VB-CD Quarterly
SHAREWARE DIRECTORY

We've gathered some of the best Visual Basic applications, tools and utilities for the VB-CD Quarterly. Many of these products are "Shareware", and require payment to the author if found useful. When registration is requested through "SWREG", it refers to the Shareware forum on CompuServe (GO SWREG). All products have a readme file or information in the application with registration information. ZIP files require PKUNZIP for decompression. PKUNZIP can be found in the PKUNZIP directory of the VB-CD Quarterly. Support shareware: Respect the terms of the developer when you find a file useful.

PRODUCT:
   HELLLP! v 2.3a, Windows Help File Author Tool for Winword 2.0 & 6.0

searching the entire hard drive or (notes)

PRODUCT:
Font Off
DIRECTORY:
SHAREWAR\PRIDESOF
DESCRIPTION:
Windows application to better manage Windows True Type fonts. Remove
seldom used fonts and reload them as needed. Unlike other font managers,
Font Off physically moves the font's files to another storage media. This not
only makes Windows (notes)

PRODUCT:
FontPrint
DIRECTORY:
SHAREWAR\PRIDESOF
DESCRIPTION:
Windows application to print samples of your Windows fonts. Simple and
flexible - you select the fonts, the styles (Normal, Bold, Italic, Underline,
Strikethru), the output format, character set (or custom text), etc. and let Font
Print do the (notes)

PRODUCT:
NoteIt
DIRECTORY:
SHAREWAR\PRIDESOF
DESCRIPTION:
Windows application prompts you for a note in a re-sizable window. You
enter the note and it is saved in an ASCII file (human readable or database
import format). Perfect for those who can't remember what they did yesterday
much less last month. (notes)

PRODUCT:
    Print Label
DIRECTORY:
    SHAREWAR\PRIDESOF
DESCRIPTION:
    Windows application to print one or more user defined labels. You are
    prompted for a label format, label size, and output device. The system then
    bypasses Windows and prints one or more labels directly to a dot matrix
    printer - very fast. (see notes)

PRODUCT:
    VB SNR
DIRECTORY:
    SHAREWAR\PRIDESOF
DESCRIPTION:
    VB SNR makes global changes to (or searches of) files which make up a
    Microsoft Visual Basic for Windows project. This can save you a LOT of time
    when you need to change variable, control, or control options, or need to
    change any hard coded (see notes)

PRODUCT:
    Work Status
DIRECTORY:
    SHAREWAR\PRIDESOF
DESCRIPTION:
    The Work Status program facilitates interoffice communications and
    optimizes everyone's time by eliminating needless walking about the office in
    an attempt to contact an associate, deliver phone messages (or picking them
    up), and using (see notes)

PRODUCT:
    SCFILE Version 2.0
DIRECTORY:
    SHAREWAR\SAC
DESCRIPTION:
    A lot of work went into SCFILE to make it the easiest, fastest file viewer for
    the Windows environment. Version 2.0 is the fifth major release of the
    product and has been completely rewritten to include the many comments
    and suggestions from its users world wide.

PRODUCT:
  Visual Basic Shareware Review
DIRECTORY:
  SHAREWAR\VBSR02
DESCRIPTION:
  A Windows Helpfile 'zine reviewing the latest in VB shareware utilities

PRODUCT:
  VEXE File Embedding Utility Demo
DIRECTORY:
  SHAREWAR\VEXEDE
DESCRIPTION:
  VEXE is a programming tool which allows Windows 3.1 developers to embed
  supporting files like VBX's or DLL's ---INSIDE--- an application's EXE file.
  This provides improved version control and security without introducing any
  new programming chores!

PRODUCT:
  VisDev Code Library
DIRECTORY:
  SHAREWAR\VISDEV
DESCRIPTION:
  A free code library application developed for members of the Visual
  Developers Group, a national on-line VB user group. The library allows you to
  cut and paste example code, API declarations, and constants into your VB
  app. The full version, which is given to VisDev members, provides code
  printing capabilities and an app builder, which automatically creates a
  skeleton application for you, such as an MDI application complete with
  menus.

PRODUCT:
  ZZHOT: HotSpot Control
DIRECTORY:
  SHAREWAR\ZZHOT
DESCRIPTION:
  The purpose of ZZHOT is to provide a very easy, fast, and reliable means for
  the VB developer to implement arbitrary, polygonal hot spot regions in their
  VB program. There are a wide range of applications. ZZHOT.VBX is a VB
  (2.0/3.0) custom control. It is designed to do one thing, to do it very well, and
  to be very easy to use. This demo version is fully functional but contains the
  demo splash screen.

Main Menu*

PRODUCT:
    SVINSTAL
DIRECTORY*:*
    SHAREWARE\SVINST
DESCRIPTION
    A developer's installation utility for Windows. Installs files, creates program group, inserts icons. Supports multi-disk (no file splitting), file compression and screen bitmaps.

