BOXCAR

COMMUNICATIONS ADAPTER

This is a stand-alone module that plugs into the right of your TI console. Other devices may be plugged into the right of the Communications Adapter. This versatile plug-in module contains both an RS232 serial interface (to connect to terminals, modems, other computers, and printers) plus a centronics compatible parallel printer port to control most home computer printers such as: Star Gemini, Epson MX80, and TI850.

SPECIFICATIONS:

RS232 Serial Interface

Baud Rates: 300, 600, 1200, 2400, 4800, 9600.
Data Bits: 7 or 8
Parity: odd, even, or no parity.
Stop Bits: 1 or 2
Connector: uses a standard 25 pin DB female connector.

ONLY

\$99.

Parallel Interface

Centronics Compatible

Connector: DB 25 female

Uses an IBM PC style cable with a 25 pin D connector on one end and 36 pin printer connector on the other.

CABLES

\$20 ea.

Parallel printer cables and RS232 cables (shielded) are available. They connect from the Communications Adapter printer port to parallel or serial printers.

FEATURES OF THE 32K MEMORY EXPANSION UNITS

1. For use with TI-99/4A home computer.
2. Gives you a total of 48K of usable Ram memory. 48K is the largest memory size that can be used at one time by TI software.
3. Compatible with all available TI-99/4A software such as TI-LOGO, TI-LOGO II, Extended Basic, Editor/Assembler, Mini-Memory, Text-Editor, Multiplan, and other software that requires expanded memory.
4. There is a 90 day warranty limited to repair or replacement of unit.

MODEL 2000 32K MEMORY ADD-ON

\$110.

This model connects to the I/O port on the right side of the TI-99/4A console. There is an I/O port on the right side of the unit which other peripherals may be connected to.

TI's Peripheral Expansion Box or Hex-Bus adapter may be used if it is connected to the right of the Model 2000.

Other stand-alone peripherals such as the speech synthesizer, RS232 interface, or thermal printer may be connected to the right side or left side of the Model 2000.

This unit is powered by a wall transformer, which is included.

OF 3 CARDS**

“THREE PRODUCTS ... ONE CARD!” TRIPLE TECH

CLOCK/CALENDAR: Provides real time: YEAR, MONTH, DATE, DAY OF THE WEEK, HOURS, MINUTES AND SECONDS. The Clock/Calendar will feature a crystal controlled oscillator accurate to .002% and battery back-up so that the clock calendar will still operate for over six months even with power turned off.

The Clock/Calendar can easily be accessed through either TI BASIC or TI Extended BASIC. This makes the CorComp Clock/Calendar portion of TRIPLE TECH ideal for bulletin board systems, computerized time management and the computing of the hobbyist.

64K PRINTER BUFFER: The Buffer is virtually compatible with any printer and requires no user modification of software — it installs easily, in seconds.

FEATURES:

- 64k Memory
- Copy Function for immediate duplication of print-out
- Clear Function to empty buffer

SPEECH SYNTHESIZER CONNECTION: Now you can place your TI Speech Synthesizer board into your TI Peripheral Box. You simply remove the TI Speech Synthesizer board from its housing and plug on to TRIPLE TECH!

TRIPLE TECH will allow you normal use of your TI Speech Synthesizer while eliminating the need for the external box plugged into the side of your console.

COR 112.....

\$ 125.

9900 Clock Stand Alone Shown with CorComp 32K Stand Alone. Console and 32K Not Included

The CorComp Clock/Calendar Stand Alone provides a simple means of accessing in real time the: YEAR, MONTH, DATE, DAY OF THE WEEK, HOURS, MINUTES AND SECONDS. The Clock/Calendar will feature a crystal controlled oscillator accurate to .002% and battery back-up so that the clock calendar will still operate for over six months even with the power turned off.

CLOCK/ CALENDAR

The Clock/Calendar can easily be accessed through either TI BASIC or TI Extended BAIC. This makes the CorComp Clock/Calendar ideal for bulletin board systems, computerized time management and the hobbyist's programming.

The 9900 CorComp Clock/Calendar will be housed in a small black metal box 5" x 2" x 2 1/2" patterned after the CorComp 9900 Micro Expansion System. It plugs directly into the side of the 99/4A or it can daisy chain with the TI Speech Synthesizer and other CorComp stand alone products.

LOAD INTERRUPT SWITCH: As an additional feature 9900 Clock/Calendar Stand Alone will have a Load Interrupt Switch to allow use of the newest screen dump programs now available for the TI 99/4A.

