

a tour of new features 

introducing

POWERPOINT 2010

Enhancing Your Presentation

We have features for every step of the way —

Author Your Presentation

Design, organize, and collaborate 

Getting Started with Templates

You don't have to start from scratch.

If you need help with a status report or ideas for a photo album, look no further.

Use **sample templates** to kick-off your presentation and focus on the content (you're viewing one right now!)

Too much information?

Divide and conquer a large presentation by organizing your presentation with **sections**.

You can name, print, and apply effects to an entire section easily.

Collaboration

Simultaneous edits on one single document. No more waiting your turn or managing multiple versions.

It's about team work, and **co-authoring** will get you there.

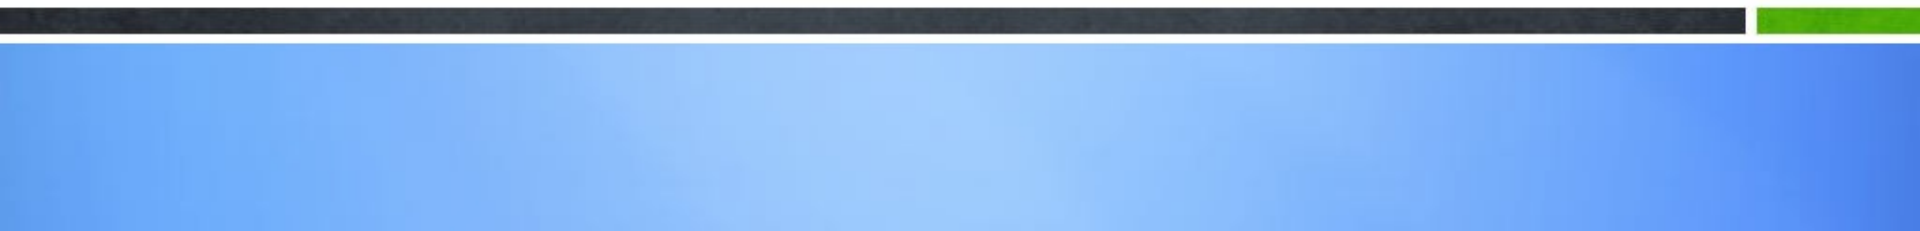

Enrich Your Presentation

Stylize, edit, and animate your media

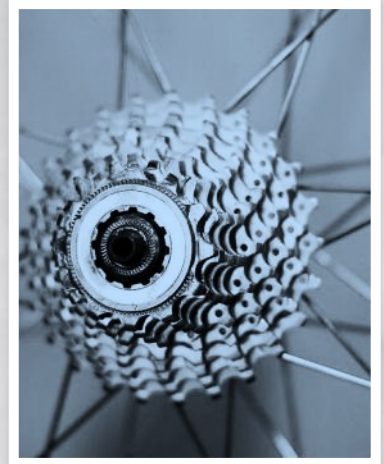

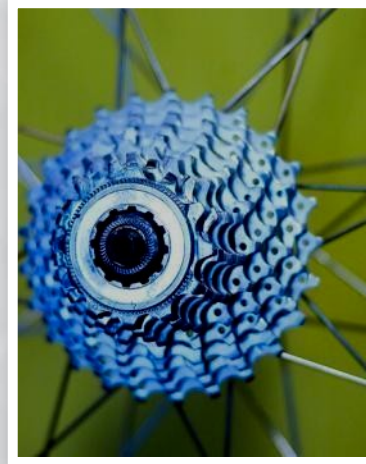

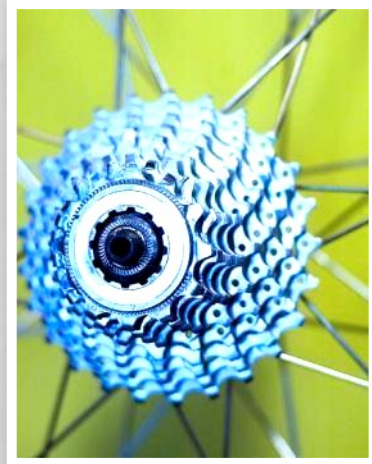

It's not just about the visuals, but strengthening

YOUR MESSAGE.

New Picture Effects

Picture Color, Corrections, Artistic Effects,
and **Background Removal** allow you to customize images for your
story

Animate This

Check out this animation:

With the **Animation Painter**
you can re-create the same animation with one click

Video Perfect

You can do **a lot more** with videos in PowerPoint 2010.

Videos can be embedded in your presentation. That's right, no more lost videos!

Also, you can **recolor** the entire video or apply a video style easily. Your videos will look great!

Fountain Geyser

Want to jump to a bookmark in your video?

Hover over the video and you'll be pleasantly surprised.

Did we mention you can add **bookmarks**, include **fades**, and **trim** your videos now?

Exciting new transitions

What about the **beautiful**
transitions you've been seeing?

They are new too.

Deliver Your Presentation

Broadcast and compress for seamless delivery

BROADCAST IT

- » Show and tell your presentation with **Broadcast Slide Show**
- » Share your presentation in real-time with anyone with a browser, directly from PowerPoint.
- » You'll never have to say, "Next slide, please" again!

Let Your Presentation
**SPEAK FOR
ITSELF**

Record your presentation with
Create a Video and capture narrations, animations, media, and
much more.

Upload, embed, and share away!

Package your
presentation
**for easy
sharing**

Spread the Message!

For a media-rich presentation,
you can **Optimize for
Compatibility**
or **Compress Media** to share
your presentation reliably
without exploding your inbox

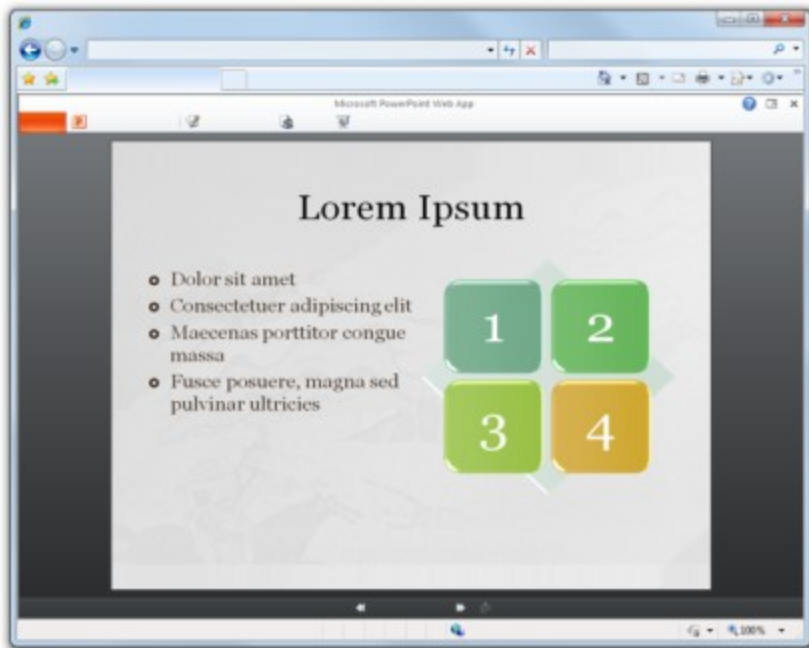

But wait...
There's More!

View your slides from anywhere!

Access Anywhere

- » Check out the **PowerPoint Web App**
- » Access slides wherever you are
