Welcome to MacCapture

Welcome to the macXware™ MacCapture™ application, a powerful screen recording suite with movie editing tools that lets you create high-impact video presentations and tutorials.

Featuring everything you need for advanced screen recording and creating professional quality tutorials and presentations, MacCapture also contains tons of video filters and effects, and an exclusive Rbscript editor that allows the creation of unique filters and effects.

Registering macXware products

Registering your macXware products is important. Registration provides you with timely access to the latest product updates, technical support, valuable information about new product releases, access to free downloads, articles, tips and hints, and special offers.

You can register by filling out and returning the registration card included with your software package or register online at **www.macXware.com/register.asp**. For more information about registering a macXware product, please visit our website at www.macxware.com.

Minimum Requirements:

-G3 or better recommended
-Quicktime 4.0 or later
-Mac OS 10.2.6 or later
-128 MB RAM (>50 MB   recommended for high quality video)
-20 MB of available disk space

Installing MacCapture

Insert the MacCapture CD-ROM in your CD-ROM drive. Once the CD-ROM icon appears on the Desktop, double click on it to launch the Welcome Screen. You can double click on the icon that says Install MacCapture to launch the installer. Follow the on-screen installation instructions.