COR 113 **\$79.95**

WITH OUR TI-99
PARALLEL INTERFACE
COMPLETE PACKAGE

ACCOUNTS PAYABLE

Keeps up to 200 vendor ledger accounts on 1 disk... with ID data, terms of sale, cumulative payment, open invoices. Scans bills for errors, immediately prints and files. User controls automatic check-writing and system: pay by age, code, invoice, or specified amount. Produces vendor file list, check register, copy of purchase journal entry. (Requires *General Ledger* disk.)

DISK \$82.

INVENTORY

Keeps you instantly abreast of sales, returns, purchases, state of stock. Stores up to 700 items in 4 departments on 1 disk... with ID data, vendor, stock, on-order, back-order, re-order, cost, list and selling price, current value for each item. You select periodic or perpetual report basis. Prints labels, invoice forms, computes sales tax and freight. Operates independently or with *General Ledger* disk.

DISK \$82.

PAYROLL

Automatically provides payroll checks and stubs... on your choice of weekly, biweekly, semimonthly, monthly basis, plus W-2 forms yearly. Computes 4 withholding taxes per employee... 8 different deductions for each... commissions, bonuses, tips, overtime. Keeps up to 100 employee files on 1 disk. Automatically locks for security after payroll is printed. Operates independently or with *General Ledger* disk.

DISK \$82.

MAIL SYSTEM (newly updated program now operable for both U.S. and Canadian mail systems)

Change, move, and merge mail files. Add, correct or delete individual names and addresses... sort names and zip codes... print mailing labels... with automatic reports for each mail file and disk. System also edits and prints letters, labels, cards. Totals active and inactive names, specified search fields, last names, number of names in each state. Operates independently or with *Accounts Payable* and *Receivable* disks to mail to customers/vendors.

\$82.

COMPLETE TI-COUNT

Includes all 6 TI-COUNT programs

\$479.95

GENERAL LEDGER

Pre-programmed for fast start-up in small businesses. Monitors up to 650 accounts. Operates 5 journals: purchases, sales, receipts, payments, general entries. Updates daily... provides interim statements... prints closing adjusted and unadjusted balances, summaries, statements and changes. Uses easy-to-follow familiar debit/credit double entry bookkeeping system.

DISK \$82.

ACCOUNTS RECEIVABLE

Keeps up to 200 customer ledger accounts on 1 disk... with ID data, cumulative payment, open invoices. Edits, verifies, prints invoices instantly... lists receivables in customer accounts. Produces aging summary, billing statements weekly or monthly. Guides user through every task step-by-clear-step. (Requires *General Ledger* disk.)

DISK \$82.

TI-99/4A AUTO SPELL-CHECK

Brand-new in 1984: disk software offering the first-ever spelling aid specifically designed for the TI-99-4A! Automatically corrects spelling in your correspondence or documents. Provides full-feature editing, complete with 20,000-word dictionary. Includes important ability to customize dictionaries for the specific discipline you desire, such as medical, engineering or business words and terms. Also allows automatic adding and updating of unrecognized words or phrases. (Requires 32K Memory Expansion, Disk Controller and 1 to 3 Disk Drives and *TI-Writer* or *Editor/Assembler* cartridge.)

DISK \$39.95

MICROSOFT MULTIPLAN

One of the most powerful and best known spreadsheet packages ever developed, here in cartridge format. An extremely versatile tool for planning, budgeting, financial modeling, record keeping — any application where data can be conveniently expressed in rows and columns. Ideal for answering "what if"

questions. When you make a change in data or assumptions — the computer does all the work recalculating the rest of the spreadsheet. (Requires Disk System and 32K Memory Expansion. Printer and RS232 Interface highly recommended.)

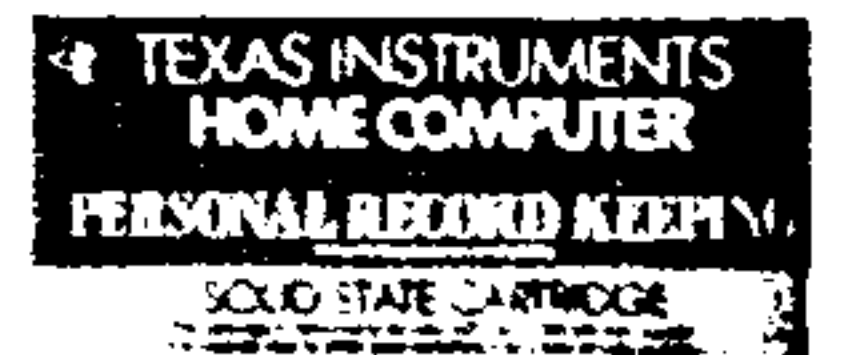

CARTRIDGE \$35.

