[SafeCat]

Here's what SafeCat is all about.

SafeCat enables you to have up-to-date records about your cat right at your finger tips. You can also give a printed copy of critical information to people who are responsible for your cat when you are not present.

Some examples could be:

a] If you go out of town and leave your cat with a friend or relative you will be able to give them a printed copy of information about your pet, i.e. vet's name, phone number, address and medical information about chronic and acute medical conditions etc..

b] If your cat is at the groomers and something happens and groomer calls you at work and you've gone to lunch - now what? Now your groomer will have your cat's medical records and the correct numbers to call.

c] If there is a fire or earthquake and your not home, you will be able to print signs to place in your window and on the refrigerator with information for emergency personnel to locate your pets.

[Instructions]

SafeCat is designed to be very easy to use, just use the on-screen buttons to navigate. SafeCat contains fictitious information to give you an idea of what goes where. You can delete the records by choosing "Delete Record" from the Scripts Menu. When you register, you can create your own records.

[PASSWORD] When you pay the shareware fee the password will be sent automatically via email.

[Payments]

The Shareware Fee is \$14.95. Please use the Secure Web Page to pay for this Shareware - <http://order.kagi.com/?2S1> or you can use the enclosed Kagi software to pay.

If you are paying with Cash or USD Check you should print the data using

the Register application and send it to the address shown on the form, which is:

Kagi
1442-A Walnut Street #392-2S1
Berkeley, California 94709-1405 USA

You can pay with a wide variety of cash from different countries but at present if you pay via check, it must be a check drawn in US Dollars. Kagi cannot accept checks in other currencies.

Please do not fax or email payment forms that indicate Cash, Check or Invoice as the payment method, the form cannot be processed. Payments sent via postal mail take time to reach Kagi and then up to 10 days for processing. Again, if you include a correct email address, you will hear from Kagi when the form is processed. If you do not have an email address, please enter your complete postal address and please remember to indicate what country you live in. You should also consider selecting the Postcard Receipt so that Kagi can inform you of your registration code.

[Additional Products]

* **CookWare Deluxe:** Organize your recipes quickly and easily, spend your time cooking recipes not searching and typing them. Includes more than 700 handpicked, wonderful recipes.

* **Additional recipe sets:** These recipe sets are ready to import and have been formatted, spell checked and categorized for your convenience. Set 1 contains 750 recipes; set 2 contains 470 recipes.
