1.2 What it actually does...

Introduction

=====

This blanker blanks the screen.

1.3 Configuration preferences...

Interface

=====

Save - save and use the current settings.

Use - use the current settings.

Test - test the blanker under the current settings

Cancel - cancel all changes.

Number of Balls - this selects the number of bouncing balls, currently they look like dots but in the future they will evolve into colored balls when i have some time... maybe even sound too!
Default: 5.

Display Mode - the screen mode to use. If the preferred screen cannot be opened then the default screen mode will be tried, if this fails then the minimum screen mode required for this blanker will be tried, if that fails then the blanker will quit and let SwazBlanker choose an alternative blank method.
Default: Lo-Resolution, 2 Colors.

1.4 Bug fixes and updates...
