Deep Silver announces Mytran Wars

Exclusive Title for PlayStation®Portable is being developed by Stormregion

Publisher Deep Silver continues to expand its portfolio of handheld games. An exclusive title for PlayStation Portable from Sony, which is being developed by Stormregion in Budapest, is in development amongst other projects. The well-known developer has made a name for itself with its prize-winning strategy games such as Rush for Berlin, S.W.I.N.E. and the Codename: Panzers series and would now like to capitalize on these successes with the round-based strategy game Mytran Wars.

It's the 23rd century: The earth's natural resources are virtually exhausted and the ruling multinational conglomerates are searching for new raw material deposits in space in order to avert the impending catastrophe. One planet turns out to be a real El Dorado in this respect. But as the human conquerors in their armed mecha encounter the extraterrestrial inhabitants a dreadful war breaks out.

The player researches into new technologies and continues to rearm his mecha in Mytran Wars. Battles are thereby fought in wonderful 3D landscapes – against the merciless AI or other human opponents in various multiplayer modes.
