

Shareware Sale

As the cold weather arrives in Rochester, us Ambrosians have to start bundling up. In an effort to share upstate New York's lovely weather with our shareware users, we would like you to have the opportunity to "bundle up" as well. So as the temperature drops, so do our shareware registration fees.

For this issue's limited time offer, we are bundling some of our most popular programs together and slashing the registration fees. This is a great chance to register some really useful programs while saving money for the holidays. We have divided some of our titles into three groups: Games, Personal Productivity, and System Enhancements.

To get these savings simply send in registrations for the bundled software and write "**Bundle Deal**" on one of the order forms.

Games:

[Maelstrom 1.4.1](#) & [Chiral 1.0.1](#)

This package is for the dedicated video game fan. All of Ambrosia's games feature full 256 color and digital sound. The only way that you will know they are shareware is by the price.

Sold separately:

\$30

Bundle Price:

\$20

Savings:

\$10

System Enhancements:

[Snapz 1.0.0](#), [Eclipse 2.2.0](#), & [ColorSwitch 2.3.0](#)

Life with your Mac can be a lot easier with these three programs. Snapz picks up where Apple left off with its Command-Shift-3 screen capture feature; now you can capture anything. Eclipse is a simple low memory screen saver that allows you to cut & paste your own graphic for display. ColorSwitch eliminates the need to dig through your control panels to adjust color depth and sound by installing handy icon on your menu bar.

Sold separately:

\$35

Bundle Price:

\$25

Savings:

\$10

Personal Productivity:

[Easy Envelopes Plus 2.6.0](#), [Flashwrite \]\[1.1.0](#), & [To Do! 3.2.1](#).

With the holidays around the corner, any one of these programs could be a life saver. Organize your gift shopping list with To Do!, address your greeting cards with Easy Envelopes Plus and keep track of holiday recipes with Flashwrite][.

Sold separately:

\$45

Bundle Price:

\$35

Savings:

\$10

To get these savings simply send in registrations for the bundled software and write “**Bundle Deal**” on one of the order forms.

Feeling unhappy because you are already a registered user of one or more of the above programs? Just complete the bundle by registering the remaining software and we will deduct your previous registration fee(s) from the Bundle Price. Sorry, if you have registered a whole bundle already we can not issue a refund. Stay tuned. We are trying to include a special offer in each Ambrosia Times; sooner or later we will save you some dough.

This offer is good for the rest of the year, right up until January 1st, 1995. Please, no substitutions of listed software.
