

Redrob Graphics is pleased to announce the availability of the greatest collection of borders ever released, priced at an incredibly low introductory price of \$99 for the entire collection of 500 borders.

Exclusively in Corel Draw 3 format, they are ideal for embellishment of invitations, greeting cards, menus, certificates, announcement flyers, and so on.

Not only do our borders look great, but they are very well designed for quick and easy color manipulation, as they are logically combined into very few objects.

Go ahead now and try out our sampler. And just one hint... Many of our borders look even better with a 3-D extrusion. The simplest and best way is to select all, group, duplicate, send to back. ...

And don't forget to order your copy today!!! Just print out and fill in ORDERFRM.CDR, write a cheque for the total amount @ \$99 per copy and mail to:
