

Ornamatica Intro

Version 1.01

V E N D O R I N F O R M A T I O N

This file provides information for Shareware Distributors, Disk Vendors and BBS SYSOPs who wish to distribute Ornamatica.

Part 1: Program Information:

Program Name, Category, Keywords:

Name - Ornamatica
Category - Windows (Graphics)
Keywords - WINDOWS
 WINDOWS 95
 GRAPHICS
 DTP
 BORDERMAKER
 CDR, WMF

Description:

Ornamatica is the fast, fun way to create ornamental borders, cornerpieces and crossheads for a host of desktop publishing and graphics projects including adverts, posters, invitations, certificates, awards, notices, menus, greetings cards and more.
No more stretching predrawn borders to fit. Create Ornamatica borders to fit your exact requirements.

Requires no special fonts or graphics. Works with Corel Draw and WMF clipart to make borders from your existing clipart. Plus over 5,000 specially-designed graphics are included in over 30 different themes including Banners, Wedding, Xmas, Party, ArtDeco, Victoriana, Celtic, Coupon, Traditional and more.

Many graphics link up to create seamless graphical borders not just a single design repeated around the border.

Widest range of border designs from simple milled lines and outlines to ribbons, victoriana, ornate certificates and thematic borders.

Uses Drag and drop, quick selection shortcuts (including quick select of alternating tiles) and AutoBorder functions to make border-building simple. Multiple-level undo lets you experiment fearlessly

Creates full-scaleable, vector format WMF borders which you can use freely and easily with all major Windows graphics and DTP software including Page Plus, Word, Microsoft Publisher, Pagemaker, Ventura, Pressworks, Corel Draw and many more.

Control width, height and spacing of individual graphics or the whole border. Resize tiles independently or in groups - ideal for creating large corners or using uneven graphics.

Flip, Mirror and Rotate any graphic in one degree increments.

Optimized redraw for full color WYSIWYG display even for complex borders.

Designed and developed by the professional designers responsible for the pictures in Page Plus, ArtPack, Bitfolio, Pressworks, and many other clipart collections.

Part 2: Distribution Requirements

The introductory version of Ornamatica may be freely distributed, with the following restrictions; written permission must be received to distribute Ornamatica Intro on retail racks, or bundled with any other product.

BBSs - please name the file ORNFREE.xxx.

When distributing Ornamatica the following files must be distributed together.

SETUP.EXE
README.TXT
VENDOR.DOC
FILE_ID.DIZ

Disk Vendors, Shareware Distributors and BBS(s) may charge a nominal fee for distribution of the program.
