TEE BALL PRACTICE

#3 HIT THE BUCKET

- All players make a large circle around a bucket. Each player takes a turn and tosses a wiffle ball that they have at the bucket, trying to get the ball inside the bucket.
- If a player hits the bucket with their ball, it counts as an out for the team. If a player gets their ball inside the bucket, it counts as three outs for the team and the round is over. The team is trying to get three outs.
- The drill may progress to see how many balls the team can toss inside the bucket during a specified time period.