+ \$3.00 shipping charge

PERSONAL RECORD KEEPING

A flexible filing system in cartridge format. Store and retrieve anything: home inventory for insurance, car maintenance records, medical history... and never forget your anniversary again! (Disk or Cassette System highly recommended.)

CARTRIDGE \$15.

TOUCH TYPING TUTOR

Teaches beginning typists by using TI-99-4A keyboard... and improves speed and accuracy of those who need brushing up. Includes diagnostic section with words-per-minute timing, individual keystroke analysis and practice, and an entertaining practice game.

CARTRIDGE

HOUSEHOLD BUDGET MANAGEMENT

The end of budget blues and bad surprises! Set guidelines, track expenses, spot problems *in advance*. Instant graphic analysis and tables help control actual spending vs. projections. (Requires Disk or Cassette System.)

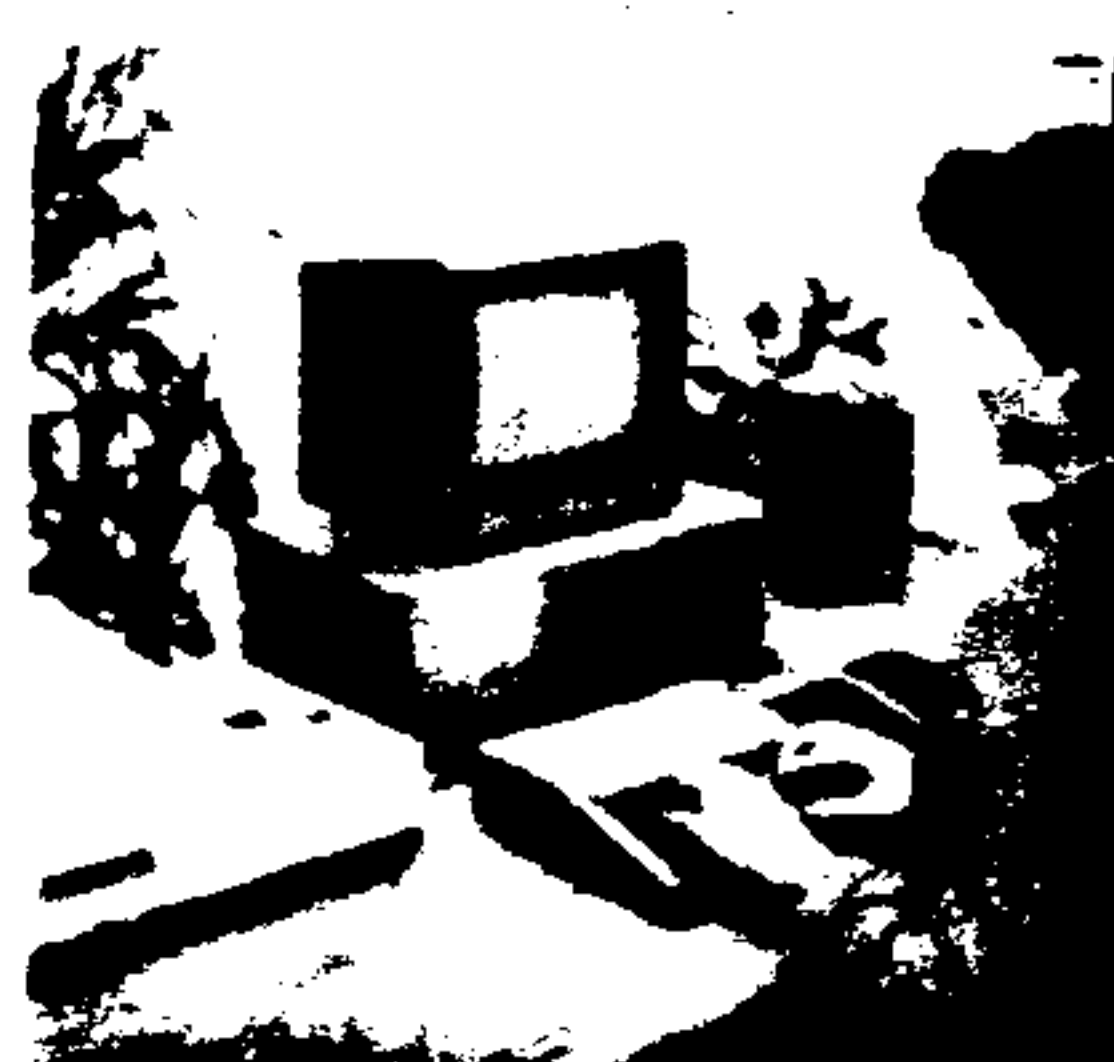

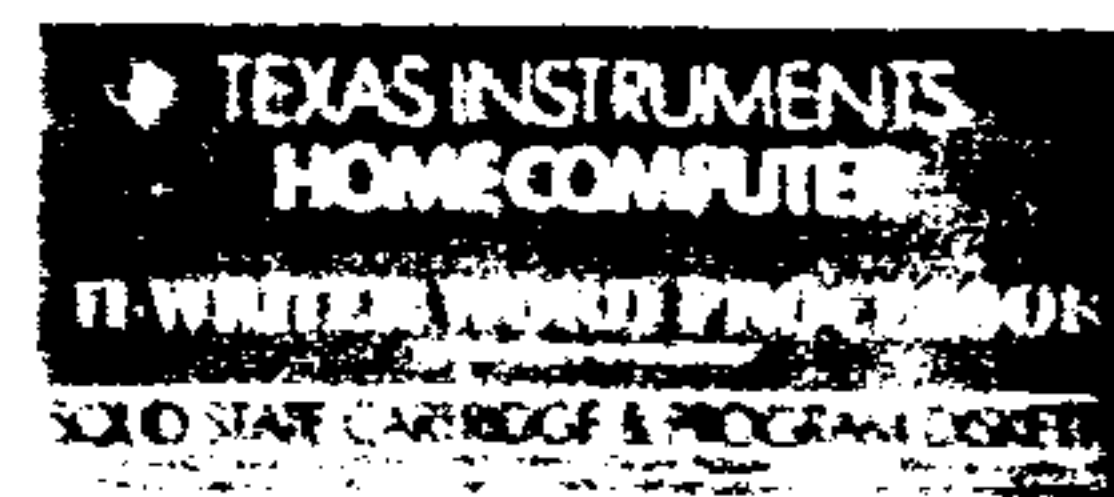

CARTRIDGE \$17.50

TI-WRITER WORD PROCESSOR

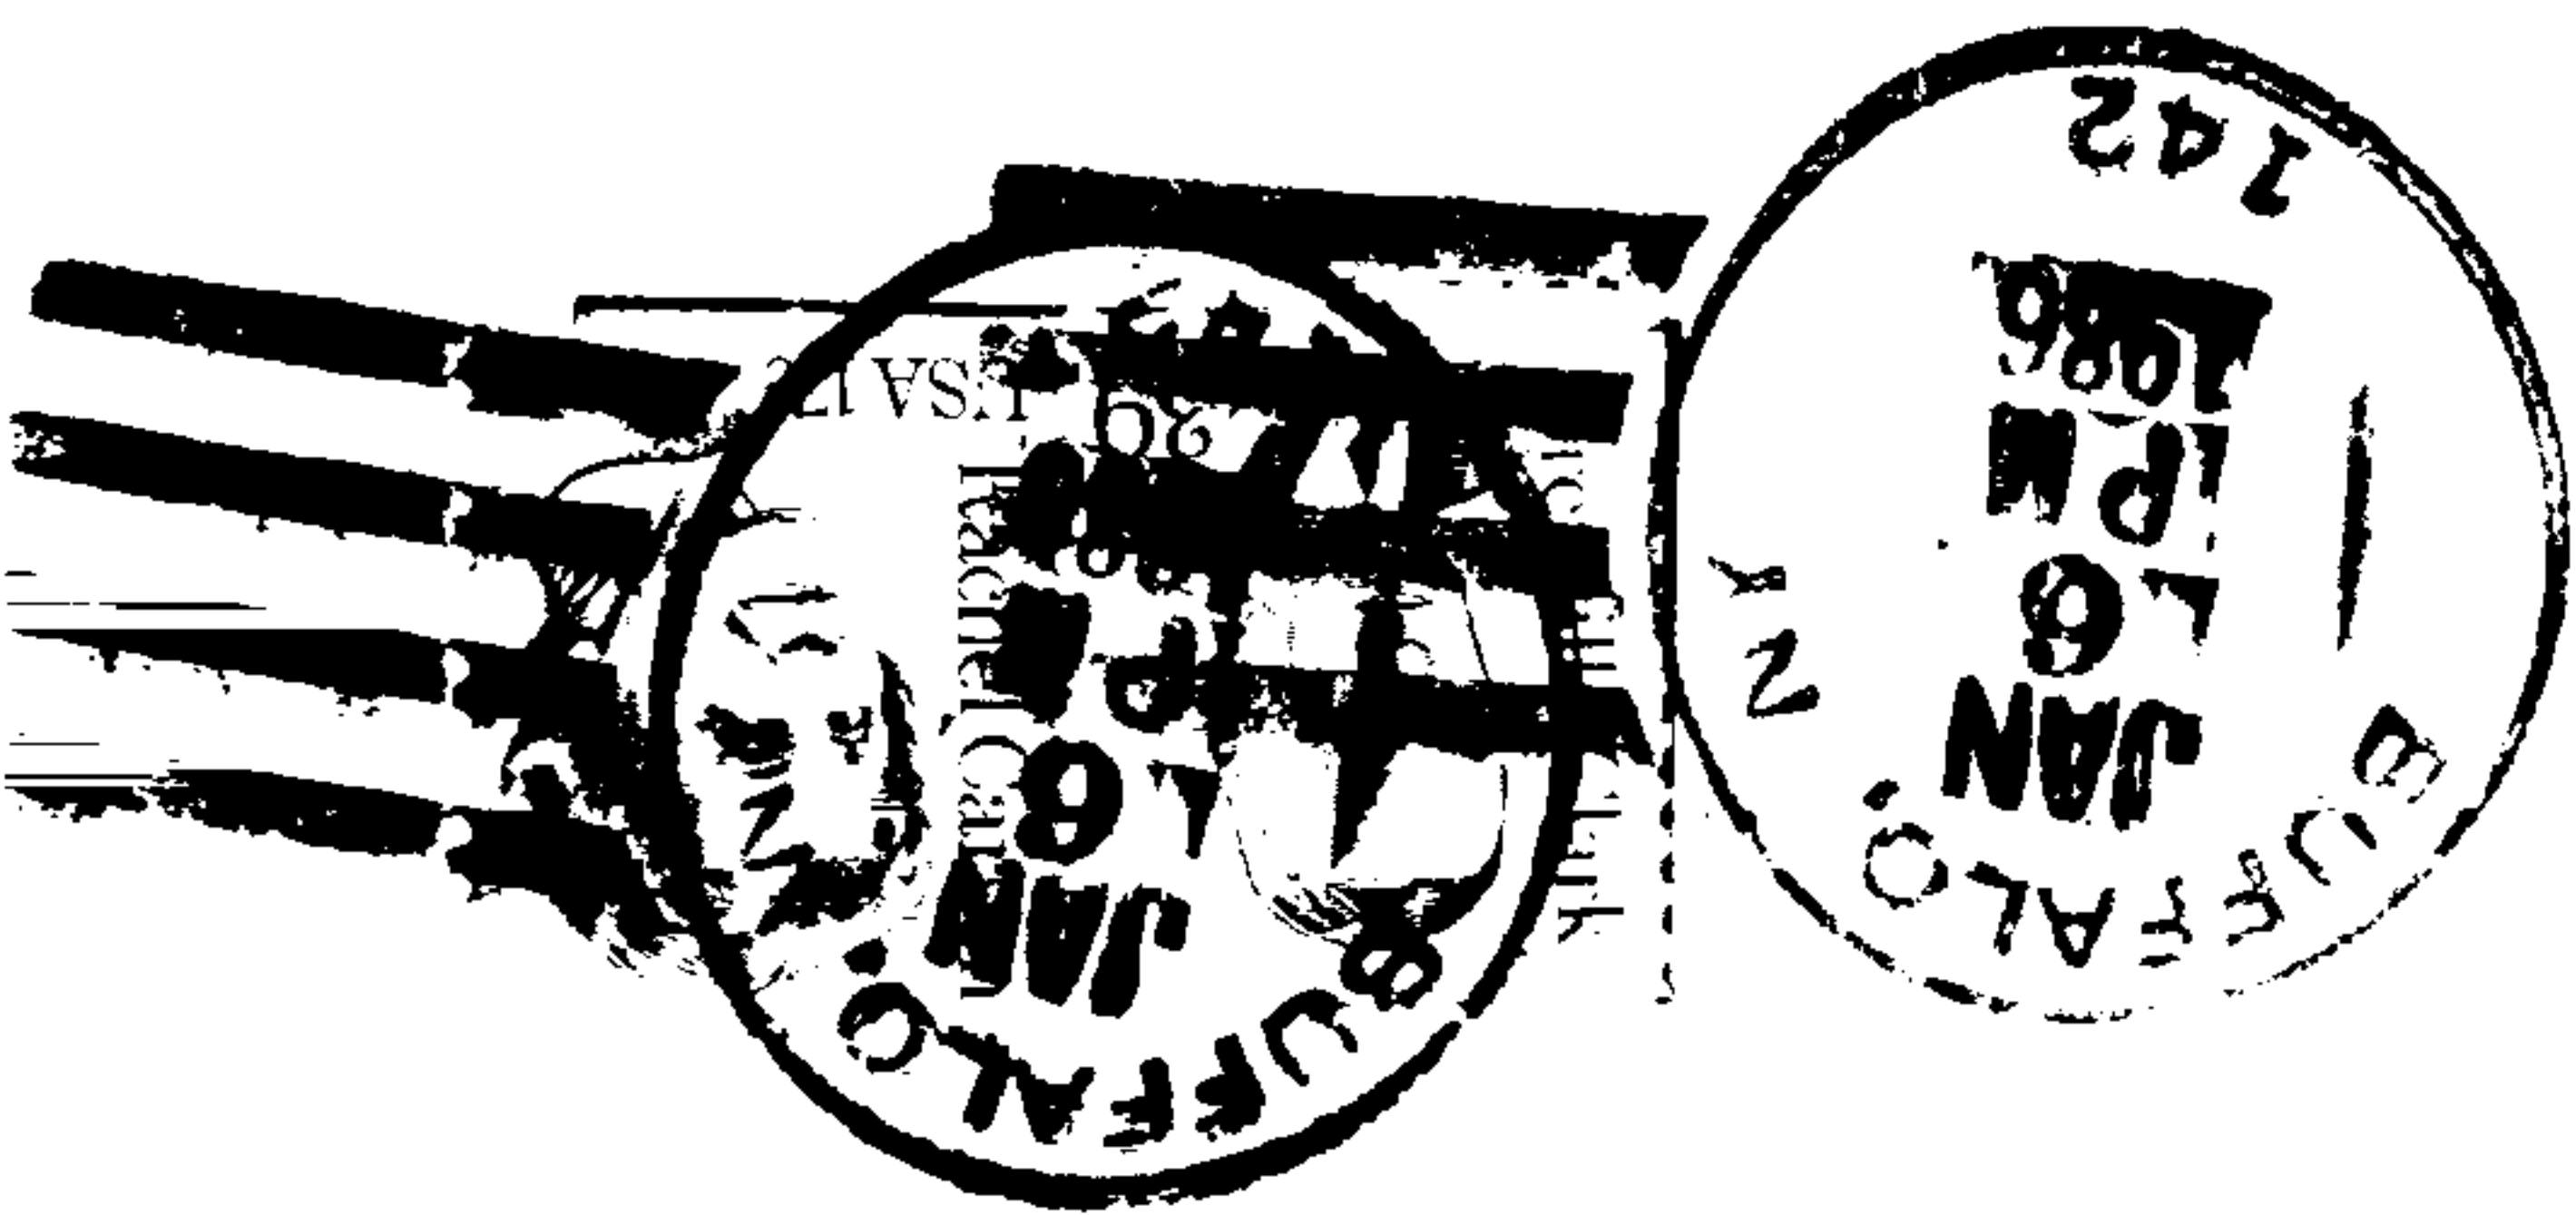

Superb TI-99-4A cartridge version of software of the most popular home computer application of all: word processing. Program includes many features usually only found in software for more expensive computers. *TI-Writer* edits and formats... inserts and deletes text and lines. Automatically indents paragraphs, justifies right margin, wraps words, over-strikes and underlines, moves and copies text. Documents its own re-formatting. Expands the display to 40 columns and scrolls horizontally to allow full 80-character lines. (Requires Disk System, 32K Memory Expansion, Printer and RS232 Interface.)
