Hour of Terror

The attack on the World Trade Center towers in New York City on Thursday morning was a "catastrophic event," said a senior Pentagon official. The hijacked planes struck the towers at 8:46 a.m., less than an hour after the first hijacking was reported.

The towers, which were under construction, were struck by two hijacked commercial jets. The planes struck the towers at the top, causing a massive fire and a large plume of smoke to rise from the towers.
