

Run the Bases Relay [Add to favorites](#)

TEE BALL PRACTICE

#5 RUN THE BASES RELAY

- The players are divided into two teams. One team lines up at second base and the other team lines up at home plate. Each line should be out of the way of the base paths.
- On "go", the first player in line at second base runs around the bases back to second base while, at the same time, the player at home runs around the bases back to home plate. Once the players arrive back to their team's line they tag the next player to continue the race.
- The first team finish is the winning team.