PRODUCT:
    RASVBX
DIRECTORY:
    SHAREWARE\RASVBX
DESCRIPTION:
    The RASVBX control allows you to programmatically dial a Remote Access Server. You set the user name, password, and phone number, and RASVBX establishes the network connection for you. An information dialog automatically appears keeping the user notified of the connection status.

PRODUCT:
    TIPSTER
DIRECTORY:
    SHAREWARE\TIPSTR
DESCRIPTION:
    Tipster is a "Tip Engine" that you can add to your application to provide tips for your users. The tip file is completely configurable and can be used to provide seamless integration with your application. Foreign languages are supported for all visible text. If your program cannot run Tipster, Tipster can run your program!

PRODUCT:
    STATUSFX
DIRECTORY:
    SHAREWARE\STATUS
DESCRIPTION:
    StatusFX is a full featured status bar control loaded with six customizable caption\gauges, popup menu, status tip, menu connectivity and more in one control.

Return to Main Menu

PRODUCT:
   MOUSEKEEPER MOUSEHOOK VBX
DIRECTORY:
   SHAREWARE\MKEEPER
DESCRIPTION:
   MouseKeeper VBX triggers MouseDown, MouseMove, and MouseUp events
   when the mouse is over any control in your application or other applications.
   With MouseKeeper, you can centralize code such as displaying a status line
   or providing context sensitive help. MouseKeeper can return a property (Tag,
   Caption, Name, etc.) of the control that the mouse is over.

PRODUCT:
   EASYBAR VBX
DIRECTORY:
   SHAREWARE\EASYBA
DESCRIPTION:
   EasyBar/VBX is a custom control to print barcodes. Supports 20 barcode
   types, rotation and various drawing styles. Gives full control over barcode
   parameters

PRODUCT:
   MDBGURU
DIRECTORY:
   SHAREWARE\DB2BAS
DESCRIPTION:
   Create VB forms, VB or Access code or SQL from database structure.

PRODUCT:
   VB TRUECAL
DIRECTORY:
   SHAREWARE\TCDEMO
DESCRIPTION:
   TrueCal is a sizeable, 3-D calendar that registered owners can plug into their
   VB applications royalty free (TrueCal is native VB 3.0 code)

PRODUCT:
   VB HELPWRITER
DIRECTORY:
   SHAREWARE\VBHW18
DESCRIPTION:
   Completely automates helpfile creation for any VB program. Reads your code
   to create a helpfile framework. Updates your source code, adding
   HelpContextIDs and API calls. Add text, graphics in the full WYSIWYG editor
   (included).

PRODUCT:

VB AUTOLOAD

DIRECTORY:

SHAREWARE\VBAUTO

DESCRIPTION:

VB AutoLoad will display the last four saved VB projects along with the options 'Open Other Project' and 'Open New Project' on a startup screen. Starting VB with a selected project speeds up the process of starting VB with 'Autoload.mak' and then having to open a project.

PRODUCT:

Mitromar Date/Time Custom Control

DIRECTORY:

SHAREWARE\MIDAT5

DESCRIPTION:

This control was the result of being forced to use the Format(Now) statement in Visual Basic. Format(Now) is the slowest function in VB. There were so many parameter options for obtaining a date or time value. If you use the Format(Now) statement to time stamp records, or have a need for date or time values, this control will greatly simplify your programming. All properties are always current and available by using the property starting VB with 'Autoload.mak' and then having to open a project.

PRODUCT:

TIME TO WIN

DIRECTORY:

SHAREWARE\T2W012

DESCRIPTION:

'TIME TO WIN' is a Data Link Library to use with VB to manipulate data on date, hour, bit, files and strings with multi-language support.

PRODUCT:

VB/ERROR HANDLER

DIRECTORY:

SHAREWARE\VBERRH

DESCRIPTION:

'VB/Error Handler' is a program to add/remove automatically the error's management in a VB .MAK file.

PRODUCT:

HOLIDAY CALENDAR

DIRECTORY:

SHAREWARE\HOLCAL

DESCRIPTION:

The Holiday Calendar displays a tiny, computer generated calendar and maintains a "holiday schedule" in an Access database. It can be used as a "standalone" application or "linked" to other applications using DDE. Holidays are shown as "tool tips."

PRODUCT:

MSGBOX3D

DIRECTORY:

SHAREWARE\MSGBOX

DESCRIPTION:

MsgBox3D is a functional replacement for the Visual Basic MsgBox. Beside displaying text in a "3D box" the developer can select from 24 additional icons, replace command captions, add a help button, and change fonts. Good bilingual support.

PRODUCT:

ICONEXTR

DIRECTORY:

SHAREWARE\ICONEXTR

DESCRIPTION:

IconExtr allows you to extract icons out of various files and save them on your system as ".ico" or ".bmp" files. It also will allow you to save a ".bmp" file as an ".ico". However, depending on the size of the bitmap, the results from this option may not be very good.

PRODUCT:

ZIPMAN

DIRECTORY:

SHAREWARE\ZIPMAN

DESCRIPTION:

ZipMan provides a point-and-click interface for zipping and unzipping files. It also allows editing text files, running executable files, copying and deleting files.
