DRAWING PAK

DRAW 'N PLOT

The easiest-to-use graphics program available. Allows you to create and print drawings, graphs, designs, and illustrations. Draw any picture on the screen with pixel accuracy and Assembly Language speed. Simple enough for children, powerful enough for experts. Save your picture on disk, mix text and graphics, set line color and background color, draw perfect circles and squares, fill areas, and erase areas.

Print your picture in normal or full page size. Works on TI, Epson, Gemini, Panasonic, Star, Okidata (with Plug 'n' Play), and Prowriter printers. Menu driven. Also, adds 14 new graphics commands to the Extended BASIC language, so you can plot data and equations, on the screen or printer, from your own Extended BASIC program. You can also modify graphs made by Chart Maker II.
