Mountain Home School Instructions for Using Jedi at Home

Students are able to use the Jedi/Skills Tutor program both at school and at home. Here are the instructions for using Jedi from your home computer.

1. You must be connected to the Internet.
2. Type the following address into your internet browser, or click on this link: www.myskillstutor.com
3. You will be taken to a login screen with three blanks boxes.
4. In the User Name box, the student should type the same login name they use at school.
5. In the Password box, the student should type the same password they use at school. The student will not be able to log in at home until they have logged in at school and set up their password.
6. In the Site box, the student should type in the proper site ID for their school or grade as listed below.
7. Click on Log In.
8. The student will be taken to the lessons that have been assigned to them.
9. Note: If your computer does not have Adobe Flash installed on it, the computer may prompt you to download it from Adobe's website. You will need to do this in order to use the program. You can also click on this link to download it.
10. Also, be aware if you are on dial-up or have an older operating system such as Windows 98, the program may be extremely slow.

If you cannot get logged in, you may contact the technology department for help. 870-424-6932 or 870-425-1329. Here are the Site IDs and the school or grade that uses them.

Jedi Learning Site IDs

Pinkston Middle School –Note, this school uses 2 different sites:

Grades 5-6: pinkston01

Grade 7: mountain08

Mountain Home Junior High (grades 8-9): mountain08

Mountain Home High School (grades 10-12): mountain09
