

# Windows Vista™

## Product Line-up

### For Consumers:

- **Windows Vista Home Basic:** For consumers that want to simply use the PC to browse the Internet, correspond with friends and family over email or perform basic document creation and editing tasks, Windows Vista Home Basic will deliver a safer, more reliable and more productive computing environment.
- **Windows Vista Home Premium:** Will help consumers utilise mobile or desktop PC functionality more effectively while enabling the enjoyment of new, exciting digital entertainment experiences – all with the benefit of added security and reliability. Windows Vista Home Premium includes everything in Windows Vista Home Basic, plus the Windows Vista Aero™ and Media Center and Tablet PC capabilities.
- **Windows Vista Ultimate:** Windows Vista Ultimate is the edition of Windows Vista that has it all. It is the first operating system that brings together all of the consumer-oriented features available in Windows Vista Home Premium with all of the business-oriented features available in Windows Vista Business.

### For Businesses:

- **Windows Vista Business:** For small businesses, Windows Vista Business will help keep PCs running smoothly and securely so they are less reliant on dedicated IT support. For larger organisations, Windows Vista Business will provide dramatic new infrastructure improvements that will enable IT staff to spend less time focused on day to day maintenance of PCs and more time adding strategic value to the organisation.
- **Windows Vista Enterprise:** To better address the needs of large, global organisations and those with highly complex IT infrastructures, Windows Vista Enterprise is designed to significantly lower IT costs and risk. In addition to all of the features available in Windows Vista Business, Windows Vista Enterprise is designed to provide higher levels of data protection using hardware-based encryption technology.
