

MOVIEWORKS D E L U X E

The Works for Multimedia Authoring™

MovieWorks Deluxe is a suite of applications that work together to create a range of multimedia productions, including web movies, analog or digital (DV) videos, dynamic slide shows, presentations and interactive CDs. It's like having "lite" versions of Macromedia Director® (authoring), Adobe Premiere® (video editor), Flash® (animation editor), Sound Edit Pro® (sound editor) and PhotoShop® (photo/paint editor), all rolled into one.

Minimum System Requirements for Mac OS X Version

- Power Macintosh® G3/200 MhZ or better
- Mac OS X 10.1.5 or higher
- QuickTime® 5 or higher
- 128 MB RAM, 50 MB hard disk space (Program, Documentation and Tutorial files)
- Additional hard disk space required for projects

Installing MovieWorks Deluxe Trial Version for Mac OS X

To get started using MovieWorks Deluxe, double-click the Trial Version installer and follow the onscreen instructions. Under Mac OS X, you will need to restart your computer.

To run the program, locate and open the MovieWorks Deluxe folder and double-click the MovieWorks Deluxe program icon. If you are new to MovieWorks or multimedia authoring in general, we highly recommend downloading the Tutorials or taking the "Online Workshop". Learning all the main aspects of MovieWorks Deluxe takes about two hours. The Tutorials answer most inquiries, but if you require assistance, we're here to help. **See the next page for important download links!**

IMPORTANT: The MovieWorks Deluxe Trial Version works for 15 days from first use. After 15 days, the MovieWorks Trial Version stops working! You cannot reinstall or reuse the Trial Version on the same system. Anything created with the Trial Version does not expire.

Note: MovieWorks Deluxe Trial Versions are also available for Macintosh Classic (Mac OS 8.6/9.x) and Windows 98 or higher. Download the latest Trial Versions at <http://www.movieworks.com/download.html>.

Helpful Links

All of the MovieWorks Deluxe documentation and supplementary documents are available online in PDF format. To view PDF files requires the Adobe® Acrobat® Reader: <http://www.adobe.com/support/downloads/main.html>. In some cases, online resources are compressed to reduce download times. If not already installed, you may download Aladdin's StuffIt Expander from <http://www.stuffit.com/expander>.
