GRADING SYSTEMS

Grading systems shall be designed to report to parents/guardians the progress of their children. The system used shall report the student's achievement.

A specific grading system shall be developed by the teacher of a specific area, to be reviewed and filed with each building principal.

Students shall be graded on knowledge of subject matter. Final review of a student's grade may be appealed to the building principal within 10 days after the issuing of grades.

The District shall not discriminate in the methods, practices and materials used for evaluating students on the basis of sex, race, religion, national origin, color, ancestry, creed, pregnancy, marital or parental status, sexual orientation, physical, mental, emotional or learning disability or handicap. This does not, however, prohibit the use of special testing or counseling materials or techniques to meet the individualized needs of students. Discrimination complaints shall be handled in accordance with established procedures.
